When a client group receives more benefitsthan they are entitled to receive, theDepartment must atte mpt to rec oup the OI.Department of Human Services BridgesAdministrative Manual (BAM) 700 (2013).Department of Human Services Bridges

Suspected IPV means an OI exists for which all three of the following conditions exist:

- The client intentionally failed t o report information or intentionally gave incomplete or inaccurate information needed to make a correct benefit determination, and
- The client was clearly and co rrectly instructed regarding his or her reporting responsibilities, and
- The client has no apparent physical or mental impairment that limits his or her understanding or ability to fulfill their reporting responsibilities.

IPV is sus pected when there is clear and convinc ing evidenc e that the client has intentionally withheld or misr epresented information for t he purpose of establishing, maintaining, increasing or preventing reduct ion of program benefit s or eligibility. Department of Human Services Bridges Administrative Manual (BAM) 720 (2013).

The Department's OIG requests IPV hearings for cases when:

- benefit overissuanc es are not forwarded to the prosecutor,
- prosecution of welfare fraud is declined by the prosecutor for a reason other than lack of evidence, and
- the total overissuance amount is \$1000 or more, or
- the total overissuance amount is less than \$1000, and
 - the group has a previ ous intentional program violation, or
 - the alleged IPV involves FAP trafficking, or
 - the alleged fraud involves c oncurrent receipt of assistance, or
 - the alleged fraud is committed by a state/government employee.

A court or hearing decision that finds a client committed an IP V disqualifies that client from receiving certain program benefits. A disqualified reci pient remains a member of an active group as long as he lives with continue to receive benefits. BAM 720.

Clients who commit an IPV are disqualified for a standard di squalification period except when a court orders a different per iod, or except when the OI rel ates to MA. Refusal to repay will not cause denial of current or future MA if the criterit is otherwise eligible. Department of Human Servic es Bridges Administrative Manual (BAM) 710 (2009). Clients are disqualified for periods of one year for the first IPV, two years for the second IPV, lifetime disqualification for the third IPV, and ten y ears for a concurrent receipt of benefits. BAM 720.

Additionally, in order f or the Department to establish that IPV oc curred in this case the Department must prove all thr ee elements of the IPV: act, in tent, and ability. Thes e three elements are stated in detail in BAM 720, which is quoted above in full. *Id.*

If the Department fai Is to prove any one of the three elem ents, an IPV is not established. Id.

Looking first at what act must have occurred, there must be an intentional failure t o report information for the purpos e of obtaining benefits to which the customer is not entitled. A failure to act without any knowled ge that it is necessary for one to act, would not be an intentionally wrong act.

In this case it is clear that Respondent failed to report a change of address. When Respondent signed his application, he accepted an Information Booklet explaining all of his responsibilities under the benefits programs. This inc luded information about t reporting changes of address. D ept. Exh. 1, pp. 5-19. Accordingly, having considered all of the evidence as a whole, it is found and determined that Respondent knew he had a duty to report changes of address.

As it is found as fact that Respondent knew he had to report changes of address, and, it is undisputed that he did not report his change of address but continued receiving the same benefits, the first element of IPV is established.

Going on to the second IPV element, this element is whether Res pondent knew of his responsibility to report changes of address. As stated above, Respondent's signature on the Application for MA benefits indicate she knew, or should have known, of his responsibility to report information. Accordingly, having reviewed this evidence and all of the evidence in this case as a whole, it is found and determined that the Department has proved the second element required for an IPV.

Third, the Department must establis h t hat Respondent had no physical or mental impairment that would prevent him from fulfilling his reporting responsibility. Having reviewed all of the ev idence in this cas e as a whole, it is found and determined that t there is no evidence in t he record that supports a c onclusion t hat Respondent was mentally or physically impaired and could not fulfill h is responsibility. Accordingly, it is found and determined that the Department has proved the third IPV element in this case.

In summary, having t aken into consideration all of t he evidence in this c ase in its entirety, it is found and determined that the Department has established by clear and convincing evidence that an IPV of the F AP and MA programs occurred in this cas e. The Department's request for a finding of IPV is granted.
