IN THE MATTER OF:

Docket No. 2013-43765 HHS

██████████

██████████

██████████

Appellant

_____ /

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon the Appellant's request for a hearing.

After due notice, a hearing was held on ██████████ ██████████ mother, represented the Appellant. ██████████ the Appellant, was present. ██████████ ██████████, Caregiver, appeared as a witness for the Appellant. ██████████ Appeals Review Officer, represented the Department. ██████████ Adult Services Worker ("ASW"), and ██████████, Adult Services Supervisor, appeared as witnesses for the Department.

ISSUE

Did the Department properly deny the Appellant's Home Help Services ("HHS") application?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On ██████████ the Department received a referral for the Appellant for the HHS program. (Exhibit 1, page 13)
2. On or about ██████████ the Department received the Appellant's application for the HHS program. (ASW Testimony)
3. On ██████████ the ASW went to the Appellant's home to complete an initial evaluation. The Appellant and her mother were present. The ASW went over the Activities of Daily Living ("ADLs") and Instrumental Activities of Daily Living ("IADLs") included in the HHS program. The Appellant indicated she could complete the ADLs without assistance and only reported needs for assistance with the IADLs of taking medications, housework, and laundry. (Exhibit 1, page 18)

4. Based on the information available at the time of the assessment, the ASW concluded that the Appellant did not have a medical need for hands on assistance, functional ranking 3 or greater, with any ADL. (ASW Testimony)
5. On ██████████, the Department sent the Appellant an Adequate Action Notice which informed her that the HHS application would be denied effective ██████████ if the required provider interview was not completed. (Exhibit 1, pages 9-12)
6. On ██████████, the Department sent the Appellant an Adequate Action Notice which informed her that the HHS application was denied based on the new policy requiring a need for hands on assistance with at least one ADL. (Exhibit 1, pages 5-8)
7. On or about ██████████, the Appellant's hearing request was received by the Michigan Administrative Hearing System.

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

Adult Services Manual (ASM) 105, 11-1-11, addresses HHS eligibility requirements:

Requirements

Home help eligibility requirements include all of the following:

- Medicaid eligibility.
- Certification of medical need.
- Need for service, based on a complete comprehensive assessment (DHS-324) indicating a functional limitation of level 3 or greater for activities of daily living (ADL).
- Appropriate Level of Care (LOC) status.

Medical Need Certification

Medical needs are certified utilizing the DHS-54A, Medical Needs form and must be completed by a Medicaid enrolled medical professional. Completed DHS-54A or veterans administration medical forms are acceptable for individual treated by a VA physician; see ASM 115, Adult Services Requirements.

Necessity For Service

The adult services specialist is responsible for determining the necessity and level of need for home help services based on:

- Client choice.
- A completed DHS-324, Adult Services Comprehensive Assessment. An individual must be assessed with at least one activity of daily living (ADL) in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determines a need at a level 3 or greater.

- Verification of the client's medical need by a Medicaid enrolled medical professional via the DHS-54A. The client is responsible for obtaining the medical certification of need; see ASM 115, Adult Services Requirements.

*Adult Services Manual (ASM) 105,
11-1-2011, Pages 2-3 of 3*

Adult Services Manual (ASM) 120, 5-1-12, addresses the comprehensive assessment:

INTRODUCTION

The DHS-324, Adult Services Comprehensive Assessment is the primary tool for determining need for services. The comprehensive assessment must be completed on **all open**

independent living services cases. ASCAP, the automated workload management system, provides the format for the comprehensive assessment and all information must be entered on the computer program.

Requirements

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- The assessment may also include an interview with the individual who will be providing home help services.
- A new face-to-face assessment is required if there is a request for an increase in services before payment is authorized.
- A face-to-face assessment is required on all transfer-in cases before a payment is authorized.
- The assessment must be updated as often as necessary, but minimally at the six-month review and annual redetermination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the department record.
 - Use the DHS-27, Authorization to Release Information, when requesting client information from another agency.
 - Use the DHS-1555, Authorization to Release Protected Health Information, if requesting additional medical documentation; see RFF 1555. The form is primarily used for APS cases.
- Follow rules of confidentiality when home help cases have companion APS cases, see SRM 131 Confidentiality.

Functional Assessment

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the home help services payment.

Conduct a functional assessment to determine the client's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking Medication.
- Meal Preparation and Cleanup.
- Shopping.
- Laundry.
- Light Housework.

Functional Scale

ADLs and IADLs are assessed according to the following five-point scale:

1. Independent.
Performs the activity safely with no human assistance.
2. Verbal Assistance.
Performs the activity with verbal assistance such as reminding, guiding or encouraging.
3. Some Human Assistance.
Performs the activity with some direct physical assistance and/or assistive technology.
4. Much Human Assistance.
Performs the activity with a great deal of human assistance and/or assistive technology.
5. Dependent.
Does not perform the activity even with human assistance and/or assistive technology.

Home help payments may only be authorized for needs assessed at the 3 level ranking or greater.

An individual must be assessed with at least one activity of daily living in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determined a need at a level 3 or greater.

See ASM 121, Functional Assessment Definitions and Ranks for a description of the rankings for activities of daily living and instrumental activities of daily living.

Time and Task

The specialist will allocate time for each task assessed a rank of 3 or higher, based on interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a **guide**. The RTS can be found in ASCAP under the Payment module, Time and Task screen. When hours exceed the RTS rationale **must** be provided.

An assessment of need, at a ranking of 3 or higher, does not automatically guarantee the maximum allotted time allowed by the reasonable time schedule (RTS). **The specialist must assess each task according to the actual time required for its completion.**

Example: A client needs assistance with cutting up food. The specialist would only pay for the time required to cut the food and not the full amount of time allotted under the RTS for eating.

IADL Maximum Allowable Hours

There are monthly maximum hour limits on all instrumental activities of daily living except medication. The limits are as follows:

- Five hours/month for shopping
- Six hours/month for light housework
- Seven hours/month for laundry
- 25 hours/month for meal preparation

Proration of IADLs

If the client does not require the maximum allowable hours for IADLs, authorize only the amount of time needed for each task. Assessed hours for IADLs (except medications) must be prorated by **one half** in shared living arrangements where other adults reside in the home, as home help services are **only** for the benefit of the client.

Note: This does not include situations where others live in adjoining apartments/flats or in a separate home on shared property and there is no shared, common living area.

In shared living arrangements, where it can be **clearly** documented that IADLs for the eligible client are completed separately from others in the home, hours for IADLs do not need to be prorated.

Example: Client has special dietary needs and meals are prepared separately; client is incontinent of bowel and/or bladder and laundry is completed separately; client's shopping is completed separately due to special dietary needs and food is purchased from specialty stores; etc.

Adult Services Manual (ASM) 120, 5-1-2012,
Pages 1-5 of 5

Adult Services Manual (ASM) 101, 11-1-11, addresses services not covered by HHS:

Services not Covered by Home Help

Home help services must **not** be approved for the following:

██████████
Docket No. 2013-43765 HHS
Decision and Order

- Supervising, monitoring, reminding, guiding, teaching or encouraging (functional assessment rank 2).
- Services provided for the benefit of others.
- Services for which a responsible relative is **able** and **available** to provide (such as house cleaning, laundry or shopping).
- Services provided by another resource at the same time (for example, hospitalization, MI-Choice Waiver).
- Transportation - See Bridges Administrative Manual (BAM) 825 for medical transportation policy and procedures.
- Money management such as power of attorney or representative payee.
- Home delivered meals.
- Adult or child day care.
- Recreational activities. (For example, accompanying and/or transporting to the movies, sporting events etc.)

Note: The above list is not all inclusive.

Adult Services Manual (ASM) 101, 11-1-2011,
Pages 3-4 of 4.

In the present case, the Department received the Appellant's application for the HHS program on or about ██████████ (ASW Testimony) On ██████████, the ASW went to the Appellant's home to complete an initial evaluation. The Appellant and her mother were present. The ASW observed a 4 prong cane and walker, but the equipment was not used during the assessment. The ASW went over the ADLs and IADLs included in the HHS program. The Appellant indicated she could complete the ADLs without assistance and only reported needs for assistance with the IADLs of taking medications, housework, and laundry. (Exhibit 1, page 18; ASW Testimony) Based on the information available for this initial assessment, the ASW concluded that the Appellant did not have a medical need for hands on assistance, functional ranking 3 or greater, with any ADL. Accordingly, the ASW denied the Appellant's HHS application. (ASW Testimony)

The Appellant disagrees with the denial. The Appellant's mother was present for the ASW's home visit and recalled the Appellant reporting she was independent with ADLs. The Appellant's mother testified that the Appellant has brain damage and does not understand a lot of things. The Appellant's mother asserted that the Appellant's reporting of her functional abilities and needs for assistance was not reliable. When the Appellant is on the phone, most of the time she does not know who she is talking to. The Appellant cannot understand how to take her medication on time. It would not be safe to let the Appellant cook on the stove. The Appellant's mother gets the Appellant set up for bathing, then the Appellant can bathe herself. The Appellant's mother used to

██████████
Docket No. 2013-43765 HHS
Decision and Order

help the Appellant with a lot of things, and still does as much as she can. Since having a stroke, the Appellant's mother needs assistance for herself and also with helping the Appellant. (Mother Testimony)

The caregiver testified she has been in the home since ██████████, and sees that the Appellant needs a lot of help. The Appellant was very dependent on her mother, who cannot do it anymore. For example, the Appellant could not do the laundry. The Appellant also needs reminders for activities like bathing and medication. (Caregiver Testimony)

The evidence was not sufficient to establish the Appellant had a need for hands on assistance, functional ranking 3 or greater, with at least one ADL, at the time of the initial assessment. During the home visit, the Appellant only reported needs for assistance with IADLs, like housework, laundry and taking medications. (Exhibits 1, page 18, ASW Testimony; Mother Testimony) The testimony of the Appellant's mother and caregiver indicated the Appellant has some needs for prompting, reminding, and supervision with ADLs like bathing. However, this type of assistance is considered a functional ranking level of 2. The policy does not allow for an HHS authorization when the only needs for hands on assistance, functional ranking 3 or greater, are with the IADLs: taking medications, shopping, housework, laundry, and meal preparation. Based on the available information, the Appellant did not require hands on assistance, functional ranking 3 or greater, with at least one ADL at the time of the ASW's initial assessment. Accordingly, the denial of the Appellant's HHS application must be upheld.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that the Department properly denied the Appellant's HHS application based on the available information.

IT IS THEREFORE ORDERED THAT:

The Department's decision is AFFIRMED.
