

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
FOR THE DEPARTMENT OF COMMUNITY HEALTH**

P.O. Box 30763, Lansing, MI 48909
(877) 833-0870; Fax: (517) 334-9505

IN THE MATTER OF:

Docket No. 2012-37602 CL
Case No. [REDACTED]

[REDACTED]

Appellant

_____ /

AMENDED DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon the Appellant's request for a hearing.

After due notice, a hearing was held on [REDACTED]. [REDACTED], the Appellant, appeared on her own behalf. [REDACTED], Appeals Review Officer, represented the Department. [REDACTED], Michigan Department of Community Health (MDCH) Contract Manager for [REDACTED], appeared as a witness for the Department.

ISSUE

Did the Department properly deny coverage of pull-on briefs and incontinent wipes?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. The Appellant is a [REDACTED] Medicaid beneficiary.
2. On [REDACTED], the Department sent the Appellant an Advance Action Notice that incontinent supplies would not be authorized because the prescription was not returned by the physician. (Exhibit 1, page 6)
3. On [REDACTED], the Appellant's Request for Hearing was received. (Exhibit 1, page 5)
4. On [REDACTED], [REDACTED], the Department's contractor for the [REDACTED], received prescriptions for personal care wipes and Attends briefs from the Appellant's doctor. (Exhibit 1, pages 7-8)
5. [REDACTED] was unable to accept the [REDACTED] prescriptions as

valid because they did not contain all of the required information.
(Contract Manager Testimony)

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

The Department policy regarding medical necessity and prescription requirements is addressed in the MDCH Medicaid Provider Manual (MPM):

1.5 MEDICAL NECESSITY

Medical devices are covered if they are the most cost-effective treatment available and meet the Standards of Coverage stated in the Coverage Conditions and Requirements Section of this chapter.

The medical record must contain sufficient documentation of the beneficiary's medical condition to substantiate the necessity for the type and quantity of items ordered and for the frequency of use or replacement. The information should include the beneficiary's diagnosis, medical condition, and other pertinent information including, but not limited to, duration of the condition, clinical course, prognosis, nature and extent of functional limitations, other therapeutic interventions and results, and past experience with related items. Neither a physician's order nor a certificate of medical necessity by itself provides sufficient documentation of medical necessity, even though it is signed by the treating physician. Information in the medical record must support the item's medical necessity and substantiate that the medical device needed is the most appropriate economic alternative that meets MDCH standards of coverage.

Medical equipment may be determined to be medically necessary when all of the following apply:

- Within applicable federal and state laws, rules, regulations, and MDCH promulgated policies.
- Medically appropriate and necessary to treat a specific medical diagnosis or medical condition, or functional need, and is an integral part of the nursing facility daily plan of care or is required for the community residential setting.

- Within accepted medical standards; practice guidelines related to type, frequency, and duration of treatment; and within scope of current medical practice.
- Inappropriate to use a nonmedical item.
- The most cost effective treatment available.
- It is ordered by the treating physician, and clinical documentation from the medical record supports the medical necessity for the request (as described above) and substantiates the physician's order.
- It meets the standards of coverage published by MDCH.
- It meets the definition of Durable Medical Equipment (DME), as defined in the Program Overview section of this chapter.
- Its use meets FDA and manufacturer indications.

1.5.A. PRESCRIPTION REQUIREMENTS

A prescription must contain all of the following:

- Beneficiary's name;
- Beneficiary's date of birth (DOB);
- Beneficiary ID number or Social Security Number (SSN) (if known);
- Prescribing physician's name, address, and telephone number;
- Prescribing physician's signature (a stamped or co-signature will not be accepted);
- The date the prescription was written;
- The specific item prescribed;
- The amount and length of time that the service is needed; and
- State date of order if different from the physician's signature date.

The prescription must meet the following timeframes:

- For medical supplies, refills may be allowed up to one year from the original physician's signature date on the prescription.

MDCH reserves the right to request additional documentation from a specialist for any beneficiary and related service on a case-by-case basis if necessary to determine coverage of the service.

1.5.C. DOCUMENTATION

The Coverage Conditions and Requirements Section of this chapter specifies the documentation requirements for individual service areas. Additional information other than what is required on the prescription may be required. To provide this information, Medicaid accepts a certificate of medical necessity (CMNs will be mandatory for electronic PA), a letter or a copy of applicable medical record. The prescribing physician must sign all documentation and the documentation (if a letter or applicable medical records) must state the beneficiary's name, DOB and ID number (if known) or SSN (if known).

1.5.D. CERTIFICATE OF MEDICAL NECESSITY REQUIREMENTS

A CMN must contain all of the following:

- Beneficiary's name and address;
- Beneficiary's date of birth (DOB);
- Beneficiary ID number (if initiated by the provider) or SSN;
- Prescribing physician's signature, date of signature, telephone number;
- The suppliers' name and address;
- The expected start date of the service (if different from the prescription date);
- A complete description of the item;
- The amount and length of time the item is needed;
- Beneficiary's diagnosis; and
- The medical necessity of the item.

For specifics, refer to the Coverage Conditions and Requirements Section of this chapter.

MDCH will accept a CMN initiated by a medical supplier, orthotist or prosthetist. However, only the beneficiary identifier fields and the areas detailing the description of the item with applicable HCPCS procedure codes are to be completed by the provider. The physician must complete the CMN by writing the medical reason or necessity for the specific item being requested. A medical supplier, orthotist, or prosthetist may not alter or write the medical reason or necessity for the item requested.

Additional documentation (including the CMN) must be current and within the timeframe stated in the Coverage Conditions and Requirements Section of this chapter, under Documentation for each item.

*MDCH Medicaid Provider Manual,
Medical Supplier Section,
January 1, 2012, Pages 4-7.*

The Department policy regarding coverage of incontinence products, including pull-on briefs, is also addressed in the MDCH Medicaid Provider Manual (MPM):

2.19 Incontinent Supplies

Introduction

Incontinent supplies are items used to assist individuals with the inability to control excretory functions.

The type of coverage for incontinent supplies may be dependent on the success or failure of a bowel/bladder training program. A bowel/bladder training program is defined as instruction offered to the beneficiary to facilitate:

- Independent care of bodily functions through proper toilet training.
- Appropriate self-catheter care to decrease risk of urinary infections and/or avoid bladder distention.
- Proper techniques related to routine bowel evacuation.

Standards of Coverage (Applicable to All Programs)
Diapers, incontinent pants, liners, and belted/unbelted undergarments without sides are covered for individuals age three or older if both of the following applies:

- A medical condition resulting in incontinence and there is no response to a bowel/bladder training program.
- The medical condition being treated results in incontinence, and beneficiary would not benefit from or has failed a bowel/bladder training program.

Pull-on briefs are covered for beneficiaries age 3 through 20 when there is the presence of a medical condition causing bowel/bladder incontinence, and one of the following applies:

- The beneficiary would not benefit from a bowel/bladder program but has the cognitive ability to independently care for his/her toileting needs, **or**
- The beneficiary is actively participating and demonstrating definitive progress in a bowel/bladder program.

Pull-on briefs are covered for beneficiaries age 21 and over when there is the presence of a medical condition causing bowel/bladder incontinence and the beneficiary is able to care for his/her toileting needs independently or with minimal assistance from a caregiver.

Pull-on briefs are considered a short-term transitional product that requires a reassessment every six months. The assessment must detail definitive progress being made in the bowel/bladder training. Pull-on briefs covered as a long-term item require a reassessment once a year or less frequently as determined by MDCH.

Documentation of the reassessment must be kept in the beneficiary's file.

Incontinent wipes are covered when necessary to maintain cleanliness outside of the home.

Disposable underpads are covered for beneficiaries of all ages with a medical condition resulting in incontinence.
Standards of Coverage (Not Applicable to CSHCS Only Beneficiaries)

Intermittent catheters are covered when catheterization is required due to severe bladder dysfunction. **Hydrophilic-coated intermittent catheters** are considered for individuals that have Mitrofanoff stomas, partial stricture or small, tortuous urethras.

Intermittent catheters with insertion supplies are covered for beneficiaries who have a chronic urinary dysfunction for which sterile technique is clinically required.

Documentation

Documentation must be less than 30 days old and include the following:

- Diagnosis of condition causing incontinence (primary and secondary diagnosis).
- Item to be dispensed.
- Duration of need.
- Quantity of item and anticipated frequency the item requires replacement.
- For pull-on briefs, a six-month reassessment is required.

*MDCH Medicaid Provider Manual,
Medical Supplier Section,
January 1, 2012, Pages 41-42.*

The above cited Medicaid Provider Manual sections set out the general prescription and documentation requirements as well as specific requirements for incontinence supplies. On [REDACTED], the Department sent the Appellant an Advance Action Notice that incontinent supplies would not be authorized because the prescription was not returned by the physician. (Exhibit 1, page 6)

On [REDACTED], the Department's contractor for the [REDACTED] [REDACTED], received prescriptions for personal care wipes and Attends briefs from the Appellant's doctor. (Exhibit 1, pages 7-8) The Contract Manger explained that [REDACTED] was not able to consider the prescription valid because it did not contain all of the required information, specifically primary and secondary diagnoses. The [REDACTED] prescriptions did not list any diagnoses. (Exhibit 1, apges 7-8)

The Appellant testified she imagined her doctor would write a new prescription. (Appellant Testimony)

The Department's denial must be upheld based on the information that was provided. No prescription was submitted at the time of the [REDACTED] denial. The prescriptions submitted [REDACTED] cannot be considered valid because they are missing the required primary and secondary diagnoses.

If she has not already done so, the Appellant should have her doctor submit a valid prescription to [REDACTED] to support the Appellant's request for incontinent supplies.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, decides that the Department's denial of coverage for pull-on briefs and incontinent wipes was in accordance with Department policy based on the available information.

IT IS THEREFORE ORDERED that:

The Department's decision is **AFFIRMED**.

Colleen Lack
Administrative Law Judge
for Olga Dazzo, Director
Michigan Department of Community Health
