Issue No(s): 2009; 4009
Case No.: [REDACTED]
Hearing Date: December 4, 2013
County: Saginaw

ADMINISTRATIVE LAW JUDGE: Vicki L. Armstrong

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on December 4, 2013, from Lansing, Michigan. Claimant appeared and testified. Participants on behalf of the Department of Human Services (Department) included Eligibility Specialist [REDACTED].

ISSUE

Whether the Department properly denied Claimant's Medical Assistance (MA), Retro-MA and State Disability Assistance (SDA) application?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On April 2, 2013, Claimant filed an application for MA/Retro-MA and SDA benefits alleging disability.
2. On July 19, 2013, the Medical Review Team (MRT) denied Claimant's application for MA/Retro-MA indicating Claimant is capable of performing other work based on his non-exertional impairment. SDA was denied for lack of duration. (Depart Ex. A, pp 33-34).
3. On July 25, 2013, the Department sent Claimant notice that his application for MA/Retro-MA and SDA had been denied.
4. On August 1, 2013, Claimant filed a request for a hearing to contest the department's negative action.

5. On September 16, 2013, the State Hearing Review Team (SHRT) found Claimant was not disabled and retained the capacity to perform simple and repetitive tasks. (Depart Ex. B, pp 1-2).
6. Claimant was appealing the denial of Social Security disability benefits at the time of the hearing.
7. Claimant is a 26 year old man whose birthday is [REDACTED]. Claimant is 5'7" tall and weighs 210 lbs.
8. Claimant does not have an alcohol, nicotine or drug history.
9. Claimant has a driver's license and is able to drive.
10. Claimant has an eleventh grade education and a fifth grade reading level.
11. Claimant is not currently working. Claimant has never worked.
12. Claimant alleges disability on the basis of a learning disability, bipolar disorder, panic disorder, attention deficit hyperactivity disorder and posttraumatic stress disorder.
13. Claimant's impairments have lasted, or are expected to last, continuously for a period of twelve months or longer.
14. Claimant's complaints and allegations concerning his impairments and limitations, when considered in light of all objective medical evidence, as well as the record as a whole, reflect an individual who is so impaired as to be incapable of engaging in any substantial gainful activity on a regular and continuing basis.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

Statutory authority for the SDA program states in part:

- (b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also is known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

. . . the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

. . . We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further. 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.

2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application Claimant has the burden of proof pursuant to:

. . . You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as ultrasounds, X-rays);

- (4) Diagnosis (statement of disease or injury based on its signs and symptoms). 20 CFR 416.913(b).

Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment. 20 CFR 416.929(a). The medical evidence must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e). You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. 20 CFR 416.927(a)(1).

Applying the sequential analysis herein, Claimant is not ineligible at the first step as Claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a *de minimus* standard. Ruling any ambiguities in Claimant's favor, this Administrative Law Judge (ALJ) finds that Claimant meets both. The analysis continues.

The third step of the analysis looks at whether an individual meets or equals one of the Listings of Impairments. 20 CFR 416.920(d). Claimant does not. The analysis continues.

The fourth step of the analysis looks at the ability of the applicant to return to past relevant work. This step examines the physical and mental demands of the work done by Claimant in the past. 20 CFR 416.920(f). In this case, Claimant has a history of less than gainful employment. As such, there is no past work for Claimant to perform, nor are there past work skills to transfer to other work occupations. Accordingly, Step 5 of the sequential analysis is required.

The fifth and final step of the analysis applies the biographical data of the applicant to the Medical Vocational Grids to determine the residual functional capacity of the applicant to do other work. 20 CFR 416.920(g). See *Felton v DSS* 161 Mich. App 690, 696 (1987). Once Claimant reaches Step 5 in the sequential review process, Claimant has already established a *prima facie* case of disability. *Richardson v Secretary of Health and Human Services*, 735 F2d 962 (6th Cir, 1984). At that point, the burden of proof is on the state to prove by substantial evidence that Claimant has the residual functional capacity for substantial gainful activity.

The medical information indicates that Claimant suffered a learning disability, bipolar disorder, panic disorder, attention deficit hyperactivity disorder and posttraumatic stress disorder.

During the hearing, Claimant waived the time period for the issuance of this decision in order to allow for the submission of additional medical evidence. The new evidence was forwarded to the State Hearing Review Team ("SHRT") for consideration. On February 26, 2014, the SHRT found Claimant was not disabled. This matter is now before the undersigned for a final decision.

A review of the [REDACTED], SHRT decision indicates SHRT relied on a [REDACTED] dated [REDACTED] in denying Claimant's application for Disability. However, the new medical evidence submitted by Claimant were his records from [REDACTED] beginning July, 2013, and ending in October, 2013.

According to a letter Claimant's psychologist provided the Department on [REDACTED] [REDACTED] Claimant is diagnosed with: Axis I: Bipolar Disorder; Panic Disorder with Agoraphobia; Attention Deficit/Hyperactivity; Posttraumatic Stress Disorder; Axis II: Personality Disorder; Axis IV: Problem with primary support group, Problem related to social environment, Educational problems, Occupational problems, Housing problems, Economic problems, Problem related to interaction with legal system, Other psychological and environmental problems and behavioral/personality problems; Axis V: GAF=53. The psychologist opined that Claimant has marked limitations in his abilities to maintain attention and concentration for extended periods, perform activities within a schedule, maintain regular attendance and be punctual within customary tolerances, work in coordination with or proximity to others without being distracted by them, complete a normal workday and worksheet without interruptions from psychologically based symptoms and to perform at a consistent pace without an unreasonable number and length of rest periods, accept instructions and respond appropriately to criticism from supervisors, get along with coworkers or peers without distracting them or exhibiting behavioral extremes. As a result, the psychologist opined that Claimant his mental impairment has lasted longer than 12 consecutive months and his disability will prevent him from working any substantial gainful employment.

Claimant's treating psychologist has opined that Claimant is disabled based on his learning disabilities, posttraumatic stress disorder, personality disorder and ADHD. Because Claimant's treating psychologist's opinion is well supported by medically acceptable clinical and laboratory diagnostic techniques, it has controlling weight. 20 CFR 404.1527(d)(2).

Claimant is 26 years old, with an eleventh grade education. His comprehension level is at fifth grade. Claimant's medical records are consistent with his testimony that he is unable to engage in even a full range of sedentary work on a regular and continuing basis. 20 CFR 404, Subpart P. Appendix 11, Section 201.00(h). See Social Security Ruling 83-10; *Wilson v Heckler*, 743 F2d 216 (1986).

A person is considered disabled for purposes of SDA if the person has a physical or mental impairment which meets federal SSI disability standards for at least 90 days. Receipt of SSI or RSDI benefits based upon disability or blindness or the receipt of MA benefits based upon disability or blindness automatically qualifies an individual as disabled for purposes of the SDA program. Other specific financial and non-financial eligibility criteria are found in BEM 261. Inasmuch as Claimant has been found "disabled" for purposes of MA, he must also be found "disabled" for purposes of SDA benefits.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the department erred in determining Claimant is not currently disabled for MA/Retro-MA and SDA eligibility purposes.

Accordingly, the department's decision is **REVERSED**, and it is ORDERED that:

1. The department shall process Claimant's April 2, 2013, MA/Retro-MA and SDA application, and shall award him all the benefits he may be entitled to receive, as long as he meets the remaining financial and non-financial eligibility factors.
2. The department shall review Claimant's medical condition for improvement in March, 2015, unless his Social Security Administration disability status is approved by that time.
3. The department shall obtain updated medical evidence from Claimant's treating physicians, physical therapists, pain clinic notes, etc. regarding his continued treatment, progress and prognosis at review.

It is SO ORDERED.
