IN THE MATTER OF:

Docket No. 2012-13591 EDW
Case No. 16344803

██████████,

Appellant.

_____ /

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 et seq. upon the Appellant's request for a hearing.

After due notice, a hearing was held on ██████████. ██████████, Appellant's daughter, appeared and testified on behalf of Appellant ██████████.

██████████, Special Projects Supervisor, appeared and testified on behalf of the Department of Community Health's (Department) waiver agency, the ██████████.

ISSUE

Did the Department's MI Choice Waiver Agency properly determine that it could not immediately assess the Appellant for the MI Choice Waiver program and then placed her on a waiting list?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. The Department contracts with ██████████ on Aging to provide MI Choice Waiver services to eligible beneficiaries.
2. ██████████ must implement the MI Choice Waiver program in accordance to Michigan's waiver agreement, Department policy and its contract with the Department.
3. The Appellant is an ██████ year-old woman, DOB ██████████, who suffers from dementia, and is seeking MI Choice Waiver services. (Exhibit 6 and testimony).
4. On ██████████, the waiver agency completed the Telephone Intake

Guidelines screening. The waiver agency determined that the Appellant passed the Telephone Intake Guidelines screening and she was placed on the waiting list. An Imminent Risk of Nursing Facility Placement Assessment was also completed, and the Appellant was not found to qualify for nursing facility diversion priority status as the result of scoring only a 7 on the Imminent Risk Assessment. (Exhibits 1, 3 &4).

5. On ██████████, ██████████ notified the Appellant in writing that the MI Choice Waiver program was currently at capacity; that she could not be evaluated for placement at that time; but, she had been placed on the MI Choice waiting list. (Exhibit 5).
6. On ██████████, MAHS received a Request for Hearing from Appellant signed by ██████████ ██████████ the Appellant's daughter/representative. (Exhibit 6).

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

This Appellant is claiming services through the Department's Home and Community Based Services for Elderly and Disabled (HCBS/ED). The waiver is called MI Choice in Michigan. The program is funded through the federal Centers for Medicare and Medicaid (formerly HCFA) to the Michigan Department of Community Health (Department). Regional agencies, in this case ██████████, function as the Department's administrative agency.

Waivers are intended to provide the flexibility needed to enable States to try new or different approaches to the efficient and cost-effective delivery of health care services, or to adapt their programs to the special needs of particular areas or groups of recipients. Waivers allow exceptions to State plan requirements and permit a State to implement innovative programs or activities on a time-limited basis, and subject to specific safeguards for the protection of recipients and the program. Detailed rules for waivers are set forth in subpart B of part 431, subpart A of part 440 and subpart G of part 441 of this chapter. *42 CFR 430.25(b)*

The MI Choice representative's witness ██████████ testified that on ██████████ a Telephone Intake Guidelines screening was completed by ██████████ one of their Resource Specialists. The information for the telephone screening was provided by one of Appellant's daughters, ██████████. The waiver agency determined that the

Appellant passed the Telephone Intake Guidelines screening. An Imminent Risk of Nursing Facility Placement Assessment was also completed, and the Appellant was not found to qualify for nursing facility diversion priority status as the result of scoring only a 7 on the Imminent Risk Assessment. Persons with a total score of 8 or more may qualify for diversion. Appellant was then placed on the MI Choice waiting list. (Exhibits 1 & 6).

The *Medicaid Provider Manual, MI Choice Waiver*, January 1, 2012, pp. 5-8, outlines the approved evaluation policy and the MI Choice waiting list policy:

3.2 TELEPHONE INTAKE GUIDELINES

The Telephone Intake Guidelines (TIG) is a list of questions designed to screen applicants for eligibility and further assessment. Additional probative questions are permissible when needed to clarify eligibility. The TIG does not, in itself, establish program eligibility. Use of the TIG is mandatory for MI Choice waiver agencies prior to placing applicants on a MI Choice waiting list when the agency is operating at its capacity. The date of the TIG contact establishes the chronological placement of the applicant on the waiting list. The TIG may be found on the MDCH website. (Refer to the Directory Appendix for website information.)

Applicants who request services in MI Choice must be screened by telephone using the TIG at the time of their request. If the caller is seeking services for another individual, the waiver agency shall either contact the applicant for whom services are being requested or complete the TIG to the extent possible using information known to the caller. For applicants who are deaf, hearing impaired, or otherwise unable to participate in a telephone interview, it is acceptable to use an interpreter, a third-party in the interview, or assistive technology to facilitate the exchange of information.

As a rule, nursing facility residents who are seeking to transition into MI Choice are not contacted by telephone but rather are interviewed in the nursing facility. For the purposes of establishing a point of reference for the waiting list, the date of the initial nursing facility visit shall be considered the same as conducting a TIG, so long as the functional and financial objectives of a TIG are met. (Refer to the Waiting Lists subsection for additional information.) Specifically, the interview must establish a reasonable expectation that the applicant will meet the functional and financial eligibility requirements of the MI Choice program within the next 60 days.

Applicants who are expected to be ineligible based on TIG information may request a face-to-face evaluation using the Michigan Medicaid Nursing Facility Level of Care Determination and financial eligibility

criteria. Such evaluations should be conducted as soon as possible, but must be done within 10 business days of the date the TIG was administered. MI Choice waiver agencies must issue an adverse action notice advising applicants of any and all appeal rights when the applicant appears ineligible either through the TIG or a face-to-face evaluation.

When an applicant appears to be functionally eligible based on the TIG, but is not expected to meet the financial eligibility requirements, the MI Choice waiver agency must place the applicant on the agency's waiting list if it is anticipated that the applicant will become financially eligible within 60 days. Individuals may be placed on the waiting lists of multiple waiver agencies.

The TIG is the only recognized tool accepted for telephonic screening of MI Choice applicants.

3.3 ENROLLMENT CAPACITY

MI Choice capacity is limited to the number of participants who can be adequately served under the annual legislative appropriation for the program. Enrollment capacity for each individual waiver agency is at the agency's discretion based on available funding and the expected costs of maintaining services to enrolled participants.

Capacity is not determined by an allocated number of program slots. While numbers of slots must be monitored for federal reporting purposes, waiver agencies are expected to enroll any applicant for whom they have resources to serve.

3.4 WAITING LISTS

Whenever the number of participants receiving services through MI Choice exceeds the existing program capacity, any screened applicant must be placed on the waiver agency's waiting list. Waiting lists must be actively maintained and managed by each MI Choice waiver agency. The enrollment process for the MI Choice program is not ever actually or constructively closed. The applicant's place on the waiting list is determined by priority category in the order described below. Within each category, an applicant is placed on the list in chronological order based on the date of their request for services. This is the only approved method of accessing waiver services when the waiver program is at capacity.

3.4.A. PRIORITY CATEGORIES

Applicants will be placed on a waiting list by priority category and then chronologically by date of request of services. Enrollment in MI Choice is

assigned on a first-come/first served basis using the following categories, listed in order of priority given.

Waiver agencies are required to conduct follow-up phone calls to all applicants on their waiting list. The calls are to determine the applicant's status, offer assistance in accessing alternative services, identify applicants who should be removed from the list, and identify applicants who might be in crisis or at imminent risk of admission to a nursing facility. Each applicant on the waiting list is to be contacted at least once every 90 days. Applicants in crisis or at risk require more frequent contacts. Each waiver agency is required to maintain a record of these follow-up contacts.

3.4.A.1. CHILDREN'S SPECIAL HEALTH CARE SERVICES (CSHCS) AGE EXPIRATIONS

This category includes only those applicants who continue to require Private Duty Nursing services at the time such coverage ends due to age restrictions under CSHCS.

3.4.A.2. NURSING FACILITY TRANSITIONS

Nursing facility residents who desire to transition to the community and will otherwise meet enrollment requirements for MI Choice qualify for this priority status and are eligible to receive assistance with supports coordination, transition activities, and transition costs. Priority status is not given to applicants whose service and support needs can be fully met by existing State Plan services.

3.4.A.3. ADULT PROTECTIVE SERVICES (APS) AND DIVERSIONS

An applicant with an active Adult Protective Services (APS) case is given priority when critical needs can be addressed by MI Choice services. It is not expected that MI Choice waiver agencies solicit APS cases, but priority is given when necessary.

An applicant is eligible for diversion priority if they are living in the community or are being released from an acute care setting and are found to be at imminent risk of nursing facility admission. Imminent risk of placement in a nursing facility is determined using the Imminent Risk Assessment (IRA), an evaluation developed by MDCH. Use of the IRA is essential in providing an objective differentiation between those applicants at risk of a nursing facility placement and those at imminent risk of such a placement. Only applicants found to meet the standard of imminent risk are given priority status on the waiting list. Applicants may request that a subsequent IRA be performed upon a change of condition or circumstance.

Supports coordinators must administer the IRA in person. The design of the tool makes telephone contact insufficient to make a valid determination. Waiver agencies must submit a request for diversion status for an applicant to MDCH. A final approval of a diversion request is made by MDCH.

3.4.A.4. CHRONOLOGICAL ORDER BY SERVICE REQUEST DATE

This category includes applicants who do not meet any of the above priority categories or for whom prioritizing information is not known. As stated, applicants will be placed on the waiting list in the chronological order that they requested services as documented by the date of TIG completion or initial nursing facility interview.

The Appellant's daughter ██████████ testified that she found one discrepancy in the Telephone Intake Guidelines screening form. (Exhibit 3). ██████████ referred to the questions on page 2 under the heading Door 6. ██████████ felt that verbal or physical abuse within the past 7 days should have been marked yes, as her mother the Appellant has outbursts. ██████████ was also concerned that her mother's finances were dwindling and she was about \$800 per month short after her mother's rent went up. ██████████ stated she believed she might have to put her mother in a nursing home before she could be placed in the MI Choice Waiver program.

A review of the *MI Choice Waiver* policies contained in the Medicaid Provider Manual finds that the ██████████ properly placed the Appellant on the MI Choice program waiting list. The information gathered by ██████████ at the time Appellant's imminent risk assessment was done supports the decision to place Appellant on the waiting list. The testimony of the Appellant's daughter does not support additional points for the imminent risk assessment.

██████████ only expressed concern with the scoring on the TIG which the Appellant actually passed. So the fact that the TIG form could have indicated a yes for verbal abuse under Door 6 would not have affected the score on the imminent risk assessment. A change on the TIG would not have made Appellant eligible for a diversion from the waiting list.

The MI Choice agencies and this Administrative Law Judge are bound by the MI Choice program policy. In addition, this Administrative Law Judge possesses no equitable jurisdiction to grant exceptions to Medicaid, Department and MI Choice program policy.

The MI Choice Waiver Agency provided sufficient evidence that it implemented the MI Choice waiting list procedure in the manner in which CMS has approved and in accordance to Department policy; therefore, its actions were proper.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, decides that the MI Choice Waiver Agency properly denied immediate assessment of the Appellant and placed the Appellant on the waiting list.

IT IS THEREFORE ORDERED that:

The Department's decision is **AFFIRMED**.
