

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
FOR THE DEPARTMENT OF COMMUNITY HEALTH**

P.O. Box 30763, Lansing, MI 48909
(877) 833-0870; Fax: (517) 373-4147

IN THE MATTER OF:

██████████,

Appellant

Docket No. 2013-3226 HHS

Case No. ██████████

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon the Appellant's request for a hearing.

After due notice, a hearing was held on ██████████. ██████████, provider, represented the Appellant. ██████████, the Appellant, was present. ██████████, Appeals Review Officer, represented the Department. ██████████, former Adult Services Worker ("ASW"), and ██████████, current ASW, appeared as witnesses for the Department.

ISSUE

Did the Department properly terminate the Appellant's Home Help Services ("HHS") case?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. The Appellant is a Medicaid beneficiary who had been authorized for HHS.
2. The Appellant has been diagnosed with mild mental retardation and overactive bladder. A thyroid condition was also reported by the Appellant. (Exhibit 1, page 7)
3. The Appellant had been receiving HHS for assistance with the Instrumental Activities of Daily Living ("IADLs") of medication, housework, laundry, shopping and meal preparation. (Exhibit 1, pages 15 and 17)
4. On ██████████, the ASW ██████████ went to the Appellant's home and completed an in-home assessment for a review of the Appellant's HHS case. ASW ██████████ spoke with the Appellant's provider by phone and arranged for an in person meeting at the local Department of Human Services office the next day. ASW ██████████

went over the Activities of Daily Living (“ADLs”) and IADLs included in the HHS program with the Appellant. The Appellant reported being independent with ADLs including bathing, grooming, dressing, toileting, eating, and being mobile. Regarding IADLs, the Appellant reported needing assistance with medications. ASW [REDACTED] also understood that the Appellant can help with housework, shopping and laundry as well as prepare simple meals. (Exhibit 1, pages 12-13 and 16; ASW Testimony)

5. On [REDACTED], ASW [REDACTED] met with the Appellant’s provider and confirmed that the Appellant can complete ADLs independently, with some reminders. (Exhibit 1, page 12)
6. Based on the available information, ASW Clark-Huey concluded that the Appellant did not have a need for hands on assistance, functional ranking 3 or greater, with any ADLs. (Exhibit 1, page 16)
7. On [REDACTED], the Department sent the Appellant an Advance Action Notice, which informed her that effective [REDACTED] the HHS case would be terminated based on the new policy that requires the need for hands on services with at least one ADL. (Exhibit 1, pages 8-11)
8. On [REDACTED], a request for hearing filed on the Appellant’s behalf was received by the Michigan Administrative Hearing System. On [REDACTED], a second request for hearing filed on the Appellant’s behalf was received by the Michigan Administrative Hearing System. The [REDACTED] request for hearing was resubmitted on [REDACTED] with the Appellant’s signature.

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

Adult Services Manual (ASM) 101, 11-1-11, addresses HHS payments:

Payment Services Home Help

Home help services are non-specialized personal care service activities provided under the independent living

services program to persons who meet eligibility requirements.

Home help services are provided to enable individuals with functional limitation(s), resulting from a medical or physical disability or cognitive impairment to live independently and receive care in the least restrictive, preferred settings.

*Adult Services Manual (ASM) 101,
11-1-2011, Page 1 of 4.*

Adult Services Manual (ASM) 105, 11-1-11, addresses HHS eligibility requirements:

Requirements

Home help eligibility requirements include all of the following:

- Medicaid eligibility.
- Certification of medical need.
- Need for service, based on a complete comprehensive assessment (DHS-324) indicating a functional limitation of level 3 or greater for activities of daily living (ADL).
- Appropriate Level of Care (LOC) status.

Necessity For Service

The adult services specialist is responsible for determining the necessity and level of need for home help services based on:

- Client choice.
- A completed DHS-324, Adult Services Comprehensive Assessment. An individual must be assessed with at least one activity of daily living (ADL) in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determines a need at a level 3 or greater.

- Verification of the client's medical need by a Medicaid enrolled medical professional via the DHS-54A. The client is responsible for obtaining the medical certification of need; see ASM 115, Adult Services Requirements.

*Adult Services Manual (ASM) 105,
11-1-2011, Pages 1-3 of 3*

Adult Services Manual (ASM 120, 5-1-2012), pages 1-4 of 5 addresses the adult services comprehensive assessment:

INTRODUCTION

The DHS-324, Adult Services Comprehensive Assessment is the primary tool for determining need for services. The comprehensive assessment must be completed on **all open independent living services cases**. ASCAP, the automated workload management system, provides the format for the comprehensive assessment and all information will be entered on the computer program.

Requirements

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- The assessment may also include an interview with the individual who will be providing home help services.
- A new face-to-face assessment is required if there is a request for an increase in services before payment is authorized.
- A face-to-face assessment is required on all transfer-in cases before a payment is authorized.
- The assessment must be updated as often as necessary, but minimally at the six month review and annual redetermination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the department record.

- Use the DHS-27, Authorization to Release Information, when requesting client information from another agency.
- Use the DHS-1555, Authorization to Release Protected Health Information, if requesting additional medical documentation; see RFF 1555. The form is primarily used for APS cases.
- Follow rules of confidentiality when home help cases have companion APS cases, see SRM 131 Confidentiality.

Functional Assessment

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the home help services payment.

Conduct a functional assessment to determine the client's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking Medication.
- Meal Preparation and cleanup.
- Shopping.
- Laundry.
- Light Housework.

Functional Scale

ADLs and IADLs are assessed according to the following five-point scale:

1. Independent.

Performs the activity safely with no human assistance.

2. Verbal Assistance.
Performs the activity with verbal assistance such as reminding, guiding or encouraging.
3. Some Human Assistance.
Performs the activity with some direct physical assistance and/or assistive technology.
4. Much Human Assistance.
Performs the activity with a great deal of human assistance and/or assistive technology.
5. Dependent.
Does not perform the activity even with human assistance and/or assistive technology.

Home help payments may only be authorized for needs assessed at the 3 level ranking or greater.

An individual must be assessed with at least one activity of daily living in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADLs if the assessment determined a need at a level 3 or greater.

See ASM 121, Functional Assessment Definitions and Ranks for a description of the rankings for activities of daily living and instrumental activities of daily living.

Time and Task

The specialist will allocate time for each task assessed a rank of 3 or higher, based on interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a **guide**. The RTS can be found in ASCAP under the Payment module, Time and Task screen. When hours exceed the RTS rationale **must** be provided.

An assessment of need, at a ranking of 3 or higher, does not automatically guarantee the maximum allotted time allowed

by the reasonable time schedule (RTS). **The specialist must assess each task according to the actual time required for its completion.**

Example: A client needs assistance with cutting up food. The specialist would only pay for the time required to cut the food and not the full amount of time allotted under the RTS for eating.

IADL Maximum Allowable Hours

There are monthly maximum hour limits on all instrumental activities of daily living except medication. The limits are as follows:

- Five hours/month for shopping
- Six hours/month for light housework
- Seven hours/month for laundry
- 25 hours/month for meal preparation

Proration of IADLs

If the client does not require the maximum allowable hours for IADLs, authorize only the amount of time needed for each task. Assessed hours for IADLs (except medications) must be prorated by **one half** in shared living arrangements where other adults reside in the home, as home help services are **only** for the benefit of the client.

Note: This does not include situations where others live in adjoining apartments/flats or in a separate home on shared property and there is no shared, common living area.

In shared living arrangements, where it can be **clearly** documented that IADLs for the eligible client are completed separately from others in the home, hours for IADLs do not need to be prorated.

Example: Client has special dietary needs and meals are prepared separately; client is incontinent of bowel and/or bladder and laundry is completed separately; client's shopping is completed separately due to special dietary needs and food is purchased from specialty stores; etc.

Certain services are not covered by HHS. ASM 101 provides a listing of the services not covered by HHS.

Services not Covered by Home Help

Home help services must **not** be approved for the following:

- Supervising, monitoring, reminding, guiding, teaching or encouraging (functional assessment rank 2).
- Services provided for the benefit of others.
- Services for which a responsible relative is **able** and **available** to provide (such as house cleaning, laundry or shopping).
- Services provided by another resource at the same time (for example, hospitalization, MI-Choice Waiver).
- Transportation - See Bridges Administrative Manual (BAM) 825 for medical transportation policy and procedures.
- Money management such as power of attorney or representative payee.
- Home delivered meals.
- Adult or child day care.
- Recreational activities. (For example, accompanying and/or transporting to the movies, sporting events etc.)

Note: The above list is not all inclusive.

*Adult Services Manual (ASM) 101, 11-1-2011,
Pages 3-4 of 4.*

The Appellant had only been authorized HHS for assistance with the IADLs of medication, housework, laundry, shopping and meal preparation. (Exhibit 1, pages 15 and 17)

On ██████████, the ASW ██████████ went to the Appellant's home and completed an in-home assessment for a review of the Appellant's HHS case. ASW ██████████ spoke with the Appellant's provider by phone and arranged for an in person meeting at the local Department of Human Services office the next day. ASW ██████████ went over the ADLs and IADLs included in the HHS program with the Appellant. The Appellant reported being independent with ADLs including bathing, grooming, dressing toileting, eating, and being mobile. Regarding IADLs, the Appellant reported needing assistance with medications. ASW ██████████ also understood that the Appellant can help with housework, shopping and laundry as well as prepare simple meals. (Exhibit 1, pages 12-13 and 16; ASW Testimony) On ██████████, ASW ██████████ met with the Appellant's provider and confirmed that the Appellant can

complete ADLs independently, with some reminders. (Exhibit 1, page 12) Accordingly, the ASW ██████████ determined that the Appellant's HHS case must be terminated because she did not need hands on assistance, functional ranking 3 or greater, with at least one ADL. (Exhibit 1, pages 16)

The Appellant disagrees with the termination. The Appellant's provider testified that the Appellant has very bad acne on her back and requires assistance with washing her back during bathing and applying treatments from the dermatologist. The Appellant also continues to have some incontinence and receives some assistance with this. The Appellant was upset about these topics being discussed during the telephone hearing proceedings and would not have discussed them with ASW ██████████ during the home visit. Further, the Appellant's provider testified ASW ██████████ did not give time to explain anything during the meeting at the local Department of Human Services office. Supervision, prompting, reminders, etc. are provided with ADLs. The Appellant receives hands on assistance with IADLs like medications, shopping and meal preparation, as well as services not included in the HHS program like medical transportation. The Appellant's provider was aware of what services had been authorized by the Department because they had "x" marks next to them on the provider logs. The Appellant's provider stated that the ASW prior to ASW ██████████ was aware of more of the Appellant's problems, but may not have written them down. (Provider Testimony)

There was insufficient evidence to establish that the Appellant requires hands on assistance, functional level 3 or greater, with at least one ADL. While this ALJ understands topics like incontinence and bathing assistance are difficult to discuss and the Appellant would not have been likely to report these needs to ASW ██████████ during their only meeting, the Appellant's provider testified she was aware of what activities HHS hours had been authorized for. It appears the ASW prior to ASW ██████████ was aware of the incontinence issues and acne. However, it does not appear that a need for hands on assistance with these activities was reported to that ASW based on the July 14, 2011 home visit narrative note and the Time and Task authorization of HHS hours. (Exhibit 1, pages 14-15 and 17) There was no evidence that documentation has ever been submitted to the Department of the acne diagnosis, prescriptions or other treatments for the Appellant's back that require hands on assistance from her provider. The Department can only base their determination on the available information, which did not establish a need for hands on assistance, functional ranking 3 or greater, with at least one ADL. The termination of the Appellant's HHS case is upheld.

At any time, the Appellant can submit a new application for the HHS program and provide updated medical verification as well as more complete information regarding her functional abilities and needs for assistance.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that the Department properly terminated the Appellant's HHS case based on the available information.

IT IS THEREFORE ORDERED THAT:

The Department's decision is AFFIRMED.

Colleen Lack
Administrative Law Judge
for James K. Haveman, Director
Michigan Department of Community Health

cc:

[REDACTED]

Date Mailed: 3/5/2013

***** NOTICE *****

The Michigan Administrative Hearing System may order a rehearing on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. The Michigan Administrative Hearing System will not order a rehearing on the Department's motion where the final decision or rehearing cannot be implemented within 90 days of the filing of the original request. The Appellant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt of the rehearing decision.
