

**STATE OF MICHIGAN  
MICHIGAN ADMINISTRATIVE HEARING SYSTEM  
ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES**

**IN THE MATTER OF:**

[REDACTED]

Reg. No: 2013-43119  
Issue No: 2009; 4009  
Case No: [REDACTED]  
Hearing Date: October 2, 2013  
Midland County DHS

**ADMINISTRATIVE LAW JUDGE:** Vicki L. Armstrong

**HEARING DECISION**

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on October 2, 2013, from Lansing, Michigan. Participants on behalf of Claimant included the Claimant and his friend, [REDACTED]. Participants on behalf of the Department of Human Services (Department) included Family Independence Manager [REDACTED].

During the hearing, Claimant waived the time period for the issuance of this decision in order to allow for the submission of additional medical evidence. The new evidence was forwarded to the State Hearing Review Team ("SHRT") for consideration. On February 4, 2014, the SHRT found Claimant was not disabled. This matter is now before the undersigned for a final decision.

**ISSUE**

Did the Department properly deny Claimant's Medical Assistance (MA), Retroactive MA (Retro-MA) and State Disability Assistance (SDA) application?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On December 11, 2012, Claimant filed an application for MA/Retro-MA and SDA benefits alleging disability.
2. On February 25, 2013, the Medical Review Team (MRT) denied Claimant's application for MA/Retro-MA indicating Claimant was capable of performing other work. (Depart Ex. A, pp 233-234).
3. On March 5, 2013, the department caseworker sent Claimant notice that his application for MA/Retro-MA and SDA had been denied.

4. On April 22, 2013, Claimant filed a request for a hearing to contest the department's negative action.
5. On July 15, 2013, the State Hearing Review Team (SHRT) found Claimant was not disabled and retained the capacity to perform light work. (Depart Ex. B, pp 1-2).
6. During the hearing on October 2, 2013, it was discovered MRT had not ruled on the issue of Claimant's eligibility for SDA and his application was returned to MRT for a determination.
7. On October 18, 2013, the Medical Review Team (MRT) denied Claimant's application for SDA for lack of duration. (Depart Ex. A, pp 245).
8. As of the date of hearing, Claimant was a 29-year-old male standing 5'4" tall and weighing 201 pounds. Claimant has an 11<sup>th</sup> grade education.
9. Claimant does not have any self reported alcohol/drug abuse problems or history. Claimant did testify that he smokes approximately 10 cigarettes per day.
9. Claimant has a driver's license and testified that he is unable to drive an automobile because he sees things.
10. Claimant is not currently working. Claimant last worked in November, 2010, driving a forklift at a warehouse.
11. Claimant alleges disability on the basis of fibromyalgia, severe depression, anxiety, knee problems, hearing and seeing things and arthritis in his wrist.
12. The SHRT findings and conclusions of its decision are adopted and incorporated by reference to the following extent:

8/2012 MRI of the lumbar spine was normal.

12/2012 The physical examination reported he moves all extremities without difficulties and his coordination is intact. He had normal ambulation without assistance.

Analysis: Claimant had no reported difficulties with range of motion of all joints. He had intact coordination and normal ambulation. The MRI of the lumbar spine was normal. Claimant was hospitalized for depression with suicidal thoughts. He was released in stable condition. As a result of Claimant's combination of severe physical and mental conditions, he is restricted to performing unskilled work.

13. The subsequent 2/4/14 SHRT decision as detailed in the attached Disability Determination Evaluation is adopted and incorporated to the following extent:

2/2013 – 6/2013 ongoing office visits with [REDACTED] for chronic pain/fibromyalgia, depression and anxiety. Claimant with ongoing complaints of pain, depression, no insurance coverage for medications. Physical examinations continue to be without clinical findings.

### **CONCLUSIONS OF LAW**

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

Statutory authority for the SDA program states in part:

- (b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted

or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application claimant has the burden of proof pursuant to:

You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as sure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms). 20 CFR 416.913(b).

Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment. 20 CFR 416.929(a).

The medical evidence must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Medical findings consist of symptoms, signs, and laboratory findings:

- (a) **Symptoms** are your own description of your physical or mental impairment. Your statements alone are not enough to establish that there is a physical or mental impairment.
- (b) **Signs** are anatomical, physiological, or psychological abnormalities which can be observed, apart from your statements (symptoms). Signs must be shown by medically acceptable clinical diagnostic techniques. Psychiatric signs are medically demonstrable phenomena which indicate specific psychological abnormalities e.g., abnormalities of behavior, mood, thought, memory, orientation, development, or perception. They must also be shown by observable facts that can be medically described and evaluated.

- (c) **Laboratory findings** are anatomical, physiological, or psychological phenomena which can be shown by the use of a medically acceptable laboratory diagnostic techniques. Some of these diagnostic techniques include chemical tests, electrophysiological studies (electrocardiogram, electroencephalogram, etc.), roentgenological studies (X-rays), and psychological tests. 20 CFR 416.928.

It must allow us to determine --

- (1) The nature and limiting effects of your impairment(s) for any period in question;
- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e).

You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. 20 CFR 416.927(a)(1).

Applying the sequential analysis herein, Claimant is not ineligible at the first step as Claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). An impairment or combination of impairments is not severe and a finding of not disabled is made at Step 2 when medical evidence establishes only a slight abnormality or combination of slight abnormalities, which would have no more than a minimal effect on an individual's ability to work, even if the individual's education and/or work experience were specifically considered. Social Security Ruling 85-28. In other words, a finding of no severity is appropriate when a person's impairments have no more than a minimal effect on his or her physical or mental abilities to perform basic work activities. To meet duration for MA, a claimant must have a severe impairment for a continuous period of one year. To meet duration for SDA, a claimant must have a severe impairment for a continuous period of 90 days.

Claimant has not presented the required competent, material and substantial evidence which would support a finding that the claimant has an impairment or combination of impairments which would significantly limit the physical or mental ability to do basic work

activities for a continuous period of 90 days, and therefore, one year. Although Claimant has cited medical problems, the clinical documentation submitted by Claimant is not sufficient to establish a finding that Claimant is disabled. There is no objective medical evidence to substantiate Claimant's claim that the alleged impairment(s) are severe enough for the required duration, to reach the criteria and definition of disability for either MA or SDA.

As noted above, Claimant has the burden of proof pursuant to 20 CFR 416.912(c). Federal and state law is quite specific with regards to the type of evidence sufficient to show statutory disability. 20 CFR 416.913. This authority requires sufficient medical evidence to substantiate and corroborate statutory disability as it is defined under federal and state law. 20 CFR 416.913 (b), .913(d), and .913(e); BEM 260. These medical findings must be corroborated by medical tests, labs, and other corroborating medical evidence that substantiates disability. 20 CFR 416.927, .928. Moreover, complaints and symptoms of pain must be corroborated pursuant to 20 CFR 416.929(a), .929(c)(4), and .945(e). Claimant's medical evidence in this case, taken as a whole, simply does not rise to statutory disability by meeting these federal and state requirements. 20 CFR 416.920; BEM 260, 261.

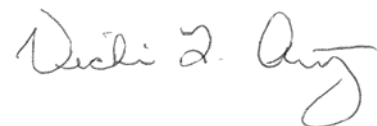

The 6<sup>th</sup> Circuit has held that subjective complaints are inadequate to establish disability when the objective evidence fails to establish the existence of severity of the alleged pain. *McCormick v Secretary of Health and Human Services*, 861 F2d 998, 1003 (6<sup>th</sup> cir 1988).

For these reasons, and for the reasons stated above, statutory disability is not shown.

### **DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the department's actions were correct.

Accordingly, the department's determination in this matter is **UPHELD**.

---

Vicki L. Armstrong  
Administrative Law Judge  
for Maura D. Corrigan, Director  
Department of Human Services

Date Signed: February 25, 2014

Date Mailed: February 26, 2014

**NOTICE OF APPEAL:** The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely Request for Rehearing or Reconsideration was made, within 30 days of the receipt date of the Decision and Order of Reconsideration or Rehearing Decision.

Michigan Administrative Hearing System (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. MAHS will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request (60 days for FAP cases).

A Request for Rehearing or Reconsideration may be granted when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The Department, AHR or the claimant must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date the hearing decision is mailed.

The written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:

Michigan Administrative Hearings  
Reconsideration/Rehearing Request  
P.O. Box 30639  
Lansing, Michigan 48909-07322
