STATE OF MICHIGAN

MICHIGAN ADMINISTRATIVE HEARING SYSTEM ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

Reg No.: 2012-36289

Issue No.: 2009

Case No.:

Hearing Date: May 7, 2012 Wayne County DHS (17)

ADMINISTRATIVE LAW JUDGE: Colleen M. Mamelka

HEARING DECISION

This matter is before the undersigned Administ rative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the Claimant sequest for a hearing. After due notice, a telephone hearing was conducted from Detroit, Michigan on Monday, May 7, 2012. The Claimant appeared and testified. Sequestion appeared on behalf of the Department of Human Services ("Department"). In the Department, translated the testimony.

ISSUE

Whether the Department proper ly determined that the Claimant was not disabled for purposes of the Medical Assistance ("MA-P") benefit program?

FINDINGS OF FACT

The Administrative Law Judge, based on t he competent, material, and substantial evidence on the whole record, finds as material fact:

- The Claimant submitt ed an application for public assistance seeking MA-P benefits.
- 2. On January 26, 2012, the Medical Revi ew Team ("MRT") found the Claimant not disabled. (Exhibit 1, pp. 1, 2)
- 3. The Department notified the Claimant of the MRT determination.
- 4. On February 13, 2012, the Department received the Claimant's timely written request for hearing.

- 5. On April 11, 2012, the St ate Hearing Review Team ("SHRT") found the Claimant not disabled. (Exhibit 4)
- 6. The Claimant alleged physical disabl ing impairment due to back pain, shoulder pain and numbness in both upper extremit ies, psoriasis, high blood press ure, diabetes, vertigo, and insomnia.
- 7. The Claimant alleged mental disabling impairment due to depression.
- 8. At the time of hearing, the Claimant was birth date; was 5'4" in height; and weighed 154 pounds.
- 9. The Claim ant is a high school graduate with an employ ment history of an adult care provider.
- 10. The Claimant's impairments have lasted, or are expected to last, continuously for a period of 12 months or longer.

CONCLUSIONS OF LAW

The Medical Assistance program is established by Subchapter XIX of Chapter 7 of The Public Health & Welfare Act, 42 USC 1397, and is administered by the Department of Human Services, formerly known as the Family Independence Agency, pursuant to MCL 400.10 et seq. and MCL 400.105. Department policies are found in the Bridge's Administrative Manual ("BAM"), the Bridges Elig ibility Manual ("BEM"), and the Bridges Reference Tables ("RFT").

Disability is defined as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental im pairment which can be expected to result in death or which has lasted or can be expect ed to last for a continuous period of not less than 12 months. 20 CFR 416.905(a). The person claiming a physical or mental disability has the burden to esta blish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinica l/laboratory findings, diagnosis/prescri bed treatment, prognosis for recovery and/or medical assessment of ability to do work-related ac tivities o r ability to reason and make appropriate mental adjustments, if a mental disability is alleged. 20 CFR 416.913. An individual's subjective pain com plaints ar e not, in and of themselves, sufficient to establish disab ility. 20 CF R 416.908; 2 0 CFR 4 16.929(a) Similarly, conclusory statements by a physician or mental health professional that an individual is disabled or blind, absent supporting medical evidence, is insufficient to establish disability. 20 CFR 416.927.

When determining disability, the federal regulations require several factors to be considered including: (1) the location/duration/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medication the applicant takes to relieve pain; (3) any treatment other than pain medication that the applicant has received to relieve pain; and (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be assessed to determine the extent of his or her functional limitation(s) in light of the objective medical evidence presented. 20 CFR 416.929(c)(2).

In order to determine whether or not an individual is disabled, federal regulations require a five-step sequential evaluation process be utilized. 20 CFR 416.920(a)(1). The five-step analysis requires the trier of fact to cons ider an individual's current work activit y; the severity of the impairment(s) both in duration and whether it meets or equals a listed impairment in Appendix 1; residual functional capacity to det ermine whether an individual can perform past relev ant work; and residual functional capacity along with vocational factors (i .e. age, education, and work experienc e) to determine if an individual can adjust to other work. 20 CFR 416.920(a)(4); 20 CFR 416.945.

If an individual is found disabled, or not disabled, at any step, a determination or decision is made with no need evaluate subsequent steps. 20 CFR 416.920(a)(4). If a determination cannot be made that an individual is disabled, or not disabled, at particular step, the next step is required. 20 CFR 416.920(a)(4) If an impairment does not meet or equal a listed impairment, an indi vidual's residual functional capacity is assessed before moving from step three to step four. 20 CFR 416.920(a)(4); 20 CFR 416.945. Residual f unctional capacity is the most an indiv idual can do d espite the limitations based on all rele vant evidence. 20 CFR 416.945(a)(1). An individual's residual functional capacity ass essment is ev aluated at both steps four and five. 20 CFR 41 6.920(a)(4). In determining disability, an individual's functional capacity to perform basic work activities is evaluated and if found that the individual has the ability to perform basic work activities without significant limitation, disability will not be found. 20 CFR 416.994(b)(1)(iv). In general, the indiv idual has the responsibility to prove disability. 20 CFR 4 16.912(a). An impair ment or combinat ion of impairments is not severe if it does not signific antly limit an individual's physical or mental ability to do basic work activities. 20 CFR 416.921(a). The in dividual has the responsibility to provide evidence of prior work experience; efforts to work; and any other factor showing how the impairment affects the ability to work. 20 CFR 416.912(c)(3)(5)(6).

In addition to the above, when evaluating mental impairments, a special technique is utilized. 2 0 CFR 416.920a(a). First, an individual's pertinent symptoms, signs, and laboratory findings are evaluated to determine whether a medically determinable mental impairment exists. 20 CFR 416.920a(b)(1). When a medically determinable mental impairment is established, the symptoms, signs and laboratory findings that substantiate the impairment are documented to include the individual's significant history, laboratory

findings, and functional limitat ions. 20 CFR 416.920a(e)(2). Functional limitation(s) is assessed based upon the extent to whic h the impairment(s) interferes with an individual's ability to func tion independently, appropriately , effectively, and on Id.; 20 CFR 416.920a(c)(2) Chronic ment al disorders, structured sustained basis. settings, medication, and other treatment and the effect on the overall degree of functionality is considered. 20 CFR 416.920a(c)(1). In addition, four broad functional areas (activities of daily living; social f unctioning; concentration, persistence or pace; and episodes of decompensat ion) are consider ed when deter mining an individual's degree of functional limitation. 20 CFR 416.920a(c)(3). The degree of limitation for the first three functional areas is rated by a five point scale: none, mild, moderate, marked, and extreme. 20 CFR 416.920a(c)(4). A four point scale (none, one or two, three, four or more) is used to rate the degree of limitation in the fourth functional area. *Id.* The last point on each scale repr esents a degree of limitation t hat is incompatible with the ability to do any gainful activity. Id.

After the degree of functional limitation is determined, the severity of the mental impairment is determined. 20 CFR 416.920a(d). If severe, a determination of whether the impairment meets or is the equivalent of a listed mental disorder is made. 20 CF R 416.920a(d)(2). If the severe mental im pairment does not meet (or equal) a listed impairment, an individual's residual functional capacity is assessed. 20 CF R 416.920a(d)(3).

In general, the individual has the responsibility to prove disability. 20 CFR 41 6.912(a). An impairment or combination of impairments is not severe if it does not signific antly limit an in dividual's physica I or mental ability to do basic wor k activities . 20 CFR 416.921(a). An individual is not disabled regardless of the medical condition, age. education, and work experience, if the i ndividual is working and the work is a substantial, gainful activity. 20 CF R 416. 920(a)(4)(i). Substant ial gainful activit v ("SGA") means work that involves doing signi ficant and productive physical or mental duties and is done (or intended) for pay or profit. 20 CFR 4 16.910(a)(b). SGA is work activity that is both substantial and gainful. 20 CFR 416.972. Work may be substantial even if it is done on a part-time basis or if an indiv idual does les s. with le ss responsibility, and gets paid less than prior employment. 20 CFR 416.972(a). Gainful work activity is work activity that is done for pay or profit. 20 CFR 416.972(b).

As outlined above, the first step looks at the i ndividual's current work activity. In the record presented, the Claimant is not involved in SG A and, thus, is not ineligible for disability benefits under Step 1.

The severity of the Claimant 's alleged impairment(s) is considered under St ep 2. The Claimant bears the burden to pr esent sufficient objective medical evidenc et o substantiate the alleged disa bling impairments. In order to be considered disabled for MA purpos es, the impairment must be se vere. 20 CFR 416. 920(a)(4)(ii); 20 CFR

416.920(b). An impairment, or combination of impairments, is severe if it signific antly limits an in dividual's physical or mental ability to do basic work activities regardless of age, education and work experience. 20 CFR 416.920(a)(4)(ii); 20 CFR 416.920(c). Basic work activities means the abilities and aptitudes necessary to do most jobs. 20 CFR 416.921(b). Examples include:

- 1. Physical f unctions s uch as walking, standing, s itting, lifting, pushing, pulling, reaching, carrying, or handling;
- 2. Capacities for seeing, hearing, and speaking;
- 3. Understanding, carrying out, and remembering simple instructions;
- 4. Use of judgment;
- 5. Responding appropriately to supervision, co-workers and usual work situations; and
- 6. Dealing with changes in a routine work setting.

ld.

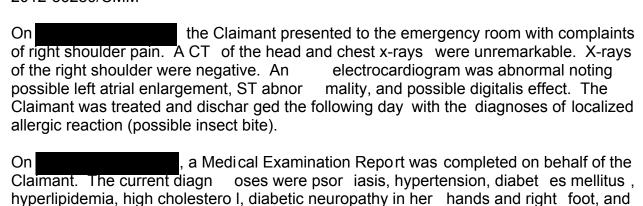

The second step allows for dismissal of a disability claim obviously lacking in medical merit. Higgs v Bowen, 880 F2d 860, 862 (CA 6, 1988). The severity requirement may still be employed as an admin istrative convenience to screen out claims that are totally groundless solely from a medical standpoint. *Id.* at 863 citing Farris v Sec of Health and Human Services, 773 F2d 85, 90 n.1 (CA 6, 1985). An impairment qualifies as non-severe only if, regardless of a claimant's age, education, or work experience, the impairment would not affect the claimant's ability to work. Salmi v Sec of Health and Human Services, 774 F2d 685, 692 (CA 6, 1985).

In the present case, the Claimant alleges di sability due to back pain, should er pain and numbness in her upper extremitie s, psoriasis, high blood pressure, diabetes, vertigo, insomnia, and depression.

On the Claimant was referred to cardiolo gy due to a new cardiac murmur, hypertension, high choleste rol, unco ntrolled d iabetes mellitus, and paresthesias in the hands and forearms.

in the home.

On the Claimant attended a consultative evaluation. The physic al examination revealed psoriatic plaques over her elbows bilatera lly and lesions on her abdomen. Range of motion test ing was unremarkable. The diagnoses were psorias is, diabetes with hand neuropathy, high cholesterol, and bronchitis (one-time episode).

low back pain. The Claimant was in stable condition and found able to meet her needs

On the Claimant attended a consultative psychiatric evaluation. The Claimant's hygiene and grooming were poor noting a very unkempt appearance. The Claimant's mood was depresed sed. The diagnosis was adjustment disorder with depressed mood with a Global A ssessment Functioning ("GAF") of 47. The prognosis was fair; however the Claimant was found unable to manage benefit funds.

As previously noted, the Claim ant bears t he burden to present sufficient objective medical evidence to s ubstantiate the alleged disabling im pairment(s). As summarized above, the Claimant has presen ted medical evidence establis hing that she does have some physical and mental limitations on her ability to perform basic work activities. The medical evidence has established that the Claimant has an impairment, or combination thereof, that has more than a *de minimus* effect on the Claimant's basic work activities. Further, the impairments have la sted continuous ly for twelve months; therefore, the Claimant is not disqualified from receipt of MA-P benefits under Step 2.

In the third step of the seque ntial an alysis of a disability claim, the trier of fact must determine if the Claimant's impairment, or co mbination of impairm ents, is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. The Claim ant has alleged physical and mental dis abling impairments due to back pain, shoulder pain with bilateral upper extremity numbness, psoriasis, high blood pressure, diabetes , vertigo, insomnia, and depression.

Listing 1.00 (musculoskeletal system), Listing 4.00 (cardiovascular system), Listing 8.00 (skin disorders), Listing 9.00 (endocrine s ystem), Listing 12.00 (ment al disorders), and Listing 14.00 (immune system diso rders) were considered in light of the objective

evidence. There was no evidence of major joint dysfunction or nerve root impingement. The records do not show severe cardiac im pairments despite prescribed treatment or the Claimant's psoriasis, the record does not end organ damage. Regarding demonstrate extensive skin lesions that result in serious limitations. The Claimant is in stable condition and able to phy sically and mentally meet her needs in the home with some mild restrictions. The evidence does not contain any ma rked limitations in social functioning, concentration, persistence or pace nor does it reveal episodes of decompensation of extended dur ation. Although the Claimant's uffers with depressive symptoms, the objective findings do establis ha residual diseas e process that show s even a minimal increase in mental demands or change in environment would cause the Claimant to deompensate or require a highly supportive living arrangement. Ultimately, the record does not support a finding of at I east two marked limitations as detailed in 12.03, 12.04 and/or The objective medical rec ords establish mental 12.06. impairments; however, these records do not m eet the intent and se verity requirements of a listing, or its equivalent. Accordingly, the Claimant cannot be found disabled, or not disabled, at Step 3.

Before considering the fourth step in the sequential analysis, a determination of the individual's residual functional capacity ("RFC") is made. 20 CFR 416.945. An individual's RFC is the most he/she canstill do on a sustained base is despite the limitations from the impairment(s). *Id.* The total limiting effects of all the impairments, to include those that are not severe, are considered. 20 CFR 416.945(e).

To determine the physical demands (exertional requirements) of work in the national economy, jobs are c lassified as sedentary, light, medium, heavy, and very heavy. 2 0 CFR 416.967. Sedentary work involves lifting of no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. 20 CFR 416.967(a). Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties . Id. Jobs are sedentary if walking and standing are r equired occasionally and other sedentary criteria are met. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying objects weighing up to 10 pounds. 20 CFR 416.967(b). Even though weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it invo Ives sit ting most of the time with some pushing and pulling of arm or leg controls. Id. To be considered capable of performing a full or wide range of light work, an individual must have the ability to do substantially all of these activities . Id. An individual capable of light work is also capable of sedentary work, unless there are additionally limiting factors such as loss of fin dexterity or inability to sit for long periods of time. Id. Medium work involves lifting no more than 50 pounds at a time with frequent lifting or carrying of objects weighing up to 25 pounds. 20 CFR 416.967(c). An individual capable of performing medium work is also capable of light and sedentary work. *Id.* Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of object s weighing up to 50

pounds. 20 CFR 416.967(d). A n individual capable of heavy work is also c apable of medium, light, and sedentary work. *Id.* Finally, very heavy work involves lifting objects weighing more than 100 pounds at a time with frequent lifting or carrying objects weighing 50 pounds or more. 20 CFR 416.967(e). An individual capable of very heavy work is able to perform work under all categories. *Id.*

Limitations or restrictions which affect the ability to meet the demands of jobs other than strength demands (exertional requirements, i.e. sitting, standing, walk ing, lifting, carrying, pushing, or pulling) are consider ed nonexertional. 20 CFR 416.969a(a). In considering whether an individual can perform past relevant work, a comparis on of the individual's residual functional c apacity with the demands of past relevant work. an individual can no longer do past relevant work the same residual functional capacity assessment along with an individual's a ge, education, and work experience is considered to determine whether an individual can adjust to other work which exists in the national economy. Id. Examples of non-exertional limitations or restrictions include difficulty function due to nervousness, anxiousness, or depression; difficulty maintaining attention or concentration; difficulty understanding or remembering detailed instructions; difficulty in seeing or hearing; difficulty tole rating some physical f eature(s) of certain work settings (i.e. can't tolera te dust or fumes); or difficulty performing the manipulative or postural functions of some work such as reaching, handling, stooping, climbing. crawling, or crouching. 20 CFR 416.969a(c)(1)(i) – (vi). If the impairment(s) and related symptoms, such as pain, only affect the ability to perform the non-e xertional aspects of work-related activities, the rules in Appendi x 2 do n ot direct factual conclusions o f disabled or not disabled. 20 CFR 416. 969a(c)(2). The determination of whether disability e xists is b ased upon the princi ples in the appropriate sections of the regulations, giving consideration to the rules for specific case situations in Appendix 2. ld.

In this cas e, the Claimant alleged disabi lity based on back pain, shoulder pain with bilateral upper extremity numbness, psoriasis, high blood pressur e. diabetes, vertigo. insomnia, and depression. The evidenc e c onfirms diagnos es of cardiac murmur, hypertension, high cholesterol, diabetes with neuropathy in both hands, and depression. The Claimant testified that she is able to walk short distances without an assistiv e device; no problems gripping/gr asping (buttoning c lothing, zipping pants, picking up a coin off the table); sit for 1 hour; lift/carry approximately 5 pounds; stand for less than 2 hours; and is unable to bend and/or squat. Mentally, the Claimant is able to perform her activities of daily living. Regarding, social functioning, there were no objective findings of marked limitations and as s uch, the degree of limitation is mild. In the area of concentration, persistence, or pace, the evi dence does indicate some limitations suc h that the degree of limit ation is mild to moderate but not extreme. And finally, the record reflects that the Claimant's mental cond ition is fair without evidenc e of repeated episodes of decompensation. Applying the four point scale, t he Claimant's degree of limitation in the fourth functional area is at most a 2. After review of the entire record to

include the Claimant's testimony, it is found that the Claimant maintains the residual functional capacity to perform unskilled, limit ed, sedentary work as defined by 20 CFR 416.967(b). Limitations being the alternation between sitting and standing at will.

The fourth step in analyzing a dis ability claim requires an assessment of the Claimant's residual f unctional capacity ("RFC") and pas t relevant em ployment. 20 CF R 416.920(a)(4)(iv). An individual is not disabled if he/she can perform past relevant work. *Id.*; 20 CFR 416.960(b)(3). Past relevant work is work that has been performed within the past 15 years that was a substantial gainful activity and that lasted long enough for the individual to learn the position. 20 CFR 416.960(b)(1). Vocational fact ors of age, education, and work experience, and whether the past relevant employment exists in significant numbers in the national economy is not considered. 20 CFR 416.960(b)(3).

The Claimant's work history consists of work as a care provider of an elderly woman which required her to bathe, f eed, shop, and clean. In cons ideration of the Claimant's testimony and the Occupational Code, the Claimant's prior work is classified as unskilled, light work. If the impairment or combination of impairments does not limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. 20 CFR 416.9 20. In light of the entire record and the Claimant's RFC (see above), it is found that the Claimant is unable to perform past relevant work.

In Step 5, an assessment of the individua I's residual functional capace ity and age, education, and work experience is consider ed to determine whet her an adjustment to other work can be made. 20 CFR 416.920(4)(v). At the time of hearing, the Claimant years old and, thus, considered to be closely approaching advanc ed age for MA-P purposes. The Claimant is a high sc hool graduate. Disability is found if an individual is unable to adjust to other work. *Id.* At this point in the analysis, t he burden shifts from the Claimant to the Department to pr esent proof that the Claimant has the residual capacity to substantial gainful employment. 20 CF R 416.960(2); Richardson v Sec of Health and Human Services, 735 F2d 962, 964 (CA 6, 1984). While a vocational expert is not required, a finding supported by substantial evidence that the individua I has the vocational qualifications to perform specific job s is needed to meet the burden. O'Banner v Sec of Health and Human Services , 587 F2d 321, 323 (CA 6, 1978). Medical-Vocational guidelines found at 20 CFR Subpart P, Appendix II, may be used to satisfy the burden of proving that the individual can perform specific jobs in the nation al economy. Heckler v Campbell, 461 US 458, 467 (1983); Kirk v Secretary, 667 F2d 524, 529 (CA 6, 1981) cert den 461 US 957 (1983).

In this case, the objective findings reveal that the Claimant suffers from cardiac murmur, hypertension, high c holesterol, uncontrolled diabetes mellitus with paresthesias in the hands and forearms (neuropathy), low back pain, psoriasis, and depres sion. After review of the entire record, and in consideration of the Claimant's age, education, work

experience, and RF C, and us ing the Medica I-Vocational Guidelines [20 CFR 404, Subpart P, Appendix II] as a guide, specifically Rule 201.12, it is found that the Claimant is disabled for purposes of the MA-P program at Step 5.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law finds the Claimant not disabled for purposes of the MA-P benefit program.

Accordingly, It is ORDERED:

- 1. The Department's determination is REVERSED.
- 2. The Department shall initiate processing of the December 5, 2011 application to determine if all other non-medical cr iteria are met and inform the Claimant of the determination in accordance with Department policy.
- 3. The Department shall supplement for any lost lost benefits (if any) that the Claimant was entitled to receive if otherwise eligib le and qualifie d in accordance with Department policy.
- 4. The Department shall review the Claimant's continued eligibility in accordance with Department policy in June 2013.

Date Mailed: May 18, 2012

NOTICE: Michigan Administrative Hearing Syst em (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a par ty within 30 days of the mailing date of this Dec ision and Order. MAHS will not or der a rehearing or reconsideration on the Department's mo tion where the final decis ion cannot be implemented within 90 days of the filing of the original request. (60 days for FAP cases)

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a ti mely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing <u>MAY</u> be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration **MAY** be granted for any of the following reasons:
 - misapplication of manual policy or law in the hearing decision,
 - typographical errors, mathematical error, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
 - the failure of the ALJ to address other relevant issues in the hearing decision.

Request must be submitted through the local DHS office or directly to MAHS by mail at Michigan Administrative Hearings
