

STATE OF MICHIGAN  
MICHIGAN ADMINISTRATIVE HEARING SYSTEM  
ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES

**IN THE MATTER OF:**

[REDACTED]

Reg. No: 2012-58413

Issue No: 2009; 4031

[REDACTED]

**ADMINISTRATIVE LAW JUDGE:** Landis Y. Lain

**HEARING DECISION**

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on [REDACTED]. Claimant personally appeared and testified.

**ISSUE**

Did the Department of Human Services (the department) properly deny claimant's application for Medical Assistance (MA-P) and State Disability Assistance (SDA)?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On [REDACTED] claimant filed an application for Medical Assistance, retroactive Medical Assistance and State Disability Assistance benefits alleging disability.
2. On [REDACTED] the Medical Review Team denied claimant's application stating that claimant could perform other work.
3. On [REDACTED] the department caseworker sent claimant notice that her application was denied.
4. On [REDACTED] claimant filed a request for a hearing to contest the department's negative action.
5. On [REDACTED] the State Hearing Review Team again denied claimant's application stating in its analysis and recommendation: The claimant reported back and leg pain. She is obese and had some pitting edema in the lower extremities. Motor strength was diminished in the left

lower extremity to 4/5 and the left knee reflex was absent. Palpation of her back in [REDACTED] did not reveal pain and there were no paravertebral muscle spasms. Her blood pressure was poorly controlled, but there was no significant evidence of congestive heart failure. She reported being depressed, but thought processes were within normal limits and thought content was relevant. The claimant is not currently engaging in substantial gainful activity based on the information that is available in the file. The claimant's impairments do not meet/equal the intent or severity of a Social Security listing. The medical evidence of record indicates that the claimant retains the capacity to perform a wide range of simple, unskilled, light work. A finding about the capacity for prior work has not been made. However, this information is not material because all potentially applicable medical-vocational guidelines would direct a finding of not disabled given the claimant's age, education and residual functional capacity.

Therefore, based on the claimant's vocational profile (closely approaching advanced age a [REDACTED] 12<sup>th</sup> grade education and history of unskilled/semi-skilled work); MA-P is denied using Vocational Rule 202.13 as a guide. Retroactive MA-P was considered in this case and is also denied. SDA is denied per PEM 261 because the nature and severity of the claimant's impairments would not preclude work activity at the above stated level for 90 days.

6. Claimant is a [REDACTED] whose birth date is [REDACTED]. Claimant is 5'6" tall and weighs 256 pounds. Claimant is a high school graduate. Claimant is able to read and write and does have basic math skills.
7. Claimant last worked [REDACTED] as a home health care aid, [REDACTED] provider. Claimant has also worked as a telemarketer, doing elder care and [REDACTED] cashier/clerk.
8. Claimant alleges as disabling impairments: degenerative disk disease (DDD), depression, anxiety, rod in left leg, concentration problems and spondylosis.

### **CONCLUSIONS OF LAW**

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An opportunity for a hearing shall be granted to an applicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Clients have the right to contest a department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The department

will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

1. Medical history.
2. Clinical findings (such as the results of physical or mental status examinations);
3. Laboratory findings (such as blood pressure, X-rays);
4. Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

1. Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
2. Capacities for seeing, hearing, and speaking;
3. Understanding, carrying out, and remembering simple instructions;
4. Use of judgment;
5. Responding appropriately to supervision, co-workers and usual work situations; and
6. Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "disabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and is not disqualified from receiving disability at Step 1.

The subjective and objective medical evidence on the record indicates that claimant testified on the record that she lives with the person that she took care of and he supports her. She does errands and housekeeping for him. Claimant is single/divorced and has no children under 18 that live with her. Claimant has no income, but does receive food assistance program benefits. She has a driver's license and usually drives 2 to 3 times per week to the store, to run errands or to take the elderly gentlemen that she cares for to his appointments. Claimant testified she cooks one time per day and cooks things like T.V. dinners, roast, pork steak, potatoes and vegetables. Claimant grocery shops once weekly and needs help with heavy bags. She stated that her sister usually helps her grocery shop. Claimant testified that she sweeps, mops, vacuums, washes dishes and does laundry. She stated that she does crossword puzzles and plays cards as a hobby. She also watches television 6 hours per day. Claimant testified that she can stand for 30 minutes at a time and can sit for 20 minutes at a time. She can walk 200 feet, bend at the waist, shower and dress herself and tie her shoes, but not touch her toes or squat. Claimant testified that her knees hurt. Claimant stated that her level of pain on a scale of 1 to 10 without pain medication is a 10 and with medication is a 7 to 8. She is left handed and her hands and arms are fine. Claimant stated the heaviest weight she can carry is 15 to 20 pounds and if she has to carry something repetitively she can carry about 10 pounds. Claimant testified that she smokes one pack of cigarettes every 3 to 4 days and her doctor has told her to quit. She is not in a smoking cessation program, but is trying to quit. Claimant testified that on a typical day she gets up and cleans the house, showers, makes sure the elderly gentlemen gets his shower, eats a T.V. dinner, cooks, washes dishes in the evening and then goes to bed.

On [REDACTED], the claimant reported that she continued to work about [REDACTED] a month as a home health care aid. She was 66" and 261 pounds. Blood pressure was 150/100. She had a scar on her left knee. She had mild bronchial breath sounds that were clear to auscultation and symmetrical. There was prolongation of the expiratory phase. Heart sounds were normal. She had 1+ edema present in the left lower extremity. Peripheral pulses were intact. Grip strength and dexterity were intact. She had moderate difficulty with heel and toe walking and squatting, mild difficulty hopping on the right foot and she was unable to hop on the left foot. There was no paravertebral muscle spasm. Motor strength was diminished to 4/5 in the left lower extremity. Muscle tone was normal. Sensory was intact. She walked with a mild left limp without the use of an assistive device. The left knee reflex was absent. She had residual synovial thickening in the left knee due to trauma (records from DDS).

A mental status dated [REDACTED] showed the claimant's grooming and hygiene were good. Her gait was steady, but slightly uneven. Eye contact was appropriate. Thought process was spontaneous, well-organized and pertinent. She denied hallucinations, delusions, ideas of persecution and obsessions. Her mood was euthymic. Affect was full. The claimant reported significant depression, but on the day of the examination, her mood appeared happy and she laughed frequently during the interview. Her diagnosis was major depressive disorder, recurrent, mild. Axis V GAF

59 and her prognosis was guarded, but she would be able to manage her own funds (Pg. 155).

A mental status dated [REDACTED] showed the claimant's thought process was within normal limits. Thought content was relevant. She was tearful. Her affect was depressed, but appropriate (Pg. 77).

On [REDACTED], the claimant was seen for lower back pain and Dysthymia. Previous x-rays of the lumbar spine showed degenerative changes most pronounced at S1 level (Pg. 45). Her blood pressure initially was 125/107, but 133/73 when rechecked later. She was 266 pounds. Lungs were clear to auscultation bilaterally. Her mood and affect were appropriate. Palpation of the back did not reveal pain. She had 1+ pitting edema bilaterally (Pg. 44).

At Step 2, claimant has the burden of proof of establishing that she has a severely restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months. There is insufficient objective clinical medical evidence in the record that claimant suffers a severely restrictive physical or mental impairment. Claimant has reports of pain in multiple areas of her body; however, there are no corresponding clinical findings that support the reports of symptoms and limitations made by the claimant. There are no laboratory or x-ray findings listed in the file which support claimant's contention of disability. The clinical impression is that claimant is stable. There is no medical finding that claimant has any muscle atrophy or trauma, abnormality or injury that is consistent with a deteriorating condition. In short, claimant has restricted herself from tasks associated with occupational functioning based upon her reports of pain (symptoms) rather than medical findings. Reported symptoms are an insufficient basis upon which a finding that claimant has met the evidentiary burden of proof can be made. This Administrative Law Judge finds that the medical record is insufficient to establish that claimant has a severely restrictive physical impairment.

Claimant alleges the following disabling mental impairments: depression, anxiety and concentration problems.

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate increased mental demands associated with competitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

There is insufficient objective medical/psychiatric evidence in the record indicating claimant suffers severe mental limitations. There is no mental residual functional capacity assessment in the record. There is insufficient evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was oriented to time, person and place during the hearing. Claimant was able to answer all of the questions at the hearing and was

responsive to the questions. The evidentiary record is insufficient to find that claimant suffers a severely restrictive mental impairment. For these reasons, this Administrative Law Judge finds that claimant has failed to meet her burden of proof at Step 2. Claimant must be denied benefits at this step based upon her failure to meet the evidentiary burden.

If claimant had not been denied at Step 2, the analysis would proceed to Step 3 where the medical evidence of claimant's condition does not give rise to a finding that she would meet a statutory listing in the code of federal regulations.

If claimant had not already been denied at Step 2, this Administrative Law Judge would have to deny her again at Step 4 based upon her ability to perform her past relevant work. There is no evidence upon which this Administrative Law Judge could base a finding that claimant is unable to perform work in which she has engaged in, in the past. Therefore, if claimant had not already been denied at Step 2, he would be denied again at Step 4.

The Administrative Law Judge will continue to proceed through the sequential evaluation process to determine whether or not claimant has the residual functional capacity to perform some other less strenuous tasks than in her prior jobs.

At Step 5, the burden of proof shifts to the department to establish that claimant does not have residual functional capacity.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Claimant has submitted insufficient objective medical evidence that she lacks the residual functional capacity to perform some other less strenuous tasks than in her prior employment or that she is physically unable to do light or sedentary tasks if demanded of her. Claimant's activities of daily living do not appear to be very limited and she should be able to perform light or sedentary work even with her impairments. Claimant has failed to provide the necessary objective medical evidence to establish that she has a severe impairment or combination of impairments which prevent her from performing any level of work for a period of 12 months. The claimant's testimony as to her limitations indicates that she should be able to perform light or sedentary work.

There is insufficient objective medical/psychiatric evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was able to answer all the questions at the hearing and was responsive to the questions. Claimant was oriented to time, person and place during the hearing. Claimant's complaints of pain, while profound and credible, are out of proportion to the objective medical evidence contained in the file as it relates to claimant's ability to perform work. Therefore, this Administrative Law Judge finds that the objective medical evidence on the record does not establish that claimant has no residual functional capacity. Claimant is disqualified from receiving disability at Step 5 based upon the fact that she has not established by objective medical evidence that she cannot perform light or sedentary work even with her impairments. Under the Medical-Vocational guidelines, a person who is closely approaching advanced (age 53); with a high school education and an unskilled work history that is limited to light work is not considered disabled pursuant to Medical Vocational Rule 203.13.

It should be noted that claimant continues to smoke despite the fact that her doctor has told her to quit. Claimant is not in compliance with her treatment program.

If an individual fails to follow prescribed treatment which would be expected to restore their ability to engage in substantial activity without good cause there will not be a finding of disability.... 20 CFR 416.994(b)(4)(iv).

The department's Program Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1. Because the claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that claimant is unable to work for a period exceeding 90 days, the claimant does not meet the disability criteria for State Disability Assistance benefits either.

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with department policy when it determined that claimant was not eligible to receive Medical Assistance and/or State Disability Assistance.

**DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the department has appropriately established on the record that it was acting in compliance with department policy when it denied claimant's application for Medical Assistance, retroactive Medical Assistance and State Disability Assistance benefits. The claimant should be able to perform a wide range of light or sedentary work even with her impairments. The department has established its case by a preponderance of the evidence.

Accordingly, the department's decision is **AFFIRMED**.

Department of Human Services

Date Signed: [REDACTED]

Date Mailed: [REDACTED]

**NOTICE:** Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.
