

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

Reg. No.: 2014-12712
Issue No.: 2009; 4009
Case No.: [REDACTED]
Hearing Date: March 20, 2014
County: Allegan

ADMINISTRATIVE LAW JUDGE: Landis Y. Lain

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on March 20, 2014, from Lansing, Michigan. Participants on behalf of Claimant included Claimant and his authorized hearings representative [REDACTED]. Participants on behalf of the Department of Human Services (Department) included [REDACTED], Family Independence Manager and [REDACTED].

ISSUE

Did the Department of Human Services (the Department) properly deny Claimant's application for Medical Assistance (MA-P), retroactive Medical Assistance (retro MA-P) and State Disability Assistance (SDA)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On July 22, 2013, Claimant filed an application for Medical Assistance and State Disability Assistance benefits alleging disability.
2. On October 26, 2013, the Medical Review Team denied Claimant's application stating that Claimant's impairments were non-exertional and that Claimant could perform other work.
3. On November 1, 2013, the Department caseworker sent Claimant notice that his application was denied.

4. On November 11, 2013, Claimant filed a request for a hearing to contest the Department's negative action.
5. On January 28, 2014, the State Hearing Review Team again denied Claimant's application stating that Claimant
6. Claimant is a [REDACTED]-year-old [REDACTED] whose [REDACTED]. Claimant is 6'2" tall and weighs 184 pounds. Claimant attended the [REDACTED] and has no [REDACTED]. Claimant is able to read, write and does have basic math skills.
7. Claimant last worked in [REDACTED]. Claimant has also worked [REDACTED] in the past.
8. Claimant alleges as disabling impairments: epilepsy, degenerative joint disease, chronic obstructive pulmonary disease, hernia, stomach ulcer, depression, anxiety, chronic pain syndrome, and a hemangioma.

CONCLUSIONS OF LAW

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An opportunity for a hearing shall be granted to an applicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Claimants have the right to contest a Department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The Department will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or Department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The State Disability Assistance program differs from the federal Medical Assistance regulations in that the durational requirement is 90 days. This means that the person's impairments must meet the SSI disability standards for 90 days in order for that person to be eligible for SDA benefits.

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or Department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment.... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "disabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the Claimant perform Substantial Gainful Activity (SGA)? If yes, the Claimant is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the Claimant have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the Claimant is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the Claimant's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the Claimant do the former work that he/she performed within the last 15 years? If yes, the Claimant is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the Claimant have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the Claimant is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, Claimant is not engaged in substantial gainful activity and has not worked since [REDACTED]. Claimant is not disqualified from receiving disability at Step 1.

The subjective and objective medical evidence on the record indicates that Claimant testified on the record that he lives alone in an [REDACTED] and he is [REDACTED] with no children under 18. He has no income but receives Food Assistance Program benefits. His driver's licenses expired and his neighbor takes him where he needs to go. He cooks one time per day and cooks things like microwave foods and ravioli. Claimant grocery shops one time per month and needs a ride. Claimant vacuums, sleeps, washes dishes and shovels his drive. Claimant testified that he can stand for 15 to 20 minutes at a time and can sit for 30 to 45 minutes at a time. He can walk 100 yards. He can shower, dress himself, tie his shoes and bend at the waist but can only slowly. He cannot touch his toes. His knees are so weak. His hands, arms, legs and feet are fine. His level of pain on a scale from 1 to 10 without medication equals a 10 and with medication equals a 6 to 7. Claimant does smoke a pack of cigarettes per week. His

doctors told him to quit and he is not in a smoking cessation program. Claimant can carry 30 to 35 pounds.

A [REDACTED] indicates that Claimant's blood pressure was 110/80. His pulse was 100 and regular. Respiration was 20. Weight was 170 pounds. Height 70 inches with no shoes. The patient was cooperative throughout the examination. Hearing appeared normal and speech was clear. The patient exhibited a normal gait. The patient did not use an assistive device for ambulation. The skin had no lesions and there was no clubbing or cyanosis. Visual acuity in both eyes was 20/20 with glasses. The sclera were not icteric, nor is there any conjunctival pallor. Pupils are equal and reactive to light in accommodation. The fundus appeared normal. The neck was supple with no thyroid masses or goiter. No bruits were appreciated over the carotid arteries. There is no lymphadenopathy. There is no venous jugular distention present. The chest AP diameter was grossly normal. Lungs were clear to auscultation without any adventitious sounds. The heart S1 and S2 was heard. No murmurs or gallop are appreciated. The heart does not appear to be enlarged clinically. The PMI is not displaced. The abdomen was soft and non-tender without distention. There were no masses felt, nor was there enlargement of the spleen or liver. There were no ascites. In the extremities and musculoskeletal area there were no bony deformities. Range of motion of all joints checked was full. There is no tenderness, erythema, or effusion of any joint. Straight leg raising test was negative. There was no paravertebral muscle spasm. Peripheral pulses are easily palpated and symmetrical. There is no edema. There is no evidence of varicose veins. Grip strength is normal as tested grossly. There is a full fist bilaterally. The hands have full dexterity. The patient is able to pick up a coin, button a button and open a door. The patient has no difficulty getting on and off the examination table, no difficulty heel and toe walking, no difficulty squatting and no difficulty hopping. Motor strength was 5/5 in the bilateral upper and lower extremities. Sensation remains intact. Reflexes were present and symmetrical. The patient is alert and oriented times three. Romberg testing was negative. The conclusion was a seizure disorder, chronic pain of the upper thoracic region, and peptic ulcer disease. The patient and no difficulty performing a task ask of him during the evaluation. He had full grip strength and unimpaired dexterity in both hands. He did not require an assistive device to help mandated had normal gait. His cardiac and pulmonary examinations were essentially normal, pages 282 – 285.

A [REDACTED] indicated that Claimant was diagnosed with adjustment disorder with mixed anxiety and depressed mood and agoraphobia without a panic disorder with an axis V GAF of 55. He would be able to manage his own benefit funds and the Claimant was capable of understanding and retaining simple, concrete instructions and directions mentally to completion of the task. His consistent, timely follow-through may be compromised anxiety, depression, pain or [REDACTED] reaction to his epilepsy and uncontrolled seizures which appeared to be restricting his ability to perform simple repetitive physical tasks, page 290. [REDACTED] position discharge summary indicates that Claimant was diagnosed with acute grand mal seizure with history of seizure disorder, tobacco abuse and left shoulder pain. His condition on discharge was improved but guarded as

he could have another seizure if he does not take his medication as directed. Claimant has a history of seizure disorder previous seizure have been many years ago. Patient was treated for grand mal seizure as he did appear posted does upon entry into the emergency room. Patient admitted and stated that a lot of times he would only take one tablet two or three days a week. He did have a CT of the head for is decreased level of consciousness which did not show any acute pathology. The patient improved rapidly overnight and the next morning was feeling well enough to go home, page 6.

At Step 2, Claimant has the burden of proof of establishing that he has a severely restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months. There is insufficient objective clinical medical evidence in the record that Claimant suffers a severely restrictive physical or mental impairment. Claimant has reports of pain in multiple areas of his body; however, there are no corresponding clinical findings that support the reports of symptoms and limitations made by the Claimant. There are no laboratory or x-ray findings listed in the file. The clinical impression is that Claimant is stable. There is no medical finding that Claimant has any muscle atrophy or trauma, abnormality or injury that is consistent with a deteriorating condition. In short, Claimant has restricted himself from tasks associated with occupational functioning based upon his reports of pain (symptoms) rather than medical findings. Reported symptoms are an insufficient basis upon which a finding that Claimant has met the evidentiary burden of proof can be made. This Administrative Law Judge finds that the medical record is insufficient to establish that Claimant has a severely restrictive physical impairment.

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence, or pace; and ability to tolerate increased mental demands associated with competitive work)... 20 CFR, Part 404, Subpart P, App. 1, 12.00(C).

There is insufficient objective medical/psychiatric evidence in the record indicating Claimant suffers severe mental limitations. There is no mental residual functional capacity assessment in the record. There is insufficient evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent Claimant from working at any job. Claimant was oriented to time, person and place during the hearing. Claimant was able to answer all of the questions at the hearing and was responsive to the questions. The evidentiary record is insufficient to find that Claimant suffers a severely restrictive mental impairment. For these reasons, this Administrative Law Judge finds that Claimant has failed to meet his burden of proof at Step 2. Claimant must be denied benefits at this step based upon his failure to meet the evidentiary burden.

If Claimant had not been denied at Step 2, the analysis would proceed to Step 3 where the medical evidence of Claimant's condition does not give rise to a finding that he would meet a statutory listing in the code of federal regulations.

If Claimant had not already been denied at Step 2, this Administrative Law Judge would have to deny him again at Step 4 based upon his ability to perform his past relevant work. There is no evidence upon which this Administrative Law Judge could base a finding that Claimant is unable to perform work in which he has engaged in, in the past. Therefore, if Claimant had not already been denied at Step 2, he would be denied again at Step 4.

The Administrative Law Judge will continue to proceed through the sequential evaluation process to determine whether or not Claimant has the residual functional capacity to perform some other less strenuous tasks than in his prior jobs.

At Step 5, the burden of proof shifts to the Department to establish that Claimant does not have residual functional capacity.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Claimant has submitted insufficient objective medical evidence that he lacks the residual functional capacity to perform some other less strenuous tasks than in his prior employment or that he is physically unable to do light or sedentary tasks if demanded of him. Claimant's activities of daily living do not appear to be very limited and he should be able to perform light or sedentary work even with his impairments. Claimant has failed to provide the necessary objective medical evidence to establish that he has a severe impairment or combination of impairments which prevent him from performing

any level of work for a period of 12 months. The Claimant's testimony as to his limitations indicates that he should be able to perform light or sedentary work.

There is insufficient objective medical/psychiatric evidence contained in the file of depression or a cognitive dysfunction that is so severe that it would prevent Claimant from working at any job. Claimant was able to answer all the questions at the hearing and was responsive to the questions. Claimant was oriented to time, person and place during the hearing. Claimant's complaints of pain, while profound and credible, are out of proportion to the objective medical evidence contained in the file as it relates to Claimant's ability to perform work. Therefore, this Administrative Law Judge finds that the objective medical evidence on the record does not establish that Claimant has no residual functional capacity. Claimant is disqualified from receiving disability at Step 5 based upon the fact that he has not established by objective medical evidence that he cannot perform light or sedentary work even with his impairments. **Under the Medical-Vocational guidelines, an individual (age [REDACTED] with a less than [REDACTED] education and an unskilled work history who is limited to light work is not considered disabled.**

It should be noted that Claimant continues to smoke despite the fact that his doctor has told him to quit. Claimant is not in compliance with his treatment program.

If an individual fails to follow prescribed treatment which would be expected to restore their ability to engage in substantial activity without good cause there will not be a finding of disability.... 20 CFR 416.994(b)(4)(iv).

The Department's Program Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1. Because the Claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that Claimant is unable to work for a period exceeding 90 days, the Claimant does not meet the disability criteria for State Disability Assistance benefits either

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with Department policy when it determined that Claimant was not eligible to receive Medical Assistance and/or State Disability Assistance.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the Department has appropriately established on the record that it was acting in compliance with Department policy when it denied Claimant's application for Medical Assistance, retroactive Medical Assistance and State Disability Assistance benefits. The Claimant should be able to perform a wide range of light or sedentary

work even with his impairments. The Department has established its case by a preponderance of the evidence.

Accordingly, the Department's decision is AFFIRMED.

Landis Y. Lain
Administrative Law Judge
for Maura D. Corrigan, Director
Department of Human Services

Date Signed: 3/21/14

Date Mailed: 3/21/14

NOTICE OF APPEAL: The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely Request for Rehearing or Reconsideration was made, within 30 days of the receipt date of the Decision and Order of Reconsideration or Rehearing Decision.

Michigan Administrative Hearing System (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. MAHS will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request (60 days for FAP cases).

A Request for Rehearing or Reconsideration may be granted when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the Claimant;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The Department, AHR or the Claimant must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date the hearing decision is mailed.

2014-12712/LYL

The written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:
