

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
FOR THE DEPARTMENT OF COMMUNITY HEALTH**

P.O. Box 30763, Lansing, MI 48909
(877) 833-0870; Fax: (517) 334-9505

IN THE MATTER OF:

██████████

Appellant

_____ /

Docket No. 2012-21829 HHS
Case No. ██████████

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge (ALJ) pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon the Appellant's request for a hearing.

After due notice, a hearing was held ██████████. ██████████ was represented by his sister, ██████████.

██████████, Appeals and Review Officer for the Department of Community Health, represented the Department. ██████████, Adult Services Worker was present as a Department witness. ██████████, Adult Services Supervisor, was present on behalf of the Department.

ISSUE

Did the Department properly terminate Home Help Services (HHS) payments to the Appellant?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. The Appellant is a Medicaid beneficiary who has been receiving adult Home Help Services.
2. The Appellant is cognitively limited. He has no known physical limitations.
3. The Appellant has been receiving assistance with housework, shopping, laundry and meal preparation through the Home Help Services program.
4. The Appellant still requires assistance with shopping, housework, laundry and meal preparation in order to reside in the community safely.

5. The Department of Human Services Specialist made a home call on [REDACTED], to complete an assessment following implementation of new Department policy.
6. The Department Specialist determined the Appellant was able to perform his own activities of daily living without physical assistance but requires verbal prompting, monitoring and supervision for many of the tasks. He is unable to manager his own money, prepare meals, shop unassisted, complete housework or laundry without physical assistance.
7. The Department sent the Appellant an Advance Negative Action Notice [REDACTED], informing him of the termination of HHS benefits, effective [REDACTED].
8. The Appellant appealed the determination on [REDACTED].

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

ELIGIBILITY FOR HOME HELP SERVICES

Home help services (HHS) are defined as those, which the Agency is paying for through Title XIX (Medicaid) funds. The customer must be eligible for Medicaid in order to receive these services.

Medicaid/Medical Aid (MA)

Verify the customer's Medicaid/Medical aid status.

The customer may be eligible for MA under one of the following:

- All requirements for MA have been met, **or**
- MA spend-down obligation has been met.

Necessity For Service

The adult services worker is responsible for determining the necessity and level of need for HHS based on:

- Customer choice.
- A complete comprehensive assessment and determination of the customer's need for personal care services.

- Verification of the customer's medical need by a Medicaid enrolled medical professional. The customer is responsible for obtaining the medical certification of need. The Medicaid provider identification number must be entered on the form by the medical provider. The Medical Needs form must be signed and dated by one of the following medical professionals:
 - Physician
 - Nurse Practitioner
 - Occupational Therapist
 - Physical Therapist

The physician is to certify that the customer's need for service is related to an existing medical condition. The physician does not prescribe or authorize personal care services.

If the Medical Needs form has not been returned, the adult services worker should follow-up with the customer and/or medical professional.

COMPREHENSIVE ASSESSMENT

The Adult Services Comprehensive Assessment (DHS-324) is the primary tool for determining need for services. The comprehensive assessment will be completed on all open cases, whether a home help payment will be made or not. ASCAP, the automated workload management system provides the format for the comprehensive assessment and all information will be entered on the computer program.

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the customer in his/her place of residence.
- An interview must be conducted with the caregiver, if applicable.
- Observe a copy of the customer's social security card.
- Observe a picture I.D. of the caregiver, if applicable.
- The assessment must be updated as often as necessary, but minimally at the six month review and annual re-determination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the department record.
- Follow specialized rules of confidentiality when ILS cases have companion APS cases.

Functional Assessment

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the HHS payment.

Conduct a functional assessment to determine the customer's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating
- Toileting
- Bathing
- Grooming
- Dressing
- Transferring
- Mobility

Instrumental Activities of Daily Living (IADL)

- Taking Medication
- Meal Preparation and Cleanup
- Shopping

- Laundry
- Housework

Functional Scale ADL's and IADL's are assessed according to the following five-point scale:

1. Independent
Performs the activity safely with no human assistance.
2. Verbal Assistance
Performs the activity with verbal assistance such as reminding, guiding or encouraging.
3. Some Human Assistance
Performs the activity with some direct physical assistance and/or assistive technology.
4. Much Human Assistance
Performs the activity with a great deal of human assistance and/or assistive technology.
5. Dependent
Does not perform the activity even with human assistance and/or assistive technology.

Note: HHS payments may only be authorized for needs assessed at the 3 level or greater.

Time and Task

The worker will allocate time for each task assessed a rank of 3 or higher, based on the interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a guide. The RTS can be found in ASCAP under the Payment module, Time and Task screen. When hours exceed the RTS rationale must be provided.

IADL Maximum Allowable Hours

There are monthly maximum hour limits on all IADLs except medication. The limits are as follows:

- Five hours/month for shopping
- Six hours/month for light housework

- Seven hours/month for laundry
- 25 hours/month for meal preparation.

These are maximums; as always, if the client needs fewer hours, that is what must be authorized. Hours should continue to be prorated in shared living arrangements. If there is a need for expanded hours, a request should be submitted to:

Service Plan Development

Address the following factors in the development of the service plan:

- The specific services to be provided, by whom and at what cost.
- The extent to which the Client does not perform activities essential to the caring for self. The intent of the Home Help program is to assist individuals to function as independently as possible. It is important to work with the recipient and the provider in developing a plan to achieve this goal.
- The kinds and amounts of activities required for the client's maintenance and functioning in the living environment.
- The availability or ability of a responsible relative or legal dependent of the client to perform the tasks the client does not perform. Authorize HHS only for those services or times which the responsible relative/legal dependent is unavailable or unable to provide.

Note: Unavailable means absence from the home, for employment or other legitimate reasons. Unable means the responsible person has disabilities of his/her own which prevent caregiving. These disabilities must be documented/verified by a medical professional on the DHS-54A.

- Do not authorize HHS payments to a responsible relative or legal dependent of the client.
- The extent to which others in the home are able and available to provide the needed services. Authorize HHS only for the benefit of the client and not for others in the home. If others are living in the home, prorate the IADL's by at least 1/2, more if appropriate.
- The availability of services currently provided free of charge. A written statement by the provider that he is no longer able to furnish the service at no cost is sufficient for payment to be authorized as long as the provider is not a responsible relative of the client.
- HHS may be authorized when the client is receiving other home care services if the services are not duplicative (same service for the same time period).

Adult Services Manual (ASM) 9-1-2008

The Department issued an Interim Policy Bulletin effective October 1, 2011. It states in pertinent part:

Home Help Eligibility Criteria

To qualify for home help services, an individual must require assistance with at least one activity of daily living (ADL) assessed at a level 3 or greater. The change in policy must be applied to any new cases opened on or after October 1, 2011, and to all ongoing cases as of October 1, 2011.

Comprehensive Assessment Required Before Closure

Clients currently receiving home help services must be assessed at the next face to face contact in the client's home to determine continued eligibility. If the adult services specialist has a face to face contact in the client's home prior to the next scheduled review/redetermination, an assessment of need must take place at that time.

Example: a face to face review was completed in August 2011; the next scheduled review will be in February 2012. The specialist meets with the client in his/her home for a provider interview in December 2011. Previous assessments indicate the client only needing assistance with instrumental activities of daily living (IADL). A new comprehensive assessment must be completed on this client.

If the assessment determines a need for an ADL at level 3 or greater but these services are not paid for by the department, or the client refuses to receive assistance, the client would continue to be eligible to receive IADL services.

If the client is receiving only IADLs and does not require assistance with at least one ADL, the client no longer meets eligibility for home help services and the case must close after negative action notice is provided.

DHS Interim Policy Bulletin 10/1/11

In this case the evidence of record establishes the Worker did conduct a comprehensive assessment at the [REDACTED], home call. The representative/provider was present for approximately the first 20 minutes of the assessment before she had to leave. The Worker did continue the assessment without the provider present. The Appellant was present. He resides with his mother, who was also present. The Appellant's representative lodged a complaint at hearing about the process, having attempted to schedule an appointment she was available to participate in completely, however, did not find the Department cooperative with the request. While the complaint articulates a valid concern, this ALJ has no authority to address it as the Appellant is his own legal guardian. In short, the Worker may address the issues directly with him if she elects to. Additionally, this ALJ is without authority to address complaints of lack of cooperation with services clients, their family members and/or providers. This must be addressed through DHS chain of command.

At the home call the Worker determined through her questions and the answers provided, as well as direct observations about the Appellant's physical condition, that he is able to complete his personal care without physical assistance. Specifically, he is able to bath, dress, attend to his own hygiene, toilet, transfer and walk independently. This ALJ concurs with the Department's determination. There is no medical evidence or other credible evidence sufficient to support a finding that the Appellant requires physical assistance with any activity of daily living. There was credible evidence presented by his representative that she must verbally assist, prompt and guide the Appellant with all important aspects of his life. This is found credible and is undoubtedly

true. Unfortunately, this program does not provide assistance for people who require this type of assistance (monitoring/supervision) to live safely in the community.

The evidence of record does not establish there is an issue of material fact in dispute. This ALJ did find the testimony presented on behalf of the Appellant credible. The Appellant requires verbal assistance to manage his life in the community due to his medical status. He requires physical assistance with instrumental activities of daily living; specifically, shopping, housework, laundry and meal preparation. Because of the recent policy change, the Appellant no longer is qualified for Home Help Services. This ALJ has no authority to disregard the policy or make exceptions.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that the Department has the support of policy for its termination of the Home Help Services benefits of the Appellant.

IT IS THEREFORE ORDERED that:

The Department's decision is **AFFIRMED**.
