children pursuant to MCL 400.14(1) and Mich Admin Code, R 400.5001-.5020.

With regard to the MA eligibility determination, the State of Michigan has set guidelines for income, which determine if an MA group is eligible. Claimant is not eligible for Group 1 Medicaid. Net income (countable income minus allowable income deductions) must be at or below a certain income limit for Group 1 eligibility to exist. BEM 105.

For Group 2, eligibility is possible even when net income exceeds the income limit. This is because incurred medical expenses are used when determining eligibility for FIP-related and SSI-related Group 2 categories. BEM 105. Income eligibility exists for the calendar month tested when:

- . There is no excess income, or
- . Allowable medical expenses equal or exceed the excess income (under the Deductible Guidelines). BEM 545.

Income eligibility exists when net income does **not** exceed the Group 2 needs in BEM 544. BEM 166. The protected income level is a set allowance for non-medical need items such as shelter, food and incidental expenses. RFT 240 lists the Group 2 MA protected income levels based on shelter area and fiscal group size. BEM 544.

An eligible Medical Assistance group (Group 2 MA) has income the same as or less than the "protected income level" as set forth in RFT 240. An individual or MA group whose income is in excess of the monthly protected income level is ineligible to receive MA.

However, a MA group may become eligible for assistance under the deductible program. The deductible program is a process, which allows a client with excess income to be eligible for MA, if sufficient allowable medical expenses are incurred. Each calendar month is a separate deductible period. The fiscal group's monthly excess income is called the deductible amount. Meeting a deductible means reporting and verifying allowable medical expenses that equal or exceed the deductible amount for the calendar month. The MA group must report expenses by the last day of the third month following the month it wants medical coverage. BEM 545; 42 CFR 435.831.

The MA budgets included claimant's earned income. Per policy, this income must be counted as income to the group. The Administrative Law Judge has reviewed the budgets and found no errors. Claimant himself was unable to point out specifically what parts of the budget he felt were in error. Claimant argued that the budget was unfair, but did not dispute policy. Therefore, claimant only becomes eligible for Group 2 MA when the excess income, calculated to be \$651, is spent. This amount was calculated after considering claimant's allowed protected needs level. The undersigned cannot point to any errors in the budgets, and must conclude that the Department's calculations were correct.

It should be noted that claimant argued that because his RSDI benefits are garnished for child support payments, the Department should only use the actual benefit received amount. However, BEM 530, regarding Medicaid income budgeting, states that the Department must use available income, which includes amounts garnished from

income. Therefore, any amount garnished from claimant's RSDI amount must still be used when calculating claimant's MA deductible, and the Department followed policy when using all of claimant's available income.
