CONCLUSIONS OF LAW

The State Disability A ssistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Service s (DHS or department) admin isters the SDA program pursuant to MCL 400.10, et seq., and Mich Admin Code, Rules 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

The Medical Assistance (MA) program is estab lished by Title XIX of the Social Sec urity Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program

pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

Pursuant to the federal regulations at 20 CFR 416.9 94, once a client is determined eligible for disability benefits, the eligibality for such benefits must be reviewe deperiodically. Before determining that a client is no longer eligible for disability benefits, the agency must establish that there has been a medical improvement of the client's impairment that is related to the client's ability to work. 20 CFR 416.994(b)(5).

To assure that disability reviews are carried out in a uniform manner, that a decision of continuing disability can be made in the mos t expeditious and administratively efficient way, and that any decisions to stop disability benefits are made objectively, neutrally, and are fully documented, we will follow specific steps in reviewing the question of whether your disability continues. Our review may cease and benefits may be continued at any point if we determine there is sufficient evidence to find that you are still unable to engage in substantial gainful activity. 20 CFR 416.994(b)(5).

The first questions asks:

(i) Are you engaging in subst antial gainful activity? If you are (and any applic able t rial work period has been completed), we will find disability to have ended (see paragraph (b)(3)(v) of this section).

Claimant is not disqualified from this step because he has not engage d in substantial gainful activity at any time relevant to this matter. Furthermore, the evidence on the record fails to establish that Claimant has a severe impairment which meets or equals a listed impairment found at 20 CFR 404, Subpart P, Appendix 1. Therefore, the analysis continues. 20 CF 416.994(b)(5)(ii).

The next step asks the question if there has been medical improvement.

Medical improvement is any decrease in the medical severity of your impairment(s) which was present at the time of the most recent favorable medical decision that you wer e disabled or continued to be di sabled. A determination that there has been a decrease in medical severity must be based on changes (improvement) in the symptoms, signs and/or laboratory findings associated with your impairment(s). 20 CFR 416.994(b)(1)(i).

If there is a decrease in medical severity as shown by the symptoms, signs and laborator y findings, we then must determine if it is related to your ability to do work. In

paragraph (b)(1)(iv) of this section, we explain the relationship between medical severity and limitation on functional capacity to do basic work activities (or residual functional capacity) and how changes in medical severity can affect your residual functional capacity. In determining whether medical improvement that has occurred is related to your ability to do work, wearily will assess your residual functional capacity (in accordance with paragraph (b)(1)(iv) of this section) based on the current severity of the impairment(s) which was present at your last favorable medical decision. 20 CFR 416.994(b)(2)(ii).

The State Hearing Review Team upheld t he denial of SDA and MA benefits on the basis that Claimant re tained the capacity to perform a wide range of s imple, unskilled work.

Pursuant to the federal regulations, at medical review, the agency has the burden of not only proving Claimant's medical condition has improved, but that the improvement relates to the client's ability to do basic work activities. The agency has the burden of establishing that Claimant is cur rently capable of doing bas ic work activities based on objective medical evidence from qualified medical sources. 20 CFR 416.994(b)(5).

In this case, the agency has not met its bu rden of proof. The agency has provided no evidence that indicat es Claimant's condit ion has improved, or that the alleg ed improvement relates to his ability to do basi c work activities. The agency provided n o objective medical evidence fr om qualified medical source s that show Claimant is currently capable of doing basic work activities. Accordingly, the agency's SDA and MA eligibility determination cannot be upheld at this time.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusion sof law, decides that the department erred in proposing to close Claimant's MA and SDA case based upon a finding of improvement at review.

Accordingly, the department's action is **REVERSED**, and this c ase is returned to the local office for benefit continuation as long as all oth er eligibility criteria are met, wit h Claimant's next mandatory medical review scheduled in October, 2014, (unless he is approved eligible for Social Security disability benefits by that time).

It is SO ORDERED.
