

**STATE OF MICHIGAN  
MICHIGAN ADMINISTRATIVE HEARING SYSTEM  
ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES**

**IN THE MATTER OF:**

[REDACTED]

Reg No.: 2012-36623  
Issue No.: 2009  
Case No.: [REDACTED]  
Hearing Date: May 7, 2012  
Macomb County DHS (20)

**ADMINISTRATIVE LAW JUDGE:** Colleen M. Mamelka

**HEARING DECISION**

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the Claimant's request for a hearing. After due notice, a telephone hearing was conducted from Detroit, Michigan on Monday May 7, 2012. The Claimant appeared and testified. [REDACTED] appeared on behalf of the Department of Human Services ("Department").

**ISSUE**

Whether the Department properly determined that the Claimant was no longer disabled for purposes of the Medical Assistance ("MA-P") benefit program?

**FINDINGS OF FACT**

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. The Claimant was an MA-P recipient.
2. On February 10, 2012, the Medical Review Team ("MRT") found the Claimant no longer disabled. (Exhibit 1, pp. 5, 6)
3. On February 17, 2012, the Department notified the Claimant of the MRT determination.
4. On February 27, 2012, the Department received the Claimant's timely written request for hearing. (Exhibit 1, p. 2)

5. On April 11, 2012, the State Hearing Review Team (“SHRT”) found the Claimant not disabled. (Exhibit 2)
6. The Claimant alleged physical disabling impairments due to back pain with herniation and nerve damage, hearing loss, shortness of breath, asthma, chronic obstructive pulmonary disease (“COPD”), and high blood pressure.
7. The Claimant alleged mental disabling impairments due to depression.
8. At the time of hearing, the Claimant was [REDACTED] years old with an [REDACTED] birth date; was 5’5” in height; and weighed approximately 185 pounds.
9. The Claimant has the equivalent of a high school education with an employment history as a dishwasher, janitor, and cashier.
10. The Claimant’s impairments have lasted, or are expected to last, continuously for a period of 12 months or longer.

### **CONCLUSIONS OF LAW**

The Medical Assistance program is established by Subchapter XIX of Chapter 7 of The Public Health & Welfare Act, 42 USC 1397, and is administered by the Department of Human Services, formerly known as the Family Independence Agency, pursuant to MCL 400.10 *et seq.* and MCL 400.105. Department policies are found in the Bridges Administrative Manual (“BAM”), the Bridges Eligibility Manual (“BEM”), and the Bridges Reference Tables (“RFT”).

Disability is defined as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905(a). The person claiming a physical or mental disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinical/laboratory findings, diagnosis/prescribed treatment, prognosis for recovery and/or medical assessment of ability to do work-related activities or ability to reason and make appropriate mental adjustments, if a mental disability is alleged. 20 CFR 416.913. An individual’s subjective pain complaints are not, in and of themselves, sufficient to establish disability. 20 CFR 416.908; 20 CFR 416.929(a). Similarly, conclusory statements by a physician or mental health professional that an individual is disabled or blind, absent supporting medical evidence, is insufficient to establish disability. 20 CFR 416.927.

When determining disability, the federal regulations require several factors to be considered including: (1) the location/ duration/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medication the applicant takes to relieve pain; (3) any treatment other than pain medication that the applicant has received to relieve pain; and (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be assessed to determine the extent of his or her functional limitation(s) in light of the objective medical evidence presented. 20 CFR 416.929(c)(2).

Once an individual has been found disabled for purposes of MA benefits, continued entitlement is periodically reviewed in order to make a current determination or decision as to whether disability remains in accordance with the medical improvement review standard. 20 CFR 416.993(a); 20 CFR 416.994. In evaluating a claim for ongoing MA benefits, federal regulations require a sequential evaluation process be utilized. 20 CFR 416.994(b)(5). The review may cease and benefits continued if sufficient evidence supports a finding that an individual is still unable to engage in substantial gainful activity. *Id.* Prior to deciding an individual's disability has ended, the department will develop, along with the Claimant's cooperation, a complete medical history covering at least the 12 months preceding the date the individual signed a request seeking continuing disability benefits. 20 CFR 416.993(b). The department may order a consultative examination to determine whether or not the disability continues. 20 CFR 416.993(c).

The first step in the analysis in determining whether an individual's disability has ended requires the trier of fact to consider the severity of the impairment(s) and whether it meets or equals a listed impairment in Appendix 1 of subpart P of part 404 of Chapter 20. 20 CFR 416.994(b)(5)(i). If a Listing is met, an individual's disability is found to continue with no further analysis required.

If the impairment(s) does not meet or equal a Listing, then Step 2 requires a determination of whether there has been medical improvement as defined in 20 CFR 416.994(b)(1); 20 CFR 416.994(b)(5)(ii). Medical improvement is defined as any decrease in the medical severity of the impairment(s) which was present at the time of the most favorable medical decision that the individual was disabled or continues to be disabled. 20 CFR 416.994(b)(1)(i). If no medical improvement is found, and no exception applies (see listed exceptions below), then an individual's disability is found to continue. Conversely, if medical improvement is found, Step 3 calls for a determination of whether there has been an increase in the residual functional capacity ("RFC") based on the impairment(s) that were present at the time of the most favorable medical determination. 20 CFR 416.994(b)(5)(iii).

If medical improvement is not related to the ability to work, Step 4 evaluates whether any listed exception applies. 20 CFR 416.994(b)(5)(i-v). If no exception is applicable, disability is found to continue. *Id.* If the medical improvement is related to an individual's ability to do work, then a determination of whether an individual's impairment(s) are severe is made. 20 CFR 416.994(b)(5)(iii), (v). If severe, an assessment of an individual's residual functional capacity to perform past work is made. 20 CFR 416.994(b)(5)(vi). If an individual can perform past relevant work, disability does not continue. *Id.* Similarly, when evidence establishes that the impairment(s) do (does) not significantly limit an individual's physical or mental abilities to do basic work activities, continuing disability will not be found. 20 CFR 416.994(b)(5)(v). Finally, if an individual is unable to perform past relevant work, vocational factors such as the individual's age, education, and past work experience are considered in determining whether despite the limitations an individual is able to perform other work. 20 CFR 416.994(b)(5)(vii). Disability ends if an individual is able to perform other work. *Id.*

The first group of exceptions (as mentioned above) to medical improvement (i.e., when disability can be found to have ended even though medical improvement has not occurred) found in 20 CFR 416.994(b)(3) are as follows:

- (i) Substantial evidence shows that the individual is the beneficiary of advances in medical or vocational therapy or technology (related to the ability to work);
- (ii) Substantial evidence shows that the individual has undergone vocational therapy related to the ability to work;
- (iii) Substantial evidence shows that based on new or improved diagnostic or evaluative techniques the impairment(s) is not as disabling as previously determined at the time of the most recent favorable decision;
- (iv) Substantial evidence demonstrates that any prior disability decision was in error.

The second group of exceptions [20 CFR 416.994(b)(4)] to medical improvement are as follows:

- (i) A prior determination was fraudulently obtained;
- (ii) The individual failed to cooperate;
- (iii) The individual cannot be located;
- (iv) The prescribed treatment that was expected to restore the individual's ability to engage in substantial gainful activity was not followed.

If an exception from the second group listed above is applicable, a determination that the individual's disability has ended is made. 20 CFR 416.994(b)(5)(iv). The second

group of exceptions to medical improvement may be considered at any point in the process. *Id.*

As discussed above, the first step in the sequential evaluation process to determine whether the Claimant's disability continues looks at the severity of the impairment(s) and whether it meets or equals a listed impairment in Appendix 1.

In the present case, the Claimant alleges disability due to back pain with herniation and nerve damage, hearing loss, shortness of breath, asthma, COPD, high blood pressure, and depression. In support of his claim and the likely basis of the previous approval, some older records from as early as [REDACTED] were submitted which document treatment/diagnoses of lumbar spondylolisthesis, lumbar disc herniation, lumbar radiculopathy, failed epidural injections and physical therapy, degenerative disc disease, bilateral knee pain, and severe right foraminal stenosis with compression of the exiting right L5 nerve root. Back surgery was recommended.

On March [REDACTED] the Claimant attended a consultative evaluation with an internist. The physical examination revealed moderate restriction of range of motion of the lumbar spine noting a slow gait with a limp. The diagnoses were right ear hearing loss since age 5, chronic bilateral lumbar pain with radiculopathy, spondylolisthesis and spondylolysis of the lower back per MRI, cervical myositis (mild), hypertension, hypercholesterolemia, and borderline diabetes. The Claimant was unable to bend, stoop, carry, tie shoes, pick up coins or pencils, squat and arise from squatting, or climb stairs.

A Medical Examination Report was completed on behalf of the Claimant based on a [REDACTED] examination. The current diagnoses were spondylolisthesis and angina. The Claimant was found able to occasionally lift/carry up to 10 pounds; stand and/or walk at least 2 hours during an 8-hour workday; sit less than 6 hours during this same time frame; and able to perform repetitive actions with his extremities.

On [REDACTED] a Medical Examination Report was completed on behalf of the Claimant. The current diagnoses were degenerative disc disease, foraminal stenosis, hypertension, dyslipidemia, anxiety, GERD, and depression. The physical examination was within normal limits and the Claimant was in stable condition and able to meet his needs in the home.

In this case, the Claimant was previously approved as a result of a prior hearing decision dated [REDACTED]. The Claimant was found unable to perform even sedentary work as defined by 20 CFR 416.967(a). The [REDACTED] and the [REDACTED] medical records were relied on, in part, in reaching that determination.

Listing 1.00 defines musculoskeletal system impairments. Disorders of the musculoskeletal system may result from hereditary, congenital, or acquired pathologic processes. 1.00A. Impairments may result from infectious, inflammatory, or degenerative processes, traumatic or developmental events, or neoplastic, vascular, or toxic/metabolic diseases. 1.00A. Regardless of the cause(s) of a musculoskeletal impairment, functional loss for purposes of these listings is defined as the inability to ambulate effectively on a sustained basis for any reason, including pain associated with the underlying musculoskeletal impairment, or the inability to perform fine and gross movements effectively on a sustained basis for any reason, including pain associated with the underlying musculoskeletal impairment. Inability to ambulate effectively means an extreme limitation of the ability to walk; i.e., an impairment(s) that interferes very seriously with the individual's ability to independently initiate, sustain, or complete activities. 1.00B2b(1). Ineffective ambulation is defined generally as having insufficient lower extremity function to permit independent ambulation without the use of a hand-held assistive device(s) that limits the functioning of both upper extremities. (Listing 1.05C is an exception to this general definition because the individual has the use of only one upper extremity due to amputation of a hand.) *Id.* To ambulate effectively, individuals must be capable of sustaining a reasonable walking pace over a sufficient distance to be able to carry out activities of daily living. 1.00B2b(2). They must have the ability to travel without companion assistance to and from a place of employment or school. . . . *Id.* When an individual's impairment involves a lower extremity uses a hand-held assistive device, such as a cane, crutch or walker, the medical basis for use of the device should be documented. 1.00J4. The requirement to use a hand-held assistive device may also impact an individual's functional capacity by virtue of the fact that one or both upper extremities are not available for such activities as lifting, carrying, pushing, and pulling. *Id.*

Categories of Musculoskeletal include:

\* \* \*

- 1.04 Disorders of the spine (e.g., herniated nucleus pulposus, spinal arachnoiditis, spinal stenosis, osteoarthritis, degenerative disc disease, facet arthritis, vertebral fracture), resulting in compromise of a nerve root (including the cauda equine) or spinal cord. With:
- A. Evidence of nerve root compression characterized by neuro-anatomic distribution of pain, limitation of motion of the spine, motor loss (atrophy with associated muscle weakness or muscle weakness) accompanied by sensory or reflex loss and, if there is involvement of the lower back, positive straight-leg raising test (sitting and supine); or

- B. Spinal arachnoiditis, confirmed by an operative note or pathology report of tissue biopsy, or by appropriate medically acceptable imaging, manifested by severe burning or painful dysesthesia, resulting in the need for changes in position or posture more than once every 2 hours; or
- C. Lumbar spinal stenosis resulting in pseudoclaudication, established by findings on appropriate medically acceptable imaging, manifested by chronic nonradicular pain and weakness, and resulting in inability to ambulate effectively, as defined in 1.00B2b. (see above definition)

In this case, the medical records confirm diagnoses of lumbar spondylolisthesis, lumbar disc herniation, lumbar radiculopathy, failed epidural injections and physical therapy, degenerative disc disease, bilateral knee pain, and severe right foraminal stenosis with compression of the exiting right L5 nerve root. Back surgery was recommended; however the Claimant testified the chance of paralysis was too great. There was no evidence of medical improvement. In light of the foregoing, it is found that the Claimant's impairments meet, or are the medical equivalent thereof, a listed impairment within 1.00, specifically, 1.04. Accordingly, the Claimant's disability is found to have continued with no further analysis required.

### **DECISION AND ORDER**

The Administrative Law Judge, based on the above findings of fact and conclusions of law finds the Claimant disabled for purposes of the MA-P benefit program.

Accordingly, it is ORDERED:

1. The Department's determination is REVERSED.
2. The Department shall initiate review of the November 30, 2011 review application to determine if all other non-medical criteria are met and inform the Claimant of the determination in accordance with department policy.
3. The Department shall supplement for lost benefits (if any) that the Claimant was entitled to receive if otherwise eligible and qualified in accordance with department policy.

4. The Department shall review the Claimant's continued eligibility in June 2013 in accordance with department policy.

Colleen M. Mamelka  
Administrative Law Judge  
For Maura Corrigan, Director  
Department of Human Services

Date Signed: May 18, 2012

Date Mailed: May 18, 2012

**NOTICE:** Michigan Administrative Hearing System (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. MAHS will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request. (60 days for FAP cases)

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing **MAY** be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration **MAY** be granted for any of the following reasons:
  - misapplication of manual policy or law in the hearing decision,
  - typographical errors, mathematical error, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
  - the failure of the ALJ to address other relevant issues in the hearing decision.

Request must be submitted through the local DHS office or directly to MAHS by mail at  
Michigan Administrative Hearings  
Reconsideration/Rehearing Request  
P. O. Box 30639
