STATE OF MICHIGAN MICHIGAN ADMINISTRATIVE HEARING SYSTEM ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

Reg No.: 2012-45813 Issue No.: 2009, 4031 Case No.: Hearing Date: August 15, 2012 Wayne County DHS (19)

ADMINISTRATIVE LAW JUDGE: Colleen M. Mamelka

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the Claimant 's request for a hearing. After due notice, a telephone hearing was conducted from Detroit, Michigan on Wednesday, August 15, 2012. The Claimant appear ed, along with behalf of the Department of Human Services ("Department") was

<u>ISSUE</u>

Whether the Department proper ly determined that the Claimant was not disabled for purposes of the Medical Assistance ("MA-P") and St ate Disability Assistance ("SDA") benefit programs?

FINDINGS OF FACT

The Administrative Law Judge, based on t he competent, material, and substantial evidence on the whole record, finds as material fact:

- 1. The Claimant submitted an application for public assistance seeking MA-P and SDA benefits on November 30, 2011.
- 2. On March 24, 2012, the Medical Revi ew Team ("MRT") found the Claimant not disabled. (Exhibit 1, pp. 4, 5)
- 3. On March 29, 2012, the Department notified the Claimant of the MRT determination.

- 4. On April 10, 2012, the D epartment received the Claimant's timely written request for hearing. (Exhibit 1, pp. 2, 3)
- 5. On May 31, 2012, the State Hearing Re view Team ("SHRT") found the Claimant not disabled. (Exhibit 5)
- 6. The Claimant alleged physical disabli ng impairments due to bac k pain, res idual complication as a result of a gunshot wo und to the right leg, double v ision, and asthma.
- 7. The Claimant alleged mental disabling impairment due to depression
- 8. At the time of hearing, the Claimant was 52 years old with a birth date; was 5'11' in height; and weighed 185 pounds.
- 9. The Claimant has the equivalent of a high school education with an employment history as a heavy equipment operator, foreman, and pipe layer.
- 10. The Claimant's impairments have lasted, or are expected to last, continuously for a period of 12 months or longer.

CONCLUSIONS OF LAW

The Medical Assistance program is established by Subchapter XIX of Chapter 7 of The Public Health & Welfare Act, 42 USC 1397, and is administered by the Department of Human Services, formerly known as the Family Independenc e Agency, pursuant to MCL 400.10 *et seq* and MCL 400.105. Department polic ies are found in the Bridge s Administrative Manual ("BAM"), the Bridges Elig ibility Manual ("BEM"), and the Bridges Reference Tables ("RFT").

Disability is defined as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental im pairment which can be expected to result in death or which has lasted or can be expect ed to last for a continuous period of not less than 12 months. 20 CFR 416.905(a). The person claimi ng a physical or mental disability has the burden to esta blish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinica l/laboratory findings, diagnosis/prescri bed treatment, prognosis for recovery and/or medical assessment of ability to do work-relate activities o r ability to reason a nd make appropriate mental adjustments, if a mental disability is alleged. 20 CFR 416 .913. An individual's subjective pain com plaints ar e not, in and of themselves, sufficient to establish disab ility. 20 CF R 416.908; 2 0 CFR 4 16.929(a) Similarly, conclusory statements by a physician or mental health professional that an individual is disabled or

blind, absent supporting medical evidence, is insufficient to establish disability. 20 CFR 416.927.

When determining disability, t he federal regulations require several factors to be considered including: (1) the location/ duration/frequency/intensity of an applicant's pain; (2) the type/dosage/effe ctiveness/side effects of any medication the applic ant takes to relieve pain; (3) any treatment other than pain medication that the applicant has received to relieve pain; and (4) the e ffect of the applic ant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be assessed to determine the extent of his or her functional limitation(s) in light of the objective medical evidence presented. 20 CFR 416.929(c)(2).

In order to determine whether or not an individual is disabled, federal regulations require a five-step sequential evaluation process be utilized. 20 CFR 416.920(a)(1). The fivestep analysis requires the trier of fact to cons ider an individual's current work activit y; the severity of the impairment(s) both in duration and whether it meets or equals a listed impairment in Appendix 1; residual functional capacity to det ermine whether an individual can perform past relev ant work; and residual functiona I capacity along with vocational factors (i .e. age, education, and work experienc e) to determine if an individual can adjust to other work. 20 CFR 416.920(a)(4); 20 CFR 416.945.

If an individual is found disabled, or not disabled, at any step, a determination or decision is made with no need to evaluate subsequent steps. 20 CFR 416.920(a)(4). If a determination cannot be made that an individual is disabled, or not disabled, at a particular step, the next step is required. 20 CFR 416.920(a)(4) If an impairment does not meet or equal a listed impairment, an indi vidual's residual functional capacity is assessed before moving from step three to step four. 20 CFR 416.920(a)(4); 20 CFR 416.945. Residual f unctional capacity is the most an indiv idual can do d espite the limitations based on all rele vant evidence. 20 CFR 416.945(a)(1). An individual's residual functional capacity ass essment is eval uated at both steps four and five. 20 CFR 41 6.920(a)(4). In determinin g disa bility, an in dividual's functional c apacity to perform basic work activities is evaluated and if found that the individual has the ability to perform basic work activities without significant limitation, disability will not be found. general, the individual has the responsibility to prove 20 CFR 416.994(b)(1)(iv). In disability. 20 CFR 4 16.912(a). An impair ment or combinat ion of impairments is n ot severe if it does not signific antly limit an i ndividual's physical or mental ability to do basic work activities. 20 CFR 416.921(a). The in dividual has the responsibility to provide evidence of prior work experience; efforts to work; and any other factor showing how the impairment affects the ability to work. 20 CFR 416.912(c)(3)(5)(6).

In addition to the above, when evaluating m ental impairments, a special technique is utilized. 20 CFR 41 6.920a(a). First, an indi vidual's pertinent symptoms, signs, and laboratory findings are evaluated to determine whether a medically determinable mental

impairment exists. 20 CFR 416.920a(b)(1). When a medically determinable mental impairment is established, the symptoms, signs and laboratory findings that substantiate the impairment are documented to include the individual's significant history, laboratory findings, and functional limitations. 20 CFR 416.920a(e)(2). Functional limitation(s) is assessed based upon the extent to whic h the impairment(s) interferes with an individual's ability to func tion independently, appropriately, effectively, and on а Id.; 20 CFR 416.920a(c)(2). Chronic m ental disorders, structured sustained basis. settings, medication, and other treatment and the effect on the overall degree of functionality is considered. 20 CFR 416.920a(c)(1). In addi tion, four broad functional areas (activities of daily living; social f unctioning; concentration, persistence or pace; and episodes of decompensat ion) are consider ed when deter mining an individual's degree of functional limitation. 20 CFR 416.920a(c)(3). The degree of limitation for the first three functional areas is rated by a five point scale: none, mild, moderate, marked, and extreme. 20 CFR 416.920a(c)(4). A four point scale (none, one or two, three, four or more) is used to rate the degree of lim itation in the fourth functional area. Id. The last point on each scale repr esents a degree of limitation t hat is incompatible with the ability to do any gainful activity. Id.

After the degree of functional limitation is determined, the severity of the mental impairment is determined. 20 CFR 416.920a(d). If severe, a determination of whether the impairment meets or is the equivalent of a lis ted mental disorder is made. 20 CF R 416.920a(d)(2). If the severe mental impairment does not meet (or equal) a listed impairment, an individual's residual function on al capacity is assessed. 20 CF R 416.920a(d)(3).

As outlined above, the first step looks at the i ndividual's current work activity. In the record presented, the Claiman t is not involved in substantial gainful activity and, therefore, is not ineligible for disability benefits under Step 1.

The severity of the Claimant's alleged impa irment(s) is considered under St ep 2. The Claimant bears the burden to present sufficient objective medical evidence et o substantiate the alleged disa bling impairments. In order to be considered disabled for MA purpos es, the impairment must be severe. 20 CFR 416. 920(a)(4)(ii); 20 CFR 416.920(b). An impairment, or combination of impairments, is severe if it significantly limits an in dividual's physical or mental ability to do basic work activities regardless of age, education and work experience. 20 CFR 416.920(a)(4)(ii); 20 CFR 416.920(c). Basic work activities means the abilities and aptitudes necessary to do most jobs. 20 CFR 416.921(b). Examples include:

- 1. Physical f unctions s uch as walking, standing, s itting, lifting, pushing, pulling, reaching, carrying, or handling;
- 2. Capacities for seeing, hearing, and speaking;

- 3. Understanding, carrying out, and remembering simple instructions;
- 4. Use of judgment;
- 5. Responding appropriately to s upervision, co-workers and usua I work situations; and
- 6. Dealing with changes in a routine work setting.
- ld.

The second step allows for dismissal of a di sability claim obviously lacking in medical merit. *Higgs v Bowe n*, 880 F2d 860, 862 (CA 6, 1988). The severity requirement may still be employed as an admin istrative convenience to screen o ut claims that are totally groundless solely from a medical standpoint. *Id.* at 863 *citing Farris v Sec of Health and Human Se rvices*, 773 F2d 85, 90 n.1 (CA 6, 1985). An impairment qualif ies as non-severe only if, regardless of a claimant's age, education, or work experience, the impairment would not affect the claimant's ability to work. *Salmi v Sec of Health and Human Services*, 774 F2d 685, 692 (CA 6, 1985).

In the present case, the Claimant allege s disabilit y due to back pain, residual complication as a result of a gunshot wound to the right leg, double vision, asthma, and depression.

On **Sector**, the Claim ant attended a consultative evaluation with complaints of asthma, back pain, and right leg gunshot wounds. X-rays revealed degenerative disc disease at L5-S1. The physica I examination reveal ed mild deformity of the right knee with crepitus bilaterally with pain of motion in the back and right knee. The Claimant had some difficulty getting on and off the examin ation table along with severe difficulty heel and t oe walking. Paravertebral musc le spasms, along bot h sides of the lumbar spine, were noted as well as reduced range of motion and positive st raight leg rais ing. The findings were consistent with right lum bar spine radiculopathy. The Claimant was restricted to lifting no more than 10 to 20 pounds and was unable to walk more than one block. The diagnoses were history of asthma and low back pain.

On **Sector 1** of the Claimant a ttended an independent m edical examination which revealed moderated lim ited range of motion of t he lumbar spine and numbness below the right knee. The Claim ant was unable to walk on his right heel or t oes. The diagnosis was history of gunshot wound in the right leg with reconstruction vascular and knee surgery resulting in right leg being approximately $\frac{1}{2}$ inch shorter, noting crepitus in the right k nee and numbness below the k nee. The low back pa in was found to be without radiculitis.

On the Claimant presented to the emergency room with complaints of decreas ed vision in the right eye and chronic right knee and back pain. X-rays revealed degenerative change at C6 and C5-6 and C6-7 spondylos is. Compression fracture w as not excluded. A CT showed bony dis ruption and displacement of the medial and inferior walls of the right or bit. The Claimant was discharged the following day with the diagnoses of facial injury.

On **Constant of Section**, a Mental Status Evaluation was performed. The diagnoses were alcohol abuse, cannabis abuse (sustained full remission), and cocaine dependence (sustained full remission). The Global Assessment Functioning ("GAF") was 53. The prognosis was guarded for gainful employment.

As previously noted, the Claim ant bears t he burden to present sufficient objective medical evidence to s ubstantiate the alleged disabling im pairment(s). As summarized above, the Claimant has presen ted some medical evidence establishing that he does have some physical and mental limitations on his ability to perform basic work activities. The medic al evidence has establis hed t hat the Claimant has an impairment, or combination thereof, t hat has more than a *de minimus* effect on the Claimant's basic work activities. Further, the impairments have lasted continuous ly for twelve months; therefore, the Claimant is not disqualified from receipt of MA-P benefits under Step 2.

In the third step of the seque ntial an alysis of a disability claim, the trier of fact must determine if the Claimant's impairment, or combination of impairments, is listed in Appendix 1 of Sub part P of 20 CF R, Part 404. The evidenc e confirms treatment/diagnoses of degenerative disc diseas e, right knee deformity, lumbar spine radiculopathy, asthma, low back pain, bilateral crepit us in the knees along with numbness below the right knee, alcohol abuse, cannabis abuse (sustained full remission), and cocaine dependence (full sustained remission).

Listing 1.00 (musculoskeletal s ystem), Li sting 3.00 (respirator y system), and Listing 12.00 (mental disorders) were considered in light of the objective evidence. There was no evidence of major dysfunction of joints; some conflicting evidence e regarding impingement; and no evidence of ineffective am bulation or the inability to perform fine and/or gross motor skills. Mentally, there was no evidence of a ny marked limitation in any functional area. The objective medica I records establish serious physical and mental impairments; however, these record s do not meet the intent and severity requirements of a listing, or its equivalent. Accordingly, the Claimant cannot be found disabled, or not disabled, at Step 3.

Before considering the fourth step in t individual's residual functional capacity individual's RFC is the most he/she can still do o n a sustained bas is despite the

limitations from the impairment(s). *Id.* The total limiting effects of all the impairments, to include those that are not severe, are considered. 20 CFR 416.945(e).

To determine the physical demands (exertional requirements) of work in the national economy, jobs are c lassified as sedentary, light, medium, heavy, and very heavy. 2 0 CFR 416.967. Sedentary work involves lifting of no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. 20 CFR 416.967(a). Although a sedentary j ob is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Id. Jobs are sedentary if walking and standing are r equired occasionally and other sedentary criteria are met. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying objects weighing up to 10 pounds. 20 CFR 416.967(b). Even though weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it invo lves sit ting most of the time with some pushing and pulling of arm or leg controls. *Id.* To be considered capable of performing a full or wide range of light work, an individual must have the ability to do substantially all of these activities . Id. An individual capable of light work is also capable of sedentary work, unless there are additionally limiting factors such as loss of fin е dexterity or inability to sit for long periods of time. *Id.* Medium work involves lifting no more than 50 pounds at a time with frequent lifting or carrying of objects weighing up to 25 pounds. 20 CFR 416.967(c). An individual capable of performing medium work is also capable of light and sedentary work. Id. Heavy work involves lifting no more than 100 pounds at a tim e with frequent lifting or carrying of object s weighing up to 50 pounds. 20 CFR 416.967(d). A n individual capable of heavy work is also c apable of medium, light, and sedentary work. *Id.* Finally, very heavy work involves lifting objects weighing more than 100 pounds at a time with frequent lifting or carrying objects weighing 50 pounds or more. 20 CFR 416.967(e). An individual capable of very heavy work is able to perform work under all categories. Id.

Limitations or restrictions which affect the ability to meet the demands of jobs other than requirements, i.e. sitting, strength demands (exertional standing, walk ing, lifting, carrying, pushing, or pulling) are consider ed nonexertional. 20 CFR 416.969a(a). In considering whether an individual can perform past relevant work, a comparis on of the individual's residual functional c apacity with the demands of past relevant work. ld. If an individual can no longer do past relevant work the same residual functional capacity assessment along with an individual's a ge, education, and work experience is considered to determine whether an individual can adjust to other work which exists in the national economy. Id. Examples of non-exertional limitations or restrictions include difficulty function due to nervousness, anxiousness, or depression; difficulty maintaining attention or concentration; difficulty understanding or remembering detailed instructions; difficulty in seeing or hearing; difficulty tole rating some physical feature(s) of certain work settings (i.e. can't tolera te dust or fumes); or difficulty performing the manipulative or postural functions of some work such as reaching, handling, stooping, climbing,

crawling, or crouching. 20 CFR 416.969a(c)(1)(i) – (vi). If the impairment(s) and related symptoms, such as pain, only affect the ability to perform the non-e xertional aspects of work-related activities, the rules in Appendi x 2 do n ot direct factual conclusions o f disabled or not disabled. 20 CFR 416. 969a(c)(2). The determination of whether disability e xists is b ased upon the princi ples in the appropriate sections of the regulations, giving consideration to the rules for r specific case situat ions in Appendix 2. *Id.*

In this case, the Claimant alleged dis ability based on degenerative di sc disease, right knee deformity, lumbar spine radiculopathy, asthma, low back pain, bilateral crepitus in the knees along with numbness bel ow the right knee, alcoho I abuse, cannabis abus e (sustained full remission), and cocaine d ependence (full sustained remis sion). The Claimant testified that he is able to walk a mile or two, grip/grasp with some difficulties; sit for less than 2 hours; lift/carry approximately 10 pounds; stand for 10 minutes; and is able to partially bend and/or s quat. The objective medical evid ence restricts the Claimant to lifting no more than 20 pounds with walk ing at less than one bloc k. Mentally, the evidence shows that the Claim ant's prognosis for gainful em ployment is guarded. There was no evidenc e of marked lim itations in any functional ar ea, as such that the degree of lim itation is mild. There was no evi dence of r epeated episodes of decompensation. Applying the f our point s cale, the Claimant 's degree of limitation in the fourth functional area is at most a 1. After review of the entire record to include the Claimant's testimony, it is found that the Claimant mainta ins the residual functional capacity to perform unskilled, limited, sedentary work as defined by 20 CFR 416.967(a). Limitations being the alternation between sitting and standing at will.

The fourth step in analyzing a dis ability claim requires an assessment of the Claimant's residual f unctional capacity ("RFC") and pas t relevant employment. 20 CF R 416.920(a)(4)(iv). An individual is not disabled if he/she can perform past relevant work. *Id*.; 20 CFR 416.960(b)(3). Past relevant work is work that has been performed within the past 15 years that was a substantial gainful activity and that lasted long enough for the individual to lear n the position. 20 CF R 416.960(b)(1). Vocational fact ors of age, education, and work experience, and whet her the past relevant employment exists in significant numbers in the national economy is not considered. 20 CFR 416.960(b)(3).

The Claimant's prior work history consis ts of work as a heavy equipment operator, foreman, and hi-lo driver. In considerat ion of the Claimant's testimony and the Occupational Code, the Claimant 's prior work is classified as semi-skilled, medium to heavy work. If the im pairment or combination of impairments does not limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disab ility does not exist. 20 CFR 416.920. In light of the entire record and the Claimant's RF C (see above), it is found that the Claimant is unable to perform past relevant work.

In Step 5, an assessment of the individua I's residual functional capacity and age, education, and work experience is consider ed to determine whet her an adjustment to other work can be made. 20 CFR 416.920(4)(v). At the time of hearing, the Claimant was 52 years old thus consider ed to be cl osely approaching advanced age for MA-P purposes. The Claimant has the equivalent of a high sc hool education with vocational training. Disability is found if an individual is unable to adjust to other work. Id. At this point in the analysis, the burden shifts from the Claimant to the Department to present proof that the Claimant has the residual capacity to substantial gainful employment. 20 CFR 416.960(2); Richardson v Sec of Healt h and Human Services, 735 F2d 962, 964 (CA 6, 1984). While a vocational exper t is not required, a f inding supported by substantial evidence that the individual has the vocational gualifications to perform O'Banner v Sec of Health and Human specific jobs is needed to meet the burden. Services, 587 F2d 321, 323 (CA 6, 1978). Medica I-Vocational guidelines found at 20 CFR Subpart P, Appendix II, may be used to satisfy the burden of proving that the individual can perform specific j obs in the national ec onomy. Heckler v Campbell, 461 US 458, 467 (1983); Kirk v Secretary, 667 F2d 524, 529 (CA 6, 1981) cert den 461 US 957 (1983).

In this case, the objective findings reveal disease, right knee deformity, lumbar sp bilateral cr epitus in t he knees along with spondylosis (compression fracture not exc luded), muscle spasms, positiv e straight leg raise, muscle spasms, severe difficulty heel and toe walking, alco hol abuse, cannabis abuse (sus tained full remission), and cocai ne dependence (full sustained r emission). After review of the entire re cord, and in c onsideration of the Claimant's age, education, work experience, and RFC, an d using the Medical-Vocational Guidelines [20 CF R 404, Subpart P, Appendix II] as a guide, specifically Rule 201.14, it is found that the Claimant is disabled for purposes of the MA-P program at Step 5.

The State Disability Assist ance program, which pr ovides financial assistance for disabled persons, was established by 2004 PA 344. The Depa rtment administers the SDA program pursuant to MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. Department policie s are found in BAM, BEM, and RFT. A person is considered disabled for SDA purposes if the person has a phys ical or menta I impairment which m eets federal SSI dis ability standards for at least ninety days. Receipt of SSI or RSDI benefit s based on disability or blindness, or the receipt of MA benefits based on disability or blindness automatically qualifies an individual as disabled for purposes of the SDA program.

In this case, the Claimant is found disa bled for purposes of the MA-P program; therefore, he is found disabled for purposes of SDA benefit program.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law finds the Claimant disabled for purposes of the MA-P and SDA benefit programs.

Accordingly, It is ORDERED:

- 1. The Department's determination is REVERSED.
- 2. The Department shall initiate processing of the November 30, 2011 application to determine if all other non-medical criteria are met and inform the Claimant of the determination in accordance with Department policy.
- 3. The Department shall supplement for any lost lost benefits (if any) that the Claimant was entitled to receive if otherwise eligib le and qualifie d in accordance with Department policy.
- 4. The Department shall review the Claimant's continued eligibility in accordance with Department policy in October 2013 in accordance with Department policy.

Date Signed: September 5, 2012

Date Mailed: September 5, 2012

NOTICE: Michigan Administrative Hearing Syst em (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a par ty within 30 days of the mailing date of this Dec ision and Order . MAHS will not order a rehearing or reconsideration on the Department's mo tion where the final decis ion cannot be implemented within 90 days of the filing of the original request. (60 days for FAP cases)

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a ti mely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing <u>MAY</u> be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration MAY be granted for any of the following reasons:
 - misapplication of manual policy or law in the hearing decision,
 - typographical errors, mathematical error, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
 - the failure of the ALJ to address other relevant issues in the hearing decision.

Request must be submitted through the local DHS office or directly to MAHS by mail at Michigan Administrative Hearings
