STATE OF MICHIGAN MICHIGAN ADMINISTRATIVE HEARING SYSTEM FOR THE DEPARTMENT OF COMMUNITY HEALTH

P.O. Box 30763, Lansing, MI 48909 (877) 833-0870; Fax: (517) 373-4147

Docket No. 2013-35523 HHS

IN THE MATTER OF:

App	ellant/
DECISION AND ORDER	
This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 <i>et seq.</i> , upon the Appellant's request for a hearing.	
After due notice, a hearing was held on appeared on his own behalf. appeared as witnesses for the Appellant. Adult Services Worker ("ASW"), and er, Adult Services Supervisor, appeared as witnesses for the Department. Department.	
ISSUE	
Did the Department properly deny the Appellant's Home Help Services ("HHS") application?	
FINDINGS OF FACT	
The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:	
1.	On a RPT completed a DHS-54A Medical Needs form for the Appellant certifying a medical need for assistance with meal preparation, shopping, laundry and housework. (Exhibit 1, page 5a)
2.	On or about the HHS program, the Department received a referral for the Appellant for the HHS program. (Exhibit 1, page 5)
3.	On the ASW went to the Appellant's home to complete an initial evaluation. The Appellant utilized a wheelchair during the ASW's home visit. The ASW went over the Activities of Daily Living ("ADLs") and Instrumental Activities of Daily Living ("IADLs") included in the HHS program. The ASW understood that the Appellant did not need hands on assistance with ADLs. (Exhibit 1, pages 11-12; ASW Testimony)

- 4. Based on the information available at the time of the assessment, the ASW concluded that the Appellant did not have a medical need for hands on assistance, functional ranking 3 or greater, with any ADL. (Exhibit 1, page 5; ASW Testimony)
- 5. On Action Notice which informed him that the HHS application was denied based on the new policy requiring a need for hands on assistance with at least one ADL. (Exhibit 1, pages 6-10)
- 6. On the Appellant's hearing request was received by the Michigan Administrative Hearing System. (Exhibit 1, page 4)

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

Adult Services Manual (ASM) 105, 11-1-11, addresses HHS eligibility requirements:

Requirements

Home help eligibility requirements include all of the following:

- Medicaid eligibility.
- Certification of medical need.
- Need for service, based on a complete comprehensive assessment (DHS-324) indicating a functional limitation of level 3 or greater for activities of daily living (ADL).
- Appropriate Level of Care (LOC) status.

Medical Need Certification

Medical needs are certified utilizing the DHS-54A, Medical Needs form and must be completed by a Medicaid enrolled medical professional. Completed DHS-54A or veterans administration medical forms are acceptable for individual treated by a VA physician; see ASM 115, Adult Services Requirements.

Necessity For Service

The adult services specialist is responsible for determining the necessity and level of need for home help services based on:

- Client choice.
- A completed DHS-324, Adult Services Comprehensive Assessment. An individual must be assessed with at least one activity of daily living (ADL) in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determines a need at a level 3 or greater.

 Verification of the client's medical need by a Medicaid enrolled medical professional via the DHS-54A. The client is responsible for obtaining the medical certification of need; see ASM 115, Adult Services Requirements.

> Adult Services Manual (ASM) 105, 11-1-2011, Pages 2-3 of 3

Adult Services Manual (ASM) 115, 11-1-11, addresses the DHS-54A Medical Needs form:

MEDICAL NEEDS FORM (DHS-54A)

The DHS-54A, Medical Needs form must be signed and dated by a medical professional certifying a medical need for personal care services. The medical professional must be an enrolled Medicaid provider and hold one of the following professional licenses:

- Physician (M.D. or D.O.).
- Nurse practitioner.
- Occupational therapist.
- Physical therapist.

Note: A physician assistant (PA) is not an enrolled Medicaid provider and **cannot** sign the DHS-54A.

The medical needs form is only required at the initial opening for SSI recipients and disabled adult children (DAC). All other Medicaid recipients must have a DHS-54A completed at the initial opening and annually thereafter.

The client is responsible for obtaining the medical certification of need but the medical professional and not the client must complete the form. The National Provider Identifier (NPI) number must be entered on the form by the medical provider and the medical professional must indicate whether they are a Medicaid enrolled provider.

The medical professional certifies that the client's need for service is related to an existing medical condition. The medical professional does not prescribe or authorize personal care services. Needed services are determined by the comprehensive assessment conducted by the adult services specialist.

Adult Services Manual (ASM) 115, 11-1-2011, Pages 1-3 of 3

Adult Services Manual (ASM) 120, 5-1-12, addresses the comprehensive assessment:

INTRODUCTION

The DHS-324, Adult Services Comprehensive Assessment is the primary tool for determining need for services. The comprehensive assessment must be completed on **all open independent living services cases**. ASCAP, the automated workload management system, provides the format for the comprehensive assessment and all information must be entered on the computer program.

Requirements

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- The assessment may also include an interview with the individual who will be providing home help services.
- A new face-to-face assessment is required if there is a request for an increase in services before payment is authorized.
- A face-to-face assessment is required on all transfer-in cases before a payment is authorized.
- The assessment must be updated as often as necessary, but minimally at the six-month review and annual redetermination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the department record.
 - Use the DHS-27, Authorization to Release Information, when requesting client information from another agency.
 - Use the DHS-1555, Authorization to Release Protected Health Information, if requesting additional medical documentation; see RFF 1555. The form is primarily used for APS cases.
- Follow rules of confidentiality when home help cases have companion APS cases, see SRM 131 Confidentiality.

Functional Assessment

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the home help services payment.

Conduct a functional assessment to determine the client's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking Medication.
- Meal Preparation and Cleanup.
- Shopping.
- Laundry.
- Light Housework.

Functional Scale

ADLs and IADLs are assessed according to the following five-point scale:

1. Independent.

Performs the activity safely with no human assistance.

2. Verbal Assistance.

Performs the activity with verbal assistance such as reminding, guiding or encouraging.

3. Some Human Assistance.

Performs the activity with some direct physical assistance and/or assistive technology.

4. Much Human Assistance.

Performs the activity with a great deal of human assistance and/or assistive technology.

5. Dependent.

Does not perform the activity even with human assistance and/or assistive technology.

Home help payments may only be authorized for needs assessed at the 3 level ranking or greater.

An individual must be assessed with at least one activity of daily living in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determined a need at a level 3 or greater.

See ASM 121, Functional Assessment Definitions and Ranks for a description of the rankings for activities of daily living and instrumental activities of daily living.

Time and Task

The specialist will allocate time for each task assessed a rank of 3 or higher, based on interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a **guide**. The RTS can be found in ASCAP under the Payment module, Time and Task screen. When hours exceed the RTS rationale **must** be provided.

An assessment of need, at a ranking of 3 or higher, does not automatically guarantee the maximum allotted time allowed by the reasonable time schedule (RTS). The specialist must assess each task according to the actual time required for its completion.

Example: A client needs assistance with cutting up food. The specialist would only pay for the time required to cut the food and not the full amount of time allotted under the RTS for eating.

IADL Maximum Allowable Hours

There are monthly maximum hour limits on all instrumental activities of daily living except medication. The limits are as follows:

- Five hours/month for shopping
- Six hours/month for light housework
- Seven hours/month for laundry
- 25 hours/month for meal preparation

Proration of IADLs

If the client does not require the maximum allowable hours for IADLs, authorize only the amount of time needed for each task. Assessed hours for IADLs (except medications) must be prorated by **one half** in shared living arrangements where other adults reside in the home, as home help services are **only** for the benefit of the client.

Note: This does not include situations where others live in adjoined apartments/flats or in a separate home on shared property and there is no shared, common living area.

In shared living arrangements, where it can be **clearly** documented that IADLs for the eligible client are completed separately from others in the home, hours for IADLs do not need to be prorated.

Example: Client has special dietary needs and meals are prepared separately; client is incontinent of bowel and/or bladder and laundry is completed separately; client's shopping is completed separately due to special dietary needs and food is purchased from specialty stores; etc.

Adult Services Manual (ASM) 120, 5-1-2012, Pages 1-5 of 5

Adult Services Manual (ASM) 101, 11-1-11, addresses services not covered by HHS:

Services not Covered by Home Help

Home help services must **not** be approved for the following:

- Supervising, monitoring, reminding, guiding, teaching or encouraging (functional assessment rank 2).
- Services provided for the benefit of others.
- Services for which a responsible relative is able and available to provide (such as house cleaning, laundry or shopping).
- Services provided by another resource at the same time (for example, hospitalization, MI-Choice Waiver).
- Transportation See Bridges Administrative Manual (BAM) 825 for medical transportation policy and procedures.

- Money management such as power of attorney or representative payee.
- Home delivered meals.
- Adult or child day care.
- Recreational activities. (For example, accompanying and/or transporting to the movies, sporting events etc.)

Note: The above list is not all inclusive.

Adult Services Manual (ASM) 101, 11-1-2011, Pages 3-4 of 4.

In the present case, the Department received a referral for the Appellant for the HHS program on or about (Exhibit 1, page 5)

On the ASW went to the Appellant's home to complete an initial evaluation. The Appellant utilized a wheelchair during the ASW's home visit, which he was able to propel independently with his feet and hands. The ASW went over the ADLs and IADLs included in the HHS program. The ASW understood that the Appellant did not need assistance with any ADLs. Accordingly, the ASW concluded that the Appellant did not have a medical need for hands on assistance, functional ranking 3 or greater, with any ADL and denied the Appellant's HHS application. The ASW also asserted that the DHS-54A Medical Needs form was not valid because it was completed by and RPT and no NPI number was provided. (Exhibit 1, pages 5 and 6-12; ASW Testimony)

The Appellant disagrees with the denial and testified his niece helps him with mobility, taking medications, and all daily activities. (Appellant Testimony) The Appellant's niece testified that she assists with many activities, including cooking, cleaning, laundry, washing the Appellant up, running errands, making sure he takes medications, and dressing lower body. Additionally, the Appellant's niece stated she helps the Appellant with his wheelchair because his legs are not strong enough, including help getting in and out of the wheelchair. (Niece Testimony) The Appellant's sister testified that the Appellant had been discharged from a rehabilitation facility to her home with a plan for him to receive assistance from his niece. The Appellant's niece assists both the Appellant and his sister with activities like cooking. Additionally, the Appellant's niece assists the Appellant with other activities including cleaning, laundry, medications, money management, wheelchair transfers, and bathing. It would be hard for the Appellant to walk without the wheelchair. The Appellant's rehabilitation services stopped, but someone else is supposed to start coming out for the Appellant's legs. (Sister Testimony)

While it is noted that the RPT that completed the DHS-54A Medical Needs form did not provide the required NPI number, a physical therapist is an appropriate person to complete the DHS-54A Medical Needs form to verify any medically necessary needs for assistance with ADLs and IADLs. The Appellant's RPT certified a medical need

assistance in

section I of the form, but only circled housework, shopping, laundry and meal preparation. (Exhibit 1, page 5a) These activates are considered IADLs and would not allow for authorization of HHS without a need for hands on assistance with at least one ADL.

The evidence does not establish the Appellant has a need for hands on assistance, functional ranking 3 or greater, with at least one ADL. The testimony of the Appellant, his niece, and his sister about the Appellant's needs for hands on assistance with ADLs like mobility, transferring, bathing, and dressing lower body, was not supported by the medical verification from the RPT. Rather, the medical verification from the RPT supported the ASW's understanding from the home visit that the Appellant only needed hands on assistance with IADLs like cooking, laundry and housework. The policy is clear that HHS hours cannot be authorized when the only needs for hands on assistance are with IADLs. Accordingly, the denial of the Appellant's HHS application must be upheld based on the information available to the ASW.

The Appellant can re-apply for the HHS program at any time and provide updated medical verification of his conditions, functional abilities, and needs for assistance.

DECISION AND ORDER

CL/db cc:

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that the Department properly denied the Appellant's HHS application based on the available information.

IT IS THEREFORE ORDERED THAT:

The Department's decision is AFFIRMED.

Colleen Lack
Administrative Law Judge
for James K. Haveman, Director
Michigan Department of Community Health
Date Signed:
Date Mailed:

*** NOTICE ***

The Michigan Administrative Hearing System may order a rehearing on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. The Michigan Administrative Hearing System will not order a rehearing on the Department's motion where the final decision or rehearing cannot be implemented within 90 days of the filing of the original request. The Appellant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt of the rehearing decision.
