

**STATE OF MICHIGAN  
MICHIGAN ADMINISTRATIVE HEARING SYSTEM  
ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES**

**IN THE MATTER OF:**

[REDACTED]

Reg. No.: 2013-34503  
Issue No.: 2009; 4031  
Case No.: [REDACTED]  
Hearing Date: July 23, 2013  
County: Kent

**ADMINISTRATIVE LAW JUDGE:** Vicki L. Armstrong

**HEARING DECISION**

This matter is before the undersigned Administrative Law Judge upon Claimant's request for a hearing made pursuant to Michigan Compiled Laws 400.9 and 400.37, which govern the administrative hearing and appeal process. After due notice, a telephone hearing was commenced on July 23, 2013, from Lansing, Michigan. Claimant personally appeared and testified. Participants on behalf of the Department of Human Services (Department) included Family Independence Manager [REDACTED] [REDACTED]

**ISSUE**

Whether the Department of Human Services (the department) properly denied Claimant's application for Medical Assistance (MA), retroactive Medical Assistance (Retro/MA) and State Disability Assistance (SDA) benefits?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) On August 15, 2012, Claimant applied for MA, Retro-MA and SDA.
- (2) On December 3, 2012, the Medical Review Team denied Claimant's application for MA and Retro-MA indicating Claimant was capable of performing other work. SDA was denied due to lack of duration. (Department Ex. A, pp 300-301).
- (3) On December 7, 2012, the department caseworker sent Claimant notice that MA/Retro-MA and SDA had been denied.
- (4) On March 6, 2013, Claimant filed a request for a hearing to contest the department's negative MA/Retro-MA and SDA actions.

- (5) On May 15, 2013, the State Hearing Review Team again denied Claimant's application indicating that the medical evidence sufficiently demonstrates that Claimant's condition is improving/is expected to improve within 12 months from the date of onset or from the date of surgery. (Depart Ex. B).
- (6) Claimant has a history of stenosis of the lumbar spine, meningitis, speech impairment, memory problems, insulin dependent diabetes, migraines, chronic pancreatitis, hypertension, cervical disc degeneration and diabetic peripheral neuropathy.
- (7) On August 7, 2012, Claimant presented to the emergency department with epigastric discomfort and a left sided achy headache. He stated the symptoms were worsening. No focal neurological deficits were observed. Normal sensory, motor and speech observed. Claimant appeared significantly dehydrated, but there was no evidence of diabetic ketoacidosis. He did appear to be feeling better, although he still complained of a headache after completion of therapy in the emergency room. He was diagnosed with dehydration and acute cephalgia and discharged in stable condition. (Dept Ex. A, p 210-221).
- (8) On August 8, 2012, Claimant was admitted to the hospital with an altered mental status secondary to viral meningitis. He underwent a CT scan and lumbar puncture. Once the viral meningitis resolved, his headache eventually stabilized with treatment. A CT scan of the head dated 8/30/12 was unremarkable. His discharge diagnosis on September 4, 2012, included altered mental status, viral meningitis, non-insulin dependent diabetes, hypophosphatemia, hypercalcemia, anemia, chronic headaches and a history of spinal stenosis with headache pain. His discharge was delayed secondary to the fact that based on a cognitive evaluation, he required 24-hour care. Care management had to navigate through social issues in order to eventually set that up for him. He was instructed to follow up with visiting nurses, and referred for outpatient speech therapy. (Depart Ex. A, pp 224-285).
- (9) On September 21, 2012, Claimant was evaluated for speech therapy. Claimant was found to have severe difficulty with immediate recall, severe difficulty with recent memory, moderate difficulty with orientation to environment and moderate difficulty with expressing ideas, word finding and fluency. It was noted his executive function and attention needed to be evaluated. (Claimant Ex. A, p 3).
- (10) On February 21, 2013, Claimant completed speech therapy. On completion, the speech therapist indicated Claimant was still struggling with follow through, most likely due to his poor memory and organization skills. He required support from others to monitor his health issues, both

medical and diabetes. The therapist noted he could benefit from ongoing and consistent treatment. (Claimant Ex. p 1).

- (11) Claimant is a 50 year old man whose birthday is [REDACTED]. Claimant is 5'6" tall and weighs 145 lbs. Claimant completed the tenth grade through special education classes. Claimant last worked in 2008.
- (12) Claimant was appealing the denial of Social Security disability at the time of the hearing.

### **CONCLUSIONS OF LAW**

The Medical Assistance (MA) program is established by Subchapter XIX of Chapter 7 of The Public Health & Welfare Act, 42 USC 1397, and is administered by the Department, (DHS or department), pursuant to MCL 400.10 *et seq.* and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM), and the Reference Tables Manual (RFT).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and Mich Admin Code, Rules 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

Current legislative amendments to the Act delineate eligibility criteria as implemented by department policy set forth in program manuals. 2004 PA 344, Sec. 604, establishes the State Disability Assistance program. It reads in part:

Sec. 604 (1). The department shall operate a state disability assistance program. Except as provided in subsection (3), persons eligible for this program shall include needy citizens of the United States or aliens exempt from the Supplemental Security Income citizenship requirement who are at least 18 years of age or emancipated minors meeting one or more of the following requirements:

(b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

Specifically, this Act provides minimal cash assistance to individuals with some type of severe, temporary disability which prevents him or her from engaging in substantial gainful work activity for at least ninety (90) days.

Disability is defined as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905(a). The person claiming a physical or mental disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinical/laboratory findings, diagnosis/prescribed treatment, prognosis for recovery and/or medical assessment of ability to do work-related activities or ability to reason and make appropriate mental adjustments, if a mental disability is alleged. 20 CFR 413.913. An individual's subjective pain complaints are not, in and of themselves, sufficient to establish disability. 20 CFR 416.908; 20 CFR 416.929(a). Similarly, conclusory statements by a physician or mental health professional that an individual is disabled or blind, absent supporting medical evidence, is insufficient to establish disability. 20 CFR 416.927.

When determining disability, the federal regulations require several factors to be considered including: (1) the location/duration/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medication the applicant takes to relieve pain; (3) any treatment other than pain medication that the applicant has received to relieve pain; and, (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be assessed to determine the extent of his or her functional limitation(s) in light of the objective medical evidence presented. 20 CFR 416.929(c)(2).

In order to determine whether or not an individual is disabled, federal regulations require a five-step sequential evaluation process be utilized. 20 CFR 416.920(a)(1). The five-step analysis requires the trier of fact to consider an individual's current work activity; the severity of the impairment(s) both in duration and whether it meets or equals a listed impairment in Appendix 1; residual functional capacity to determine whether an individual can perform past relevant work; and residual functional capacity along with vocational factors (e.g., age, education, and work experience) to determine if an individual can adjust to other work. 20 CFR 416.920(a)(4); 20 CFR 416.945.

If an individual is found disabled, or not disabled, at any step, a determination or decision is made with no need to evaluate subsequent steps. 20 CFR 416.920(a)(4). If a determination cannot be made that an individual is disabled, or not disabled, at a particular step, the next step is required. 20 CFR 416.920(a)(4).

In Claimant's case, the ongoing pain, speech and memory problems in addition to the other non-exertional symptoms he describes are consistent with the objective medical evidence presented. Consequently, great weight and credibility must be given to his testimony in this regard.

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

Claimant has not been employed since December, 2008; consequently, the analysis must move to Step 2.

In this case, Claimant has presented the required medical data and evidence necessary to support a finding that Claimant has significant physical and mental limitations upon his ability to perform basic work activities. Claimant testified that his diabetes is uncontrolled and he has been in a coma twice as a result of his sugar levels dropping to 30. It is noted that at discharge in August, 2012, Claimant was a non-insulin dependent diabetic. Since August, 2012, Claimant has become insulin dependent and now suffers from diabetic neuropathy, in addition to his other medical problems. Therefore, Medical evidence has clearly established that Claimant has an impairment (or combination of impairments) that has more than a minimal effect on Claimant's work activities. See Social Security Rulings 85-28, 88-13, and 82-63.

In the third step of the sequential consideration of a disability claim, the trier of fact must determine if the claimant's impairment (or combination of impairments) is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. This Administrative Law Judge finds that Claimant's medical record will not support a finding that Claimant's impairment(s) is a "listed impairment" or equal to a listed impairment. See Appendix 1 of Subpart P of 20

CFR, Part 404, Part A. Accordingly, Claimant cannot be found to be disabled based upon medical evidence alone. 20 CFR 416.920(d).

In the fourth step of the sequential consideration of a disability claim, the trier of fact must determine if the claimant's impairment(s) prevents claimant from doing past relevant work. 20 CFR 416.920(e). It is the finding of this Administrative Law Judge, based upon the medical evidence and objective medical findings, that Claimant cannot return to his past relevant work because the rigors of sand blasting are completely outside the scope of his physical and mental abilities given the medical evidence presented.

In the fifth step of the sequential consideration of a disability claim, the trier of fact must determine if the claimant's impairment(s) prevents claimant from doing other work. 20 CFR 416.920(f). This determination is based upon Claimant's:

- (1) residual functional capacity defined simply as "what can you still do despite your limitations?" 20 CFR 416.945;
- (2) age, education, and work experience, 20 CFR 416.963-.965; and
- (3) the kinds of work which exist in significant numbers in the national economy which the claimant could perform despite his/her limitations. 20 CFR 416.966.

See *Felton v DSS* 161 Mich. App 690, 696 (1987). Once Claimant reaches Step 5 in the sequential review process, Claimant has already established a *prima facie* case of disability. *Richardson v Secretary of Health and Human Services*, 735 F2d 962 (6<sup>th</sup> Cir, 1984). At that point, the burden of proof is on the state to prove by substantial evidence that Claimant has the residual functional capacity for substantial gainful activity.

After careful review of Claimant's medical record and the Administrative Law Judge's personal interaction with Claimant at the hearing, this Administrative Law Judge finds that Claimant's exertional and non-exertional impairments render Claimant unable to engage in a full range of even sedentary work activities on a regular and continuing basis. 20 CFR 404, Subpart P. Appendix 11, Section 201.00(h). See Social Security Ruling 83-10; *Wilson v Heckler*, 743 F2d 216 (1986). Based on Claimant's vocational profile (approaching advanced age, Claimant is 50, has a tenth grade education and an unskilled work history), this Administrative Law Judge finds Claimant's MA/Retro-MA and SDA benefits are approved using Vocational Rule 201.09 as a guide. Consequently, the department's denial of his August 15, 2012, MA/Retro-MA and SDA application cannot be upheld.

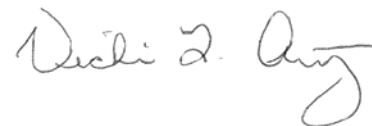

**DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the department erred in determining Claimant is not currently disabled for MA/Retro-MA and SDA eligibility purposes.

Accordingly, the department's decision is **REVERSED**, and it is ORDERED that:

1. The department shall process Claimant's August 15, 2012, MA/Retro-MA and SDA application, and shall award him all the benefits he may be entitled to receive, as long as he meets the remaining financial and non-financial eligibility factors.
2. The department shall review Claimant's medical condition for improvement in August, 2014, unless his Social Security Administration disability status is approved by that time.
3. The department shall obtain updated medical evidence from Claimant's treating physicians, physical therapists, pain clinic notes, etc. regarding his continued treatment, progress and prognosis at review.

**It is SO ORDERED.**

---

Vicki L. Armstrong  
Administrative Law Judge  
for Maura D. Corrigan, Director  
Department of Human Services

Date Signed: August 12, 2013

Date Mailed: August 12, 2013

**NOTICE:** Administrative Hearings may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. Administrative Hearings will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request.

The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the mailing of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt date of the rehearing decision.

Claimant may request a rehearing or reconsideration for the following reasons:

- A rehearing **MAY** be granted if there is newly discovered evidence that could affect the outcome of the original hearing decision.
- A reconsideration **MAY** be granted for any of the following reasons:
  - misapplication of manual policy or law in the hearing decision,
  - typographical errors, mathematical error, or other obvious errors in the hearing decision that effect the substantial rights of the claimant:
  - the failure of the ALJ to address other relevant issues in the hearing decision.

Request must be submitted through the local DHS office or directly to MAHS by mail at  
Michigan Administrative Hearings  
Reconsideration/Rehearing Request  
P. O. Box 30639  
Lansing, Michigan 48909-07322
