

STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

[REDACTED]

Reg. No: 2013-31127
Issue No: 2009;4031
Case No: [REDACTED]
Hearing Date: June 25, 2013
Wayne-31 County DHS

ADMINISTRATIVE LAW JUDGE: Landis Y. Lain

HEARING DECISION

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notice, a telephone hearing was held on June 25, 2013. Claimant personally appeared and testified. The department was represented at the hearing by Eligibility Specialist [REDACTED].

ISSUE

Did the Department of Human Services (the department) properly deny claimant's application for Medical Assistance (MA-P) and State Disability Assistance (SDA)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On November 8, 2012, claimant filed an application for Medical Assistance, Retroactive Medical Assistance and State Disability Assistance benefits alleging disability.
2. On January 29, 2013, the Medical Review Team denied claimant's application stating that claimant could perform prior work.
3. On February 5, 2013, the department caseworker sent claimant notice that her application was denied.
4. On February 7, 2013, claimant filed a request for a hearing to contest the department's negative action.
5. On May 14, 2013, the State Hearing Review Team again denied claimant's application stating in its analysis and recommended decision: the claimant has a history of multiple hospitalizations with blood

transfusions. Once treated her condition is stable. As a result of the claimant's combination of severe physical condition, she is capable of performing past work as an interior designer. Claimant is not engaging in substantial gainful activity at this time. Claimant's severe impairments do not meet or equal any listing. Despite the impairments, she retains the capacity to perform past work as an interior designer. Therefore, based on the claimant's vocational profile (younger individual, 12th grade education, and medium work history); MA-P is denied using Vocational Rule 203.30 as a guide. SDA is denied per PEM 261 because the information in file is inadequate to ascertain whether the claimant is or would be disabled for 90 days. Retroactive MA-P benefits are denied at step 5 of the sequential evaluation; claimant retains the capacity to perform past work as an interior designer.

6. Claimant is a 45-year-old woman whose birth date is [REDACTED]. Claimant is 5'11" tall and weighs 220 pounds. Claimant has a Bachelor's of Fine Arts degree. Claimant is able to read and write and does have basic math skills.
7. Claimant last worked in 2010 as an interior designer where she worked for about 15 years. Claimant has also worked in retail and in a printing office.
8. Claimant alleges as disabling impairments: anemia, congestive heart failure, hypertension, fatigue, and 4 blood transfusions. Claimant alleges no disabling mental impairments.

CONCLUSIONS OF LAW

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An opportunity for a hearing shall be granted to an applicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Clients have the right to contest a department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The department will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The

Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "disabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in substantial gainful activity and has not worked since 2010. Claimant is not disqualified from receiving disability at Step 1.

The subjective and objective medical evidence on the record indicates that claimant lives with her mother in a house and her mother supports her. Claimant is single with no children under 18. Claimant has no income and does receive Food Assistance Program benefits. Claimant does have a driver's license and drives 2-3 times per week to take her mother shopping. Claimant testified that she is able to cook but her mother does most of the cooking but claimant is able to cook any thing. Claimant testified that she

does grocery shop 1 time per month and she needs help pushing the cart and she usually uses the amigo cart if she is fatigued. Claimant testified that she does do dishes and sweeps and she watches television 5-6 hours per day. Claimant uses the computer 2 hours a day and does puzzles and reads as a hobby. Claimant testified that she is able to stand for 15 minutes at a time, sit for 30 minutes to an hour at a time and can walk 2 blocks. Claimant is able to bend at waist, shower and dress herself, and tie her shoes but cannot squat and touch her toes. Claimant testified that she has arthritis in her knees and her back is fine. Claimant testified that her level of pain, on a scale of 1-10, without medication is a 5-8, and with medication is a 3-4 and she takes Tylenol for her pain. Claimant testified that she is left handed and that her hands/arms are fine and her legs/feet are fine. Claimant stated the heaviest weight she can carry is a gallon of milk and she smokes less than a pack of cigarettes per day, her doctors have told her to quit and she is not in a smoking cessation program. Claimant testified that she rarely drinks alcohol and she doesn't do any drugs. Claimant testified that she takes between 1-3 naps per day because of her fatigue and she is doing better since the last doctor visit in March, 2013. Claimant has not had a blood transfusion in 1 year.

The claimant was hospitalized on September 18, 2012 due to feeling tired. It was discovered she was severely anemic and required a blood transfusion. Her blood pressure was 137/68. The heart examination was within normal limits. The lungs were clear (p 40-41). A medical examination report contained in the file indicates that the clinical impression was claimant was stable. She could frequently carry less than 10 lbs and never carry 10 lbs or more. She could stand or walk at least 2 hours in an 8 hour work day. She could use both upper extremities for simple grasping, reaching, pushing/pulling and fine manipulation and she could use both legs to operate foot/leg controls. Her general appearance was normal. Her HEENT was normal. The musculoskeletal area was normal. Neurological she was normal. The mental status was normal (p 11-12). A September 18, 2012 medical examination report indicates claimant's assessment was severe anemia, iron deficiency, patient received 3 units of packed red blood cells and then rechecked hemoglobin, although because the patient being with underlying cardiomyopathy and poor ejection fraction, needs to have optimization of hemoglobin to around 9-10 (p 53). The patient was a 44 year-old African-American female currently in no acute distress. Showed a blood pressure of 127/52; pulse was 82; respirations 16; temperature was 98.4°; pulse ox was 100% on room air. HEENT was normocephalic with no obvious trauma. Temporal muscles normal. Eyes normal. Pupils normal, no discharge or bleeding. Oral mucosa normal and moist. The neck was supple. No lymphadenopathy, thyromegaly or masses. The chest had bilateral symmetrical expansion. Clear to auscultation and percussion, no rhonchi, no wheezing, no rales. The cardiovascular area had regular rate and rhythm, S1 and S2 normal. The patient does have a systolic murmur mostly ejection systolic occupying the first half of the systole, grade 2/6. No other murmurs were heard. The abdomen was soft, non-tender, liver and spleen not palpable. No masses are palpable. No guarding. Bowel sounds are present. Patient was alert and oriented times three. Cranial nerves normal. Power is 5/5 in upper extremities. Lower extremity power is 5/5. Deep tendon reflexes are normal. Plantars are downgoing. The extremities showed no edema. Circulation in both lower extremities normal. Perfusion is normal. The musculoskeletal

area had normal joints. Range of motion is fair. The skin was generally intact with no rashes or ulcers. White cell count of 5.7 and hemoglobin of 4.8 (p 52). Ejection fraction on myocardial perfusion study was 29% in 2010, which had later shown to be possibly around 41 on echo. An October 12, 2012 pathology report indicates the post-operative diagnosis was anemia, diverticulosis, and polyps (p 32).

At Step 2, claimant has the burden of proof of establishing that she has a severely restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months. There is insufficient objective clinical medical evidence in the record that claimant suffers a severely restrictive physical or mental impairment. Claimant has reports of pain in multiple areas of her body; however, there are no corresponding clinical findings that support the reports of symptoms and limitations made by the claimant. There are no laboratory or x-ray findings listed in the file which support claimant's contention of disability. The clinical impression is that claimant is stable. There is no medical finding that claimant has any muscle atrophy or trauma, abnormality or injury that is consistent with a deteriorating condition. In short, claimant has restricted herself from tasks associated with occupational functioning based upon her reports of pain (symptoms) rather than medical findings. Reported symptoms are an insufficient basis upon which a finding that claimant has met the evidentiary burden of proof can be made. This Administrative Law Judge finds that the medical record is insufficient to establish that claimant has a severely restrictive physical impairment.

Claimant alleges no disabling mental impairments.

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate increased mental demands associated with competitive work)... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

There is insufficient objective medical/psychiatric evidence in the record indicating claimant suffers severe mental limitations. There is no mental residual functional capacity assessment in the record. There is insufficient evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was oriented to time, person and place during the hearing. Claimant was able to answer all of the questions at the hearing and was responsive to the questions. The evidentiary record is insufficient to find that claimant suffers a severely restrictive mental impairment. For these reasons, this Administrative Law Judge finds that claimant has failed to meet her burden of proof at Step 2. Claimant must be denied benefits at this step based upon her failure to meet the evidentiary burden.

If claimant had not been denied at Step 2, the analysis would proceed to Step 3 where the medical evidence of claimant's condition does not give rise to a finding that he would meet a statutory listing in the code of federal regulations.

If claimant had not already been denied at Step 2, this Administrative Law Judge would have to deny her again at Step 4 based upon her ability to perform her past relevant work. There is no evidence upon which this Administrative Law Judge could base a finding that claimant is unable to perform work in which she has engaged in, in the past. Therefore, if claimant had not already been denied at Step 2, she would be denied again at Step 4.

The Administrative Law Judge will continue to proceed through the sequential evaluation process to determine whether or not claimant has the residual functional capacity to perform some other less strenuous tasks than in her prior jobs.

At Step 5, the burden of proof shifts to the department to establish that claimant does not have residual functional capacity.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls... 20 CFR 416.967(b).

Claimant has submitted insufficient objective medical evidence that she lacks the residual functional capacity to perform some other less strenuous tasks than in her prior employment or that she is physically unable to do light or sedentary tasks if demanded of her. Claimant's activities of daily living do not appear to be very limited and she should be able to perform light or sedentary work even with her impairments. Claimant has failed to provide the necessary objective medical evidence to establish that she has a severe impairment or combination of impairments which prevent her from performing any level of work for a period of 12 months. The claimant's testimony as to her limitations indicates that she should be able to perform light or sedentary work.

There is insufficient objective medical/psychiatric evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent claimant from working at any job. Claimant was able to answer all the questions at the hearing and was responsive to the questions. Claimant was oriented to time, person and place during the hearing. Claimant's complaints of pain, while profound and credible, are out of proportion to the objective medical evidence contained in the file as it relates to claimant's ability to perform work. Therefore, this Administrative Law Judge finds that the objective medical evidence on the record does not establish that claimant has no residual functional capacity. Claimant is disqualified from receiving disability at Step 5 based upon the fact that she has not established by objective medical evidence that she cannot perform light or sedentary work even with her impairments. Under the Medical-Vocational guidelines, a younger individual (age 45), with a Bachelors of Fine Arts degree and a semi-skilled work history who is limited to light work is not considered disabled pursuant to Medical Vocational Rule 203.30.

It should be noted that claimant continues to smoke despite the fact that her doctor has told her to quit. Claimant is not in compliance with her treatment program.

If an individual fails to follow prescribed treatment which would be expected to restore their ability to engage in substantial activity without good cause there will not be a finding of disability.... 20 CFR 416.994(b)(4)(iv).

The department's Program Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1. Because the claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that claimant is unable to work for a period exceeding 90 days, the claimant does not meet the disability criteria for State Disability Assistance benefits either

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with department policy when it determined that claimant was not eligible to receive Medical Assistance and/or State Disability Assistance.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the department has appropriately established on the record that it was acting in compliance with department policy when it denied claimant's application for Medical Assistance, retroactive Medical Assistance and State Disability Assistance benefits. The claimant should be able to perform a wide range of light or sedentary work even with her impairments. The department has established its case by a preponderance of the evidence.

Accordingly, the department's decision is **AFFIRMED**.

Y. Lain
Administrative Law Judge
for Maura D. Corrigan, Director
Department of Human Services

Date Signed: July 17, 2013

Date Mailed: July 17, 2013

NOTICE: Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing **MAY** be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration **MAY** be granted for any of the following reasons:
 - misapplication of manual policy or law in the hearing decision,
 - typographical errors, mathematical error, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
 - the failure of the ALJ to address other relevant issues in the hearing decision.

Request must be submitted through the local DHS office or directly to MAHS by mail at
Michigan Administrative Hearings
Reconsideration/Rehearing Request
