

STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

[REDACTED]

Reg. No: 201328899
Issue No: 2009; 4031
Case No: [REDACTED]
Hearing Date: May 9, 2013
Kalkaska County DHS

ADMINISTRATIVE LAW JUDGE: Landis Y. Lain

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on May 9, 2013. Claimant personally appeared and testified. The department was represented at the hearing by [REDACTED], an eligibility specialist.

ISSUE

Did the Department of Human Services (the department) properly deny claimant's application for Medical Assistance (MA-P) and State Disability Assistance (SDA)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On October 30, 2012, claimant filed an application for Medical Assistance, State Disability Assistance and Retroactive Medical Assistance benefits alleging disability.
2. On January 24, 2013, the Medical Review Team denied claimant's application stating that claimant could perform other work.
3. On January 28, 2013, the department caseworker sent claimant notice that his application was denied.
4. On February 7, 2013, claimant filed a request for a hearing to contest the department's negative action.
5. On April 15, 2013, the State Hearing Review Team again denied claimant's application stating in its analysis and recommendation: the medical evidence of record could reasonably support that claimant would

retain the ability to perform medium exertional tasks. The claimant is not currently engaging in substantial gainful activity based on the information that is available in the file. The claimant's impairments/combination of impairments does not meet/equal the intent or severity of a Social Security Administration listing. The claimant's past work was: truck driver, 904.383-010, 4M; and, automobile sales, 273.353-010, 6L. Therefore, the claimant retains the capacity to perform all their past relevant work. MA-P is denied per 20CFR416.920 (e&f). Retroactive MA-P was considered in this case and is also denied. SDA is denied per BEM 261 due to the capacity to perform past relevant work. Listings 1.04, 3.03, 4.04, 5.05, 9.00B5 and 11.14 were considered in this determination.

6. Claimant is a 42-year-old man whose birth date is [REDACTED]. Claimant is 6'3" tall and weighs 424 pounds. Claimant is a high school graduate. Claimant is able to read and write and does have basic math skills.
7. Claimant last worked October 2011 as a truck driver. Claimant has also worked in detailing and car sales.
8. Claimant alleges as disabling impairments: obesity, diabetes mellitus, back pain, asthma, hypertension, liver disease, heart disease and neuropathy.

CONCLUSIONS OF LAW

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An opportunity for a hearing shall be granted to an applicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Clients have the right to contest a department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The department will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in

the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "disabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and has not worked since October 2011. Claimant is not disqualified from receiving disability at Step 1.

The subjective and objective medical evidence on the record indicates claimant testified on the record that he lives alone in a trailer, is separated but married, has no children under 18 living with him and no income. Claimant receives Food Assistance Program benefits and the Adult Medical Program. Claimant has a driver's license and his family takes him where he needs to go because his car is broken down. Claimant cooks once per day and cooks things like spaghetti and chili. Claimant testified he grocery shops one time per month and needs help with carrying the groceries and pushing the cart; he stated his niece usually helps him grocery shop. Claimant testified that he sweeps and watches television 5-6 hours per day. Claimant stated that he can stand for 5-10 minutes at a time, can sit for 2 hours at a time and can walk one block. Claimant

testified that he can shower, dress himself and bend at the waist but he cannot squat, touch his toes or tie his shoes. Claimant testified that his knees, hands and arms are fine, but that he has pain and numbness in his legs and feet – they fall asleep a lot. Claimant testified that his level of pain, on a scale from one to ten, without medication, is an 8 and with medication is a 3-4. He stated the heaviest weight he can carry is a gallon of milk. Claimant testified that he does not smoke, drink alcohol or take any drugs.

An August 17, 2011 general radiology report indicates that claimant had a chest x-ray which showed mild cardiomegaly, but no pleural effusion or overt consolidation. The mediastinal structures were narrow. Generous body habitus. There was no pneumonia, but low lung volumes. (pg. 109) Vital signs stated he was morbidly obese with a weight in the mid 400s. Blood pressure was unable to be obtained as his arm was greater than the circumference of their large blood pressure cuff. He had a mild hyperemic posterior pharynx. There was no adenopathy in his neck. His lung fields were clear with perhaps increased adventitious sounds best heard anteriorly. There was poor thoracic expansion. There were no crackles or wheezes posteriorly. His heart had a regular rhythm and an exam of his lower extremities showed venous insufficiency changes. The impression was a history of asthma as a child and acute bronchitis versus early community acquired pneumonia in a diabetic. (pg. 110) An October 13, 2012 medical center report indicates that claimant's blood pressure was 212/122, pulse 92, respirations 16, temperature 36.5, O2 saturation 98% on room air. The general appearance stated claimant was a morbidly obese white male. He was alert and oriented x 3. He appeared mildly uncomfortable. He rated his back and flank pain as a 9/10 on arrival. An examination of his head showed it to be normocephalic and atraumatic. The sclerae were anicteric. His pupils were equal and reactive. EOMS were intact. The oropharynx was nonerythematous and moist with no lesions. He had very poor dentition. The neck was supple with no adenopathy. The lungs were clear to auscultation. The heart was regular in rate and rhythm with no noted murmur, gallop or rub. The abdomen was soft and nondistended. (pg. 111) Normoactive bowel sounds were noted, there was no tenderness, guarding, rebound, masses or organomegaly. He was tender over the right lumbar paraspinous muscles. There was no overt CVA tenderness present. The muscle bulk and tone in his lower extremities was normal. His muscle strength was 5+ and symmetric. DTRs were 2+ and symmetric. There was intact sensation to light touch throughout. He had negative straight leg raise bilaterally. He had strong symmetric lower extremity pulses. He was diagnosed with acute musculoskeletal right back pain and uncontrolled hypertension. (pg. 112) A September 13, 2012 medical examination report indicates that claimant was awake, alert, mildly uncomfortable appearing white male. His vitals were: Temp – 36.6, pulse 84, respirations 20, blood pressure 168/110, weight 191 kg. (pg. 118) He was diagnosed with an exacerbation of chronic lower back pain, out of control hypertension and not well controlled Type 2 diabetes. (pg. 119) A medical examination report dated November 26, 2012 indicated that claimant was over 300 lbs. and was right hand dominant. (pg. 8) Clinical impression was that he was deteriorating and morbidly obese. (pg. 9) This Administrative Law Judge finds that claimant does not meet the definition of medically disabled under the circumstances.

At Step 2, claimant has the burden of proof of establishing that he has a severely restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months. There is insufficient objective clinical medical evidence in the record that claimant suffers a severely restrictive physical or mental impairment. Claimant has reports of pain in multiple areas of his body; however, there are no corresponding clinical findings that support the reports of symptoms and limitations made by the claimant. There are no laboratory or x-ray findings listed in the file which support claimant's contention of disability. The clinical impression is that claimant is stable. There is no medical finding that claimant has any muscle atrophy or trauma, abnormality or injury that is consistent with a deteriorating condition. In short, claimant has restricted himself from tasks associated with occupational functioning based upon his reports of pain (symptoms) rather than medical findings. Reported symptoms are an insufficient basis upon which a finding that claimant has met the evidentiary burden of proof can be made. This Administrative Law Judge finds that the medical record is insufficient to establish that claimant has a severely restrictive physical impairment.

Claimant alleges the following disabling mental impairments: depression and insomnia.

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate increased mental demands associated with competitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

There is insufficient objective medical/psychiatric evidence in the record indicating claimant suffers severe mental limitations. There is no mental residual functional capacity assessment in the record. There is insufficient evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was oriented to time, person and place during the hearing. Claimant was able to answer all of the questions at the hearing and was responsive to the questions. The evidentiary record is insufficient to find that claimant suffers a severely restrictive mental impairment. For these reasons, this Administrative Law Judge finds that claimant has failed to meet his burden of proof at Step 2. Claimant must be denied benefits at this step based upon his failure to meet the evidentiary burden.

If claimant had not been denied at Step 2, the analysis would proceed to Step 3 where the medical evidence of claimant's condition does not give rise to a finding that he would meet a statutory listing in the code of federal regulations.

If claimant had not already been denied at Step 2, this Administrative Law Judge would have to deny him again at Step 4 based upon his ability to perform his past relevant work. There is no evidence upon which this Administrative Law Judge could base a finding that claimant is unable to perform work in which he has engaged in, in the past.

Therefore, if claimant had not already been denied at Step 2, he would be denied again at Step 4.

The Administrative Law Judge will continue to proceed through the sequential evaluation process to determine whether or not claimant has the residual functional capacity to perform some other less strenuous tasks than in his prior jobs.

At Step 5, the burden of proof shifts to the department to establish that claimant does not have residual functional capacity.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Claimant has submitted insufficient objective medical evidence that he lacks the residual functional capacity to perform some other less strenuous tasks than in his prior employment or that he is physically unable to do light or sedentary tasks if demanded of him. Claimant's activities of daily living do not appear to be very limited and he should be able to perform light or sedentary work even with his impairments. Claimant has failed to provide the necessary objective medical evidence to establish that he has a severe impairment or combination of impairments which prevent him from performing any level of work for a period of 12 months. The claimant's testimony as to his limitations indicates that he should be able to perform light or sedentary work.

There is insufficient objective medical/psychiatric evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was able to answer all the questions at the hearing

and was responsive to the questions. Claimant was oriented to time, person and place during the hearing. Claimant's complaints of pain, while profound and credible, are out of proportion to the objective medical evidence contained in the file as it relates to claimant's ability to perform work. Therefore, this Administrative Law Judge finds that the objective medical evidence on the record does not establish that claimant has no residual functional capacity. Claimant is disqualified from receiving disability at Step 5 based upon the fact that he has not established by objective medical evidence that he cannot perform light or sedentary work even with his impairments. Under the Medical-Vocational guidelines, a younger individual (age 42), with a high school education and a semi-skilled work history who is limited to light work is not considered disabled.

The department's Program Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1. Because the claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that claimant is unable to work for a period exceeding 90 days, the claimant does not meet the disability criteria for State Disability Assistance benefits either

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with department policy when it determined that claimant was not eligible to receive Medical Assistance and/or State Disability Assistance.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the department has appropriately established on the record that it was acting in compliance with department policy when it denied claimant's application for Medical Assistance, retroactive Medical Assistance and State Disability Assistance benefits. The claimant should be able to perform a wide range of light or sedentary work even with his impairments. The department has established its case by a preponderance of the evidence.

Accordingly, the department's decision is AFFIRMED.

Landis Y. Lain
Administrative Law Judge
for Maura D. Corrigan, Director
Department of Human Services

Date Signed: May 21, 2013

Date Mailed: May 22, 2013

NOTICE: Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing **MAY** be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration **MAY** be granted for any of the following reasons:
 - misapplication of manual policy or law in the hearing decision,
 - typographical errors, mathematical error, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
 - the failure of the ALJ to address other relevant issues in the hearing decision.
