

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
FOR THE DEPARTMENT OF COMMUNITY HEALTH**

P.O. Box 30763, Lansing, MI 48909
(877) 833-0870; Fax: (517) 373-4147

IN THE MATTER OF:

██████████

Appellant

Docket No. 2013-47430 HHS

██████████

██████████

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon the Appellant's request for a hearing.

After due notice, a hearing was held on ██████████, ██████████ the Appellant, appeared on her own behalf. ██████████, Appeals Review Officer, represented the Department. ██████████ Adult Services Worker ("ASW"), and ██████████ ██████████ Adult Services Supervisor, appeared as witnesses for the Department.

ISSUE

Did the Department properly deny the Appellant's Home Help Services ("HHS") referral?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On or about ██████████, the Department received a referral for the Appellant for the HHS program. (Exhibit 1, page 6)
2. On ██████████, the Appellant's doctor completed a DHS-54A Medical Needs form indicating the Appellant had a medical need for assistance with meal preparation, shopping, laundry, and housework. (Exhibit 1, page 5)
3. On ██████████, the ASW went to the Appellant's home to complete an initial evaluation. The Appellant, her ██████████-year-old son and the proposed HHS provider/child's father were present. The Appellant reported needs for assistance with the Activities of Daily Living ("ADLs") of bathing, dressing, and mobility, as well as the Instrumental Activities of Daily Living ("IADLs") of housework, shopping, laundry, and meal preparation. The Appellant indicated these needs were based on her legs hurting and not being able to bend or lift. The ASW observed the Appellant maneuvering around the home without issue or any adaptive equipment. The ASW also noted there are multiple elevators available in the apartment complex. (Exhibit 1, page

14; ASW Testimony)

4. On ██████████ the ASW was at the apartment complex for another HHS case, and observed the Appellant in the lobby area moving packages into the elevator with another person. The Appellant's HHS provider was not with the Appellant to assist with mobility and the Appellant appeared to be maneuvering without issue. (Exhibit 1, page 14; ASW Testimony)
5. Based on the available information, the ASW concluded that the Appellant did not have a medical need for hands on assistance, functional ranking 3 or greater, with any ADL. (Exhibit 1, page 16; ASW Testimony)
6. On ██████████ the Department sent the Appellant an Adequate Action Notice which informed her that the HHS referral was denied noting the new policy that requires a need for hands on services with at least one ADL. Based on the assessment and the Medical Needs form from the Appellant's doctor, it was determined that the Appellant's only needs for assistance were with IADLs. (Exhibit 1, pages 8-13)
7. On ██████████, the Appellant's hearing request was received by the Michigan Administrative Hearing System. (Exhibit 1, page 4)

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

Adult Services Manual (ASM) 105, 11-1-11, addresses HHS eligibility requirements:

Requirements

Home help eligibility requirements include all of the following:

- Medicaid eligibility.
- Certification of medical need.
- Need for service, based on a complete comprehensive assessment (DHS-324) indicating a functional limitation of level 3 or greater for activities of daily living (ADL).

- Appropriate Level of Care (LOC) status.

Medical Need Certification

Medical needs are certified utilizing the DHS-54A, Medical Needs form and must be completed by a Medicaid enrolled medical professional. Completed DHS-54A or veterans administration medical forms are acceptable for individual treated by a VA physician; see ASM 115, Adult Services Requirements.

Necessity For Service

The adult services specialist is responsible for determining the necessity and level of need for home help services based on:

- Client choice.
- A completed DHS-324, Adult Services Comprehensive Assessment. An individual must be assessed with at least one activity of daily living (ADL) in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determines a need at a level 3 or greater.

- Verification of the client's medical need by a Medicaid enrolled medical professional via the DHS-54A. The client is responsible for obtaining the medical certification of need; see ASM 115, Adult Services Requirements.

*Adult Services Manual (ASM) 105,
11-1-2011, Pages 2-3 of 3*

Adult Services Manual (ASM) 115, 11-1-11, addresses the DHS-54A Medical Needs form:

MEDICAL NEEDS FORM (DHS-54A)

The DHS-54A, Medical Needs form must be signed and dated by a medical professional certifying a medical need for personal care services. The medical professional must be

an enrolled Medicaid provider and hold one of the following professional licenses:

- Physician (M.D. or D.O.).
- Nurse practitioner.
- Occupational therapist.
- Physical therapist.

Note: A physician assistant (PA) is not an enrolled Medicaid provider and **cannot** sign the DHS-54A.

The medical needs form is only required at the initial opening for SSI recipients and disabled adult children (DAC). All other Medicaid recipients must have a DHS-54A completed at the initial opening and annually thereafter.

The client is responsible for obtaining the medical certification of need but the medical professional and not the client must complete the form. The National Provider Identifier (NPI) number must be entered on the form by the medical provider and the medical professional must indicate whether they are a Medicaid enrolled provider.

The medical professional certifies that the client's need for service is related to an existing medical condition. **The medical professional does not prescribe or authorize personal care services.** Needed services are determined by the comprehensive assessment conducted by the adult services specialist.

*Adult Services Manual (ASM) 115,
11-1-2011, Pages 1-3 of 3*

Adult Services Manual (ASM) 120, 5-1-12, addresses the comprehensive assessment:

INTRODUCTION

The DHS-324, Adult Services Comprehensive Assessment is the primary tool for determining need for services. The comprehensive assessment must be completed on **all open independent living services cases**. ASCAP, the automated workload management system, provides the format for the comprehensive assessment and all information must be entered on the computer program.

Requirements

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- The assessment may also include an interview with the individual who will be providing home help services.
- A new face-to-face assessment is required if there is a request for an increase in services before payment is authorized.
- A face-to-face assessment is required on all transfer-in cases before a payment is authorized.
- The assessment must be updated as often as necessary, but minimally at the six-month review and annual redetermination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the department record.
 - Use the DHS-27, Authorization to Release Information, when requesting client information from another agency.
 - Use the DHS-1555, Authorization to Release Protected Health Information, if requesting additional medical documentation; see RFF 1555. The form is primarily used for APS cases.
- Follow rules of confidentiality when home help cases have companion APS cases, see SRM 131 Confidentiality.

Functional Assessment

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the home help services payment.

Conduct a functional assessment to determine the client's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking Medication.
- Meal Preparation and Cleanup.
- Shopping.
- Laundry.
- Light Housework.

Functional Scale

ADLs and IADLs are assessed according to the following five-point scale:

1. Independent.
Performs the activity safely with no human assistance.
2. Verbal Assistance.
Performs the activity with verbal assistance such as reminding, guiding or encouraging.
3. Some Human Assistance.
Performs the activity with some direct physical assistance and/or assistive technology.
4. Much Human Assistance.
Performs the activity with a great deal of human assistance and/or assistive technology.
5. Dependent.
Does not perform the activity even with human assistance and/or assistive technology.

Home help payments may only be authorized for needs assessed at the 3 level ranking or greater.

An individual must be assessed with at least one activity of daily living in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determined a need at a level 3 or greater.

See ASM 121, Functional Assessment Definitions and Ranks for a description of the rankings for activities of daily living and instrumental activities of daily living.

Time and Task

The specialist will allocate time for each task assessed a rank of 3 or higher, based on interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a **guide**. The RTS can be found in ASCAP under the Payment module, Time and Task screen. When hours exceed the RTS rationale **must** be provided.

An assessment of need, at a ranking of 3 or higher, does not automatically guarantee the maximum allotted time allowed by the reasonable time schedule (RTS). **The specialist must assess each task according to the actual time required for its completion.**

Example: A client needs assistance with cutting up food. The specialist would only pay for the time required to cut the food and not the full amount of time allotted under the RTS for eating.

IADL Maximum Allowable Hours

There are monthly maximum hour limits on all instrumental activities of daily living except medication. The limits are as follows:

- Five hours/month for shopping
- Six hours/month for light housework
- Seven hours/month for laundry
- 25 hours/month for meal preparation

Proration of IADLs

If the client does not require the maximum allowable hours for IADLs, authorize only the amount of time needed for each task. Assessed hours for IADLs (except medications) must be prorated by **one half** in shared living arrangements where other adults reside in the home, as home help services are **only** for the benefit of the client.

Note: This does not include situations where others live in adjoining apartments/flats or in a separate home on shared property and there is no shared, common living area.

In shared living arrangements, where it can be **clearly** documented that IADLs for the eligible client are completed separately from others in the home, hours for IADLs do not need to be prorated.

Example: Client has special dietary needs and meals are prepared separately; client is incontinent of bowel and/or bladder and laundry is completed separately; client's shopping is completed separately due to special dietary needs and food is purchased from specialty stores; etc.

Adult Services Manual (ASM) 120, 5-1-2012,
Pages 1-5 of 5

Adult Services Manual (ASM) 101, 11-1-11, addresses services not covered by HHS:

Services not Covered by Home Help

Home help services must **not** be approved for the following:

- Supervising, monitoring, reminding, guiding, teaching or encouraging (functional assessment rank 2).
- Services provided for the benefit of others.
- Services for which a responsible relative is **able** and **available** to provide (such as house cleaning, laundry or shopping).
- Services provided by another resource at the same time (for example, hospitalization, MI-Choice Waiver).
- Transportation - See Bridges Administrative Manual (BAM) 825 for medical transportation policy and procedures.

██████████
Docket No. 2013-47430 HHS
Decision and Order

- Money management such as power of attorney or representative payee.
- Home delivered meals.
- Adult or child day care.
- Recreational activities. (For example, accompanying and/or transporting to the movies, sporting events etc.)

Note: The above list is not all inclusive.

Adult Services Manual (ASM) 101, 11-1-2011,
Pages 3-4 of 4.

The Appellant previously received HHS, but that case was terminated in ██████████ (Adult Services Supervisor Testimony) The Department received a referral for the Appellant for the HHS program on or about ██████████ (Exhibit 1, page 6) Since this referral was less than 90 days from the closing of the prior HHS case, a new application for the HHS program was not required. (Adult Services Supervisor Testimony) On ██████████ the Appellant's doctor completed a DHS-54A Medical Needs form indicating the Appellant had a medical need for assistance with meal preparation, shopping, laundry, and housework. (Exhibit 1, page 5)

On ██████████, the ASW went to the Appellant's home to complete an initial evaluation. The Appellant, her four-year-old son and the proposed HHS provider/child's father were present. The Appellant reported needs for assistance with the ADLs of bathing, dressing, and mobility, as well as the IADLs of housework, shopping, laundry, and meal preparation. The Appellant indicated these needs were based on her legs hurting and not being able to bend or lift. The ASW observed the Appellant maneuvering around the home without issue or any adaptive equipment. The ASW also noted there are multiple elevators available in the apartment complex. (Exhibit 1, page 14; ASW Testimony)

On ██████████, the ASW was at the apartment complex for another HHS case, and observed the Appellant in the lobby area moving packages into the elevator with another person. The Appellant's HHS provider was not with the Appellant to assist with mobility and the Appellant appeared to be maneuvering without issue. The Appellant was scooting the packages into the elevator with her foot. (Exhibit 1, page 14; ASW Testimony)

Based on the available information, the ASW concluded that the Appellant did not have a medical need for hands on assistance, functional ranking 3 or greater, with any ADL. (Exhibit 1, page 16; ASW Testimony) Accordingly, the ASW denied the Appellant's HHS referral. (Exhibit 1, pages 6 and 8-13; ASW Testimony)

The Appellant disagrees with the denial and testified she had a pain management doctor fill out the medical verification form for her prior HHS case. However, this time the primary care doctor said he would do it. The Appellant asserted her primary care

Docket No. 2013-47430 HHS
Decision and Order

doctor does not know about back pain issues. The Appellant stated she needs help getting in/out of the tub and she is supposed to take more baths than showers because baths help her back pain. The Appellant also stated she needs help putting on socks/shoes because it hurts to bend over. (Appellant Testimony)

The evidence was not sufficient to establish that the Appellant had a need for hands on assistance, functional ranking 3 or greater, with at least one ADL, at the time of the initial assessment for the [REDACTED] referral. While it is clear the Appellant reported some needs for hands on assistance with bathing, dressing, and mobility during the home visit, these reported needs were not consistent with the ASW's observations of the Appellant. (Exhibit 1, page 14; ASW Testimony) Further, on the DHS-54A Medical Needs form, the Appellant's doctor listed diagnoses of arthritis and lumbar disk disease, and only certified a medical need for assistance with the IADLs of meal preparation, shopping, laundry, and housework. (Exhibit 1, page 5) The above cited policy does not allow for an HHS authorization when the only needs for hands on assistance, functional ranking 3 or greater, are with IADLs. Based on the available information, the Appellant did not require hands on assistance, functional ranking 3 or greater, with at least one ADL at the time of the ASW's initial assessment for the February 2013 referral. Accordingly, the denial of the Appellant's HHS referral must be upheld.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that the Department properly denied the Appellant's HHS referral based on the available information.

IT IS THEREFORE ORDERED THAT:

The Department's decision is AFFIRMED.
