(DHS Exhibit A, Pgs. 120-123).

CONCLUSIONS OF LAW

The State Disability A ssistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Service s (DHS or department) admin isters the SDA program pursuant to MCL 400.10, et seq., and MAC R 400.3151-400.3180. Department polic ies are found in the Bridge es Administrative Manual (BAM), the Bridges Elig ibility Manual (B EM) and the Bridges Reference Manual (BRM).

Facts above are undisputed.

DISABILITY

A person is disabled for SDA purposes if he:

- receives other specified disability-related benefits or services, or
- . resides in a qualified S pecial Living Arrangement facility, or
- is certified as unable to work due to mental or physica I disability f or at least 90 d ays from the onset of the disability.
- . is diagnos ed as hav ing Ac quired Immunodeficiency Syndrome (AIDS).

If the client's circumstances change so t hat the basis of his/her disability is no longer valid, determine if he/she meets any of the other disability crit eria. Do NO T simply initiate case closure. BEM, Item 261, p. 1.

...We follow a set order, as outlined in the federal regulations as an SDA guide-line, to determine whether you are

disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

When determining disability, the federal regulations are used as a guideline and require that several considerations be analyzed in sequentia I order. If dis ability can be ruled out at any step, analysis of the next step is <u>not</u> required. These steps are:

- 1. Does the client perf orm S ubstantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
- 2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the cli ent is ineligible for MA. If yes, the analysis c ontinues to Step 3. 20 CF R 416.920(c).
- 3. Does the impairment appear on a spec ial listing of impairments or are the cli ent's symptoms, signs, and laboratory findings at least eq uivalent in s everity to the set of medical findings specified for the listed impairment? If no, the analys is continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
- 4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
- 5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200. 00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

Severe/Non-Severe Impairment

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not di sabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

Acceptable medical verification sources are licensed physicians, osteopaths, or certified psychologists ...20CFR 416.913(a)

- ...The med ical evidence...mus t be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d). t must allow us to determine --
- (1) The nature and limiting effe cts of your impairment(s) for any period in question;
- (2) The probable duration of your impairment; and

(3) Your residual functional capac ity to do w ork-related physical and mental activities. 20 CFR 416.913(d).

Step 1

The evidence of record has established that the claimant has not engaged in substantial gainful activity since September, 2012. Ther efore, the sequential evaluation is required to continue to the next step.

Step 2

... [The re cord must show a severe impairment] which significantly limits your physical or mental ability to do basic work activities.... 20 CFR 416.920(c).

Basic w ork activities. When we talk about basic work activities, we mean the abilities and aptitudes neces sary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Non-severe impairment(s). An impairment or combination of impairments is not severe if it does not signific antly limit your physical or mental ability to do basic work activities. 20 CFR 416.921(a).

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not di sabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

201313408/WAS

The medic al reports of record are mostly examination, diagnostic, treatment and progress reports and do not provide medical assessments of Claim ant's basic work limitations for the required dur ation. Stated differently, mo st the medical reports do not establish whether the claim ant is impair ed slightly, m ildly, moderately (non-severe impairment, as defined above) or severely, as defined above.

The claimants disabling symptoms (Findings of Fact #5) are inconsistent with the objective medical evidence of record (Findings of Fact #6).

The medical evidence does not show abnormal or remarkable examination results; and that the medical evidence does not establish claimant's condition is deteriorating.

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which s how that you have a medical impairment.... 20 CFR 416.929(a).

...Your sy mptoms, i ncluding pain, will be determined t o diminish your capacity for basic work activities...to the extent that your alleged functional limitations and restrictions due to symptoms, such as pain, can reasonably be accepted as consistent with the objective medical evidence and other evidence. 20 CFR 416.929(c)(4).

The claim ant has not sustained her burden of proof to establish a sever e physic al impairment, instead of a non-severe impairment, for the required duration of 90 days.

Administrative law judges ha ve no authority to make decisions on constitutional grownerrule promulgated regulations or overrule or make exceptions to the department policy set out in the program manuals. Delegation of Hearing Authority, July 13, 2011, per PA 1939, Section 9, Act 280.

Therefore, the sequential evaluation is required to stop at Step 2.

Therefore, medical disability has not been established at Step 2 by the competent material and substantial evidence on the whole record.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusion sof law, decides disability was not medically established.
