

STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES

IN THE MATTER OF:

[REDACTED]

Reg. No.: 201338999
Issue No.: [REDACTED]
Case No.: [REDACTED]
Hearing Date: November 14, 2013
County: Isabella

ADMINISTRATIVE LAW JUDGE: William A. Sundquist

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, an In Person hearing was held on November 14, 2013, from Isabella County, Michigan. Participants on behalf of Claimant included [REDACTED] of [REDACTED]. Participants on behalf of the Department of Human Services (Department) included [REDACTED].

ISSUE

Was disability, as defined below, medically established?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

1. Claimant applied for MA-P on October 18, 2012, was denied on January 4, 2013 per BEM 260 and requested a hearing on March 28, 2013.
2. Vocational factors: age 51, GED grade education, and semi/unskilled work experience.
3. Last employment ended: December 2010.
4. Disabling symptoms: chronic stress around people; intermittent chest pain radiating down left arm.
5. Alleged disabling medical disorder(s): anxiety and heart condition (DHS exhibit A, page 150).

6. Medical reports of exams establish a non-severe mental/physical impairment in combination.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

When determining disability, the federal regulations are used as a guideline and require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).

5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

The claimant had the burden of proof to establish disability in accordance with steps 1-4 above... 20CFR 416.912 (a). The burden of proof shifts to the DHS at Step 5... 20CFR 416.960 (c)(2).

[In reviewing your impairment]...We need reports about your impairments from acceptable medical sources.... 20 CFR 416.913(a).

Acceptable medical verification sources are licensed physicians, osteopaths, or certified psychologists ...20CFR 416.913(a)

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

It must allow us to determine --

- (1) The nature and limiting effects of your impairment(s) for any period in question;
- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Step 1

...If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b).

The evidence of record established that the claimant has not engaged in substantial gainful activity since December 2010. Therefore, the sequential evaluation is required to continue to the next step.

Step 2

... [The record must show a severe impairment] which significantly limits your physical or mental ability to do basic work activities.... 20 CFR 416.920(c).

Basic work activities. When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include:

1. Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
2. Capacities for seeing, hearing, and speaking;
3. Understanding, carrying out, and remembering simple instructions;
4. Use of judgment;
5. Responding appropriately to supervision, co-workers and usual work situations; and
6. Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Non-severe impairment(s). An impairment or combination of impairments is not severe if it does not significantly limit your physical or mental ability to do basic work activities. 20 CFR 416.921(a).

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

Medical reports of exams state the claimant on:

October 17, 2012, had moderate (not severe) elevated soft plaque at the right carotid, was less than 50% stenosis of the right internal carotid artery (DHS exhibit A, page 99).

October 29, 2012, had an improving condition (DHS exhibit A, page 27).

April 22, 2013, had a GAF score of 53 (DHS exhibit A, page 146).

October 17, 2012, had no history of swelling of the feet or symptoms related to peripheral vascular disease; that he had no history of depression, anxiety, or mood changes; that he was fully alert, oriented, and not in acute distress; that there was no evidence of depression, anxiety, or mood changes; and that there was no motor deficit (DHS exhibit A, page 57-58).

The medical reports of record are mostly examination, diagnostic, treatment and progress reports. They do not provide medical assessments of Claimant's basic work limitations for the required duration. Stated differently, the medical reports do not establish whether the Claimant is impaired minimally, mildly, moderately (non-severe impairment, as defined above) or severely, as defined above for a one year continuous duration.

The claimants disabling symptoms (Findings of Fact #4) are inconsistent with the objective medical evidence of record.

...Your symptoms, including pain, will be determined to diminish your capacity for basic work activities...to the extent that your alleged functional limitations and restrictions due to symptoms, such as pain, can reasonably be accepted as consistent with the objective medical evidence and other evidence. 20 CFR 416.929(c)(4).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

...A statement by a medical source that you are "disabled" or "unable to work" does not mean that we will determine that you are disabled. 20 CFR 416.927(e).

Claimant had a GAF score of 53 in April 2013. This is considered a moderate (not severe) mental impairment with occupational-functioning. DSM IV (4th edition-revised).

The medical evidence of record has not established the Claimant's abnormal mental findings have persisted on a regular and continuing basis on repeated examinations for a reasonable presumption to be made that a severe mental impairment has lasted or is expected to last for at least a one year continuous duration.

The medical reports) show that Claimant's examinations were within normal limitations; that his impairments were minimal to moderate (not severe); and that his condition is stable (not deteriorating).

The Claimant has not sustained his burden of proof to establish a severe physical/mental impairment in combination, instead of a non-severe impairment, for the required one year continuous duration.

Therefore, the sequential evaluation is required to stop at Step 2.

Therefore, medical disability has not been established at Step 2 by the competent, material and substantial evidence on the whole record.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides disability was not medically established.

Accordingly, MA-P denial is **UPHELD** and so ORDERED.

William A. Sundquist
Administrative Law Judge
For Maura D. Corrigan, Director
Department of Human Services

Date Signed: 02/13/2014

Date Mailed: 02/14/2014

NOTICE OF APPEAL: The claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely Request for Rehearing or Reconsideration was made, within 30 days of the receipt date of the Decision and Order of Reconsideration or Rehearing Decision.

Michigan Administrative Hearing System (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. MAHS will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request (60 days for FAP cases).

A Request for Rehearing or Reconsideration may be granted when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;

201338999/WAS

- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The Department, AHR or the claimant must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be received in MAHS within 30 days of the date the hearing decision is mailed.

The written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:
