### **CONCLUSIONS OF LAW**

The SDA program, which provides financial assistance for disabled persons, is established by 2004 PA 344. The Department administers the SDA program pursuant to MCL 400.10 *et seq.* and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

The Department conforms to State statute in administering the SDA program.

2000 PA 294, Sec. 604, of the statute states:

Sec. 604. (1) The department shall operate a state disability assistance program. Except as provided in subsection (3), persons eligible for this program shall include needy citizens of the United States or aliens exempted from the supplemental security income citizenship requirement who are at least 18 years of age or emancipated minors meeting 1 or more of the following requirements:

- (a) A recipient of supplemental security income, social security, or medical assistance due to disability or 65 years of age or older.
- (b) A person with a physical or mental impairment which meets federal supplemental security income disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

Pursuant to Federal Rule 42 CFR 435.540, the Department uses the Federal Supplemental Security Income (SSI) policy in determining eligibility for disability under MA-P. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience are reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability. 20 CFR 416.927(e).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence or pace; and ability to tolerate increased mental demands associated with competitive work). 20 CFR, Part 404, Subpart P, Appendix 1, 12.00(C).

Claimant testified to the following symptoms and abilities: bad muscle stiffness and pain, sees and hear things that are not there, depressed, anxiety attacks, poor sleep, poor eating, can walk a block at best, can walk no more than 20 minutes, can stand 20 minutes, can sit 30 minutes, poor grip and grasp due to weakness and stiffness, joint pain and stiffness, painful to bend over and falls over, dizzy spells and poor balance, isolates self from others, stays in his home most of the time, will go extended period without bathing, dizzy and stiffness impacts ability to take care his personal needs, limited ability with household chores, not able to drive, needs help with grocery shopping and suicidal thoughts occurring weekly.

Claimant's son testified his father suffers with paranoid thoughts, is very anti-social, spends most of the night walking around his room, has poor memory and poor hygiene, and needs to be reminded to bathe and eat.

Claimant's treating physician indicated that Claimant had a previous GAF of 20 and a current GAF of 40. This physician indicated that Claimant was moderately to markedly limited in all areas of the mental residual functional assessment.

Claimant has been living with his children since his hospitalization in [REDACTED]. Claimant is in a highly structured living environment. Claimant requires constant assistance with simple activities and requires reminders to eat, take medications and bathe.

In this case, this Administrative Law Judge finds that Claimant may be considered presently disabled at the third step. Claimant appears to meet listing 12.04 or its equivalent. This Administrative Law Judge will not continue through the remaining steps of the assessment. Claimant's testimony and the medical documentation support the finding that Claimant meets the requirements of a listing.

Therefore, Claimant is found to be disabled.

### **DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that Claimant is medically disabled as of June 2011.

Accordingly, the Department's decision is hereby REVERSED and the Department is ORDERED to initiate a review of the application dated September 26, 2011, if not done previously, to determine Claimant's non-medical eligibility. The Department shall inform Claimant of the determination in writing. A review of this case shall be set for July 2013.
