

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

[REDACTED]

Reg. No.: 2013-49121
Issue No.: 2009
Case No.: [REDACTED]
Hearing Date: November 13, 2013
County: Genesee-02

ADMINISTRATIVE LAW JUDGE: Vicki L. Armstrong

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, an in-person hearing was held at the Genesee County Department of Human Services (Department) office. Claimant, represented by [REDACTED] of [REDACTED], appeared and provided testimony. Participating members of the Department included Eligibility Specialist [REDACTED].

ISSUE

Whether the Department properly denied Claimant's Medical Assistance (MA) and Retro-MA application?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On December 11, 2012, Claimant filed an application for MA/Retro-MA benefits alleging disability.
2. On March 1, 2013, the Medical Review Team (MRT) denied Claimant's application for MA/Retro-MA indicating Claimant's impairment lacked duration. (Depart Ex. A, pp 26-27).
3. On March 7, 2013, the Department sent Claimant notice that his application for MA/Retro-MA had been denied.
4. On May 20, 2013, Claimant filed a request for a hearing to contest the department's negative action.

5. On July 31, 2013, the State Hearing Review Team (SHRT) found Claimant was not disabled and that he retained the capacity to perform light work. (Depart Ex. B, p 1).
6. Claimant was appealing the denial Social Security disability benefits at the time of the hearing.
7. Claimant is a 53 year old man whose birthday is [REDACTED]. Claimant is 6'8" tall and weighs 327 lbs.
8. Claimant does not have an alcohol or drug problem. Claimant smokes a package of cigarettes a week.
9. Claimant has a driver's license and is able to drive.
10. Claimant has a high school education.
11. Claimant is not currently working and last worked in 2009.
12. Claimant alleges disability on the basis of chronic obstructive pulmonary disease, coronary artery disease, angina, postsurgical aortocornoary bypass status, postsurgical percutaneous transluminal coronary angioplasty (PTCA) status, hypercholesterolemia, degenerative disc disease, obstructive sleep apnea, hypertension, bilateral lower extremity edema, neuropathy, obesity, anxiety and depression.
13. Claimant's impairments have lasted, or are expected to last, continuously for a period of twelve months or longer.
14. Claimant's complaints and allegations concerning his impairments and limitations, when considered in light of all objective medical evidence, as well as the record as a whole, reflect an individual who is so impaired as to be incapable of engaging in any substantial gainful activity on a regular and continuing basis.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also

is known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

. . . the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

. . . We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further. 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).

4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application Claimant has the burden of proof pursuant to:

. . . You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as ultrasounds, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms). 20 CFR 416.913(b).

Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment. 20 CFR 416.929(a). The medical evidence must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e). You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months.

See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. 20 CFR 416.927(a)(1).

Applying the sequential analysis herein, Claimant is not ineligible at the first step as Claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a *de minimus* standard.

The medical information indicates that Claimant suffers from chronic obstructive pulmonary disease, coronary artery disease, angina, postsurgical aortocornoary bypass status, postsurgical percutaneous transluminal coronary angioplasty (PTCA) status, hypercholesterolemia, degenerative disc disease, obstructive sleep apnea, hypertension, bilateral lower extremity edema, neuropathy, obesity, anxiety and depression. Ruling any ambiguities in Claimant's favor, this Administrative Law Judge (ALJ) finds that Claimant meets duration and severity. The analysis continues.

The third step of the analysis looks at whether an individual meets or equals one of the Listings of Impairments. 20 CFR 416.920(d). Claimant does not. The analysis continues.

The fourth step of the analysis looks at the ability of the applicant to return to past relevant work. This step examines the physical and mental demands of the work done by Claimant in the past. 20 CFR 416.920(f). In this case, Claimant has a history of less than gainful employment. As such, there is no past work for Claimant to perform, nor are there past work skills to transfer to other work occupations. Accordingly, Step 5 of the sequential analysis is required.

The fifth and final step of the sequential consideration of a disability claim, the trier of fact must determine if the claimant's impairment(s) prevents claimant from doing other work. 20 CFR 416.920(f). This determination is based upon Claimant's:

- (1) residual functional capacity defined simply as "what can you still do despite you limitations?" 20 CFR 416.945;
- (2) age, education, and work experience, 20 CFR 416.963-.965; and
- (3) the kinds of work which exist in significant numbers in the national economy which the claimant could perform despite his/her limitations. 20 CFR 416.966.

See *Felton v DSS* 161 Mich. App 690, 696 (1987). Once Claimant reaches Step 5 in the sequential review process, Claimant has already established a *prima facie* case of disability. *Richardson v Secretary of Health and Human Services*, 735 F2d 962 (6th Cir,

1984). At that point, the burden of proof is on the state to prove by substantial evidence that Claimant has the residual functional capacity for substantial gainful activity.

During the hearing, Claimant waived the time period for the issuance of this decision in order to allow for the submission of additional medical evidence. The new evidence was forwarded to the State Hearing Review Team ("SHRT") on January 10, 2014, for consideration. On February 25, 2014, the SHRT found Claimant was not disabled. This matter is now before the undersigned for a final decision.

A review of the [REDACTED], SHRT decision indicates SHRT relied on a Social Security Administration Disability Determination Examination dated [REDACTED] in denying Claimant's application for Disability. However, the new medical evidence submitted by Claimant in January, 2014, were his medical records from beginning March, 2013, and ending in October, 2013. These records were timely sent to SHRT, but according to the SHRT decision, were not reviewed by SHRT.

In October, 2013, Claimant followed up with his cardiologist. An examination of Claimant's respiratory system found expiratory wheezes and rhonchi in left and right lower lung fields. Claimant was diagnosed with angina, chronic airway obstruction, essential hypertension, hypercholesterolemia, coronary atherosclerosis of native coronary artery, obesity, postsurgical aortocorony bypass status, postsurgical percutaneous transluminal coronary angioplasty (PTCA) status and tobacco use disorder.

In October, 2013, Claimant returned to his pulmonologist complaining of intermittent symptoms of lightheadedness, particularly when he stands or bends over. He is being seen by a primary care physician and his blood pressure medication has been adjusted. He does complain of shortness of breath on and off with exertion. He has been provided a prescription for Spiriva. He is also using Symbicort twice a day and albuterol as needed. He is using CPAP regularly. He does feel that his CPAP pressure needs to be increased. Spirometry revealed moderate airway obstruction, 37% of predicted. MVV is reduced. No significant improvement in FEV1 after bronchodilator.

Claimant was wheezing during the hearing, despite using his emergency inhaler. Claimant credibly testified that despite having three breathing treatments a day he still experienced shortness of breath with activity. He stated he has right sided back pain with shooting pain in his buttocks. He has left hand numbness and has been diagnosed with neuropathy. He has a hard time breathing in humidity and the cold. He is also experiencing short-term memory loss which he has been told is a side-effect of one of the medications he is currently prescribed.

After careful review of Claimant's medical records and the Administrative Law Judge's personal interaction with Claimant at the hearing, this Administrative Law Judge finds that Claimant's exertional and non-exertional impairments render Claimant unable to engage in a full range of even sedentary work activities on a regular and continuing basis. 20 CFR 404, Subpart P. Appendix 11, Section 201.00(h). See Social Security Ruling 83-10; *Wilson v Heckler*, 743 F2d 216 (1986). Based on Claimant's vocational profile (approaching advance age, Claimant is 53, with a high school education and an

unskilled work history), this Administrative Law Judge finds Claimant's MA/Retro-MA benefits are approved using Vocational Rule 201.12 as a guide. Consequently, the department's denial of his December 11, 2012, MA/Retro-MA application cannot be upheld.

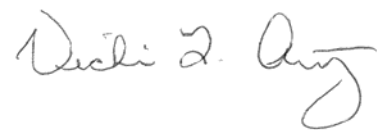

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the department erred in determining Claimant is not currently disabled for MA/Retro-MA eligibility purposes.

Accordingly, the department's decision is **REVERSED**, and it is ORDERED that:

1. The department shall process Claimant's December 11, 2012, MA/Retro-MA application, and shall award him all the benefits she may be entitled to receive, as long as he meets the remaining financial and non-financial eligibility factors.
2. The department shall review Claimant's medical condition for improvement in March, 2015, unless his Social Security Administration disability status is approved by that time.
3. The department shall obtain updated medical evidence from Claimant's treating physicians, physical therapists, pain clinic notes, etc. regarding his continued treatment, progress and prognosis at review.

It is SO ORDERED.

Vicki L. Armstrong
Administrative Law Judge
for Maura D. Corrigan, Director
Department of Human Services

Date Signed: March 17, 2014

Date Mailed: March 17, 2014

NOTICE OF APPEAL: The claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely Request for Rehearing or Reconsideration was made, within 30 days of the receipt date of the Decision and Order of Reconsideration or Rehearing Decision.

Michigan Administrative Hearing System (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. MAHS will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request (60 days for FAP cases).

A Request for Rehearing or Reconsideration may be granted when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The Department, AHR or the claimant must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date the hearing decision is mailed.

The written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:

Michigan Administrative Hearings
Reconsideration/Rehearing Request
P.O. Box 30639
Lansing, Michigan 48909-07322
