ISSUE

Was disability, as defined below, medically established?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

1. Claimant applied for SDA on November 26, 2012, was denied on March 4, 2013 per BEM 261, and requested a hearing on March 4, 2013.
2. Vocational factors: Age 43, GED and some college education, and unskilled/semiskilled work experience.
3. Last employment ended in 2006.
4. Disabling symptoms: Anti-social, does not like being around people; chronic pain throughout whole body, and fatigue due to medications; and limited to lifting/carrying the weight of six gallons of milk.
5. Alleged disabling medical disorder(s): schizophrenia, depression, bipolar, and hepatitis C. (DHS Exhibit A, Pg. 96).
6. Medical reports of exams state the claimant on:

August 8, 2011: Had a GAF score of 55. (DHS Exhibit A, Pg. 6).

June 13, 2012: Has a GAF score of 45-50. (DHS Exhibit A, Pg. 72).

August 22, 2012: Cannot work for six months. (DHS Exhibit A, Pg. 83).

April 26, 2013: Has a GAF score of 42. (DHS Exhibit A, Pg. 51).

7. SHRT report dated May 29, 2013 states the Claimant's impairments do not meet/equal a Social Security listing for the required duration. (DHS Exhibit A, Pg. 96)

CONCLUSIONS OF LAW

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

Facts above are undisputed.

DISABILITY

A person is disabled for SDA purposes if he:

- . receives other specified disability-related benefits or services, or
- . resides in a qualified Special Living Arrangement facility, or
- . is certified as unable to work due to mental or physical disability for at least 90 days from the onset of the disability.
- . is diagnosed as having Acquired Immunodeficiency Syndrome (AIDS).

If the client's circumstances change so that the basis of his/her disability is no longer valid, determine if he/she meets any of the other disability criteria. Do NOT simply initiate case closure. BEM, Item 261, p. 1.

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity

of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

When determining disability, the federal regulations are used as a guideline and require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

The claimant had the burden of proof to establish disability in accordance with steps 1-4 above... 20CFR 416.912 (a). The burden of proof shifts to the DHS at Step 5... 20CFR 416.960 (c)(2).

[In reviewing your impairment]...We need reports about your impairments from acceptable medical sources.... 20 CFR 416.913(a).

Acceptable medical verification sources are licensed physicians, osteopaths, or certified psychologists ...20CFR 416.913(a)

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

It must allow us to determine --

- (1) The nature and limiting effects of your impairment(s) for any period in question;
- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Step 1

...If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b).

The evidence of record established that the claimant has not engaged in substantial gainful activity since 2006. Therefore, the sequential evaluation is required to continue to the next step.

Step 2

... [The record must show a severe impairment] which significantly limits your physical or mental ability to do basic work activities.... 20 CFR 416.920(c).

Basic work activities. When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include:

1. Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
2. Capacities for seeing, hearing, and speaking;
3. Understanding, carrying out, and remembering simple instructions;
4. Use of judgment;
5. Responding appropriately to supervision, co-workers and usual work situations; and

6. Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Non-severe impairment(s). An impairment or combination of impairments is not severe if it does not significantly limit your physical or mental ability to do basic work activities. 20 CFR 416.921(a).

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

The medical reports of record are mostly examination, diagnostic, treatment and progress reports. They do not provide medical assessments of Claimant's basic work limitations for the required duration. Stated differently, the medical reports do not establish whether the Claimant is impaired minimally, mildly, moderately (non-severe impairment, as defined above) or severely, as defined above for a one year continuous duration.

The claimant's disabling symptoms (Findings of Fact #4) are inconsistent with the objective medical evidence of record (Findings of Fact #6).

...Your symptoms, including pain, will be determined to diminish your capacity for basic work activities...to the extent that your alleged functional limitations and restrictions due to symptoms, such as pain, can reasonably be accepted as consistent with the objective medical evidence and other evidence. 20 CFR 416.929(c)(4).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

...A statement by a medical source that you are "disabled" or "unable to work" does not mean that we will determine that you are disabled. 20 CFR 416.927(e).

The medical reports (Findings of Fact #6) show that Claimant's physical/mental examinations were normal; that his physical impairments were minimal to moderate (not severe); and that there is no medical evidence of record that Claimant's condition is deteriorating.

The Claimant has not sustained his/her burden of proof to establish a severe physical/mental impairment in combination, instead of a non-severe impairment, for the required one year continuous duration.

Therefore, the sequential evaluation is required to stop at Step 2.

Therefore, medical disability has not been established at Step 2 by the competent, material and substantial evidence on the whole record.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides disability was not medically established.

Accordingly, SDA denial is **UPHELD** and so ORDERED.
