IN THE MATTER OF:

██████████,

Appellant

Docket No. 2012-15073 HHS

██████████

██████████

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon the Appellant's request for a hearing.

After due notice, a hearing was held on ██████████. The Appellant was represented by ██████████, MSW, LMSW. She had no witnesses. ██████████, Appeals Review Officer, represented the Department. Her witnesses were ██████████, ASW and ██████████, ASW supervisor.

PRELIMINARY MATTER

At hearing the Appellant offered proposed exhibit 2 – discharge documents from Stone Crest Center a psychiatric hospital in Detroit showing a 6-day stay at that facility by a “compliant” Appellant in ██████████. The admission of this late arriving document was taken under advisement at hearing pending receipt. It is hereby not admitted for lack of relevance. The Department’s objection is affirmed.

At hearing a DHS-54A Medical Needs form dated ██████████, which certified the Appellant’s need for assistance with the ADLs of bathing and grooming as well as the IADL of medication management, was found and entered into the record without objection as joint Exhibit #3.

ISSUE

Did the Department properly terminate the Appellant’s Home Help Services (HHS)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. The Appellant is a disabled [REDACTED]-year-old Medicaid beneficiary. (Appellant's Exhibit #1)
2. The Appellant alleges disability through schizophrenia and paranoia. (See Testimony, Department's Exhibit A, page 11)
3. The Appellant's representative said that the Appellant cannot perform the ADL of grooming because the Appellant cannot reach up. Owing to medication she is frequently dizzy. (See Testimony)
4. The Department's witness testified that she observed the Appellant on in-home assessment [REDACTED] and that she did not appear to need assistance with any ADL. She told the ASW she used "Motrin" for low back pain. (See Testimony and Department's Exhibit A, p. 9)
5. The Department witness, ASW [REDACTED], sent the Appellant an Advance Negative Action Notice on November 14, 2011, terminating services effective November 23, 2011. (Department's Exhibit A, pages 2, 12)
6. The Appellant's further appeal rights were contained in the Advance Negative Action Notice.
7. The request for hearing on the instant appeal was received by the Michigan Administrative Hearing System for the Department of Community Health on [REDACTED].

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a medical professional.

COMPREHENSIVE ASSESSMENT

The DHS-324, Adult Services Comprehensive Assessment is the primary tool for determining need for services. The comprehensive assessment must be completed on all open independent living services cases. ASCAP, the automated workload management system, provides the format for the comprehensive assessment and all information must be entered on the computer program.

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- The assessment may also include an interview with the individual who will be providing home help services.
- A new face-to-face assessment is required if there is a request for an increase in services before payment is authorized.
- A face-to-face assessment is required on all transfer-in cases before a payment is authorized.
- The assessment must be updated as often as necessary, but minimally at the six month review and annual redetermination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the department record.

Adult Service Manual (ASM), §120, page 1 of 6,
11-1-2011.

Changes in the home help eligibility criteria:

Home Help Eligibility Criteria

To qualify for home help services, an individual must require assistance with at least one activity of daily living (ADL) assessed at a level 3 or greater. The change in policy must be applied to any new cases opened on or after October 1, 2011, and to all ongoing cases as of October 1, 2011.

Comprehensive Assessment Required Before Closure

Clients currently receiving home help services must be assessed at the next face-to-face contact in the client's home to determine continued eligibility. If the adult services specialist has a face-to-face contact in the client's home prior to the next scheduled review/redetermination, an assessment of need must take place at that time.

Example: A face-to-face review was completed in August 2011; the next scheduled review will be in February 2012. The specialist meets with the client in his/her home for a provider interview in December 2011. Previous assessments indicate the client only needing assistance with instrumental activities of daily living (IADL). A new comprehensive assessment must be completed on this client.

If the assessment determines a need for an ADL at level 3 or greater but these services are **not** paid for by the department, or the client refuses to receive assistance, the client would **continue** to be eligible to receive IADL services.

If the client is receiving only IADLs and does **not** require assistance with at least one ADL, the client no longer meets eligibility for home help services and the case must close after negative action notice is provided.

Each month, beginning with October, 2011, clients with reviews due who only receive IADL services must take priority.

Negative Action Notice

The adult services specialist must provide a DHS-1212, Advance Negative Action notice, if the assessment determines the client is no longer eligible to receive home help services. The effective date of the negative action is ten business days after the date the notice is mailed to the client.

Right to Appeal

Clients have the right to request a hearing if they disagree with the assessment. If the client requests a hearing within ten business days, do not proceed with the negative action until after the result of the hearing.

Explain to the client that if the department is upheld, recoupment must take place back to the negative action date if payments continue. Provide the client with an option of continuing payment or suspending payment until after the hearing decision is rendered.

If the client requests a hearing after the 10-day notice and case closure has occurred, do not reopen the case pending the hearing decision. If the department's action is reversed,

the case will need to be reopened and payment re-established back to the effective date of the negative action. If the department's action is upheld, no further action is required.

Adult Service Bulletin (ASB) 2011-001;
Interim Policy Bulletin Independent Living Services (ILS)
Eligibility Criteria, pp. 1–3, October 1, 2011

The Department witness testified that on in-home assessment she observed the Appellant had no need for ADL assistance. She did not explain policy developments at the time of the in-home assessment and irrespective of a DHS-54A Medical Needs form showing a need for ADLs of bathing and grooming the ASW testified that she terminated the Appellant from the Home Help Program for lack of need with hands on assistance by DHS-1212 Advance Negative Action Notice 4 days later.

At hearing the Appellant's representative explained that the Appellant required assistance with "grooming and bathing" owing to back pain and medication-related dizziness. She said the Appellant has fainting spells and does not drive. She added that the Appellant was recently released from a psychiatric hospital owing to medication mismanagement.

It is the province of the ASW to determine eligibility for services; the ASM requires an in-home, comprehensive assessment of HHS recipients. Based on new policy an HHS recipient must utilize at least one (1) ADL requiring hands on service at the three (3) ranking or higher in order to remain eligible for HHS.

The Appellant failed to preponderate her burden of proof that the Department erred in terminating her HHS, because at the time of assessment she demonstrated no physical need for assistance. The testimony established that the Appellant was able to tend to her own personal care to the satisfaction of the ASW on in-home assessment – even though the implication of new policy concerning ADLs was not addressed with the Appellant at the face-to-face assessment.

The Appellant's representative said that the local Community Mental Health (CMH) provides a monthly visit to a psychiatrist for the Appellant.

It should be noted that even though the Appellant was ranked at a level (3) three for the IADL of medication management¹ that absent an ADL with a ranking of 3 or greater – assistance with that task is prohibited under the new interim policy. *Supra*.

¹ She takes several medications. See Department's Ex., A, pp. 4, 9, 12 and Appellant's Ex. #1

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, decides that the Department properly terminated the Appellant's HHS.

IT IS THEREFORE ORDERED that:

The Department's decision is **AFFIRMED**.
