STATE OF MICHIGAN MICHIGAN ADMINISTRATIVE HEARING SYSTEM ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

Reg No.: 2012-33326 Issue No.: 2009 Case No.: Hearing Date: April 23, 2012 Oakland County DHS (02)

ADMINISTRATIVE LAW JUDGE: Colleen M. Mamelka

HEARING DECISION

This matter is before the undersigned Administ rative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the Claimant 's request for a hearing. After due notice, a telephone hearing was conducted from Detroit, Michigan on Monday, April 23, 2012 . The Claimant appeared, along with the term of the Department of Human Services ("D epartment") were and and

During the hearing, the Claimant waived the time period for the issuance of this decision, in order to allow for the submis sion of additional medical evidence. The records were received, reviewed, and forw arded to the State Hearing Review Team ('SHRT") for consideration. On August 20, 2012, this office received the SHRT determination which found the Cla imant not disabled. This matter is now before the undersigned for a final decision.

<u>ISSUE</u>

Whether the Department proper ly determined that the Claimant was not disabled for purposes of the Medical Assistance ("MA-P") benefit program?

FINDINGS OF FACT

The Administrative Law Judge, based on t he competent, material, and substantial evidence on the whole record, finds as material fact:

1. The Claimant submitt ed an application for public assistance seeking MA-P benefits on December 5, 2012.

- 2. On January 18, 2012, the Medical Revi ew Team ("MRT") found the Claimant not disabled. (Exhibit 1, pp. 1, 2)
- 3. On January 20, 2012, the Department notified the Claimant of the MRT determination. (Exhibit 1, p. 4 7)
- 4. On February 8, 2012, the Department received the Claimant's written request for hearing. (Exhibit 2)
- 5. On September 6, 2011 a nd J une 1, 2012, the SHRT found the Claim ant not disabled. (Exhibit 4)
- 6. The Claim ant alleged physical disab ling impairments due to fractured femur, knee pain, asthma, and blood clots.
- 7. The Claimant has not alleged any mental disabling impairment(s).
- 8. At the time of hearing, the Claimant was 25 years of d with a date; was 5'9" in height; and weighed 160 pounds.
- 9. The Claim ant has a lim ited education with an em ployment history changing oil/tires, factory work, in roofing, basement waterproofing, and power washing semis.
- 10. The Claimant's impairments have lasted, or are expected to last, continuously for a period of 12 months or longer.

CONCLUSIONS OF LAW

The Medical Assistance program is established by Subchapter XIX of Chapter 7 of The Public Health & Welfare Act, 42 USC 1397, and is administered by the Department of Human Services, formerly known as the Family Independenc e Agency, pursuant to MCL 400.10 *et seq.* and MCL 400.105. Department policies are found in the Bridge s Administrative Manual ("BAM"), the Bridges Elig ibility Manual ("BEM"), and the Bridges Reference Tables ("RFT").

Disability is defined as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental im pairment which can be expected to result in death or which has lasted or can be expect ed to last for a continuous period of not less than 12 months. 20 CFR 416.905(a). The person claimi ng a physical or mental disability has the burden to esta blish it through the use of competent medical evidenc e from qualified medical sources such as his or her medical history, clinica l/laboratory findings, diagnosis/prescri bed treatment, prognosis for recovery and/or medical

assessment of ability to do work-related ac tivities o r ability to reason and make appropriate mental adjustments, if a mental disab ility is alleged. 20 CFR 416 .913. An individual's subjective pain com plaints ar e not, in and of themselves, sufficient to establish disab ility. 20 CF R 416.908; 2 0 CFR 4 16.929(a). Similarly, conclusor y statements by a physician or mental health professional that an individual is disabled or blind, absent supporting medical evidence, is insufficient to establish disability. 20 CFR 416.927.

When determining disability, t he federal regulations require several factors to be considered including: (1) the location/ duration/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medication the applica nt takes to relieve pain; (3) any treatment other than pain medication that the applicant has received to relieve pain; and (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be assessed to determi ne the ext ent of his or her functi onal limitation(s) in light of the objective medical evidence presented. 20 CFR 416.929(c)(2).

In order to determine whether or not an individual is disabled, federal regulations require a five-step sequential evaluation process be utilized. 20 CFR 416.920(a)(1). The fivestep analysis requires the trier of fact to cons ider an individual's current work activit y; the severity of the impairment(s) both in duration and whether it meets or equals a listed impairment in Appendix 1; residual functional capacity to det ermine whether an individual can perform past relev ant work; and residual functiona I capacity along with vocational factors (i .e. age, education, and work experienc e) to determine if an individual can adjust to other work. 20 CFR 416.920(a)(4); 20 CFR 416.945.

If an individual is found disabled, or not disabled, at any step, a determination or decision is made with no need to evaluate subsequent steps. 20 CFR 416.920(a)(4). If a determination cannot be made that an individual is disabled, or not disabled, at a particular step, the next step is required. 20 CFR 416.920(a)(4). If an impairment does not meet or equal a listed impairment, an indi vidual's residual functional capacity is assessed before moving from step three to step four. 20 CFR 416.920(a)(4); 20 CFR 416.945. Residual f unctional capacity is the most an indiv idual can do d espite the limitations based on all rele vant evidence. 20 CFR 416.945(a)(1). An individual's residual functional capacity ass essment is ev aluated at both steps four and five. 20 CFR 41 6.920(a)(4). In determinin g disa bility, an in dividual's functional c apacity to perform basic work activities is evaluated and if found that the individual has the ability to perform basic work activities without significant limitation, di sability will not be found. general, the indiv idual has t he responsibility to prove 20 CFR 416.994(b)(1)(iv). In disability. 20 CFR 4 16.912(a). An impair ment or combination of impairments is n ot severe if it does not signific antly limit an i ndividual's physical or m ental ability to do basic work activities. 20 CFR 416.921(a). The in dividual has the resp onsibility to

provide evidence of prior work experience; efforts to work; and any other factor showing how the impairment affects the ability to work. 20 CFR 416.912(c)(3)(5)(6).

As outlined above, the first step looks at the i ndividual's current work activity. In the record presented, the Claimant is not involved in substantial gainful activity, therefore is not ineligible for disability benefits under Step 1.

The severity of the Claimant's alleged impa irment(s) is considered under St ep 2. The Claimant bears the burden to present sufficient objective medical evidence et o substantiate the alleged disa bling impairments. In order to be considered disabled for MA purpos es, the impairment must be severe. 20 CFR 416. 920(a)(4)(ii); 20 CFR 416.920(b). An impairment, or combination of impairments, is severe if it signific antly limits an in dividual's physical or mental ability to do basic work activities regardless of age, education and work experience. 20 CFR 416.920(a)(4)(ii); 20 CFR 416.920(c). Basic work activities means the abilities and aptitudes necessary to do most jobs. 20 CFR 416.921(b). Examples include:

- 1. Physical functions such as wa lking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- 2. Capacities for seeing, hearing, and speaking;
- 3. Understanding, carrying out, and remembering simple instructions;
- 4. Use of judgment;
- 5. Responding appropriately to supervision, co-workers and usual work situations; and
- 6. Dealing with changes in a routine work setting.
- ld.

The second step allows for dismissal of a di sability claim obviously lacking in medical merit. *Higgs v Bowe n*, 880 F2d 860, 862 (CA 6, 1988). The severity requirement may still be employed as an admin istrative convenience to screen o ut claims that are totally groundless solely from a medical standpoint. *Id.* at 863 *citing Farris v Sec of Health and Human Services*, 773 F2d 85, 90 n.1 (CA 6, 1985). An impairment qu alifies as non-severe only if, regardless of a claimant's age, education, or work experience, the impairment would not affect the claimant's ability to work. *Salmi v Sec of Health and Human Services*, 774 F2d 685, 692 (CA 6, 1985).

In the present case, the Claima nt alleges disability due to fractured femur, knee pa in, asthma, and blood clots.

On the Claimant pres ented to the hospital after a gunshot wou nd to his right leg.

On the Claimant presented to the hospita I with complaints of right side knee pain along with oozing from the surgical inclision. A lower extremity venous imaging of the right I ower extremity confirmed deep vent throm bosis ("DVT"). The Claimant was placed on blood thinners and discharged the following day with the diagnoses of acute right lower extremity DVT.

On productive cough. An echoc ardiogram re vealed marked sinus arrhythmia. The Claimant was treated and discharged on December 28th.

On the Claimant sought treat ment for right side pain. The Claimant was treated and disc harged the following day with the diagnos es of renal colic/kidne y stone.

On the claimant's treating physician wrote a letter confirming treatment of a right femur fracture, status post surgery, as a result of a guns hot wound. The Claimant was found to be totally disabled through July 1, 2012.

On the Claimant was treated in the emergency room for knee pain and swelling. The Claimant was treated and diagnosed with knee injury and effusion.

On the energency room with complaints of knee pain. The Claimant was treat ed and discharged the following day with the diagnosis of knee effusion.

On the Claimant attended a c onsultative evaluation. The physical examination revealed painful flexion and ext ension of the right k nee which precluded any type of squatting. Plantar stimulation showed the toes were down go ing. The Claimant was non-weight bearing.

On **the second second**, x-rays of the right knee revealed disuse osteopenia and incomplet e healing of fracture lateral femoral condyle extending into the metadiaphyseal region.

On **Characteristic**, a Medical Examination Report was completed on behalf of the Claimant. The current diagnos is was femoral c ondyle fracture of the right femur. The physical examination reveal ed limited use of the right lower extremity requiring wheelchair and/or c rutches. The Claim ant requir ed assistance for transferring, housework, laundry, and cooking.

As previously noted, the Claim ant bears t he burden to present sufficient objective medical evidence to s ubstantiate the alleged disabling im pairment(s). As summarized above, the Claimant has presen ted some medical evidence establishing that he does have some physical and mental limitations on his ability to perform basic work activities. The medic al evidence has established t hat the Claimant has an impairment, or combination thereof, t hat has more than a *de minimus* effect on the Claimant's basic work activities. Further, the impairments have lasted continuous ly for twelve months; therefore, the Claimant is not disqualified from receipt of MA-P benefits under Step 2.

In the third step of the seque ntial an alysis of a disability claim, the trier of fact must determine if the Claimant's impairment, or co mbination of impairm ents, is listed in Appendix 1 of Subp art P of 20 CFR, Part 404. In this case, the evidence confirms treatment for a femoral condyle fracture of the right femur status post guns hot wound and DVTs.

Listing 1.00 defines musculoskeletal syst em impairments. Disor ders of the musculoskeletal system may re sult from her editary, congenital, or acquired pathologic processes, 1.00A. Impairments may resu It from infectious , inflammatory , or degenerative processes, traumatic or developmental events, or neoplastic, vascular, or toxic/metabolic dis eases. 1.00A. Regardle ss of the cause(s) of a musculoskeleta impairment, functional loss for purposes of these listings is defined as the inability to ambulate effectively on a sustained basis for any reason, including pain associated with the underlying musculoskeletal impairment, or the inability to perform fine and gross movements effectively on a sus tained basis for any reason, including pain associated with the underlying musculoskeletal impairment. Inability to ambulate effectively means an extreme limitation of the ab ility to walk ; i.e., an impairment(s) that interferes very seriously with the indi vidual's ability to independently initiate, su stain, or complete activities. 1.00B2b(1). Ineffective ambulation is defined generally as having insufficient lower extremity function to permit independ ent ambulation without the use of a handheld assistive device(s) that limits the functioning of both upper extremities. (Listing 1.05C is an exception to this general definition because t he individual has the use of only one upper extremity due to amputation of a hand.) Id. To ambulate effectively. individuals must be capable of sustaining a reasonable wallking pace over a sufficien t distance to be able to carry out activities of daily living. 1.00B2b(2). They must have the ability to travel without companion assistance to and from a place of employment or school.... Id.

Categories of Musculoskeletal include:

- 1.02 Major dysfunction of a joint(s) due to any cause: Characterized by gross anat omical deformity (e.g. subluxation, contracture, bony or fibrous ankylosis, instability) and chronic joint pain and stiffne ss with s igns of limitation of motion or other abnormal motion of the affected joint(s), and findings on appropriat e medically acceptable imaging of joint space nar rowing, bony destruction, or ankylosis of the affected joint(s). With:
 - A. Involvement of one major peri pheral weight-bearing joint (i.e., hip, knee, or ank le), resulting in inab ility to ambulate effectively as defined in 1.00B2b; or
 - B. Involvement of one major peripheral joint in each upper extremity (i.e., shoulder, elbow, wr ist, hand), resulting in inability to perform fine and gross movements effectively a defined in 1.00B2c
- 1.03 Reconstructive surgery or su rgical arthrodesis of a major weight-bearing joint, with inability to ambul ate effectively, as defined in 1.00B2b, and return to effective ambulation did not occur, or is not expected to occur, within 12 months of onset.

In the present case, the Claimant suffered a gunshot wound to his right leg in November 2011. Subsequently, the Claiman t developed DVTs r equiring the plac ement on blood thinners along with constant monitoring. The evidence confirms chronic knee joint pain and stiffness along with limited range of motion resulting in the inability to ambulat e effectively. By May 2012, the Claimant was still non-weight bearing needing assistance for transferring, housework, laundry, and cooking. Due to the lack of progression in the healing pr ocessing, it is reasonable to to c onclude that effective ambulation will not occur within 12 months of onset. As stated, the Claimant is unable to put any weight on his right leg and requires a wheelchair and crutch for ambul ation. In light of the foregoing, the Claimant's impairments meet, or are the medical equivalent thereof, a listed i mpairment within 1.00 as detai led a bove. A ccordingly, the C laimant is found disabled at Step 3 with no further analysis required.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law finds the Claimant disabled for purposes of the MA-P benefit program.

Accordingly, it is ORDERED:

- 1. The Department's determination is REVERSED.
- 2. The Department shall initiate processing of the December 5, 2011 application, to include any applic able retroactive m onths, to determine if all other non-medical criteria are met and inform t he Claimant of the determination in accordance with department policy.
- 3. The Department shall supplement for lo st benefits (if any) that the Claimant was entitled to receiv e if otherwise elig ible and qualified in acc ordance with department policy.
- 4. The Department shall review the Claimant's continued eligibility in October 2013 in accordance with department policy.

Date Signed: September 6, 2012

Date Mailed: September 6, 2012

NOTICE: Michigan Administrative Hearing Syst em (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a par ty within 30 days of the mailing date of this Dec ision and Order . MAHS will not order a rehearing or reconsideration on the Department's mo tion where the final decis ion cannot be implemented within 90 days of the filing of the original request. (60 days for FAP cases)

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing **MAY** be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration **MAY** be granted for any of the following reasons:

- misapplication of manual policy or law in the hearing decision,
- typographical errors, mathematical error, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
- the failure of the ALJ to address other relevant issues in the hearing decision.

Request must be submitted through the local DHS office or directly to MAHS by mail at
