ISSUE

Was disability, as defined below, medically established?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

1. Claimant applied for MA-P and 3 month retro on September 28, 2011, was denied on March 23, 2012 per BEM 260, and requested a hearing on June 19, 2012
2. Vocational factors: Age 58, 12th grade education, and semi/unskilled work experience in administrative office type work.
3. Last employment ended in May 2012, due to layoff with current UCB expected to exhaust in December 2012. She is currently working part-time 20 hours a week and looking for work.
4. Disabling symptoms: low back pain, legs swell from standing, and shortness of breath from walking.

5. Alleged disabling medical disorder(s): multiple physical impairments in combination (DHS exhibit A, page 40).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

Facts above are undisputed.

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

When determining disability, the federal regulations are used as a guideline and require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).

5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

The claimant had the burden of proof to establish disability in accordance with steps 1-4 above... 20CFR 416.912 (a). The burden of proof shifts to the DHS at Step 5... 20CFR 416.960 (c)(2).

Step 1

...If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b).

The evidence of record established that the claimant has engaged in substantial gainful part-time activity before and currently after her Medicaid application.

Substantial work activity is work activity that involves doing significant physical or mental activities. Your work may be substantial even if it is done on a part-time basis or if you do less, get paid less, or have less responsibility than when you worked before. 20 CFR 416.972 (a).

Therefore, the sequential evaluation is required to stop at step one

Step 2

If disability had not already been denied at step one, it would also be denied at step two.

In addition, claimant does receive unemployment compensation benefits. In order to receive unemployment compensation benefits under the federal regulations, a person must be monetarily eligible. They must be totally or partially unemployed. They must have an approvable job separation. Also, they must meet certain legal requirements which include being physically and mentally able to work, being available for and seeking work. This impairment or combination of impairments must have lasted or will last the durational requirement of 12 months or more from working. Claimant does expect to receive unemployment compensation benefits until December 2012.

Claimant testified that she worked after her pending Medicaid application 87 hours/month at █0/hour; that she has a residual functional capacity to do her past job as resident assistant for children over the age of 18, 24 hours a week; and that she is a current UCB recipient looking for work.

Therefore, medical disability has not been established at Step 1 by the competent, material and substantial evidence on the whole record.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides disability was not medically established.

Accordingly, denial is **UPHELD** and so ORDERED.
