CONCLUSIONS OF LAW

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An oppor tunity for a hearing shall be granted to an ap plicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Clients have the right to contest a department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The department will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The State Disability A ssistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department administers the SDA program pursuant to MCL 400.10, et seq., and MAC R 400.3151-400.3180. Department polic ies are found in the Bridges Administ rative Manual (BAM), the Program Eligibility Manual (BEM) and the Bridges Reference Manual (PRM).

The Department conforms to state statute in administering the SDA program. 2000 PA 294, Sec. 604, of the statute states:

- (1) The department shall operat e a state disability as sistance program. Except as provided in subsection
- (3), persons eligible for this program shall include needy citizens of the United States or aliens exempted from the supplemental security income citizenship

requirement who are at least 18 years of age or emancipated minors meeting 1 or more of the following requirements:

- (a) A recipient of supplemental security income, social security, or medical assistance due to disability or 65 years of age or older.
- (b) A person with a phy sical or mental impairment whic h meets federal supplemental se curity income disability standards, exc ept that the minimum duration of the disability shall be 90 days. Sub stance abuse alone is not defined as a basis for eligibility.

Pursuant to Federal Rule 42 CFR 435.540, the Department uses the Feder al Supplemental Security Income (SSI) policy in determining el igibility for disability under the MA-P program. Under SSI, disability is defined as:

...the inability to do any substant ial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

Federal regulations r equire that the department use the same operative definition for "disabled" as used for Supplemental Security Income (SSI) under Title XVI of the Social Security Act. 42 CFR 435.540(a).

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months ... 20 CFR 416.905.

In determining whether an indiv idual is disabled, 20 CFR 4 16.920 requires the trier of fact to follow a sequential evaluation process by which current work activity, the severity of the impairment(s), residual f unctional c apacity, and vocational factors (i.e., age, education, and work experience) are assessed in that order. When a determination that an individual is or is not disabled can be made at any step in the sequential evaluation, evaluation under a subsequent step is not necessary.

First, the trier of fact must determine if t he individual is working and if the work is substantial gainful activity. 20 CFR 416.920(b). In this case, the Claimant is not working. Therefore, the Claimant is not disqualified a this step in the evaluation.

The second step to be determined in consi dering whether the Clai mant is c onsidered disabled is whether the severity of the impairment. In order to qualify the impairment must be considered severe which is defined as an impairment which significantly limits an individual's physical or mental ability to perform basic work activities. Examples of these include:

- 1. Physical functions s uch as walkin g, standing, sitting, lifting, pushing, reaching carrying or handling;
- 2. Capacities for seeing, hearing, and speaking;
- 3. Understanding, carrying out, and remembering simple instructions;
- 4. Use of judgment;
- 5. Responding appropriately to supervision, co-workers and usual work situations; and
- 6. Dealing with changes in a routine work setting. 20 CFR 416.921(b).

In this case, the Claimant's medical evidence of record supports a finding that Claimant has significant physical and mental limitations upon Claimant's ability to perform basic work activities such as walk ing, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling; Medical evidence has clearly established that the Claimant has an impairment (or combination of impairments) that has more than a minimal effect on the Claimant's work activities. See Social Security Rulings: 85-28, 88-13, and 82-63.

In the third step of the analysi s, the trier of fact must determine if the Claimant's impairment (or combination of impairments) is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. This Administrative Law Judge finds that the Claimant's medical record does not support a finding that the Claimant's impairment(s) is a "listed impairment" or equal to a listed impairment. See Appendix 1 of Subpart P of 20 CFR Part 404, Part A. Listings 3.03 and 1.04 were considered.

The person claiming a physica I or mental disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as clinical/laboratory findings, diagnosis/pre scribed treatment, prognosis for a recovery and/or medical assessment of ability to do work-related activities or ability to reason and to make appropriate mental adjustments, if a mental disability is being alleged. 20 CRF 416.913. A conc lusory statement by a physici an or mental health professional that an individual is disabled or blind is not sufficient, without supporting medical evidence, to establish disability. 20 CFR 416.927.

The fourth step of the analys is to be considered is whether the Claimant has the ability to perform work previously performed by the Claimant within the past 15 yhears. The trier of fact must determine whether the impairment(s) presented prevent the Claimant

from doing past relevant work. In the pr esent case, the Claimant 's past employment was as a customer service wor ker and direct care worker. Working as a customer service worker, as testified to by Claiman t, would be considered sedentary work. The Claimant's impairments would not prevent her from doing past relevant work , because she is not capable of performing work on the sedentary exertional le vel. Therefore, Claimant's appeal is denied at step 4. Cla imant's testimony regarding her limitations and ability to sit, stand, walk, lift and carry ar e not supported by substantial evidence. Claimant failed to pres ent substantial medical evidence that she has a ps ychological impairment that is substantially limiting.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusion sof law, decides that the Claimant is not medically disabled for the purposes of the SDA program.

Accordingly, the Department's decis ion in the a bove stated matter is, hereby, **AFFIRMED**.
