## CONCLUSIONS OF LAW

The State Disability A ssistance (SDA) program which provides financial ass istance for disabled persons is established by 2004 PA 344. The Department of Human Service s (DHS or department) admin isters the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department polic ies ar e found in the Bridg es Administrative Manua I (BAM), the Bridges Elig ibility Manual (B EM) and the Bridges Reference Manual (BRM).

The Medical Assistance (MA) program is estab lished by Title XIX of the Social Sec urity Act and is implemented by T itle 42 of the C ode of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

Facts above are undisputed.

"Disability" is:

...the inability to do any substant ial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905. ...We follow a set order to determine whether y ou are disabled. We review any current work activity, the severity of your impairment(s), your resi dual functional capacity, your past work, and your age, educati on and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

When determining disability, the federal regulations are used as a guideline and require that several considerations be analyzed in sequentia I order. If dis ability can be ruled out at any step, analysis of the next step is <u>not</u> required. These steps are:

1. Does the client perf orm S ubstantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).

2. Does the client have a severe impairment that has lasted or is expected t o last 12 months or more or result in death? If no, the cl ient is i neligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).

3. Does the impairment appear on a spec ial listing of impairments or are the clie nt's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings spec ified for the listed im pairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the anal ysis continues to Step 5. 20 CFR 416.920(e).

5. Does the client have the Residual Functional Capacity (RFC) to perform oth er work ac cording to the guidelines set forth at 20 CFR 404, Subpar t P, Appendix 2, Sec tions 200.00-204.00? If yes, the anal ysis ends and the c lient is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

The claimant had the burden of proof to establish disability in accordance with steps 1-4 above... 20CFR 416.912 (a). The burden of proof shifts to the DHS at Step 5... 20CFR 416.960 (c)(2).

[In reviewing your impairment]...We need reports about your impairments from acceptable medical sources.... 20 CFR 416.913(a).

Acceptable medical verification sources are licensed physicians, osteopaths, or certified psychologists ...20CFR 416.913(a)

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

It must allow us to determine --

(1) The nature and limiting effects of your impairment(s) for any period in question;

(2) The probable duration of your impairment; and

(3) Your residual functional capac ity to do w ork-related physical and mental activities. 20 CFR 416.913(d).

### Step 1

...If you are working and the work you are doing is substantial gainful act ivity, we will find that you are not disabled regardles s of your medical condition or your age, education, and work experience. 20 CFR 416.920(b).

The evidence of record established that the claimant has not engaged in substantial gainful activity since J uly 14, 2010. Therefore, the sequential evaluation is required to continue to the next step.

### Step 2

... [The record must show a sev ere impairment] which signific antly limits your physical or mental ability to do basic work activities.... 20 CFR 416.920(c).

**Basic work activities.** When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include:

1. Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;

2. Capacities for seeing, hearing, and speaking;

3. Understanding, carrying out, and remembering simple instructions;

4. Use of judgment;

5. Responding appropriately to supervision, co-workers and usual work situations; and

6. Dealing with changes in a routine work setting. 20 CFR 416.921(b).

**Non-severe impairment(s)**. An impairment or combination of impairments is not severe if it does not signific antly limit your physical or mental ability to do bas ic work activities. 20 CFR 416.921(a).

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not di sabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

The medic al reports of record are mostly examination, diagnostic, treatment and progress reports. They do not provide medi cal assessments of Cla imant's basic work limitations for the required dur ation. Stated differently, the me dical reports do not establish whether the Claim ant is impair ed slightly, mildly, moderately ( non-severe impairment, as defined above) or severely, as defined above.

The claimants disabling symptoms (Findings of Fact #4) are inconsistent with the objective medical evidence of record (Findings of Fact #6).

...Your symptoms, including pain, will be determined to diminish your capacity for basic work activities...to the extent that your all eged functional limitations and restrictions due to symptoms, such as pain, can reasonably be accepted as consistent with the objective medical evidence and other evidence. 20 CFR 416.929(c)(4).

...Statements about your pain or other symptom s will not alone esta blish that you ar e disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

The medic al reports (Findings of Fact #6) state that Claimant's examinations were normal; that her impairments were mild (not severe); and that her condition was basically stable (not deteriorating).

Claimant has a GAF score of 55 in November, 2012. This is considered a moderate (not severe) mental impairment with occupational-functioning. DSM-IV (4<sup>th</sup> edition- revised).

The Claim ant has not sustai ned her burden of proof to establish a severe physical impairment in combination, ins tead of a non-severe impairment, for the required duration.

Therefore, the sequential evaluation is required to stop at Step 2.

The department's Bridges Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability As sistance program: to receive State Disability Assist ance, a person must be dis abled, caring for a disable d person or age 65 or older. BEM , Item 261, p. 1. Because the claimant does not meet the definition of disabled u nder the MA-P program and becaus e the evidence of record

does not establish that claimant is unable to work for a period exceeding 90 days, the claimant does not meet the disability criteria for Stat e Disability Assistanc e benefits either.

Therefore, medical disability has not been established at Step 2, and als o would not have been established at steps 3, 4, and 5 by the competent, material and s ubstantial evidence on the whole record.

### DECISION AND ORDER

The Administrative Law Judge, based upon t he above findings of fact and conclusion s of law, decides disability was not medically established.

Accordingly, MA-P/SDA denial is **UPHELD** and so ORDERED.
