# **CONCLUSIONS OF LAW**

The Medical Assistance (MA) program is established by Subchapter XIX of Chapter 7 of The Public Health & Welfare Act, 42 USC 1397, and is administered by the Department, (DHS or department), pursuant to MCL 400.10 *et seq.* and MCL 400.105. Department policies are found in the Bridges Adminis trative Manual (BAM), the Bridges Eligibilit y Manual (BEM), and the Reference Tables Manual (RFT).

The State Disability A ssistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Service s (DHS or department) admin isters the SDA program pursuant to MCL 400.10, et seq., and MAC R 400.3151-400.3180. Department polic ies are found in the Bridg es Administrative Manual (BAM), the Brid ges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

Current legislative amendments to the Act delineate eligibility criteria as implemented by department policy set forth in program manual s. 2004 PA 344, Se c. 604, es tablishes the State Disability Assistance program. It reads in part:

Sec. 604 (1). The department sha ll operate a state di sability assistance program. Except as provided in subsection (3), persons eligible for this program shall includ e needy citizens of the United States or aliens exempt from the Supplemental Security Income citizenship re quirement who are at least 18 years of age or emancipated minors meeting one or more of the following requirements:

(b) A per son with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

Specifically, this Act provides minimal cash assistance to individuals with some type of severe, temporary disability which prevent s him or her from engaging in substantial gainful work activity for at least ninety (90) days.

Disability is defined as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental im pairment which can be expected to result

in death or which has lasted or can be expect ed to last for a continuous period of not less than 12 months. 20 CFR 416.905(a). The person claiming a physical or mental disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinical/laboratory findings, diagnosis/prescri bed treatment, prognosis for recovery and/or medical assessment of ability to do work-related activities or ability to reason and make appropriate mental adjustments, if a mental disability is alleged. 20 CRF 413.913. An individual's subjective pain complaints are not, in and of themselves, sufficient to establish disability. 20 CFR 416.908; 2 0 CFR 4 16.929(a). Similarly, conclusor y statements by a physician or mental health professional that an individual is disabled or blind, absent supporting medical evidence, is insufficient to establish disability. 20 CFR 416.927.

When determining disability, the federal regulations require several factors to be considered including: (1) the location/duration/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medication the applicant takes to relieve pain; (3) any treatment other than pain medication that the applicant has received to relieve pain; and, (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be assessed to determine the extent of his or her functional limitation(s) in light of the objective medical evidence presented. 20 CFR 416.929(c)(2).

In order to determine whether or not an individual is disabled, federal regulations require a five-step sequential evaluation process be utilized. 20 CFR 416.920(a)(1). The five-step analysis requires the trier of fact to cons ider an individual's current work activit y; the severity of the impairment(s) both in duration and whether it meets or equals a listed impairment in Appendix 1; residual functional capacity to det ermine whether an individual can perform past relev ant work; and residual functional capacity along with vocational factors (e.g., age, education, and work experienc e) to determine if an individual can adjust to other work. 20 CFR 416.920(a)(4): 20 CFR 416.945.

If an individual is found disabled, or not disabled, at any step, a determination or decision is made with no need to evaluate subsequent steps. 20 CFR 416.920(a)(4). If a determination cannot be made that an individual is disabled, or not disabled, at a particular step, the next step is required. 20 CFR 416.920(a)(4).

In Claimant's case, the chronic pain fr om his shoulder and other non-exertional symptoms he describes are cons istent with the objective m edical evidence presented. Consequently, great weight and credibility must be given to his testimony in this regard.

When determining disability, the federal regulations require that s everal considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

- 1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
- 2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
- 3. Does the impairment appear on a special listing of impairments or are the clie nt's symptoms, signs, and laboratory findings at least equiv alent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
- 4. Can the client do the forme r work that he/she performed within the last 15 years? If yes, t he client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
- 5. Does the client have the Re sidual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Ap pendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

Claimant has not been employed since 2002; consequently, the analysis must move to Step 2.

In this case, Claimant has presented the required medical data and evidence necessary to support a finding that Claimant has significant physical limitations upon his ability to perform basic work activities.

Medical evidence has clearly established that Claimant has an impairment (or combination of impairments) that has more than a minimal effect on Claim ant's work activities. See Social Security Rulings 85-28, 88-13, and 82-63.

In the third step of the sequentia I consideration of a disab ility claim, the tri er of fact must determine if the claimant's impairment (or combination of impairments) is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. This Administrative Law Judge finds that Claimant's medical record will not support a finding that Cl aimant's impairment(s) is a "listed impairment" or equal to a listed impairment. See Ap pendix 1 of Sub part P of 20 CFR, Part 404, Part A. A ccordingly, Claimant cannot be found to be disabled bas ed upon medical evidence alone. 20 CFR 416.920(d).

In the fourth step of the sequent ial consideration of a disability claim, the trier of fact must determine if the claimant's impairment (s) prevents claim ant from doing past relevant work. 20 CFR 416.920(e). It is the finding of this Admini strative Law Judge, based upon the medical ev idence and objective medical findings, that Claimant cannot return to his past relevant work because the rigors of house painting are completely outside the scope of his physical abilities given the medical evidence presented.

In the fifth step of the sequential consideration of a disability claim, the trier of fact must determine if the claimant's impairment(s) prevents claimant from doing other work. 20 CFR 416.920(f). This determination is based upon Claimant's:

- (1) residual functional capacity defined simply as "what can you still do despite you limitations?" 20 CFR 416.945;
- (2) age, educ ation, and wo rk experience, 20 CF R 416.963-.965; and
- (3) the kinds of work which exist in signific ant numbers in the national ec onomy which the claimant could perfo rm despite his/her limitations. 20 CFR 416.966.

See *Felton v DSS* 161 Mich. App 690, 696 (1987) . Once Claimant reaches Step 5 in the sequential review process, Cl aimant has already established a *prima facie* case of disability. *Richardson v Secretary of Health and Human Services,* 735 F2d 962 (6<sup>th</sup> Cir, 1984). At that point, the burden of proof is on the state to prove by substantial evidence that Claimant has the residual functional capacity for substantial gainful activity.

After careful review of Claimant's medical record and the Administrative Law Judge's personal interaction with Claimant at the hearing, this Administrative Law Judge find s that Claim ant's exertional and non-exertional impairment s render Claimant unable to engage in a full range of even sedentary work activities on a regular and continuing basis. 20 CFR 404, Subpart P. Appendix 11, Section 201.00(h). See Social Securit y Ruling 83-10; Wilson v Heckler, 743 F2d 216 (1986). Bas ed on Claimant's vocational profile (approaching advanced age, Claimant is 52, has a tenth grade education and an unskilled work history), this Administrati ve Law Judge finds Claimant's MA/Retro-MA benefits are approved using Vocational Rule 201.09 as a guide. Consequently, the department's denial of his J une 14, 2012, MA/Retro-MA/ SDA applic ation cannot be upheld.

# **DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusion sof law, decides the department erred in determining Claimant is not currently disabled for MA/Retro-MA and SDA eligibility purposes.

Accordingly, the department's decision is **REVERSED**, and it is ORDERED that:

- The depart ment shall process Cla imant's June 14, 2012, MA/Retro-MA and SDA application, and shall awar d him all the benefits he may be entitled to receive, as long as he meets the remaining financial a no non-financial eligibility factors.
- 2. The department shall rev iew Claimant's medica I cond ition for improvement in March, 2014, unless hi s Social Sec urity Administration disability status is approved by that time.
- 3. The department shall obtain updated medical evidence from Claimant's treating physicians, physical therapists, pain clinic notes, etc. regarding his continued treatment, progress and prognosis at review.

It is SO ORDERED.
