DECISION AND ORDER

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MC L 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. Participants on behalf of the Department of Human Services (Department) included [REDACTED]

ISSUE

Did the Department properly deny Claimant's Medical Assistance and State Disability Assistance applications?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Claimant applied for MA-P and SDA on July 12, 2013.
2. The Medical Review Team denied the applications on August 23, 2013.
3. Claimant filed a request for hearing August 29, 2013, regarding the MA and SDA denials.
4. A telephone hearing was held on February 4, 2014.
5. On October 15, 2013, the State Hearing Review Team determined that Claimant retains the capacity to perform light work.
6. Claimant is 5' 8" tall and weighs 182 pounds.
7. Claimant is 52 years of age.

8. Claimant's impairments have been medically diagnosed as knee pain, arthritis and hypertension.
9. Claimant has the following symptoms: pain, fatigue, dizziness and lightheadedness.
10. Claimant completed a GED.
11. Claimant is able to read, write, and perform basic math skills.
12. Claimant is not working. Claimant last worked full time in 2006, as a landscaper.
13. Claimant lives with his mother.
14. Claimant testified that he cannot perform some household chores.
15. Claimant was taking no prescribed medications at the time of hearing.
16. Claimant testified to experiencing pain, at a high level of 10, on an everyday basis with some pain, always present, at a low level of 7-8.
17. Claimant testified to the following physical limitations:
 - i. Sitting: 15minutes
 - ii. Standing: 20 minutes
 - iii. Walking: ½ block
 - iv. Bend/stoop: some difficulty
 - v. Lifting: 20-25 pounds
 - vi. Grip/grasp: no limitations
18. In a consultative physical examination report completed on August 22, 2013 the examining physician stated the following under conclusions: "1. History of knee pain with the patient having some decreased strength and favoring of the left knee. He is ambulatory and can carry out all daily living activities with a soft brace around the knee. 2. History of right great toe arthritis and possible gout. He does have pain from time to time however there is no compromise in circulation and no evidence of edema or difficulty ambulating. 3. History of hypertension uncontrolled without medications and he would benefit from medical management. 4. History of foot and ankle swelling with no evidence found on exam today. 5. History of H-pylori treated in the past and no indication for further treatment at this time."
19. An MRI report of Claimant's left knee showed the following under impression: "1. Large multiseptated cystic lesion within the posterior proximal tibia felt to represent subcortical geode most likely. Other considerations would include aneurysmal bone cyst, bone cyst or giant cell tumor. This can be further assessed on follow-up studies. 2. Advanced chondrosis of medial compartment

and patellofemoral interval. 3. Macerated medial meniscus as described above. 4. Oblique tear through the posterior horn lateral meniscus and vertical truncation of the free edge anterior horn lateral meniscus. Again, the posterior horn root attachment is poorly delineated and possibly disrupted. 4. Large joint effusion with extensive synovitis. Correlate with clinical status to exclude possibility of infection.”

CONCLUSIONS OF LAW

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An opportunity for a hearing shall be granted to an applicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Clients have the right to contest a Department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The Department will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The Medical Assistance (MA-P) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department administers the MA-P program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program is established by the Social Welfare Act, MCL 400.1-.119b. The Department of Human Services (formerly known as the Family Independence Agency) administers the SDA program pursuant to MCL 400.10 and Mich Admin Code, R 400.3151-.3180.

Pursuant to Federal Rule 42 CFR 435.540, the Department uses the Federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the MA-P program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

Federal regulations require that the Department use the same operative definition for “disabled” as used for Supplemental Security Income (SSI) under Title XVI of the Social Security Act. 42 CFR 435.540(a).

“Disability” is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months ... 20 CFR 416.905.

In determining whether an individual is disabled, 20 CFR 416.920 requires the trier of fact to follow a sequential evaluation process by which current work activity, the severity of the impairment(s), residual functional capacity, and vocational factors (i.e., age, education, and work experience) are assessed in that order. When a determination that an individual is or is not disabled can be made at any step in the sequential evaluation, evaluation under a subsequent step is not necessary.

First, the trier of fact must determine if the individual is working and if the work is substantial gainful activity. 20 CFR 416.920(b). In this case, the Claimant is not working, therefore, the Claimant is not disqualified at this step in the evaluation.

The second step to be determined in considering whether the Claimant is considered disabled is the severity of the impairment. In order to qualify the impairment must be considered severe which is defined as an impairment which significantly limits an individual's physical, or mental, ability to perform basic work activities. Examples of these include:

1. Physical functions such as walking, standing, sitting, lifting, pushing, reaching, carrying, or handling;
2. Capacities for seeing, hearing, and speaking;
3. Understanding, carrying out, and remembering simple instructions;
4. Use of judgment;
5. Responding appropriately to supervision, co-workers, and usual work situations; and
6. Dealing with changes in a routine work setting. 20 CFR 416.921(b).

In the third step of the analysis, the trier of fact must determine if the Claimant's impairment (or combination of impairments) is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. This Administrative Law Judge finds that the Claimant's medical record does not support a finding that the Claimant's impairment(s) is a "listed impairment" or equal to a listed impairment. See Appendix 1 of Subpart P of 20 CFR Part 404, Part A. Listings 1.02 was considered.

The person claiming a physical, or mental, disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as clinical/laboratory findings, diagnosis/prescribed treatment, prognosis for a recovery and/or medical assessment of ability to do work-related activities, or ability to reason and to make appropriate mental adjustments, if a mental disability is being alleged. 20 CFR 416.913. A conclusory statement by a physician, or mental health professional, that an individual is disabled, or blind, is not sufficient without supporting medical evidence to establish disability. 20 CFR 416.927.

The fourth step of the analysis to be considered is whether the Claimant has the ability to perform work previously performed by the Claimant within the past 15 years. The trier of fact must determine whether the impairment(s) presented prevent the Claimant from doing past relevant work. In the present case, the Claimant's past employment was as a landscaper. Working as a landscaper, as described by Claimant at hearing, would be considered medium work. The Claimant's impairments would prevent Claimant from doing past relevant work. This Administrative Law Judge will continue through step 5.

In the final step of the analysis, the trier of fact must determine: if the Claimant's impairment(s) prevent the Claimant from doing other work. 20 CFR 416.920(f). This determination is based upon the Claimant's:

1. residual functional capacity defined simply as "what can you still do despite your limitations? 20 CFR 416.945;
2. age, education, and work experience, 20 CFR 416.963-965; and
3. the kinds of work which exist in significant numbers in the national economy which the Claimant could perform despite her limitations. 20 CFR 416.966.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium, and heavy. These terms have the same meaning as they have in the Dictionary of Occupational Titles, published by the Department of Labor.... 20 CFR 416.967.

Sedentary work: Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting, or carrying, articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work: Light work involves lifting no more than 20 pounds at a time with frequent lifting, or carrying, of objects weighing up to 10 pounds. Even though the weight lifted may be very little; a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Medium work: Medium work involves lifting no more than 50 pounds at a time with frequent lifting, or carrying, of objects weighing up to 25 pounds. If someone can do medium work, we determine that he or she can also do sedentary and light work. 20 CFR 416.967(c).

Heavy work: Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of objects weighing up to 50 pounds. If someone can do heavy work, we determine that he or she can also do medium, light, and sedentary work. 20 CFR 416.967(d).

See *Felton v DSS* 161 Mich. App 690, 696 (1987). Once the Claimant makes it to the final step of the analysis, the Claimant has already established a prima facie case of disability. *Richardson v Secretary of Health and Human Services*, 732 Fd2 962 (6th Cir, 1984). Moving forward the burden of proof rests with the state to prove by substantial evidence that the Claimant has the residual function capacity for substantial gainful activity.

After careful review of the medical evidence presented and Claimant's statements, and considering the Claimant in the most restrictive circumstances this Administrative Law Judge finds that Claimant would be able to perform work, at least work, on the light exertional level.

This Administrative Law Judge finds that Claimant is capable of the requisite sitting, standing and walking for a light exertional job. The Claimant is advanced age at age 52. 20 CFR 416.963. Claimant's previous work has been unskilled. Federal Rule 20 CFR 404, Subpart P, Appendix 2 contains specific profiles for determining disability based on residual functional capacity and vocational profiles. Under Table 1, Rule 202.10 the Claimant is not disabled for the purposes of MA-P and SDA. Claimant's testimony regarding his limitations and ability to sit, stand, walk, lift and carry is not supported by substantial evidence.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that Claimant is not medically disabled for the purposes of MA-P and SDA eligibility.

Accordingly, the Department's decision is hereby **AFFIRMED**.
