

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

[REDACTED]

Reg. No.: 2013-43896
Issue No.: 2009; 4009
Case No.: [REDACTED]
Hearing Date: October 29, 2013
County: Wayne-57

ADMINISTRATIVE LAW JUDGE: Vicki L. Armstrong

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a tele phone hearing was commenced on October 29, 2013, from Lansing, Michigan. Claimant personally appeared and testified. Participants on behalf of the Department of Human Services (Department) included Lead Worker [REDACTED]

ISSUE

Did the Department of Human Services (DHS) properly deny Claimant's Medical Assistance (MA), Retro-MA and State Disability Assistance (SDA) application?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On January 10, 2013, Claimant filed an application for MA/Retro-MA and SDA benefits alleging disability.
2. On March 13, 2013, the Medical Review Team (MRT) denied Claimant's application for MA/Retro-MA indicating she was capable of performing other work. SDA was denied due to lack of duration. (Depart Ex. A, pp 9-10).
3. On March 19, 2013, the department caseworker sent Claimant notice that her application for MA/Retro-MA and SDA had been denied.
4. On April 23, 2013, Claimant filed a request for a hearing to contest the department's negative action.

5. On July 12, 2013, the State Hearing Review Team (SHRT) found Claimant was not disabled and retained the capacity to perform light work. (Depart Ex. B, pp 1-2).
6. Claimant was appealing the denial of Social Security disability benefits at the time of the hearing.
7. Claimant is a 44 year old woman whose birthday is [REDACTED]. Claimant is 5'5" tall and weighs 285 lbs.
8. Claimant does not have an alcohol or drug problem. Claimant's smokes half a pack of cigarettes a day.
9. Claimant has an expired driver's license and does not drive due to back pain.
10. Claimant has a seventh grade education.
11. Claimant is not currently working. Claimant last worked in 2009.
12. Claimant alleges disability on the basis of disc herniations at L3-L4 and L5-S1, mild central canal stenosis at L3-L4, arthritis, possible uterine leiomyomatous disease, hypertension, hypothyroidism, diabetes, gout, cervical radiculopathy, anxiety, obstructive sleep apnea, depression, bipolar disorder, congestive heart failure and chronic obstructive pulmonary disease.
13. Claimant's impairments have lasted, or are expected to last, continuously for a period of twelve months or longer.
14. Claimant's complaints and allegations concerning her impairments and limitations, when considered in light of all objective medical evidence, as well as the record as a whole, reflect an individual who is so impaired as to be incapable of engaging in any substantial gainful activity on a regular and continuing basis.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*,

and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

Statutory authority for the SDA program states in part:

- (b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

. . . the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

. . . We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further. 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education,

and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.

2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application Claimant has the burden of proof pursuant to:

... You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);

- (3) Laboratory findings (such as ultrasounds, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms). 20 CFR 416.913(b).

Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment. 20 CFR 416.929(a). The medical evidence must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e). You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. 20 CFR 416.927(a)(1).

Applying the sequential analysis herein, Claimant is not eligible at the first step as Claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a *de minimus* standard. Ruling any ambiguities in Claimant's favor, this Administrative Law Judge (ALJ) finds that Claimant meets both. The analysis continues.

The third step of the analysis looks at whether an individual meets or equals one of the Listings of Impairments. 20 CFR 416.920(d). Claimant does not. The analysis continues.

The fourth step of the analysis looks at the ability of the applicant to return to past relevant work. This step examines the physical and mental demands of the work done by Claimant in the past. 20 CFR 416.920(f). In this case, this ALJ finds that Claimant cannot return to past relevant work on the basis of the medical evidence. The analysis continues.

The fifth and final step of the analysis applies the biographical data of the applicant to the Medical Vocational Grids to determine the residual functional capacity of the applicant to do other work. 20 CFR 416.920(g). See *Felton v DSS* 161 Mich. App 690, 696 (1987). Once Claimant reaches Step 5 in the sequential review process, Claimant has already established a *prima facie* case of disability. *Richardson v Secretary of Health and Human Services*, 735 F2d 962 (6th Cir, 1984). At that point, the burden of proof is on the state to prove by substantial evidence that Claimant has the residual functional capacity for substantial gainful activity.

The medical information indicates that Claimant suffers from disc herniations at L3-L4 and L5-S1, mild central canal stenosis at L3-L4, arthritis, possible uterine leiomyomatous disease, hypertension, hypothyroidism, diabetes, gout, cervical radiculopathy, anxiety, obstructive sleep apnea, depression, bipolar disorder, congestive heart failure and chronic obstructive pulmonary disease.

Claimant testified credibly that since she fell in December, 2012, she has been using a cane. Claimant stated she has been told she needs surgery but she has no insurance. She also needs a CPAP machine but cannot afford it. She also cannot afford her psychotropic medications.

On May 10, 2012, Claimant's therapist completed an assessment of Claimant's ability to do work related activities. According to Claimant's Mental Residual Functional Capacity Assessment, Claimant was markedly limited in her ability to maintain attention and concentration for extended periods; perform activities within a schedule, maintain regular attendance, and to be punctual within customary tolerances; work in coordination with or proximity to others without being distracted by them; complete a normal workday and worksheet without interruptions from psychologically based symptoms and to perform at a consistent pace without an unreasonable number and length of rest periods; interact appropriately with the general public; accept instructions and respond appropriately to criticism from supervisors; get along with co-workers or peers without distracting them or exhibiting behavioral extremes; respond appropriately to change in the work setting and travel in unfamiliar places or use public transportation. Diagnosis: Axis I: Depressive Disorder; Alcohol abuse and dependence; Axis III: Hypothyroidism, Hypertension, Diabetes and Sleep Apnea; Axis IV: Mild; Axis V: GAF=55.

On October 12, 2012, Claimant presented to the emergency department with polyuria, polydipsia and elevated blood sugars. Claimant has a past medical history of hypertension, diabetes, hypothyroidism, obstructive sleep apnea, obesity, COPD and congestive heart failure in the past, who is currently not on any medications secondary to poor access to medications from no insurance. Claimant was assessed with (1) Hyperosmolar nonketotic state secondary to type 2 diabetes and poor compliance with medications; (2) Hypertension, currently well controlled; (3) History of congestive heart failure, currently compensated; (4) Hypothyroidism; (5) Chronic obstructive pulmonary disease (COPD), nebulized albuterol for shortness of breath; (6) Morbid Obesity; (7) Tobacco use; (8) Obstructive Sleep Apnea, no CPAP at home.

On February 15, 2013, Claimant underwent a psychological evaluation at the request of the Department. Diagnosis: Axis I: Major Depressive Disorder, recurrent in partial remission; Panic Disorder, chronic; Alcohol abuse; Axis III: Multiple medical problems; Axis IV: Moderate; Axis V: GAF=58. Prognosis was fair.

Claimant had a second independent psychological evaluation on May 20, 2013, on behalf of the Department. Diagnosis: Axis I: Bipolar Disorder; Axis II: Personality Disorder; Axis III: Gout, Hypertension, Diabetes, Hypothyroidism, Heart problems and Sleep Apnea; Axis IV: Health, social, employment, financial; Axis V: Current GAF=50.

According to the DSM-IV, 4th Ed., a GAF of 50 indicates serious symptoms (suicidal ideation, severe obsessional rituals, frequent shoplifting) or any serious impairment in social, occupational, or school functioning (e.g., no friends, unable to keep a job, cannot work).

The examining psychologist also opined that Claimant's prognosis is fair to guarded. The psychologist opined that Claimant has problems with depression and mood swings. She has problems getting along with others. She has short term memory problems. She is currently taking Amitriptyline for depression and mood swings. She said the medication is not helping her. She showed some cognitive deficits during the Sensorium and Mental Capacity examination.

Claimant is 44 years old, with a seventh grade education. Claimant's medical records are consistent with her testimony that she is unable to engage in even a full range of sedentary work on a regular and continuing basis. 20 CFR 404, Subpart P, Appendix 11, Section 201.00(h). See Social Security Ruling 83-10; *Wilson v Heckler*, 743 F2d 216 (1986).

The Department has failed to provide vocational evidence which establishes that Claimant has the residual functional capacity for substantial gainful activity and that given Claimant's age, education, and work experience, there are significant numbers of jobs in the national economy which Claimant could perform despite Claimant's limitations. Accordingly, this Administrative Law Judge concludes Claimant is disabled for purposes of the MA program.

A person is considered disabled for purposes of SDA if the person has a physical or mental impairment which meets federal SSI disability standards for at least 90 days. Receipt of SSI or RSDI benefits based upon disability or blindness or the receipt of MA benefits based upon disability or blindness automatically qualifies an individual as disabled for purposes of the SDA program. Other specific financial and non-financial eligibility criteria are found in BEM 261. Inasmuch as Claimant has been found "disabled" for purposes of MA, she must also be found "disabled" for purposes of SDA benefits.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the department erred in determining Claimant is not currently disabled for MA/Retro-MA and SDA eligibility purposes.

Accordingly, the department's decision is **REVERSED**, and it is ORDERED that:

1. The department shall process Claimant's January 10, 2013, MA/Retro-MA and SDA application, and shall award her all the benefits she may be entitled to receive, as long as she meets the remaining financial and non-financial eligibility factors.

2. The department shall review Claimant's medical condition for improvement in January, 2015, unless her Social Security Administration disability status is approved by that time.
3. The department shall obtain updated medical evidence from Claimant's treating physicians, physical therapists, pain clinic notes, etc. regarding her continued treatment, progress and prognosis at review.

It is SO ORDERED.

Vicki L. Armstrong
Administrative Law Judge
for Maura D. Corrigan, Director
Department of Human Services

Date Signed: January 13, 2014

Date Mailed: January 13, 2014

NOTICE OF APPEAL: The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely Request for Rehearing or Reconsideration was made, within 30 days of the receipt date of the Decision and Order of Reconsideration or Rehearing Decision.

Michigan Administrative Hearing System (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. MAHS will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request (60 days for FAP cases).

A Request for Rehearing or Reconsideration may be granted when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

2013-43896/VLA

The Department, AHR or the claimant must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date the hearing decision is mailed.

The written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:

Michigan Administrative Hearings
Reconsideration/Rehearing Request
P.O. Box 30639
Lansing, Michigan 48909-07322
