ISSUE

Was disability, as defined below, medically established?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

1. On June 13, 2011, claimant was approved for interim MA-P, was denied regular MA-P on November 23, 2011 per BEM 260, and requested a hearing on December 2, 2011.
2. Claimant vocational factors are: age 43, 10th grade education, and semi-skilled sedentary work.
3. In June 2007, claimant was fired from her last job, and became an [REDACTED] recipient with exhaustion one year ago (February 2011).
4. On date of application, claimant alleged disability due to bi-polar disorder and schizophrenia.
5. Medical exam on September 7, 2011, states the claimant was diagnosed with a bi-polar disorder and ruled out schizo effective disorder, depressed type; and state a GAF score of 45-50 (Medical Packet, Page 14).

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (BAM), the Program Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Facts above are undisputed.

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

The burden of proof is on the claimant to establish disability in accordance with the 5 step process below. ...BAM 600.

When determining disability, the federal regulations are used as a guide and require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed

impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, disability is not denied. The evidence of record establishes that the claimant has not been engaged in substantial gainful work since June 2007 nor while an [REDACTED] [REDACTED] [REDACTED] [REDACTED] which expired one year ago (February 2011).

At Step 2, disability is denied. The medical evidence of record, on date of application, does not establish the claimant's significant inability to perform basic mental work activities for the required one year continuous duration, as defined below.

Severe/Non-Severe Impairment

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

Non-severe impairment(s). An impairment or combination of impairments is not severe if it does not significantly limit your physical or mental ability to do basic work activities. 20 CFR 416.921(a).

Basic work activities. When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include:

1. Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
2. Capacities for seeing, hearing, and speaking;

3. Understanding, carrying out, and remembering simple instructions;
4. Use of judgment;
5. Responding appropriately to supervision, co-workers and usual work situations; and
6. Dealing with changes in a routine work setting. 20 CFR 416.921(b).

The psychiatric evidence of record establishes the claimant's GAF score of 45-50 in September 2011. 50 and less is considered a severe impairment with job-functioning. 51 and above is considered a non-severe impairment with job-functioning. DSM IV (4th edition-revised).

Disability meeting the duration requirement of one **continuous** year has not been established by the preponderance of the medical evidence of record.

Therefore, disability has not been established at Step 2 by the competent, material and substantial evidence on the whole record.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that disability was medically established.

Accordingly, Medicaid denial is **UPHELD**.
