# STATE OF MICHIGAN MICHIGAN ADMINISTRATIVE HEARING SYSTEM ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

Reg. No: 2012-77986 Issue No: 2009;4031

Case No:

Hearing Date: January 24, 2013

Montcalm County DHS

ADMINISTRATIVE LAW JUDGE: Landis Y. Lain

# **HEARING DECISION**

This matter is before the undersigned Admini strative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notic e, a telephone hearing was held on January 24, 2013. Claimant personally appeared and testified.

### <u>ISSUE</u>

Did the Department of Human Services (the department) properly deny claimant's application for Medical Assistance (MA-P) and State Disability Assistance (SDA)?

## **FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- On February 16, 2012, claimant filed an application for Medical Assistance, State Disability Assistance and retroactive Medical Assistance benefits alleging disability.
- On Augus t 24, 2012, the Medica I Rev iew Team denied c laimant's application stating that claimant c ould perform other work pursuant to Medical/Vocation Rule 201.27.
- 3. On September 4, 2012, the department caseworker sent claim ant notice that her application was denied.
- 4. On September 13, 2012, claim ant filed a request for a hearing to contest the department's negative action.
- 5. On October 30, 2012, the State Hearing Review T eam again denie d claimant's application stating in its analysis and recommended decision: the claimant had limited r ange of motion of the hips . All the ot her joints

were normal. Grip strength was normal. Motor strength was diminished. She had normal muscle to one and sensation. She ambulates with a shuffling wide based gait without an assist device. As a result of the claimant c ombination of severe physical condition, she is restricted to performing sedentary work. She retains the capace ity to lift up to 10 lbs frequently and stand and walk for up to 2 of 8 hours. Claimant is not engaging in substantial gainful activity at this time. Claimant's impairments do not meet or equal any listing. Despite the impairments, she retains the capacity to perform sedentary work. Therefore, based on the claimant's vocational profile (younger individ ual, 12<sup>th</sup> grade education, and sedentary work history): MA-P is denied using Vocational Rule 201.27 as a guide. SDA is denied per PEM 261 because the information in file is inadequate to ascertain whet her the claimant is or would be disabled for 90 days. Retroactive MA-P benefits ar e denied at step 5 of the s equential evaluation; claimant retains the capacity to perform sedentary work.

- 6. On the date of hearing claimant was a 26-year-old woman whose birth date is Claimant is 5'4" tall and weighs 265 pounds. Claimant attended two year s of college and studi ed computer science. Claimant is able to read and write and does have basic math skills.
- 7. Claimant last worked 2011 at a call center. Claimant has also worked as a call center tech support, and as work study computer help.
- 8. Claimant alleges as disabling im pairments: muscular dystrophy, bipolar disorder, memory problems, sleep apnea, psychothymia.

### **CONCLUSIONS OF LAW**

The regulations governing the hearing and a ppeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An oppor tunity for a hearing shall be granted to an ap plicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Clients have the right to contest a department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The department will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The State Disability A ssistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Service s (DHS or department) administers the SDA program pursuant to MCL 400.10, et seq., and MAC R 400.3151-400.3180. Department polic ies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is estab lished by Title XIX of the Social Sec urity Act and is implemented by Title 42 of the C ode of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substant ial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to deter mine disability. Current work activity, severity of impairments, residual functional capacity, past wor k, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experienc e. 20 CFR 416.920(c).

If the impairment or combination of impair ments do not signific antly limit physica I or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

- ... Medical reports should include -
- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of di sease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities with out significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as wa lking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2 ) the probable duration of the impairment ; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other a cceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an indiv idual can do des pite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decis ion about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other ev idence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "doisabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that s everal considerations be analyzed in sequential order. If disability can be ruled out at any step, analys is of the next step is <u>not</u> required. These steps are:

- 1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
- 2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
- 3. Does the impairment appear on a special listing of impairments or are the clie nt's symptoms, signs, and laboratory findings at least equiv alent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
- 4. Can the client do the forme r work that he/she performed within the last 15 years? If yes, t he client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
- 5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, A ppendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and is not disqualified from receiving disability at Step 1.

The subjective and objective medical evidence on the record indicates that claimant lives with her mother, in a hous e and her mother pays the bills. Claimant is single with no children under 18 who live with her. Claimant has no income and does receive Food Assistance Program benefits. Claimant does not have a driv er's license and she takes the bus 1-2 times per week and usually rides the bus for 15 minutes. Claimant does cook everyday and cooks things like soup, salad and sandwice hes. Claimant testified that she grocery shops 1-2 times per month and she needs help with the heavy things. Claimant testified that she does evacuum and load the dishwas her and she watches television 2 hours per day, uses the computer 4-6 hours per day and she reads as a

hobby. Claimant testified that she can stand for 15 minutes at a time, sit for 15 minutes at a time and can walk 2 block—s but on—some bad days she c—annot get out of bed. Claimant testified that she c—an shower and dress he—rself, tie her shoes while she is sitting, but she cannot—squat or touch her—toes and s he cannot bend very well at the waist. Claimant testified that she has no problem with her knees and she has pain in her back and weak limbs. Claimant—testified that her level of—pain, on a scale of 1-10, without medication is a 3-8, and with medication, is a 0-8—depending on if it is a good day or bad day. Claimant test ified that she is right h—anded and that she h—as muscular dystrophy in her arms and legs and her feet are fine. Claimant testified that the heaviest weight she can carry is 5 lbs and that——she doesn't smoke, drink or do any drugs. Claimant testified that on a typical day she puts on her clothes, goes to the bathroom on a raised seat, watches her cousin's child, plays games, eats lunch, goes on computer, reads and watches television.

On June 24, 2011 the Social Sec urity Administration issued an unfavorable decision for claimant stating that claimant has a residual functional capacity to perform a full range of sedentary work. A medical examination report dated May 4, 2012 indicates that the patient is cooperative in answering questions and f ollowing commands. She is in no acute distress. She was dress ed in san dals, jeans, sweatshir t and tee shirt. She appeared mildly depressed. Her immediate, recent and remote memory was intact with normal concentration. Her insight and judgm ent were both appropriate. The patient provided a good effort during the examinat ion. The patient is right handed. Blood pressure on the right arm was 110/82, pulse was 72, respiratory rate was 20, weight was 258 lbs and height was 65 1/4" tall without shoes. The skin was normal. There was a cholecystectomy scar present. Visual acuity in the right eye was 20/20 and left eye was 20/25 with corrective lenses. Pupils are equal, round, and reactive to light. The patient can hear conversational speech without limitation or aids. The neck was supple without masses. The chest breath sounds are c lear to auscultation and symmetrical. There is no access ory muscle use. In the heart ther e was regular rate and rhyt enlargement. There was normal S1 and S2. In the abdomen, the abdomen was obese. There was no organomegaly or masses. Bowel sounds are normal. In the vascular area, there was no clubbing or cyanosis detected. There is trace edema. The peripheral pulses are intact. Hair growth is present on the lower extremities. The feet are warm and normal color. In the musculoskeletal area. there is no evidence of joint laxity. crepitance, or effusion. Grip strength remains intact. Dexterity is unimpaired. The patient could button clothing and open a door. The patient had mild difficulty getting on and off the examination table, no difficulty heel and toe walking, mild difficulty squatting due to balance. Range of motion studies were normal in most areas. Cranial nerves are intact. Motor strength is diminished to 4/5 diffusely throughout all four extremities. Muscle tone is normal. Sensory is intact to light t ouch and pinprick. Reflexes are intact and symmetrical. Romberg testing is negative. The patient walks wit ha shuffling, wid e based gait without the use of an assist device (p 6-7).

At Step 2, claimant has the burden of proof of establishing that she has a severe ly restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months. There is insufficient objective clinical medical evidence in

the record that claimant suffers a severely restrictive physical or mental impairment. Claimant has reports of pain in multiple areas of her body; however, there are no corresponding clinic al findings that support the reports of symptoms and limitations made by the claimant. There are no labor atory or x-ray findings listed in the file which support claimant's contention of disability. The clinical impression is that claimant is stable. There is no medical finding that claimant has any muscle atrophy or trauma, abnormality or injury that is consistent with a deteriorating condition. In short, claimant has restricted herself from tasks associated with occupational functioning based upon her reports of pain (symptoms) rather than medical findings. Reported symptoms are an insufficient basis upon which a finding that claimant has met the evidentiary burden of proof can be made. This Administrative Law Judge finds that the medical record is insufficient to establish that claimant has a severely restrictive physical impairment.

Claimant alleg es the following disabling m ental impairment s: psychothymic, bipolar disorder, and memory problems.

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate increased mental demands associated with competitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

There is insufficient objective medical/ps ychiatric e vidence in the record indicating claimant s uffers severe mental limitations . There is no ment al residual functional capacity assessment in the record. There is in sufficient evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was or iented to time, person and place during the hearing. Claimant was able to answer all of the questions at the hearing and was responsive to the questions. The evidentiar y record is insufficient to find that claimant suffers a severely restrictive mental impair ment. For these reasons, this Administrative Law Judge finds that claimant has failed to meet her burden of proof at Step 2. Claimant must be denied benefits at this step based upon her failure to meet the evidentiary burden.

If claimant had not been denied at Step 2, the analysis would proceed to Step 3 where the medical evidence of claimant 's condition does not give rise to a finding that she would meet a statutory listing in the code of federal regulations.

If claimant had not already been denied at Step 2, this Administrative Law Judge would have to deny her again at Step 4 based u pon her ability to perform her past relevant work. There is no ev idence upon which this Administrative Law Judge c ould base a finding that claimant is unable to perform work in which she has engaged in, in the past. Therefore, if claimant had not already been denied at Step 2, he would be denied again at Step 4.

The Administrative Law Judge will continue to proceed through the sequential evaluation process to determine whether or not claimant has the residual functional capacity to perform some other less strenuous tasks than in her prior jobs.

At Step 5, the burden of proof shifts to the department to establish that claimant does not have residual functional capacity.

The residual functional capac ity is what an individual can do desp ite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we class ify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more t han 10 pounds at a time and occasionally lifting or carrying articles lik e docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light wor k involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this categor y when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Claimant has submitted insufficient objecti ve medical evidence that she lacks the residual functional capacity to perform some other less strenuous tasks than in her prior employment or that she is physically unable to do light or sedentary tasks if demanded of her. Claimant's act ivities of daily liv ing do not appear to be very limit ed and she should be able to per form light or sedentary work even with her impairments. Claimant has failed to provide the necessary objective medical evidence to establish that she has a severe impairment or comb ination of impairments which prevent her from performing any level of work for a period of 12 mont hs. The claimant's te stimony as to her limitations indicates that she should be able to perform light or sedentary work.

There is insufficient objective medical/ps—ychiatric evidence contained in—the file of depression or a cognitive dysfunction that is—so severe that it w—ould prevent claimant from working at any job. Claimant was able to answer all the questions at the hearing and was responsive to the questions. Claimant was oriented to time, person and place during the hearing. Claimant's complaints of pain, while profound and credible, are out of proportion to the objective—medical evidence contained in the file as it relates to

claimant's ability to perform work. Therefore, this Administrative Law Judge finds that the objective medical evidence on the record does not establis h that claimant has no residual functional capacity. Clai mant is dis qualified from receiving disability at Step 5 based upon the fact that she has not established by objective medical evidence that she cannot perform light or sedentary work even with her impairments. Under the Medical-Vocational guidelines, a younger individual (age 26), with 2 years of college and a sedentary work history who is limited to s edentary work is not c onsidered disable d pursuant to medical vocational rule 201.27.

The department's Program Elig ibility Manual contains the following policy statements and instructions for casework ers regarding the State Disability Assistance program: to receive State Disability Assist ance, a person must be disabled, caring for a disable diperson or age 65 or older. BEM Item 261, p. 1. Because the claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that claimant is unable to work for a period exceeding 90 days, the claimant does not meet the disability criteria for Stat e Disability Assistance benefits either.

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with department policy when it determined that claimant was not eligible to receive Medical Assistance and/or State Disability Assistance.

### **DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusion sof law, decides that the department has appropriately established on the record that it was acting in compliance with department policy when it denied claimant's application for Medical Assistance, retroactive Medical Assistance and State Disability Assistance benefits. The claimant should be able to perform a wide range of light or sedentary work even with her impairments. The department has established its case by a preponderance of the evidence.

Accordingly, the department's decision is **AFFIRMED**.

Administrative Law Judge
for Maura D. Corrigan, Director
Department of Human Services

Date Signed: February 6, 2013

Date Mailed: February 6, 2013

**NOTICE**: Michigan Administrative Hearing S ystem (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a par ty within 30 days of the receipt date of this Dec ision and Orde r. MAHS will not or der a rehearing or reconsideration on the Department's mo tion where the final decis ion cannot be implemented within 90 days of the filing of the original request. (60 days for FAP cases)

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a ti mely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing <u>MAY</u> be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration **MAY** be granted for any of the following reasons:
  - misapplication of manual policy or law in the hearing decision,
  - typographical errors, mathematical error, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
  - the failure of the ALJ to address other relevant issues in the hearing decision.

Request must be submitted through the local DHS office or directly to MAHS by mail at Michigan Administrative Hearings
Reconsideration/Rehearing Request
