ISSUE

Whether the Department of Human Se rvices (the department) properly denied Claimant's application for Medical Ass istance (MA-P), Retro-MA and State Dis ability Assistance (SDA)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) On May 17, 2012, Claimant filed an application for MA/Retro-MA and SDA benefits alleging disability.
- (2) On August 17, 2012, the Medical Re view Team (MRT) denied Claimant's application for MA-P/Retro-MA and SDA. (Department Exhibit A, pp 1-2).
- (3) On August 29, 2012, the department caseworker sent Claimant notice that her application was denied.
- (4) On September 6, 2012, Claimant filed a request for a hearing t o contest the department's negative action.

- (5) On October 17, 2012, the Stat e Hearing Review Team (SHRT) found Claimant was not disabled and retai ned the capacity to perform a wide range of light work. (Department Exhibit B, p 1).
- (6) Claimant has a his tory of degenerative disc disease, se vere leg impairments, nerve dam age, hypertension, asthma, I eft hand tendonitis, arthritis and depression.
- (7) On April 13, 2012, Claimant's primary care physician completed a medical statement diagnosing Claimant with low back pain, radiating to her left leg, degenerative disc dis ease and spinal st enosis. Claimant was taken off work indefinitely beginning 3/24/12, i ndicating Claimant could not stand or lift anything after falling at her home on 3/24/12. (D epartment Exhibit A, pp 14-15).
- On July 6, 2012, Claimant under went a medical evaluation on behalf of (8) the Disability Determination Services for a back injury. Claimant was able to walk on her heels but refused to walk on her toes. She could tandem walk and stand on either leg alone. She has ambulated with a limp for the past eight months, but otherwise had a normal gait. Her gait was compensated for pain. She was st able at station and appeared comfortable in the seated and supine positions. St raight leg raises were negative bilaterally in the seated and supine positions. She had a 12 year history of low bac k pain at a 4/10 on medication. She had a microdiscectomy in 2000, and has left radiculopathy and numbness to the toes, and muscle spasms in her lower extremities at night. (Department Exhibit A, pp 40-45).

CONCLUSIONS OF LAW

The Medic al Assistance (MA) program is est ablished by the Title XIX of the Socia I Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (formerly known as the Family Independ ence Agency) administers the MA pr ogram pursuant to MCL 400.10, *et seq*., and MC L 400.105. Department polic ies are found in the Bri dges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

The State Disability A ssistance (SDA) program which provides financial ass istance for disabled persons is established by 2004 PA 344. The Department of Human Service s (DHS or department) admin isters the SDA program pursuant to MCL 400.10, *et seq.*, and Mich Admin Code, Rules 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), th *e* Bridges Eligibilit y Manual (BEM) and the Reference Tables Manual (RFT).

Current legislative amendments to the Act delineate eligibility criteria as implemented by department policy set forth in program manual s. 2004 PA 344, Se c. 604, es tablishes the State Disability Assistance program. It reads in part:

Sec. 604 (1). The department sha II operate a state di sability assistance program. Except as provided in subsection (3), persons eligible for this program shall includ e needy citizens of the United States or aliens exempt from the Supplemental Security Income citizenship re quirement who are at least 18 years of age or emanc ipated minors meeting one or more of the following requirements:

(b) A per son with a physical or mental impairment whic h meets federal SSI disab ility standards, exce pt that the minimum duration of the dis ability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

Specifically, this Act provides minimal cash assistance to individuals with some type of severe, temporary disability which prevents him or her from engaging in substantial gainful work activity for at least ninety (90) days.

Under the Medicaid (MA) program:

"Disability" is:

... the inability to do any subs tantial gainful activity by reason of any medically dete rminable physical or mental impairment which c an be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

When determining disability, t he federal regulations require several factors to be considered, including: (1) the location/dur ation/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medi cation the applicant takes to relieve pain; (3) any treatment other than pain medication that the applicant has received to relieve pain; and (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be assessed to determine the extent of his or her functional limitations in light of the objective medical evidence presented. 20 CFR 416.929(c)(94).

In determining whet her you are disabled, we will consider all of your symptoms, including pain, and the extent to which y our symptoms can reasonably be accepted as consistent with objective m edical evidence, and other evi dence. 20 CF R 416.929(a). Pain or other symptoms may cause a limit ation of function bey ond that which can be determined on the basis of t he anatomical, physiological or psychological abnormalities considered alone. 20 CFR 416.945(e).

In evaluating the intensity and persistence of your s ymptoms, including pain, we will consider all of the available evidence, including your medical history, the medical sign s and laboratory findings and stat ements about how your symptoms affect you. We will then determine the extent to which your alleged functional limitations or restrictions due to pain or other symptoms c an reasonably be accepted as consistent with the medical signs and laboratory findings and other evidence to decide how y our symptoms affect your ability to work. 20 CFR 416.929(a).

The person claiming a physica I or mental disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinical/labor atory findings, diagnos is/prescribed treatment, prognosis for recovery and/or medical assessment of ability to do work-related activities or ability to reason and to make appropriate mental adjustments, if a mental disability is being alleged, 20 CF R 416.913. An individual's subjective pain complaint s are not, in and of the mselves, sufficient to establish h disability. 20 CF R 416.908 a nd 20 CF R 416.929. By the same token, a conclus ory statement by a physici an or mental health professional that an individual is disabled or blind is not sufficient without supporting medical evidence to establish disability. 20 CFR 416.929.

A set order is used to deter mine disability . Current work activity, severity of impairments, residual functional capacity, past wor k, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experienc e. 20 CFR 416.920(c).

If the impairment, or combination of impair ments, do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment. 20 CFR 416.929(a).

Medical reports should include -

- (1) Medical history.
- (2) Clinical findings (suc h as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of dis ease or injury based on its signs and symptoms). 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing bas ic work activities is evaluated. If an individual has the ability to perform basic work activities with out significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv). Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include –

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment ; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

The residual functional capac ity is what an individual can do desp ite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated. 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we class ify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor. 20 CFR 416.967.

Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Alt hough a sedentary job is defined as one which inv olves sitting, a certain am ount of walking and s tanding is often necessary in carrying out job duties. Jobs are sedent ary if walking and standing are required occas ionally and other sedent ary criteria are met. 20 CFR 416.967(a). Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds . Even though the weight lif ted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls. 20 CFR 416.967(b). Medium work involves lifting no more than 50 pounds at a time with frequent lifting or carrying of objects weighing up to 25 pounds. If someone can do medium work, we determine that he or she can also do sedentary and light work. 20 CFR 416.967(c). Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of objects we ighing up to 50 pounds. If someone can do heavy work, we determine that he or she c an also do medium, light, and sedentary work. 20 CFR 416.967(d).

The Administrative Law Judge is responsible for making the determination or decis ion about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other ev idence that support a medical source's statement of disability. 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is <u>not</u> required. These steps are:

- 1. Does the client perf orm Substantial Gainful Activit y (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
- Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the cli ent is ineligible for MA. If yes, the analys is c ontinues t o Step 3. 20 CF R 416.920(c).
- 3. Does the impairment appear on a special listing of impairments or are the cli ent's symptoms, signs, and laboratory findings at least equi valent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

- Can the client do the former work that he/she performed within the last 15 year s? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
- Does the client have the Residual Functional Capacity (RFC) to perform other work according to t he guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

Based on Finding of Fact #6-#10 above this Administrative Law Judge answers:

Step 1: No.

Step 2: Yes.

Step 3: Yes. Claimant has show n, by clear and convincing documentary evidenc e and credi ble testimony, her spina I impairments meet or equal Listing 1.04(A) and 1.04(C):

1.04 *Disorders of the Spine* (e.g., herniated nucleus pulposus, spinal arachnoiditis, spinal stenosis, osteoarthritis, degenerative disc disease, facet arthritis, vertebral fracture), resulting in compromise of a nerve root (including the cauda equine) or the spinal cord. With:

A. Evidence of nerve root compression c haracterized by neural-anatomic distribution of pain, limitation of motion of the spine, motor loss (atrophy with as sociated muscle weakness or muscle spasm) accompanied by sens ory or reflex loss and, if there is involvement of the lower back, positive straight-leg raising tests (sitting and supine).

AND

C. Lumbar spinal stenosis re sulting in pse udoclaudication, established by findings on a ppropriate medically acceptable imaging, manifested by chro nic nonradicular pain and weakness, and result ing in inabi lity to ambulate effectively, as defined in 1.00B2b.

DECISION AND ORDER

The Administrative Law Judge, based upon t he above findings of fact and conclusion s of law, decides the department erred in determining Claimant is not currently disabled for MA/Retro-MA and SDA eligibility purposes.

2012-74952/VLA

Accordingly, the department's decision is **REVERSED**, and it is ORDERED that:

- 1. The depart ment shall process Cla imant's May 17, 2012, MA/Retro-MA and SDA application, and shall award her all the benefits she may be entitled to receive, as long as she meets the remaining financial a nd non-financial eligibility factors.
- 2. The department shall rev iew Claimant's medica I cond ition for improvement in January, 2014, unless her Social Se curity Administration disability status is approved by that time.
- 3. The department shall obtain updated medical evidence from Claimant's treating physicians, physical therapists, pain clinic notes, etc. regarding her continued treatment, progress and prognosis at review.

It is SO ORDERED.
