

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

██████████
████████████████████
██████████

Reg. No.: 2013-42269
Issue No(s): 2009
Case No.: ██████████
Hearing Date: October 21, 2013
County: Macomb (20)

ADMINISTRATIVE LAW JUDGE: Susan C. Burke

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a hearing was held on October 21, 2013, in Warren, Michigan. Participants on behalf of Claimant included Claimant and Claimant's Authorized Hearing Representative, ██████████. Participants on behalf of the Department of Human Services (Department) included Aja Craft, MCW.

During the hearing, Claimant waived the time period for the issuance of this decision in order to allow for the submission of additional medical records. During the hearing, and pursuant to an Interim Order Extending the Record, dated October 22, 2013, the Department was ordered to obtain a psychological examination appointment for Claimant, notify Claimant of the appointment date and time, and obtain and submit reports to this Administrative Law Judge by December 20, 2013. The results of these examinations were never submitted, and it is unknown whether the tests were ever scheduled. This matter is now before the undersigned for a final decision.

ISSUE

Whether the Department properly determined that Claimant was not disabled for purposes of the Medical Assistance (MA) benefit program.

FINDINGS OF FACT

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. Claimant submitted an application for public assistance seeking MA benefits and retroactive MA benefits on November 26, 2012.

2. On January 17, 2013, the Medical Review Team (MRT) determined that Claimant was not disabled.
3. The Department notified Claimant of the MRT determination on January 25, 2013.
4. On April 19, 2013, the Department received Claimant's timely written request for hearing.
5. On June 27, 2013, the State Hearing Review Team found Claimant not disabled.
6. During the hearing, and pursuant to an Interim Order dated October 22, 2013, the Department was ordered to obtain a psychological examination appointment for Claimant, Notify Claimant of the appointment date and time, and obtain and submit reports.
7. The results of these examinations were never submitted, and it is unknown whether the tests were ever scheduled.
8. At the time of the hearing, the Claimant was 55 years old with a birth date of [REDACTED].
9. Claimant is not currently working.

CONCLUSIONS OF LAW

The Medical Assistance program is established by Subchapter XIX of Chapter 7 of The Public Health & Welfare Act, 42 USC 1397, and is administered by the Department of Human Services, formerly known as the Family Independence Agency, pursuant to MCL 400.10 *et seq.* and MCL 400.105. Department policies are found in the Bridges Administrative Manual ("BAM"), the Bridges Eligibility Manual ("BEM"), and the Bridges Reference Tables ("RFT").

Federal regulations require that the Department use the same operative definition for "disabled" as used for Supplemental Security Income (SSI) under Title XVI of the Social Security Act. 42 CFR 435.540(a).

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted

or can be expected to last for a continuous period of not less than 12 months ... 20 CFR 416.905.

In determining whether an individual is disabled, 20 CFR 416.920 requires the trier of fact to follow a sequential evaluation process by which current work activity, the severity of the impairment(s), statutory listings of medical impairments, residual functional capacity, and vocational factors (i.e., age, education, and work experience) are assessed in that order. When a determination that an individual is or is not disabled can be made at any step in the sequential evaluation, evaluation under a subsequent step is not necessary.

First, the trier of fact must determine if the individual is working and if the work is substantial gainful activity. (SGA) 20 CFR 416.920(b).

In this case, Claimant is not currently working. Claimant testified credibly that she is not currently working and the Department presented no contradictory evidence. Therefore, Claimant is not disqualified for MA at this step in the sequential evaluation process.

Second, in order to be considered disabled for purposes of MA, a person must have a severe impairment. 20 CFR 416.920(c). A severe impairment is an impairment expected to last twelve months or more (or result in death) which significantly limits an individual's physical or mental ability to perform basic work activities. The term "basic work activities" means the abilities and aptitudes necessary to do most jobs. Examples of these include:

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

The purpose of the second step in the sequential evaluation process is to screen out claims lacking in medical merit. *Higgs v. Bowen* 880 F2d 860, 862 (6th Cir, 1988). As a

result, the Department may only screen out claims at this level which are “totally groundless” solely from a medical standpoint. The *Higgs* court used the severity requirement as a “*de minimus* hurdle” in the disability determination. The *de minimus* standard is a provision of a law that allows the court to disregard trifling matters.

In this case, medical evidence has clearly established that Claimant has an impairment (or combination of impairments) that has more than a minimal effect on Claimant’s work activities. Claimant was admitted on 9-29-12 to 10-8-2012 with altered mental status.

In the third step of the sequential analysis of a disability claim, the trier of fact must determine if the Claimant’s impairment, or combination of impairments, meets or medically equals the criteria of an impairment listed in Appendix 1 of Subpart P of 20 CFR, Part 404. (20 CFR 416.920 (d), 416.925, and 416.926.) This Administrative Law Judge finds that the Claimant’s medical record will support a finding that Claimant’s impairment(s) is a “listed impairment” or is medically equal to a listed impairment. See Appendix 1 of Subpart P of 20 CFR, Part 404, Part A.

In the present case, Claimant has alleged mental disabling impairments.

When evaluating mental impairments, a special technique is used. 20 CFR 416.920a(a). First, an individual’s pertinent symptoms, signs, and laboratory findings are evaluated to determine whether a medically determinable mental impairment exists. 20 CFR 416.920a(b)(1). When a medically determinable mental impairment is established, the symptoms, signs and laboratory findings that substantiate the impairment are documented to include the individual’s significant history, laboratory findings, and functional limitations. 20 CFR 416.920a(e)(2). Functional limitation(s) is assessed based upon the extent to which the impairment(s) interferes with an individual’s ability to function independently, appropriately, effectively, and on a sustained basis. *Id.*; 20 CFR 416.920a(c)(2). Chronic mental disorders, structured settings, medication, and other treatment and the effect on the overall degree of functionality is considered. 20 CFR 416.920a(c)(1). In addition, four broad functional areas (activities of daily living; social functioning; concentration, persistence or pace; and episodes of decompensation) are considered when determining an individual’s degree of functional limitation. 20 CFR 416.920a(c)(3). The degree of limitation for the first three functional areas is rated by a five point scale: none, mild, moderate, marked, and extreme. 20 CFR 416.920a(c)(4). A four point scale (none, one or two, three, four or more) is used to rate the degree of limitation in the fourth functional area. *Id.* The last point on each scale represents a degree of limitation that is incompatible with the ability to do any gainful activity. *Id.*

After the degree of functional limitation is determined, the severity of the mental impairment is determined. 20 CFR 416.920a(d). If severe, a determination of whether

the impairment meets or is the equivalent of a listed mental disorder is made. 20 CFR 416.920a(d)(2).

Listing 12.00 encompasses adult mental disorders. The evaluation of disability on the basis of mental disorders requires documentation of a medically determinable impairment(s) and consideration of the degree in which the impairment limits the individual's ability to work, and whether these limitations have lasted or are expected to last for a continuous period of at least 12 months. (12.00A.) The existence of a medically determinable impairment(s) of the required duration must be established through medical evidence consisting of symptoms, signs, and laboratory findings, to include psychological test findings. (12.00B.) The evaluation of disability on the basis of a mental disorder requires sufficient evidence to (1) establish the presence of a medically determinable mental impairment(s), (2) assess the degree of functional limitation the impairment(s) imposes, and (3) project the probable duration of the impairment(s). (12.00D.)

Listing 12.04 defines affective disorders as being characterized by a disturbance of mood, accompanied by a full or partial manic or depressive syndrome. Generally, affective disorders involve either depression or elation. The required level of severity for these disorders is met when the requirements of both A and B are satisfied, or when the requirements in C are satisfied.

- A. Medically documented persistence, either continuous or intermittent, of one of the following:
 - 1. Depressive syndrome characterized by at least four of the following:
 - a. Anhedonia or pervasive loss of interest in almost all activities; or
 - b. Appetite disturbance with change in weight; or
 - c. Sleep disturbance; or
 - d. Psychomotor agitation or retardation; or
 - e. Decreased energy; or
 - f. Feelings of guilt or worthlessness; or
 - g. Difficulty concentrating or thinking; or
 - h. Thoughts of suicide; or
 - i. Hallucinations, delusions, or paranoid thinking; or
 - 2. Manic syndrome characterized by at least three of the following:
 - a. Hyperactivity; or
 - b. Pressure of speech; or
 - c. Flight of ideas; or
 - d. Inflated self-esteem; or

- e. Decreased need for sleep; or
 - f. Easy distractibility; or
 - g. Involvement in activities that have a high probability of painful consequences which are not recognized; or
 - h. Hallucinations, delusions, or paranoid thinking; or
3. Bipolar syndrome with a history of episodic periods manifested by the full symptomatic picture of both manic and depressive syndromes (and currently characterized by either or both syndromes)

AND

- B. Resulting in at least two of the following:
- 1. Marked restriction on activities of daily living; or
 - 2. Marked difficulties in maintaining social functioning; or
 - 3. Marked difficulties in maintaining concentration, persistence, or pace; or
 - 4. Repeated episodes of decompensation, each of extended duration;

OR

- C. Medically documented history of chronic affective disorder of at least 2 years' duration that has caused more than a minimal limitation of ability to do basic work activities, with symptoms or signs currently attenuated by medication or psychosocial support, and one of the following:
- 1. Repeated episodes of decompensation, each of extended duration; or
 - 2. A residual disease process that has resulted in such marginal adjustment that even minimal increase in mental demands or change in the environment would be predicted to cause the individual to decompensate; or
 - 3. Current history of 1 or more years' inability to function outside a highly supportive living arrangement, with an indication of continued need for such an arrangement.

In the present case, the Administrative Law Judge finds that Claimant's medical records contain medical evidence of an impairment that meets or equals listing 12.00. This assumes that the psychological battery results that were never submitted by the Department contained information that showed Claimant had marked impairments in the

areas of concentration, persistence and pace, social functioning, and activities of daily living. The undersigned also assumes that the tests confirmed significant memory impairment as testified to by Claimant. Therefore, Claimant is found disabled at step three.

In light of the foregoing, it is found that the Claimant's impairment meets, or is the medical equivalent thereof, of a listed impairment within 12.00, and Claimant is found disabled for purposes of the MA benefit program.

DECISION AND ORDER

Accordingly, the Department's determination is REVERSED.

THE DEPARTMENT IS ORDERED TO INITIATE THE FOLLOWING, IN ACCORDANCE WITH DEPARTMENT POLICY AND CONSISTENT WITH THIS HEARING DECISION, WITHIN 10 DAYS OF THE DATE OF MAILING OF THIS DECISION AND ORDER:

1. The Department shall initiate processing of the November 26, 2012 application to determine if all non-medical criteria are met and inform Claimant of the determination in accordance with Department policy.
2. The Department shall review Claimant's continued eligibility in February of 2015, in accordance with Department policy.

Susan C. Burke
Administrative Law Judge
For Maura Corrigan, Director
Department of Human Services

Date Signed: January 13, 2014

Date Mailed: January 14, 2013

NOTICE OF APPEAL: Michigan Administrative Hearing System (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. MAHS will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request (60 days for FAP cases).

2013-42269/SCB

The claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely Request for Rehearing or Reconsideration was made, within 30 days of the receipt date of the Decision and Order of Reconsideration or Rehearing Decision.

A Request for Rehearing or Reconsideration may be granted when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The Department, AHR or the claimant must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date the hearing decision is mailed.

The written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:
