HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. ISSUE

Whether the Department properly denied Claimant's Medical Assistance (MA), Retro-MA and State Disability Assistance (SDA) application?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On June 20, 2013, Claimant filed an application for MA/Retro-MA and SDA benefits alleging disability.
2. On August 23, 2013, the Medical Review Team (MRT) denied Claimant's application for MA/Retro-MA and SDA for lack of duration. (Depart Ex. A, pp 4-5).
3. On August 30, 2013, the Department sent Claimant notice that her application for MA/Retro-MA and SDA had been denied.
4. On November 19, 2013, Claimant filed a request for a hearing to contest the Department's negative action.

5. On February 5, 2014, the State Hearing Review Team (SHRT) found Claimant was not disabled and that she retained the capacity to perform light work. (Depart Ex. B).
6. Claimant was appealing the denial of Social Security disability benefits at the time of the hearing.
7. Claimant is a 47 year old woman whose birthday is [REDACTED]. Claimant is 5'5" tall and weighs 155 lbs.
8. Claimant does not have an alcohol or drug problem. Claimant quit smoking in June, 2013, after her second stroke.
9. Claimant has a driver's license and is unable to drive due to problems with her vision.
10. Claimant has a high school equivalent education.
11. Claimant is not currently working and last worked in April, 2012, as a cashier.
12. Claimant alleges disability on the basis of 2 strokes, memory loss, double/blurry vision, dizziness, hypertension, bilateral carpal tunnel syndrome, headaches, arthritis, tendonitis and hyperthyroidism.
13. Claimant's impairments have lasted, or are expected to last, continuously for a period of twelve months or longer.
14. Claimant's complaints and allegations concerning her impairments and limitations, when considered in light of all objective medical evidence, as well as the record as a whole, reflect an individual who is so impaired as to be incapable of engaging in any substantial gainful activity on a regular and continuing basis.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and Mich Admin Code, Rules 400.3151-400.3180. Department policies are found in the

Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

Current legislative amendments to the Act delineate eligibility criteria as implemented by department policy set forth in program manuals. 2004 PA 344, Sec. 604, establishes the State Disability Assistance program. It reads in part:

Sec. 604 (1). The department shall operate a state disability assistance program. Except as provided in subsection (3), persons eligible for this program shall include needy citizens of the United States or aliens exempt from the Supplemental Security Income citizenship requirement who are at least 18 years of age or emancipated minors meeting one or more of the following requirements:

(b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

Specifically, this Act provides minimal cash assistance to individuals with some type of severe, temporary disability which prevents him or her from engaging in substantial gainful work activity for at least ninety (90) days.

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also is known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

. . . the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

. . . We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further. 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application Claimant has the burden of proof pursuant to:

. . . You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as ultrasounds, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms). 20 CFR 416.913(b).

Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment. 20 CFR 416.929(a). The medical evidence must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e). You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. 20 CFR 416.927(a)(1).

Applying the sequential analysis herein, Claimant is not ineligible at the first step as Claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a *de minimus* standard.

The medical information indicates that Claimant suffers from 2 strokes, memory loss, double/blurry vision, dizziness, hypertension, bilateral carpal tunnel syndrome, headaches, arthritis, tendonitis, anxiety and hyperthyroidism. Ruling any ambiguities in

Claimant's favor, this Administrative Law Judge (ALJ) finds that Claimant meets duration and severity. The analysis continues.

The third step of the analysis looks at whether an individual meets or equals one of the Listings of Impairments. 20 CFR 416.920(d). Claimant does not. The analysis continues.

The fourth step of the analysis looks at the ability of the applicant to return to past relevant work. This step examines the physical and mental demands of the work done by Claimant in the past. 20 CFR 416.920(f). In this case, Claimant has an employment history as a cashier. As a result of her current health issues, Claimant is unable to return to her past relevant work. Accordingly, Step 5 of the sequential analysis is required.

The fifth and final step of the sequential consideration of a disability claim, the trier of fact must determine if the claimant's impairment(s) prevents claimant from doing other work. 20 CFR 416.920(f). This determination is based upon Claimant's:

- (1) residual functional capacity defined simply as "what can you still do despite you limitations?" 20 CFR 416.945;
- (2) age, education, and work experience, 20 CFR 416.963-.965; and
- (3) the kinds of work which exist in significant numbers in the national economy which the claimant could perform despite his/her limitations. 20 CFR 416.966.

See *Felton v DSS* 161 Mich. App 690, 696 (1987). Once Claimant reaches Step 5 in the sequential review process, Claimant has already established a *prima facie* case of disability. *Richardson v Secretary of Health and Human Services*, 735 F2d 962 (6th Cir, 1984). At that point, the burden of proof is on the state to prove by substantial evidence that Claimant has the residual functional capacity for substantial gainful activity.

A review of the February 5, 2014, SHRT decision indicates SHRT relied on a Social Security Administration Disability Determination Examination dated 1/3/14, in denying Claimant's application for Disability. However, the medical evidence submitted by Claimant included her second stroke in June, 2013. A review of the SSI determination indicates SSI was unaware of Claimant's June, 2013, stroke. These records were timely sent to SHRT with Claimant's initial application, but were not reviewed by SHRT.

Claimant credibly testified that she has a limited tolerance for physical activities and is unable to stand or sit for lengthy periods of time. Claimant indicated she needs assistance in and out of the tub. She also stated she needs reminders to take her medication. Claimant testified she has daily heart palpitations, shortness of breath and anxiety tremors in her hands which shake daily. Her physician has restricted her from

driving since December, 2013, due to her dizziness and blurry/double vision. She is unable to cook alone or grocery shop by herself.

Claimant is 47 years old, with a high school equivalent education. Claimant's medical records are consistent with her testimony that she is unable to engage in even a full range of sedentary work on a regular and continuing basis. 20 CFR 404, Subpart P, Appendix 11, Section 201.00(h). See Social Security Ruling 83-10; *Wilson v Heckler*, 743 F2d 216 (1986).

The Department has failed to provide vocational evidence which establishes that Claimant has the residual functional capacity for substantial gainful activity and that given Claimant's age, education, and work experience, there are significant numbers of jobs in the national economy which Claimant could perform despite Claimant's limitations since her two strokes. Accordingly, this Administrative Law Judge concludes Claimant is disabled for purposes of the MA program.

A person is considered disabled for purposes of SDA if the person has a physical or mental impairment which meets federal SSI disability standards for at least 90 days. Receipt of SSI or RSDI benefits based upon disability or blindness or the receipt of MA benefits based upon disability or blindness automatically qualifies an individual as disabled for purposes of the SDA program. Other specific financial and non-financial eligibility criteria are found in BEM 261. Inasmuch as Claimant has been found "disabled" for purposes of MA, she must also be found "disabled" for purposes of SDA benefits.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the Department erred in determining Claimant is not currently disabled for MA/Retro-MA and SDA eligibility purposes.

Accordingly, the Department's decision is **REVERSED**, and it is ORDERED that:

1. The Department shall process Claimant's June 20, 2013, MA/Retro-MA and SDA application, and shall award her all the benefits she may be entitled to receive, as long as she meets the remaining financial and non-financial eligibility factors.
2. The department shall review Claimant's medical condition for improvement in April, 2015, unless her Social Security Administration disability status is approved by that time.
3. The department shall obtain updated medical evidence from Claimant's treating physicians, physical therapists, pain clinic notes, etc. regarding her continued treatment, progress and prognosis at review.

It is SO ORDERED.
