## STATE OF MICHIGAN MICHIGAN ADMINISTRATIVE HEARING SYSTEM ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

## IN THE MATTER OF:

Reg. No: Issue No: 201324826 2009; 4031

Hearing Date: April 25, 2013 Grand Traverse County DHS

#### ADMINISTRATIVE LAW JUDGE: Landis Y. Lain

## **HEARING DECISION**

This matter is before the undersigned Admini strative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notic e, a telephone hearing was held on April 25, 2 013. Claimant personally appear ed and tes tified. The department was represented at the hearing by **and the set of the set of** 

#### **ISSUE**

Did the Department of Human Services (the department) properly deny claimant's application for Medical Assistance (MA-P) and State Disability Assistance (SDA)?

# FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- 1. On September 12, 2012, c laimant filed an application for Medica I Assistance, Retroactive Medic al Assistance and St ate Disab ility Assistance benefits alleging disability.
- 2. On Januar y 10, 2013, the Medica I Rev iew T eam denied c laimant's application stating that claimant's impairments were non-exertional.
- 3. On January 10, 2013, t he department caseworker sent claimant notice that his application was denied.
- 4. On January 18, 2013, claimant filed a request for a hearing to contest the department's negative action.
- 5. On March 19, 2013, the State Hearing Review Team again denied claimant's application st ating in its ana lysis and recommendation: the claimant's wife died in 2012 and he report ed auditory hallucinations of his

wife. He stated she comes to him all the time in his ear. He had a notable fixation on and preservation about the events surrounding his wife's illness and death. Howev er, he made good eye contact and his speech wa s clear, coherent and very spontaneous. There was pressure on occasion. Thought processes appeared to be grossl v intact. He was logical an d relevant. Diagnos es inc luded acute stress disorder, rule out schizophrenia-undifferentiated type and rule out personality disorder NOS. The claimant is not currently engaging in substantial gainful activity based on the information that is available in the file. The claimant's impairments do not meet/equal the intent or severity of a Soc ial Security Listing. The medical evidence of record indicates that the claimant retains the capacity to perform a wide range of simple, un skilled work. A finding a bout the capacity for prior work has not been made . However, this information is not material because all potent ially applicable medical-vocationa L guidelines would direct a finding of not d isable given the claimant's age . education and residual functional capac ity. Therefore, based on the claimant's vocational pr ofile (closely approachi ng advanced age, high school equivalent education and history of unskilled work), MA-P is denied using Voc ational Rule 204.00 as a guide. Retroactive MA-P was considered in this case and is also denied. SDA is denied per BEM 261 because the nature and severity of the claimant's impairments would not preclude work activity at the above stated level for 90 days.

- 6. The hearing was held on April 25, 2013. At the hearing, claimant waived the time periods and requested to submit additional medical information.
- 7. Additional medical information was received on May 2, 2013 in the form of a letter from staff psychologist which indicates that claimant has been diagnosed with depres sive disorder as well as pan ic disorder without agoraphobia.
- 8. Claimant is a 52-year-old man w hose b irth date is Claimant is 5'9" tall and weighs 178 pounds. Claimant attended the 10<sup>-1</sup> grade and has a GED. Claimant stated t hat he can read and write but that he has some vision problems and can only print. Claimant testified that he can add, subtract and count money.
- 9. Claimant last worked in 1999 building boats, as well as at a heat treating occupation. From 1996 2012 clai mant's wife received SSI and she supported them both.
- 10. Claimant alleges as disabling im pairments: anxiety, so cial phobia, panic disorder, bipolar disorder, and depression.

## CONCLUSIONS OF LAW

The regulations governing the hearing and a ppeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An oppor tunity for a hearing shall be granted to an ap plicant who requests a hearing because his or her clai m for assistance has been den ied. MAC R 400.903(1). Clients h ave the right to contes t a department decision affecting elig ibility or benefit levels whenev er it is believed that the decis ion is incorrect. The department will provide an adm inistrative hearing to review the dec ision and determine the appropriateness of that decision. BAM 600.

The State Disability A ssistance (SDA) program which provides financial ass istance for disabled persons is established by 2004 PA 344. The Department of Human Service s (DHS or department) admin isters the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department polic ies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is estab lished by Title XIX of the Social Sec urity Act and is implemented by T itle 42 of the C ode of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substant ial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to deter mine disability . Current work activity, severity of impairments, residual functional capacity, past wor k, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experienc e. 20 CFR 416.920(c).

If the impairment or combination of impair ments do not signific antly limit physica I or mental ability to do basic work activities, it is not a severe impairment(s) and disab ility

does not exist. Age, education and work ex perience will not be c onsidered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings wh ich demonstrate a medical im pairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood press ure, X-rays);
- Diagnosis (statement of disease or injury based on it s signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing bas ic work activities is evaluated. If an individual has the ability to perform basic work activities with out significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other a cceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an indiv idual can do des pite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidenc e relevant to the claim, including m edical opinions, is rev iewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decis ion about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other ev idence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical s ource finding t hat an individual is "d isabled" or "unable to work" does not mean that disability e xists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is <u>not</u> required. These steps are:

- 1. Does the client perf orm S ubstantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
- 2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the cli ent is ineligible for MA. If yes, the analysis c ontinues to Step 3. 20 CF R 416.920(c).
- 3. Does the impairment appear on a spec ial listing of impairments or are the cli ent's symptoms, signs, and laboratory findings at least eq uivalent in s everity to the set of medical findings specified for the listed impairment? If no, the analys is continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
- 4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client

is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).

 Does the client have the Residual Functional Capacity (RFC) to perform other work according to t he guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and is not disqualified from receiving disability at Step 1.

The subjective and objective medical evidence on the record indicates that claimant testified on the record that he lives alone in an apartment, is widowed, has no children under 18 who liv e with him and has no income. Claimant receives Food Assistance Program benefits and the Adult Medical Program. Claimant has a driver's licens e but does not drive because he has no car. Claimant testified that he catches the bus or cooks ev ery day and cooks things like walks a lot. Claim ant testified that he hamburgers and steaks and that he grocery s hops once per week with no help needed . Claimant testified that he cleans his home by doing the fl oors, vacuuming, cleaning the bathroom and doing dishes. CI aimant testified that his hobbies include playing chess and listening to music; he seldom watches television. Claimant testified that he shovels outdoors during the winter sometimes. Claim ant testified on the record that he can stand for 30 minutes to an hour at a time, can sit for 1-2 hours at a time and can walk 500 ft but cannot squat and rec over. Claimant te stified that he can be nd at the wais t, shower and dress himself, tie his shoes but not touch his toes. Cla imant testified that his knees are fine, his hands and arms are fine exc ept that he has a brok en finger and his legs and feet are fine. Claimant testified that his level of pain, on a scale from one to ten, without medication is a ni ne and with medication is a 4- 5. Claimant te stified that the heaviest weight he can carry is 30 lbs. and he smokes a pack and a half a day. His doctors told him to guit but he is not currently in a smoking cessation program. Claimant testified that he sometimes take his wife's medications.

A letter from claimant's psychologist dated May 2, 2013 indicat es that claimant has been diagnosed with depress ive disorder, as well as panic disord er without agoraphobia. He will be seeing a psychia trist on Ma y 23, 2013 and will r eceive a diagnosis as a result of that session as well. He reported recently that he has had the experience within the last few weeks of hearing the voices of his deceased relatives that call on him to commit suicide so that he can join him. He thinks that they are angry with him for being partially responsible for the death of his wife. He also has demonstrated severe social anxiety and can become guit e intense with a high volume level. This is coupled with a major amount of depressi on. It appears as though he has numerous conflicts with others and this would undoubt edly affect his ability to work. The for claimant to function in a work setting psychologist indicates that it is unrealistic around other people. He apparently has significant arthritis in his back. A mental status

evaluation dated November 19, 2012 showed that claimant was widowed in 2012. (pg. 36) His hygiene was good and grooming adequate. He m ade good eye contact and was cooperative. His speech was clear, coherent, very spontaneous and somewhat pressured on occasion. His thought proc esses appeared to be grossly intact with logical following of dis course while responses were relevant to the situation, question s asked and topics disc ussed. He endorsed experience of auditory halluc inations of his wife, state that she "comes to [him] all the time in [his] ear ." His affect pre sented as very labile but still in t he appropriate range while his mood was very anxio us. (pg. 35) He had a notable fixation on and preservati on about the events surrounding his wife 's illness and death. D iagnosis included acute stress disor der, rule out schizophrenia undifferentiated type and rule out personality disorder NOS. (pg. 33) A mental residual functional capacity assessment on the record at pages 31-32 indic ates that claimant was not significantly limited in most areas and only moderately limited in other areas. The moderate areas are rated as such due to claimant's self-reports of his responses to interpersonal stress plus the evaluator's obs ervation of his inability to keep himself on track within the flow of the evaluation.

burden of proof of establishi ng that he has a severely At Step 2, claimant has the restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months. There is insufficient objective clinical medical evidence in the record that claimant suffers a severely restrictive physical or mental impairment. Claimant has reports of pain in multiple areas of his body; however, there are no corresponding clinic al findings that suppor t the reports of symptoms and limitations made by the claimant. There are no labor atory or x-ray findings listed in the file whic h support claimant's contention of disability. The clinical impre ssion is that claimant is stable. There is no m edical finding that claim ant has any muscle at rophy or trauma, abnormality or injury that is c onsistent with a deteriorating c ondition. In short, claimant has restricted himself from tasks associated with occupational func tioning based upon his reports of pain (symptoms) rather than medical findings. Reported symptoms are an insufficient basis upon which a finding that claimant has me t the evidentiary burden of proof can be made. This Admini strative Law Judge finds th at the medical record is insufficient to establish that claimant has a severely restrictive physical impairment.

Claimant alleges the following disabling ment al impairments: po st-traumatic stress disorder, anxiety, depressi on, panic disorder without agoraphobia, and ac ute stress disorder.

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations ar e assessed using the criteria in paragraph (B) of the listings for mental di sorders (descriptions of restrict ions of activities of daily living, social functioning; c oncentration, persistence, or pace; and ability to tolerat e increased mental demands associated wit h com petitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

There is insufficient objective medical/ps ychiatric e vidence in the record indicating claimant suffers severe mental limitations. There is a mental residual functional capacity

assessment in the r ecord. There is ins ufficient evidence c ontained in the file of depression or a cognitive dysfunction that is so severe that it w ould prevent claimant from working at any job. Claimant was or iented to time, person and place during the hearing. Claimant was able to answer all of the questions at the hearing and was responsive to the questions. The evidentiar y record is insufficient to find that claimant suffers a severely restrictive mental impair ment. For these reasons, this Administrative Law Judge finds that claimant has failed to meet his burden of proof at Step 2. Claimant must be denied benefits at this step based upon his failure to meet the evidentiary burden.

If claimant had not been denied at Step 2, the analysis would proceed to Step 3 where the medical evidenc e of claimant's condition does not give rise to a finding that he would meet a statutory listing in the code of federal regulations.

If claimant had not already been denied at Step 2, this Administrative Law Judge would have to deny him again at Step 4 based upon hi s ability to perform his past relevant work. There is no ev idence upon which this Admin istrative Law Judge c ould base a finding that claimant is unable to perform work in which he has engaged in, in the past. Therefore, if claimant had not already been denied at Step 2, he would be denied again at Step 4.

The Administrative Law Judge will continue to proceed through the sequential evaluation process to determine whether or not claimant has the residual functional capacity to perform some other less strenuous tasks than in his prior jobs.

At Step 5, the burden of proof shifts to the department to establish that claimant does not have residual functional capacity.

The residual functional capac ity is what an individual can do desp ite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we class ify jobs as sedentary, lig ht, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles lik e docket files, ledgers, and small tools. Although a sedentary job is defined as one whic h involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light wor k involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this categor y when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Claimant has submitted insufficient objecti ve medical evidence that he lacks the residual functional capacity to perform some other less strenuous tasks than in his prior employment or that he is physically unable to do light or sedentary tasks if demanded of him. Claimant's activities of daily living do not appear to be very limited and he should be able to perform light or sedentary work even with his impairments. Claimant has failed to pr ovide the necessary objective m edical evidence to establish that he has a severe impairment or combination of im pairments which prevent him from performing any level of work for a period of 12 mont hs. The claimant's testimony as to his limitations indicates that he should be able to perform light or sedentary work.

There is insufficient objective medical/ps vchiatric evidence contained in the file of depression or a cognitive dysfunction that is so severe that it w ould prevent claimant from working at any job. Claimant was able to answer all the guestions at the hearing and was responsive to the questions. Claimant was oriented to time, person and plac e during the hearing. Claimant's c omplaints of pain, while pr ofound and credible, are out of proportion to the objective medical evidence contained in the file as it relates to claimant's ability to perform work. Therefore, this Administrative Law Judge finds that the objective medical evidence on the record does not establis h that claimant has no residual functional capacity. Clai mant is dis gualified from receiving disability at Step 5 based upon the fact that he has not established by objective medical evidence that he cannot perform light or sedentary work even with his impairments. Under the Medical-Vocational guidelines, a person who is closely approaching advanced age at 52, with a high school education and an unskilled wor k history who is limited to light work is not considered disabled.

The Federal Regulations at 20 CFR 404.1535 speak to the determination of whether Drug Addiction and Alcoholism (D AA) is material to a person's disability and when benefits will or will not be a pproved. The regulations require the disability analysis be completed prior to a determination of whether a person's drug and alcohol use is material. It is only when a per son meets the disability criterion, as set forth in the regulations, that the issue of materiality becomes relevant. In such cases, the regulations require a sixth step to determine the materi ality of DAA to a person's disability.

When the record contains ev idence of DAA, a determination m ust be made whether or not the per son would continue to be disabled if the individual stopped using drugs or alcohol. The trier of fact must determine what, if any, of the physical or mental limitations would remain if the person were to stop the use of the drugs or alcohol and whether any of these remaining limitations would be disabling. Claimant's testimony and the information contained in the file indicate that claimant has a history of tobacco and drug abuse. Applicable hearing is the Drug Abuse and Alcohol (DA&A) Legislation, Public La w 104-121, Section 105(b)(1), 110 STAT. 853, 42 USC 423(d)(2)(C), 1382(c)(a)(3)(J) Supplement Five 1999. The law indicates that individuals are not eligible and/or are not disabled where drug addiction or alcoholism is a contributing factor material to the determination of disability. After a careful review of the credible and substantial ev idence on the whole record, this Administrative Law Judg e finds that claimant does not meet the statutory disability definition under the authority of the DA&A Legis lation because his subs tance abuse is material to his alleged impairment and alleged disability.

It should be noted that claimant continues t o smoke despite the fact that his doctor has told him to quit. Claimant is not in compliance with his treatment program.

If an individual fails to follow prescribed tr eatment which would be expect ed to restor e their ability to engage in s ubstantial activity without good cause there will not b e a finding of disability.... 20 CFR 416.994(b)(4)(iv).

The department's Program Elig ibility Manual contains the following policy s tatements and instructions for casework ers regarding the State Disability Assistance program: to receive State Disability Assist ance, a person must be dis abled, caring for a disable d person or age 65 or older. BEM , Item 261, p. 1. Because the claimant does not meet the definition of disabled u nder the MA-P program and becaus e the evidence of record does not establish that claimant is unable t o work for a period exceeding 90 days, the claimant does not meet the disability criteria for Stat e Disability Assistanc e benefits either

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with department policy when it determined that claimant was not eligible to receive Medi cal As sistance and/or State Disability Assistance.

# **DECISION AND ORDER**

The Administrative Law Judge, based upon t he above findings of fact and conclusion s of law, decides that the depar tment has appropriately establis hed on the record that i t was acting in compliance wit h department policy when it deni ed claimant's application for Medical Assistance, retroactive Medica I Assistance and Stat e Disability Assistance benefits. The claimant should be able to perform a wide range of light or sedentary work even with his impairments. The department ent has established its case by a preponderance of the evidence.

# 201324826/LYL

Accordingly, the department's decision is AFFIRMED.

Landis

Y. Lain Administrative Law Judge for Maura D. Corrigan, Director Department of Human Services

/s/

Date Signed: June 3, 2013

Date Mailed: June 3, 2013

**NOTICE**: Administrative Hearings may or der a rehearing or reconsideration on either its own motion or at t he request of a party wit hin 30 days of the ma iling date of this Decision and Order. Administrative Hear ings will not orde r a rehearing or reconsideration on the Department's mo tion where the final decis ion cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing <u>MAY</u> be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration **MAY** be granted for any of the following reasons:
  - misapplication of manual policy or law in the hearing decision,
  - typographical errors, mathematical erro r, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
  - the failure of the ALJ to address other relevant issues in the hearing decision.
