MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

[REDACTED]

Reg. No.: 201249010
Issue No.: 2009
Case No.: [REDACTED]
Hearing Date: July 18, 2012
County: Bay

ADMINISTRATIVE LAW JUDGE: William A. Sundquist

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon the Claimant's request for a hearing. After due notice, a telephone hearing was held on July 18, 2012. Claimant appeared with his authorized hearings representative, [REDACTED]. Participants on behalf of the Department of Human Services (Department) included [REDACTED].

The record was extended 90 days for a 2nd SHRT review of medical reports introduced at the hearing. (Claimant Exhibit A).

ISSUE

Was disability, as defined below, medically established?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

1. Claimant's MA-P (with 3 months retro)/SDA application on March 1, 2012, was denied on April 23, 2012 per BEM 260, and requested a hearing on April 27, 2012.
2. Vocational factors: Age [REDACTED] with a [REDACTED] grade education, and history of unskilled work as a janitor and parking lot cleaner (DHS Exhibit A, Page 7).
3. Claimant has been still working for the last 2 years, 5-7 days a week, 4 to 5 hours a day at minimum wage earning an average of \$600/month.

4. Disability is alleged due to a combination severe mental impairment of major depression, Bipolar Disorder and anger management (DHS Exhibit A, Page 31).
5. Medical reports of record state the Claimant on:
 - a. July 7, 2011, has a GAF score of 65 (DHS Exhibit A, Page 1).
 - b. December 14, 2011, his mood and affect are appropriate; that his thought processes and perceptions are appropriate; and that he is oriented to time, place, person and situation (DHS Exhibit A, Page 23).
 - c. January 11, 2012, is oriented to time, place and person (DHS Exhibit A, Page 19).
6. State Hearing Review Team decision dated June 15, 2012 states the Claimant's impairments do not meet/equal a Social Security listing (DHS Exhibit A, Page 31).

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

Facts above are undisputed.

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further. ...20 CFR 416.912(a).

The burden of proof is on the claimant to establish disability in accordance with the 5 step process below. ...20 CFR 416.912(a).

When determining disability, the federal regulations are used as a guideline and require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, disability is not denied. The evidence of record established the Claimant has not been engaged in substantial gainful activities with his current part-time employment with average monthly earnings of \$600.

At Step 2, disability is denied. The medical evidence of record, on date of application, does not establish the Claimant's significant functional incapacity to perform basic work activities due to a combination severe mental impairment for a one (1) continuous duration, as defined below.

Severe/Non-Severe Impairment

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

Non-severe impairment(s). An impairment or combination of impairments is not severe if it does not significantly limit your physical or mental ability to do basic work activities. 20 CFR 416.921(a).

Basic work activities. When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include:

1. Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
2. Capacities for seeing, hearing, and speaking;
3. Understanding, carrying out, and remembering simple instructions;
4. Use of judgment;
5. Responding appropriately to supervision, co-workers and usual work situations; and
6. Dealing with changes in a routine work setting. 20 CFR 416.921(b).

SEVERE IMPAIRMENT

To qualify for MA-P, claimant must first satisfy both the gainful work and the duration criteria (20 CFR 416.920(a)) before further review under severity criteria. If claimant does not have any impairment or combination of impairments which significantly limits physical or mental ability to do basic work activities, an ultimately favorable disability determination cannot result. (20 CFR 416.920(c)).

The medical evidence of record establish the Claimant's GAF score of 65 in July 2011, This score is considered a mild mental impairment with occupational-functioning (not severe). DSM-IV (4th edition-revised).

The Claimant testified that he looked over the medical reports of record; that there is no medical statement that he is unable to do any work for a 1 year continuous duration, and that they do not provide medical assessments of his work limitations.

Whether an individual has one or a combination of medical impairments, the non-severe or severe impairment determination is the same. The medical evidence of record must establish, on date of application, a significant functional incapacity to perform basic work activities for the required duration.

The medical reports of record are mostly examination, diagnostic, and treatment reports. They do not provide medical assessments of Claimant's mental limitations relative to his functional incapacity to perform basic work activities, as defined above. 20 CFR 416.913(c)(1) and (2). Stated differently, does the combination mental impairment medically impair the Claimant slightly, mildly, moderately (non-severe impairment, as defined above) or severely, as defined above?

The medical evidence of record does not establish a combination severe mental impairment meeting the one year continuous duration. It established a non-severe impairment.

If disability had not already been denied at Step 2, it would also be denied at Step 3. The medical evidence of record, on date of application, does not establish the Claimant's impairments meet/equal a Social Security listing for the required duration.

If disability had not already been denied at Step 2, it would also be denied at Step 4. The medical evidence of record, on date of application, does not establish the Claimant's significant functional incapacity, despite his impairments, to perform any of his current work for the required one year continuous duration.

At Step 5 the burden of proof shifts to the Department of Human Services (DHS) to establish the Claimant's RFC.

If disability had not already been denied at Step 2, it would also be denied at Step 5. The medical evidence of record, on date of application, established the Claimant residual functional capacity (RFC), despite his impairments, to perform other work in the National Economy for the required 1 year continuous duration.

...Your residual functional capacity is what you can still do despite limitations. If you have more than one impairment, we will consider all of your impairment(s) of which we are aware. We will consider your ability to meet certain demands of jobs, such as physical demands, mental demands, sensory requirements, and other functions, as described in paragraphs (b), (c) and (d) of this section. Residual functional capacity is an assessment based on all of the relevant evidence.... 20 CFR 416.945(a).

...To determine the physical exertion requirements of work in the national economy, we classify jobs as sedentary, light, medium, heavy, and very heavy. These terms have the same meaning as they have in the Dictionary of Occupational Titles, published by the Department of Labor.... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

The medical evidence of record, on date of application, establish the Claimant has a RFC for less strenuous work than his past work, such as sedentary work, as defined above. Under the Medical-Vocational Guidelines, Rule 201.27, a younger individual age 21, with high school education, and an unskilled work history who is limited to sedentary work is not considered disabled.

Therefore, disability has not been establish at Step 2 and also would not be established at Steps 3, 4 and 5 by the competent, material and substantial evidence on the whole record.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides disability was not medically established.

Accordingly, MA-P denial is **UPHELD**.
