

STATE OF MICHIGAN
STATE OFFICE OF ADMINISTRATIVE HEARINGS AND RULES

ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF: [REDACTED]

Claimant

Reg. No: 2008-23374
Issue No: 2009;4031
Case No: [REDACTED]
Load No: [REDACTED]
Hearing Date:
October 1, 2008
St. Clair County DHS

ADMINISTRATIVE LAW JUDGE: Jay W. Sexton

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held [REDACTED] October 1, 2008. Claimant personally appeared and testified under oath.

The department was represented by Colleen Palazolo (FIM) and Gloria Barbe (ES).

The Administrative Law Judge appeared by telephone from Lansing.

ISSUES

- (1) Did claimant establish a severe mental impairment expected to preclude him from substantial gainful work, **continuously**, for one year (MA-P) or 90 days (SDA)?
- (2) Did claimant establish a severe physical impairment expected to preclude him from substantial gainful work, **continuously**, for one year (MA-P) or 90 days (SDA)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

(1) Claimant is an MA-P/SDA applicant (January 21, 2008) who was denied by SHRT (July 16, 2008) due to claimant's failure to establish an impairment which meets the severity and duration requirements.

(2)

(3) Claimant has not performed Substantial Gainful Activity (SGA) since 2008 when he worked as a carwash laborer.

(4) Claimant has the following unable-to-work complaints:

- (a) Seizures;
- (b) Sickle Cell Anemia;
- (c) Bipolar Disorder.

(5) SHRT evaluated claimant's medical evidence as follows:

OBJECTIVE MEDICAL EVIDENCE (July 16, 2008)

Hospital records of 10/2007 indicate claimant was treated for a groin abscess. The records indicate he had a history of a seizure disorder and was on medication for the same.

ANALYSIS: Claimant alleges frequent seizures.

Please obtain the frequency of seizures from the claimant with specific dates and type of seizure (some seizure patients keep a journal or a calendar). Also, please obtain records of treatment from the physician treating him for seizures including records or EEG and lab work for anti-convulsive levels. Finally, claimant was noted to have been hospitalized in February 2008; please obtain discharge summary.

Also please verify the program involved. This case is for SDA, however it appears that it should be MA-P and SDA

(6) Claimant lives with his mother, and performs the following Activities of Daily Living (ADLs): dressing, bathing, cooking, dishwashing, light cleaning (sometimes), mopping, vacuuming and grocery shopping (needs help). Claimant does not use a cane, a walker, a wheelchair or a shower stool. Claimant does not wear a brace on his neck, his arms or his legs. Claimant was hospitalized in 2008 for treatment of his seizure disorder.

(7) Claimant does not have a valid driver's license and does not drive an automobile. Claimant is computer literate.

(8) The following medical/psychological records are persuasive:

(a) See the SHRT summary of medical evidence at paragraph #5, above.

(9) The probative medical evidence does not establish an acute (non-exertional) mental condition expected to prevent claimant from performing all customary work functions for the required period of time. Claimant testified that he has bipolar disorder, However, there are no psychiatric/psychological reports in the record. Also, claimant did not provide a DHS-49D or a DHS-49E to show his mental residual functional capacity.

(10) The probative medical evidence does not establish an acute (exertional) physical impairment expected to prevent claimant from performing all customary work functions for the required period of time. Although claimant alleges that he has seizures, he stated that he is taking seizure medication, which is not entirely successful. There is no documentary evidence in the record of the type of seizures claimant has along with specific dates. There are no records of any EEG tests or lab work for anti-convulsive levels.

(11) Claimant recently applied for federal disability benefits with the Social Security Administration. Social Security denied his application; claimant filed a timely appeal. His application is pending.

CONCLUSIONS OF LAW

CLAIMANT'S POSITION

Claimant thinks he is entitled to MA-P/SDA based on the impairments listed in paragraph #4, above.

DEPARTMENT'S POSITION

SHRT requested additional medical information in order to assess the severity of claimant's impairments. SHRT requested that claimant provide a seizure journal showing frequency of seizures and specific dates and types of seizures. SHRT also requested that claimant provide records from his treating physician, including records of any EEGs and lab work for anti-convulsive levels.

LEGAL BASE

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R

400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.

- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis,

what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "disabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR

404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

To determine how a severe mental impairment affects claimant's ability to work, the following regulations must be considered.

(a) **Activities of Daily Living.**

...including adaptive activities such as cleaning, shopping, cooking, taking public transportation, paying bills, maintaining a residence, caring appropriately for one's grooming and hygiene, using telephones and directories, using a post office, etc. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(1).

(b) **Social Functioning.**

...refers to an individual's capacity to interact independently, appropriately, effectively, and on a sustained basis with other individuals. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(2).

Social functioning includes the ability to get along with others, such as family members, friends, neighbors, grocery clerks, landlords, or bus drivers. You may demonstrate impaired social functioning by, for example, a history of altercations, evictions, firings, fear of strangers, avoidance of interpersonal relationships, or social isolation. You may exhibit strength in social functioning by such things as your ability to initiate social contacts with others, communicate clearly with others, or interact and actively participate in group activities. We also need to consider cooperative behaviors, consideration for others, awareness of others' feelings, and social maturity. Social functioning in work situations may involve interactions with the public, responding appropriately to persons in authority (e.g., supervisors), or cooperative behaviors involving coworkers. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(2).

(c) **Concentration, Persistence or Pace.**

...refers to the ability to sustain focused attention and concentration sufficiently long to permit the timely and appropriate completion of tasks commonly found in work settings. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(3).

Limitations in concentration, persistence, or pace are best observed in work settings, but may also be reflected by limitations in other

settings. In addition, major limitations in this area can often be assessed through clinical examination or psychological testing. Wherever possible, however, a mental status examination or psychological test data should be supplemented by other available evidence. 20 CFR, Part 404, Subpart P, App. 1, 12.00(C)(3).

(d) **Sufficient Evidence.**

The evaluation of disability on the basis of a mental disorder requires sufficient evidence to: (1) establish the presence of a medically determinable mental impairment(s); (2) assess the degree of functional limitation the impairment(s) imposes; and (3) project the probable duration of the impairment(s). Medical evidence must be sufficiently complete and detailed as to symptoms, signs, and laboratory findings to permit an independent determination. In addition, we will consider information from other sources when we determine how the established impairment(s) affects your ability to function. We will consider all relevant evidence in your case record. 20 CFR 404, Subpart P, App. 1, 12.00(D).

(e) **Chronic Mental Impairments.**

Particular problems are often involved in evaluating mental impairments in individuals who have long histories of repeated hospitalizations or prolonged outpatient care with supportive therapy and medication. For instance, if you have chronic organic, psychotic, and affective disorders you may commonly have your life structured in such a way as to minimize your stress and reduce your signs and symptoms.... 20 CFR 404, Subpart P, App. 1, 12.00(E).

Claimant has the burden of proof to show by a preponderance of the medical evidence in the record that his mental/physical impairments meet the department's definition of disability for MA-P/SDA purposes. PEM 260/261. "Disability" as defined by MA-P/SDA standards is a legal term which is individually determined by a consideration of all factors in each particular case.

STEP 1

The issue at Step 1 is whether claimant is performing substantial gainful activity (SGA). If claimant is working and is earning substantial income, he is not eligible for MA-P/SDA.

SGA is defined as the performance of significant duties over a reasonable period of time for pay. Claimants who are working, or otherwise performing substantial gainful activity (SGA), are not disabled regardless of medical condition, age, education or work experience.

20 CFR 416.920(b).

The medical/vocational evidence of record shows that claimant is not currently performing SGA.

Therefore, claimant meets the Step 1 disability test.

STEP 2

The issue at Step 2 is whether claimant has impairments which meet the SSI definition of severity/duration.

Unless an impairment is expected to result in death, it must have lasted or be expected to last for a continuous period of at least 12 months. 20 CFR 416.909.

Also to qualify for MA-P/SDA, claimant must satisfy both the gainful work and the duration criteria. 20 CFR 416.920(a).

If claimant does not have an impairment or a combination of impairments which profoundly limit his physical/mental ability to do basic work activities, he does not meet the Step 2 criteria.

The medical evidence of record shows that claimant has frequent seizures, but there is not sufficient clinical evidence, or documentation of the type and frequency of seizures to establish that they meet MA-P/SDA severity and duration tests.

Based on the lack of evidence, claimant does not meet the severity and duration disability test.

STEP 3

The issue at Step 3 is whether claimant meets the Listing of Impairments in the SSI regulations. Claimant does not allege disability based on the Listings.

Therefore, claimant does not meet the Step 3 disability test.

STEP 4

The issue at Step 4 is whether claimant is able to do his previous work. Claimant previously worked as a laborer at a carwash. Claimant's work at the carwash was light work.

There is no medical evidence in the record to suggest that claimant is unable to continue working at the carwash. However, given claimant's undocumented seizure disorder, he should not be working around the type of machinery which is present at a carwash based on safety concerns.

Because claimant is unable to work safely around moving machinery, he is not able to return to his previous job as a carwash laborer.

Claimant meets the Step 4 disability test.

STEP 5

The issue at Step 5 is whether claimant has the Residual Functional Capacity (RFC) to do other work.

Claimant has the burden of proof to show by the medical/psychological evidence in the record that his mental/physical impairments meet the department's definition of disability for MA-P/SDA purposes.

First, claimant alleges disability based on bipolar disorder. There is no psychological/psychiatric evidence in this record to establish that diagnosis. Claimant did not submit a

DHS-49D or a DHS-49E to establish his mental residual functional capacity. Since claimant did not submit a DHS-49D/49E, it is impossible to assess claimant's mental residual functional capacity at this time.

Second, claimant alleges disability based on his seizure disorder. The only evidence in support of claimant's claim of disability based on the seizure disorder is a recent report from a hospital (October 26, 2007) which mentions that diagnosis. However, claimant has not submitted a seizure diary showing the frequency, type and dates of his seizures. Also, he has not submitted any evidence from his treating physician to establish the level of medication that claimant is currently receiving.

In short, the Administrative Law Judge is not persuaded that claimant is totally unable to work based on his bipolar disorder in combination with his seizure disorder. Claimant currently performs many activities of daily living and has an active social life. The claimant is currently taking seizure medications, but they are not entirely successful at this time. Considering the entire medical record, in combination with claimant's testimony, the Administrative Law Judge concludes that claimant is able to perform simple unskilled sedentary work (SGA). In this capacity, he is able to work as a ticket taker at a theater, as a parking lot attendant, or as a greeter

Based on this analysis, the department correctly denied claimant's MA-P/SDA application based on Step 5 of the sequential analysis, as presented above.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that claimant does not meet the MA-P/SDA disability requirements under PEM 260/261.

Accordingly, the department's denial of claimant's MA-P/SDA application is, hereby,
AFFIRMED.

SO ORDERED.

Jay W. Sexton
Administrative Law Judge
for Ismael Ahmed, Director
Department of Human Services

Date Signed: December 29, 2008

Date Mailed: January 5, 2009

NOTICE: Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.
