STATE OF MICHIGAN MICHIGAN ADMINISTRATIVE HEARING SYSTEM FOR THE DEPARTMENT OF COMMUNITY HEALTH

P.O. Box 30763, Lansing, MI 48909 (877) 833-0870; Fax: (517) 334-9505

IN THE MATTER OF:

Appellant

Docket No. 2012-47953 QHP Case No.

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon the Appellant's request for a hearing.

After due notice, a hearing was held on the Appellant was represented by Health Care of Michigan was represented by Inquiry Dispute Appeals Resolution Coordinators. Health Care of Michigan is a Department of Community Health contracted Medicaid Health Plan (MHP).

ISSUE

Did the MHP properly deny the Appellant's request for speech therapy services?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- 1. The Appellant is an Medicaid beneficiary.
- 2. On speech therapy services for the Appellant with a copy of a Speech and Language Pathology Initial Evaluation.
- 3. The Appellant has been diagnosed with receptive-expressive language delay.
- 4. On **Sector 1** the MHP sent the Appellant notice that the request for outpatient speech therapy was denied because speech therapy is not covered to treat delays in speech development. The notice indicated that this service may be provided through another public agency via the intermediate school district. The notice also stated that under the Michigan Department of Community Health Medicaid Provider Manual policy, speech therapy is not covered when required to be provided by

Docket No. 2012-47953 QHP Decision and Order

school based services or when provided to meet developmental milestones.
5. The Appellant receives some speech therapy services at school.
6. On a sequest for Hearing was submitted on the Appellant's behalf.

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

On May 30, 1997, the Department received approval from the Health Care Financing Administration, U.S. Department of Health and Human Services, allowing Michigan to restrict Medicaid beneficiaries' choice to obtain medical services only from specified Medicaid Health Plans.

The Respondent is one of those Medicaid Health Plans.

The covered services that the Contractor has available for enrollees must include, at a minimum, the covered services listed below (List omitted by Administrative Law Judge). The Contractor may limit services to those which are medically necessary and appropriate, and which conform to professionally accepted standards of care. Contractors must operate consistent with all applicable Medicaid provider manuals and publications for coverage(s) and limitations. (Emphasis added by ALJ) If new services are added to the Michigan Medicaid Program, or if services are expanded, eliminated, or otherwise changed, the Contractor must implement the changes consistent with State direction in accordance with the provisions of Contract Section 1-Z.

> Article II-G, Scope of Comprehensive Benefit Package. MDCH contract (Contract) with the Medicaid Health Plans, September 30, 2004.

The major components of the Contractor's utilization management plan must encompass, at a minimum, the following:

• Written policies with review decision criteria and

procedures that conform to managed health care industry standards and processes.

- A formal utilization review committee directed by the Contractor's medical director to oversee the utilization review process.
- Sufficient resources to regularly review the effectiveness of the utilization review process and to make changes to the process as needed.
- An annual review and reporting of utilization review activities and outcomes/interventions from the review.

The Contractor must establish and use a written prior approval policy and procedure for utilization management purposes. The Contractor may not use such policies and procedures to avoid providing medically necessary services within the coverage(s) established under the Contract. The policy must ensure that the review criteria for authorization decisions are applied consistently and require that the reviewer consult with the requesting provider when appropriate. The policy must also require that utilization management decisions be made by a health care professional who has appropriate clinical expertise regarding the service under review.

Article II-P, Utilization Management, Contract, September 30, 2004.

As stated in the Department-MHP contract language above, a MHP, "must operate consistent with all applicable Medicaid Provider Manuals and publications for coverages and limitations." The pertinent sections of the Michigan Medicaid Provider Manual are as follows:

5.3 SPEECH THERAPY

The terms speech therapy, speech-language pathology, speech-language therapy, and therapy are used to mean speech and language rehabilitation services and speech-language therapy.

MDCH covers speech-language therapy provided in the outpatient setting. MDCH only reimburses services for speech-language therapy when provided by:

• A speech-language pathologist (SLP) with a current Certificate of Clinical Competence (CCC).

- An appropriately supervised SLP candidate (i.e., in their clinical fellowship year [CFY]) or having completed all requirements but has not obtained a CCC. All documentation must be reviewed and signed by the appropriately credentialed supervising SLP.
- A student completing his clinical affiliation under direct supervision of (i.e., in the presence of) an SLP having a current CCC. All documentation must be reviewed and signed by the appropriately credentialed supervising SLP.

MDCH expects that all SLPs will utilize the most ethically appropriate therapy within their scope of practice as defined by Michigan law and/or the appropriate national professional association.

For all beneficiaries of all ages, speech therapy must relate to a medical diagnosis, and is limited to services for:

- Articulation
- Language
- Rhythm
- Swallowing
- Training in the use of an speech-generating device
- Training in the use of an oral-pharyngeal prosthesis
- Voice

For CSHCS beneficiaries (i.e., those not enrolled in Medicaid; only enrolled with CSHCS), therapy must be directly related to the CSHCS-eligible diagnosis(es) and prescribed by the specialty physician who is overseeing the care of the beneficiary.

Therapy must be reasonable, medically necessary and expected to result in an improvement and/or elimination of the stated problem within a reasonable amount of time (i.e., when treatment is due to a recent change in medical or functional status affecting speech, and the beneficiary would experience a reduction in medical or functional status without therapy).

Speech therapy services must be skilled (i.e., require the skills, knowledge and education of a certified SLP to assess the beneficiary for deficits, develop a treatment program and provide therapy). Interventions that could be provided by another practitioner (e.g., teacher, registered nurse [RN],

licensed physical therapist [LPT], registered occupational therapist [OTR], family member, or caregiver) would not be reimbursed as speech therapy by MDCH.

For beneficiaries of all ages, therapy is **not** covered:

- When provided by an independent SLP.
- For educational, vocational, social/emotional, or recreational purposes.
- If services are required to be provided by another public agency (e.g., PIHP/CMHSP provider, SBS).
- When intended to improve communication skills beyond premorbid levels (e.g., beyond the functional communication status prior to the onset of a new diagnosis or change in medical status).
- If it requires PA but is rendered before PA is approved.
- If it is habilitative. Habilitative treatment includes teaching someone communication skills for the first time without compensatory techniques or processes. This may include syntax or semantics (which are developmental) or articulation errors that are within the normal developmental process.
- If it is designed to facilitate the normal progression of development without compensatory techniques or processes.
- If continuation is maintenance in nature.
- If provided to meet developmental milestones.
- If Medicare does not consider the service medically necessary.

5.3.A. DUPLICATION OF SERVICES

Some areas (e.g., dysphagia, assistive technology) may appropriately be addressed by more than one discipline (e.g., OT, PT, speech therapy) in more than one setting. MDCH does not cover duplication of services, i.e., where two disciplines are working on similar areas/goals. It is the treating therapist's responsibility to communicate with other practitioners, coordinate services, and document this in his reports.

5.3.B. SERVICES TO SCHOOL-AGED BENEFICIARIES

School-aged beneficiaries may be eligible to receive speechlanguage therapy through multiple sources. Educational speech is expected to be provided by the school system and is not covered by MDCH or CSHCS. Examples of educational speech include enhancing vocabulary, improving sentence structure, improving reading, increasing attention span, and identifying colors and numbers. Only medically necessary therapy may be provided in the outpatient setting. Coordination between all speech therapy providers should be continuous to ensure a smooth transition between sources.

Outpatient therapy provided to school-aged children during the summer months in order to maintain the therapy services provided in the school are considered a continuation of therapy services when there is no change in beneficiary diagnosis or function. Prior authorization is required before initiating a continuation of therapy.

> Department of Community Health, Medicaid Provider Manual, Outpatient Therapy Section Version Date: January 1, 2012, Pages 19-20.

The Inquiry Dispute Appeals Resolution Coordinators explained that the requested speech therapy services were denied based upon the Medicaid Provider Manual policy, which does not allow for coverage to treat delays in speech development or when required to be provided by school based services. (Inquiry Dispute Appeals Resolution Coordinator Testimony) The prior authorization request indicates that the speech therapy services are being requested to treat the diagnosis of receptive-expressive language delay.

The Appellant's **provide** testified that the Appellant is going to speech therapy in school, but it is not enough and does not include one-on-one sessions. She explained that while the Appellant has Autism, ADHD, and delayed speech, he has the ability to learn. The Appellant's **provide** also noted there are additional difficulties because the Appellant speaks Arabic. She testified that the Appellant made progress when he received additional speech therapy services when he was hospitalized, and that the Appellant's doctor strongly recommends additional speech therapy services. The Appellant's has been trying for the past year to help the Appellant get the services he

needs.

While this ALJ sympathizes with the Appellant's circumstances, Medicaid policy clearly states that speech therapy that is habilitative, developmental, or required to be provided by another public agency is not covered. Based upon available evidence, the requested therapy services are habilitative and developmental. Further, speech therapy services are being provided to the Appellant by the school district. Accordingly, the MHP denial was consistent with the Medicaid policy and must be upheld.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, decides that the MHP properly denied the Appellant's request for speech therapy services.

IT IS THEREFORE ORDERED that:

The Medicaid Health Plan's decision is AFFIRMED.

Colleen Lack Administrative Law Judge for Olga Dazzo, Director Michigan Department of Community Health
