## STATE OF MICHIGAN MICHIGAN ADMINISTRATIVE HEARING SYSTEM ADMINISTRATIVE HEARINGS FOR THE DEPARTMENT OF HUMAN SERVICES

#### IN THE MATTER OF:

Reg. No:2013-33380Issue No:2009;4031Case No:Image: Constraint of the second s

ADMINISTRATIVE LAW JUDGE: Landis Y. Lain

## HEARING DECISION

This matter is before the undersigned Admini strative Law Judge pursuant to MCL 400.9 and MCL 400.37 upon claimant's request for a hearing. After due notic e, a telephone hearing was held on June 19, 2013. Claimant per sonally appeared and testified. Claimant's mother, **Sector** also appeared and test ified on claimant's behalf. The department was represented at the hearing by Eligibility Specialist, **Sector** 

## <u>ISSUE</u>

Did the Department of Human Services (the department) properly deny claimant's application for Medical Assistance (MA-P) and State Disability Assistance (SDA)?

#### FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- 1. On July 27, 2012, claimant filed an application for Medical As sistance, Retroactive Medical Assistance and State Disability Assistance benefit s alleging disability.
- 2. On February 15, 2 013, the Medical Review Te am denied claimant's application stating that claimant could perform other work.
- 3. On February 21, 201 3, the department casework er s ent claimant notice that her application was denied.
- 4. On March 4, 2013, claimant file d a request for a hearing to contest the department's negative action.
- 5. On May 9, 2013, the State Hearing Review Team again denied claimant's application stating in its analys is and recommendation: the claimant's thoughts were organized, rational and reality bas ed. There was no evidence of psychosis. Her affe ct was sta ble. She had a diagnosis of

anxiety disorder and nicotine dependence. Her AP dia meter was increased with prolongati on of the expirat ory phase but breath sounds were clear. Grip strength and dexterity were intact. She walked with a mild right limp without the use of an assist device. She had tenderness in the cervical and lumbar spine but no muscle spasm. Motor strength was diminishes to 4/5 at the right lowe r extremity and left upper extremity. Muscle tone was normal. Sensory functions were normal. The claimant is not currently engaging in substantia I gainful activity based on the information that is av ailable in f ile. The claimant's impairments do no t meet/equal the intent or se verity of a Social Securi ty listing. The medical evidence of record indicates t hat the claimant retains the c apacity to perform a wide range of light work. A finding about the capacity for prior work has not been made. However, this information is not material because all potentially applicable m edical-vocational guidelines would direct a finding of not disabled gi ven the claimant's age, education and residual functional capacity. Therefore, based on the claimant's vocational profile (younger individual, 12<sup>th</sup> grade education and no relev ant work history reported), MA -P is denied us ing Vocational Ru le 202.20 as a guide. Retroactive MA-P was considered in this cas e and is also den ied. SDA is denied per PEM 261 because the nature and severity of the claimant's impairments would not prec lude work activity at the above stated level for 90 days.

- 6. Claimant is a 49-yea r-old woman whos e birth date is Claimant is 5'4" tall and weighs 107. 9 pounds. Claimant is a high schoo I graduate. Claimant is able to read and wr ite and does have basic math skills.
- 7. Claimant last worked approxim ately 11 y ears before the hearing as a groundskeeper. Claimant has also worked as a mason tender, in factories, as a resident manager in an apar tment community and as a leasing consultant.
- 8. Claimant alleges as disabling impairments: depression, bone spurs in the neck, back and big toes, the need for ne ck surgery, pain in the head, pain in the back, thoracic outlet syndrome and reflex sympathetic dystrophy.

# CONCLUSIONS OF LAW

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An oppor tunity for a hearing shall be granted to an ap plicant who requests a hearing because his or her clai m for assistance has been denied. MAC R 400.903(1). Clients h ave the right to contes t a department decision affecting elig ibility or benefit levels whenev er it is believed that the decis ion is incorrect. The department will provide an adm inistrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The State Disability A ssistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Service s (DHS or department) admin isters the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department polic ies are found in the Bridges Administrative Manua I (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is estab lished by Title XIX of the Social Sec urity Act and is implemented by T itle 42 of the C ode of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substant ial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to deter mine disability . Current work activity, severity of impairments, residual functional capacity, past wor k, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experienc e. 20 CFR 416.920(c).

If the impairment or combination of impair ments do not signific antly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disab ility does not exist. Age, education and work ex perience will not be c onsidered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings wh ich demonstrate a medical im pairment.... 20 CFR 416.929(a).

...Medical reports should include -

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);

- (3) Laboratory findings (such as blood press ure, X-rays);
- Diagnosis (statement of disease or injury based on it s signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing bas ic work activities is evaluated. If an individual has the ability to perform basic work activities with out significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other a cceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an indiv idual can do des pite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidenc e relevant to the claim, including m edical opinions, is rev iewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decis ion about whether the statutory definition of disability is met. The Administrative Law Judge

reviews all medical findings and other ev idence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical s ource finding t hat an individual is "d isabled" or "unable to work" does not mean that disability e xists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that s everal considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is <u>not</u> required. These steps are:

- 1. Does the client perf orm S ubstantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
- 2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis c ontinues to Step 3. 20 CF R 416.920(c).
- 3. Does the impairment appear on a spec ial listing of impairments or are the client's s ymptoms, signs, and laboratory findings at least eq uivalent in s everity to the set of medical findings specified for the listed impairment? If no, the analys is continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
- 4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
- 5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to t he guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, claimant is not engaged in subst antial gainful activity and is not disqualified from receiving disability at Step 1.

The subjective and objective medical evidence on the record indicates that claimant lives with her parents and is single with no children under 18 who live with her. Claimant has no income and does receive Food A ssistance Program benefits and the Adult Medical Program benefits. Claim ant testified that she has no driver's licens e and her parents take her where she needs to go. Claimant testified that she cooks two times per week and cooks things like hamburger helper. Claimant testified that she grocery shops two times per month and only needs a ride to get t here. Cla imant testified that sh e sweeps, v acuums and does laundry and takes care of the dog (Rottweiler/Lab mix). Claimant testified that she watches television 4 hours per day and uses the computer 30 minutes per day and usually pac es all day. Claimant testified t hat she is able to stand for 2 minutes at a time, sit for 1 5 minutes at a time a nd can walk 2 blocks. Claimant testified that she is able to squat, bend at the waist, shower and dress herself, tie her shoes and touch her t oes. Claimant testified that her knees are fine. Claimant testified that her level of pain, on a scale of 1-10, wit hout medication is 10, and with medication is a 10. Claimant testified that she is ambidextrous and that she has carpal tunnel syndrome/wrist pain along with numbness in the hands/arms. Claimant testified that her legs/feet are painful, she has var icose veins, sciatic nerve problems, bone spurs and sometimes an infection in her right big toe. Claimant testified t hat she does smoke 15 cigarettes per day and she does drink about 4 beers per week. Claimant testified that on a typical day she takes care of her dog.

A mental s tatus dated Dec ember 31, 2012 showed the clai mant denied prior ment al health treatment (p 9). The claimant exhibited good grooming. She was restless but was able to stay in her chair. Thoughts were organized, rational and reality-based. Speec h was under standable. She did not report any hallucinations, de lusions or persecutions . Her affect was stable and had normal depth (p 10). Diagnoses included anxiety disorder and nicotine dependence (p 11). Claimant's prognosis was that she struggled with some health problems and had experienced a general decline in physi cal health over 55 (p 11). A physic al examination dated the past two years. Her axis V GAF was November 27, 2012 showed the claimant was 64" and 120 lbs . the chest revealed increased AP diameter with prolongation of the expiratory phase. Breath sounds were clear to auscultation and symmetrical. There was no evidence of joint laxity, crepitance or effusion. Grip strength and dexterity were intact. She had mild difficulty heel and toe walking and squatting. There was no par avertebral muscle spasm. There was tenderness in the cervical and lumbar spine. She had decreased range of motion of the cervical and lumbar spine (p 14-15). Motor strength was diminis hed to 4/5 at the right lower extremity and left upper extremity. Mu scle tone was normal. Sensory functions were intact. She walk ed with a mild right limp without the use of an assist device. Reflexes were 2+ at t he knees and left ankle and 1+ at the right ankle (p 16). There were no findings of spinal stenosis. Continued pain management and avoidanc e of repletion would be indicated. Her blood pressure was 128/80; pulse 86 and regular; and cooperative following respiratory rate 16. She was in ans wering question and commands. Her immediate, recent and remote memory is intact with norm al concentration. Her ins ight and judgment were both ap propriate. She prov ided a good effort during the examination.

At Step 2, claimant has the burden of pr oof of establishing that she has a severe ly restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months. There is insufficient objective clinical medical evidence in the record that claimant suffers a severely restrictive physical or mental impairment. Claimant has reports of pain in multiple areas of her body; however, there are no corresponding clinic al findings that suppor t the reports of symptoms and limitations made by the claimant. There are no labor atory or x-ray findings listed in the file whic h

support claimant's contention of disability. The clinical impre ssion is that claimant is stable. Claimant's impairments do not meet severity or duration. There is no medical finding that claimant has any muscle atrophy or trauma, abnormality or injury that is consistent with a deteriorating condition. In short, claimant has restricted herself from tasks associated with occupat ional funct ioning bas ed upon her reports of pain (symptoms) rather than medi cal findings. Reported symptom s are an ins ufficient basis upon whic h a finding that claimant has me t the evidentiary burden of proof can be made. This Administ rative Law Judge finds t hat the medical r ecord is insufficient to establish that claimant has a severely restrictive physical impairment.

Claimant alleges the following disabling mental impairments: depression.

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations ar e assessed using the criteria in paragraph (B) of the listings for mental di sorders (descriptions of restrict ions of activities of daily living, social functioning; c oncentration, persistence, or pace; and ability to tolerat e increased mental demands associated wit h competitive work).... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

There is insufficient objective medical/ps ychiatric e vidence in the record indicating claimant suffers severe mental limitations . There is a no mental residual functional capacity assessment in the record. There is in sufficient evidence contained in the file of depression or a cognitive dysfunction that is so severe that it w ould prevent claimant from working at any job. Claimant was or iented to time, person and plac e during the hearing. Claimant was able to answer all of the questi ons at the hearing and was responsive to the questions. The evidentiar y record is insufficient to find that claimant suffers a severely restrictive mental impair ment. For these reasons, this Administrative Law Judge finds that claimant has failed to meet her burden of proof at Step 2. Claimant must be denied benefits at this step bas ed upon her failure t o meet the evidentiary burden.

If claimant had not been denied at Step 2, the analysis would proceed to Step 3 where the medical evidenc e of claimant's condition does not give rise to a finding that he would meet a statutory listing in the code of federal regulations.

If claimant had not already been denied at Step 2, this Administrative Law Judge would have to deny her again at Step 4 based u pon her ability to perform her past relevant work. There is no ev idence upon which this Admin istrative Law Judge c ould base a finding that claimant is unable to perform work in which she has engaged in, in the past. Therefore, if claimant had not already been denied at Step 2, s he would be denied again at Step 4.

The Administrative Law Judge will continue to proceed through the sequential evaluation process to determine whether or not claimant has the residual functional capacity to perform some other less strenuous tasks than in her prior jobs.

At Step 5, the burden of proof shifts to the department to establish that claimant does not have residual functional capacity.

The residual functional capac ity is what an individual can do desp ite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we class ify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more t han 10 pounds at a time and occasionally lifting or carrying articles lik e docket files, ledgers, and small tools. Although a sedentary job is defined as one whic h involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light wor k involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this categor y when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Claimant has submitted insufficient objecti ve medical evidence that she lacks the residual functional capacity to perform some other less strenuous tasks than in her prior employment or that she is physically unable to do light or sedentary tasks if demanded of her. Claimant's act ivities of daily liv ing do not appear to be very limit ed and sh e should be able to per form light or sedentary work even with her impairments. Claimant has failed to provide the necessary objective medical evidence to establish that she has a severe impairment or comb ination of impairments which prevent her from performing any level of work for a period of 12 mont hs. The claimant's testimony as to her limitations indicates that she should be able to perform light or sedentary work.

There is insufficient objective medical/ps ychiatric evidence contained in the file of depression or a cognitive dysfunction that is so severe that it w ould prevent claimant from working at any job. Claimant was able to answer all the questions at the hearing and was responsive t o the questions. Claimant was oriented to time, person and plac e during the hearing. Claimant's c omplaints of pain, while pr ofound and credi ble, are out of proportion to the objective medical evidence c ontained in t he file as it relates to claimant's ability to perform work. Therefore, this Administrative Law Judge finds that the objective medical evidence on the record does not establish that claimant has no residual functional capacity. Clai mant is dis qualified from receiving disability at Step 5 based upon the fact that she has not established by objective medical evidence that she cannot perform light or sedentary work even with her impairments. Under the Medical-Vocational guidelines, a younger individual (age 49), with a high school education and an unskilled work history who is limited to light work is not considered disabled pursuant to Medical Vocational Rule 202.20.

The department's Program Elig ibility Manual contains the following policy s tatements and instructions for casework ers regarding the State Disability Assistance program: to receive State Disability Assist ance, a person must be dis abled, caring for a disable d person or age 65 or older. BEM , Item 261, p. 1. Because the claimant does not meet the definition of disabled u nder the MA-P program and becaus e the evidence of record does not establish that claimant is unable t o work for a period exceeding 90 days, the claimant does not meet the disability cr iteria for State Disability Assistance benefits either

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with department policy when it determined that claimant was not eligible to receive Medi cal As sistance and/or State Disability Assistance.

## DECISION AND ORDER

The Administrative Law Judge, based upon t he above findings of fact and conclusion s of law, decides that the depar tment has appropriately estab lished on the record that i t was acting in compliance wit h department policy when it deni ed claimant's application for Medical Assistance, retroactive Medica I Assistance and Stat e Disability Assistance benefits. The claimant should be able to perform a wide range of light or sedentary work even with her impairments. The department has established its case by a preponderance of the evidence.

Accordingly, the department's decision is **AFFIRMED**.

/s/

Y. Lain Administrative Law Judge for Maura D. Corrigan, Director Department of Human Services

Date Signed: July 9, 2013

Date Mailed: July 9, 2013

**NOTICE:** Administrative Hearings may or der a rehearing or reconsideration on either its own motion or at t he request of a party wit hin 30 days of the ma iling date of this Decision and Order. Administrative Hear ings will not orde r a rehearing or reconsideration on the Department's mo tion where the final decis ion cannot be implemented within 90 days of the filing of the original request.

Landis

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing <u>MAY</u> be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration **MAY** be granted for any of the following reasons:
  - misapplication of manual policy or law in the hearing decision,
  - typographical errors, mathematical erro r, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
  - the failure of the ALJ to address other relevant issues in the hearing decision.

Request must be submitted through the local DHS office or directly to MAHS by mail at Michigan Administrative Hearings

Reconsideration/Rehearing Request
