ISSUE

Was disability, as defined below, medically established?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

1. Claimant's MA-P/SDA application on October 3, 2012 was denied on November 1, 2012 per BEM 260/261, with a hearing request on November 13, 2012.
2. Vocational factors: Age 36, high school or more education, and past 15-year work experience as an unskilled cashier and semi-skilled head cashier.
3. Claimant's last employment ended in May, 2012 after she quit her job.
4. Claimant alleges disability due to major depression, anxiety, post-traumatic stress syndrome, and borderline personality disorder. (DHS Exhibit A, Pg. 157).

5. Claimant's disabling symptoms are anxiety attacks around people which make her ill.
6. Medical reports of exams state the claimant on:
 - a. Is oriented to time, place, person, and situation; that she has *normal* insight and exhibits *normal* judgment; and that she demonstrates appropriate mood and effect. (DHS Exhibit A, Pg. 11)
 - b. September 19, 2012: Has a GAF score of 50. (DHS Exhibit A, Pg. 35).
7. State Hearing Review Team decision dated January 18, 2013 states the Claimant's impairments do not meet/equal a Social Security listing for the required duration. (DHS Exhibit A, Pg. 157).

CONCLUSIONS OF LAW

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

The Adult Medical Program (AMP) is established by Title XXI of the Social Security Act; (1115)(a)(1) of the Social Security Act, and is administered by the Department of Human Services (DHS or department) pursuant to MCL 400.10, *et seq.* Department policies are contained in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

Facts above are undisputed.

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last

for a continuous period of not less than 12 months....
20 CFR 416.905.

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

The burden of proof is on the claimant to establish disability by the objective medical evidence of record in accordance with the five step sequential evaluation below. ...20 CFR 416.912(a).

The burden of proof shifts to the DHS at step five20 CFR 416.994 (b)(1)(v).

Acceptable medical sources about your impairments are an M.D. or D.O. or fully licensed psychologist... BEM 260. Medical reports would include:

- In cases of mental impairments, your ability to reason or make occupational, personal, or social adjustments. ...20 CFR 416.913(a)(b)(1) and (2).

When determining disability, the federal regulations are used as a guideline and require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

Step 1, disability is not denied. The objective evidence of record established the Claimant has not been engaged in substantial gainful activities since May, 2012. Therefore the sequential evaluation is required to continue to the next step.

Step 2, disability is denied. The object medical evidence of record (Findings of Fact #6), on date of application, does not establish the Claimant's significant functional incapacity, based on the de minimus standard, to perform basic work activities due to a severe mental impairment, but not for the required one year continuous duration, as defined below.

Severe/Non-Severe Impairment

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

Non-severe impairment(s). An impairment or combination of impairments is not severe if it does not significantly limit your physical or mental ability to do basic work activities. 20 CFR 416.921(a).

Basic work activities. When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include:

1. Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
2. Capacities for seeing, hearing, and speaking;

3. Understanding, carrying out, and remembering simple instructions;
4. Use of judgment;
5. Responding appropriately to supervision, co-workers and usual work situations; and
6. Dealing with changes in a routine work setting.
20 CFR 416.921(b).

The medical reports of record are mostly examination, diagnostic, treatment and progress reports. They do not provide medical assessments of Claimant's basic work limitations for the required duration. Stated differently, how do the Claimant's medically diagnosed disorders significantly incapacitate her functional ability to perform basic work activities for the required duration? Do the disorders impair the Claimant's ability slightly, mildly, moderately (non-severe impairment, as defined above) or severely, as defined above?

The Claimant's disabling symptoms (Findings of Fact #5) are not supported by the objective medical evidence of record (Findings of Fact #6).

The objective medical evidence of record does establish Claimant's GAF score of 50 in September, 2012. This score is considered a moderate (not severe) mental impairment with occupational-function. DSN-IV (4th Edition-Revised).

The medical evidence of record does not establish that the Claimant's abnormal mental findings have persisted on repeated examinations for a reasonable presumption to be made that a severe mental impairment has lasted or is expected to last for at least one continuous year.

Administrative law judges have no authority to make decisions on constitutional grounds, overrule statutes, overrule promulgated regulations or overrule or make exceptions to the department policy set out in the program manuals. Delegation of Hearing Authority, July 13, 2011, per PA 1939, Section 9, Act 280.

Therefore, the sequential evaluation is required to stop at Step 2.

The department's Bridges Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1. Because the Claimant does not meet the definition of disabled under the MA-P program and because the evidence of record

does not establish that Claimant is unable to work for a period exceeding 90 days, the Claimant does not meet the disability criteria for State Disability Assistance benefits either.

Therefore, Claimant has not sustained her burden of proof to establish disability by the competent, material and substantial evidence on the whole record.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides disability was not medically established.

Accordingly, MA-P denial is **UPHELD** and so ORDERED.
