### **CONCLUSIONS OF LAW**

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An opportunity for a hearing shall be granted to an applicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Clients have the right to contest a Department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The Department will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The Medical Assistance (MA-P) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department administers the MA-P program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program is established by the Social Welfare Act, MCL 400.1-.119b. The Department of Human Services (formerly known as the Family Independence Agency) administers the SDA program pursuant to MCL 400.10 and Mich Admin Code, R 400.3151-.3180. A person is considered disabled for SDA

purposes if the person has a physical or mental impairment which meets federal SSI disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness automatically qualifies an individual as disabled for purposes of the SDA program.

Pursuant to Federal Rule 42 CFR 435.540, the Department uses the Federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the MA-P program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical, or mental, impairment which can be expected to result in death, or which has lasted, or can be expected to last, for a continuous period of not less than 12 months.... 20 CFR 416.905.

Federal regulations require that the Department use the same operative definition for “disabled” as used for Supplemental Security Income (SSI) under Title XVI of the Social Security Act. 42 CFR 435.540(a).

“Disability” is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical, or mental, impairment which can be expected to result in death, or which has lasted, or can be expected to last, for a continuous period of not less than 12 months ... 20 CFR 416.905.

In determining whether an individual is disabled, 20 CFR 416.920 requires the trier of fact to follow a sequential evaluation process by which current work activity, the severity of the impairment(s), residual functional capacity, and vocational factors (i.e., age, education, and work experience) are assessed in that order. When a determination that an individual is, or is not, disabled can be made at any step in the sequential evaluation, evaluation under a subsequent step is not necessary.

First, the trier of fact must determine if the individual is working and if the work is substantial gainful activity. 20 CFR 416.920(b). In this case, the Claimant is not working. Therefore, the Claimant is not disqualified at this step in the evaluation.

The second step to be determined in considering whether the Claimant is considered disabled is the severity of the impairment. In order to qualify the impairment must be considered severe, which is defined as an impairment which significantly limits an individual’s physical, or mental, ability to perform basic work activities. Examples of these include:

1. Physical functions such as walking, standing, sitting, lifting, pushing, reaching, carrying, or handling;
2. Capacities for seeing, hearing, and speaking;

3. Understanding, carrying out, and remembering, simple instructions;
4. Use of judgment;
5. Responding appropriately to supervision, co-workers, and usual work situations; and
6. Dealing with changes in a routine work setting. 20 CFR 416.921(b).

In this case, the Claimant's medical evidence of record supports a finding that Claimant has significant physical and mental limitations upon Claimant's ability to perform basic work activities such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling. Medical evidence has clearly established that the Claimant has an impairment (or combination of impairments) that has more than a minimal effect on the Claimant's work activities. See Social Security Rulings: 85-28, 88-13, and 82-63.

In the third step of the analysis, the trier of fact must determine if the Claimant's impairment (or combination of impairments) is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. This Administrative Law Judge finds that the Claimant's medical record does not support a finding that the Claimant's impairment(s) is a "listed impairment" or equal to a listed impairment. See Appendix 1 of Subpart P of 20 CFR Part 404, Part A. Listings 11.01 was considered.

The person claiming a physical, or mental, disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as clinical/laboratory findings, diagnosis/prescribed treatment, prognosis for a recovery and/or medical assessment of ability to do work-related activities or ability to reason and to make appropriate mental adjustments, if a mental disability is being alleged. 20 CFR 416.913. A conclusory statement by a physician, or mental health professional, that an individual is disabled, or blind, is not sufficient without supporting medical evidence, to establish disability. 20 CFR 416.927.

The fourth step of the analysis to be considered is whether the Claimant has the ability to perform work previously performed by the Claimant within the past 15 years. The trier of fact must determine whether the impairment(s) presented prevent the Claimant from doing past relevant work. In the present case, the Claimant's past employment was as a cook at a fast food restaurant. Working as a fast food restaurant cook, as described by Claimant at hearing, would be considered light work. The Claimant's impairments would not prevent him from doing past relevant work. Claimant failed to present substantial medical evidence that he has an ongoing physical impairment that is significantly limiting.

#### **DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that Claimant is NOT medically disabled for the purposes of MA-P eligibility.

Accordingly, the Department's decision is hereby **AFFIRMED**.
