MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

[REDACTED]

Reg. No.: 2013-51485
Issue No.: 2009; 4031
Case No.: [REDACTED]
Hearing Date: October 16, 2013
County: Lapeer

ADMINISTRATIVE LAW JUDGE: Vicki L. Armstrong

HEARING DECISION

This matter is before the undersigned Administrative Law Judge upon the Claimant's request for a hearing made pursuant to Michigan Compiled Laws 400.9 and 400.37, which govern the administrative hearing and appeal process. After due notice, a telephone hearing was commenced on October 16, 2013, from Lansing, Michigan. Claimant personally appeared and testified. Participants on behalf of the Department of Human Services (Department) included Eligibility Specialist [REDACTED] [REDACTED]

ISSUE

Did the Department of Human Services (the department) properly determine that Claimant was no longer disabled and deny his review application for Medical Assistance (MA-P) and State Disability Assistance (SDA) based upon medical improvement?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) Claimant was a Medical Assistance benefit recipient and his Medical Assistance case was scheduled for review in April, 2010.
- (2) On May 10, 2013, the Medical Review Team denied Claimant's redetermination indicating that Claimant was denied for continuing eligibility. (Depart Ex. A, pp 23-24).
- (3) On May 21, 2013, the department case worker sent Claimant notice that his MA and SDA cases would be closed based upon medical improvement.
- (5) On June 5, 2013, Claimant filed a request for a hearing to contest the department's negative action.

- (6) On August 5, 2013, the State Hearing Review Team denied Claimant's Redetermination for MA, indicating Claimant retained the capacity to perform a wide range of simple, unskilled work. SDA was denied because the nature and severity of Claimant's impairments would not preclude work activity at the above stated level for 90 days.
- (7) On [REDACTED], according to Claimant's Mental Residual Functional Capacity Assessment, Claimant was markedly limited in his ability to work in coordination with or proximity to others without being distracted by them, interact appropriately with the general public, accept instructions and respond appropriately to criticism from supervisors or get along with co-workers or peers without distracting them or exhibiting behavioral extremes. Claimant's psychiatrist added that Claimant was last seen for a psychiatric evaluation in October, 2009 and has been on Zoloft and Seroquel since then while continuing to see his therapist. He continues to be socially anxious but his depression has been reduced. (Depart Ex. 2.31-2.32).
- (8) On [REDACTED], during a medication review, the psychiatrist noted that Claimant needs a psychological evaluation, a medical record summary from his primary care physician and to attend individual therapy. Diagnosis: Axis I: Major recurrent depression, severe with psychotic features; Social Anxiety; Axis II: Personality Disorder; Axis III: Asthma, Sleep Apnea, Celiac disease, Migraines; Axis IV : Unemployed; Axis V: GAF=50. (Depart Ex. 2.24-2.27).
- (9) Claimant alleges his disabling impairments are social phobia with psychotic features, migraines, bipolar disorder, depression and irritable bowel syndrome (IBS).
- (10) Claimant is a 31-year-old man whose birth date is [REDACTED]. Claimant is 5'11" tall and weighs 220 pounds. Claimant has a high school education. He is able to read and write and does have basic math skills.
- (11) Claimant last worked in March, 2009.

CONCLUSIONS OF LAW

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and Mich Admin Code, Rules 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program

pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

Pursuant to the federal regulations at 20 CFR 416.994, once a client is determined eligible for disability benefits, the eligibility for such benefits must be reviewed periodically. Before determining that a client is no longer eligible for disability benefits, the agency must establish that there has been a medical improvement of the client's impairment that is related to the client's ability to work. 20 CFR 416.994(b)(5).

To assure that disability reviews are carried out in a uniform manner, that a decision of continuing disability can be made in the most expeditious and administratively efficient way, and that any decisions to stop disability benefits are made objectively, neutrally, and are fully documented, we will follow specific steps in reviewing the question of whether your disability continues. Our review may cease and benefits may be continued at any point if we determine there is sufficient evidence to find that you are still unable to engage in substantial gainful activity. 20 CFR 416.994(b)(5).

The first question asks:

- (i) Are you engaging in substantial gainful activity? If you are (and any applicable trial work period has been completed), we will find disability to have ended (see paragraph (b)(3)(v) of this section).

Claimant is not disqualified from this step because he has not engaged in substantial gainful activity at any time relevant to this matter. Furthermore, the evidence on the record fails to establish that Claimant has a severe impairment which meets or equals a listed impairment found at 20 CFR 404, Subpart P, Appendix 1. Therefore, the analysis continues. 20 CFR 416.994(b)(5)(ii).

The next step asks the question if there has been medical improvement.

Medical improvement is any decrease in the medical severity of your impairment(s) which was present at the time of the most recent favorable medical decision that you were disabled or continued to be disabled. A determination that there has been a decrease in medical severity must be based on changes (improvement) in the symptoms, signs and/or laboratory findings associated with your impairment(s). 20 CFR 416.994(b)(1)(i).

If there is a decrease in medical severity as shown by the symptoms, signs and laboratory findings, we then must determine if it is related to your ability to do work. In

paragraph (b)(1)(iv) of this section, we explain the relationship between medical severity and limitation on functional capacity to do basic work activities (or residual functional capacity) and how changes in medical severity can affect your residual functional capacity. In determining whether medical improvement that has occurred is related to your ability to do work, we will assess your residual functional capacity (in accordance with paragraph (b)(1)(iv) of this section) based on the current severity of the impairment(s) which was present at your last favorable medical decision. 20 CFR 416.994(b)(2)(ii).

The State Hearing Review Team upheld the denial of SDA and MA benefits on the basis that Claimant retained the capacity to perform a wide range of simple, unskilled work.

Pursuant to the federal regulations, at medical review, the agency has the burden of not only proving Claimant's medical condition has improved, but that the improvement relates to the client's ability to do basic work activities. The agency has the burden of establishing that Claimant is currently capable of doing basic work activities based on objective medical evidence from qualified medical sources. 20 CFR 416.994(b)(5).

In this case, the agency has not met its burden of proof. The agency has provided no evidence that indicates Claimant's condition has improved, or that the alleged improvement relates to his ability to do basic work activities. The agency provided no objective medical evidence from qualified medical sources that show Claimant is currently capable of doing basic work activities. Accordingly, the agency's SDA and MA eligibility determination cannot be upheld at this time.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the department erred in proposing to close Claimant's MA and SDA case based upon a finding of improvement at review.

Accordingly, the department's action is **REVERSED**, and this case is returned to the local office for benefit continuation as long as all other eligibility criteria are met, with Claimant's next mandatory medical review scheduled in October, 2014, (unless he is approved eligible for Social Security disability benefits by that time).

It is SO ORDERED.
