**ADMINISTRATIVE LAW JUDGE:** Vicki L. Armstrong

**HEARING DECISION**

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, an 3-way telephone hearing was conducted from Lansing, Michigan. Claimant, represented by [REDACTED] of [REDACTED], appeared and provided testimony. Participants on behalf of the Department of Human Services (Department) included Eligibility Specialist [REDACTED] and Program Specialist [REDACTED].

**ISSUE**

Whether the Department properly denied Claimant's Medical Assistance (MA) and Retro-MA application?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On September 12, 2013, Claimant filed an application for MA/Retro-MA benefits alleging disability.
2. On December 12, 2013, the Medical Review Team (MRT) denied Claimant's application for MA/Retro-MA indicating Claimant was capable of performing other work. (Depart Ex. A, pp 219-220).
3. On December 17, 2013, the Department sent Claimant notice that his application for MA/Retro-MA had been denied.
4. On January 7, 2014, Claimant filed a request for a hearing to contest the Department's negative action.

5. On March 11, 2014, the State Hearing Review Team (SHRT) denied MA/Retro-MA in reliance on a Social Security Determination dated 8/26/13, a month before the application at issue. (Depart Ex. B).
6. Claimant was appealing the denial of Social Security disability benefits at the time of the hearing.
7. Claimant is a 40 year old man born on [REDACTED]. Claimant is 6'2" tall and weighs 280 lbs.
8. Claimant does not have an alcohol or drug history. He smokes a pack of cigarettes a day.

10. Claimant has an eleventh grade education.
11. Claimant is not currently working. Claimant last worked in June, 2013.
12. Claimant alleges disability on the basis of degenerative disc disease, post spinal fusion and removal of 19 bone spurs, back pain, hypertension, hypercholesterolemia, arthritis, neuropathy, edema, and diabetes.
13. Claimant's impairments have lasted, or are expected to last, continuously for a period of twelve months or longer.
14. Claimant's complaints and allegations concerning his impairments and limitations, when considered in light of all objective medical evidence, as well as the record as a whole, reflect an individual who is so impaired as to be incapable of engaging in any substantial gainful activity on a regular and continuing basis.

### **CONCLUSIONS OF LAW**

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also is known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

. . . the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

. . . We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further. 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?

5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application Claimant has the burden of proof pursuant to:

. . . You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as ultrasounds, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms). 20 CFR 416.913(b).

Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment. 20 CFR 416.929(a). The medical evidence must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e). You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. 20 CFR 416.927(a)(1).

Applying the sequential analysis herein, Claimant is not ineligible at the first step as Claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a *de minimus* standard. Ruling any ambiguities in Claimant's favor, this Administrative Law Judge (ALJ) finds that Claimant meets both. The analysis continues.

The third step of the analysis looks at whether an individual meets or equals one of the Listings of Impairments. 20 CFR 416.920(d). Claimant does not. The analysis continues.

The fourth step of the analysis looks at the ability of the applicant to return to past relevant work. This step examines the physical and mental demands of the work done by Claimant in the past. 20 CFR 416.920(f). In this case, based on Claimant's current health status, Claimant was a truck driver and as such there are no past work skills to transfer to other work occupations and he is unable to return to driving truck. Accordingly, Step 5 of the sequential analysis is required.

The fifth and final step of the analysis applies the biographical data of the applicant to the Medical Vocational Grids to determine the residual functional capacity of the applicant to do other work. 20 CFR 416.920(g). See *Felton v DSS* 161 Mich. App 690, 696 (1987). Once Claimant reaches Step 5 in the sequential review process, Claimant has already established a *prima facie* case of disability. *Richardson v Secretary of Health and Human Services*, 735 F2d 962 (6<sup>th</sup> Cir, 1984). At that point, the burden of proof is on the state to prove by substantial evidence that Claimant has the residual functional capacity for substantial gainful activity.

The medical information indicates that Claimant suffers from degenerative disc disease, post spinal fusion and removal of 19 bone spurs, back pain, hypertension, hypercholesterolemia, arthritis, neuropathy, edema, and diabetes.

Claimant credibly testified that he has a limited tolerance for physical activities and is unable to stand or sit for lengthy periods of time. Claimant stated that he cannot feel his feet from the ankles down. He has to watch where he walks. He also suffers from edema. Claimant explained that there is a pole in the shower for him to hold onto, and he does not shower without someone in the house.

The physician the Department sent Claimant to for an independent medical evaluation opened that Claimant does have some residual sensory loss at L5-S1 bilaterally with associated post-surgical lumbar spine straightening. He had moderate difficulty performing orthopedic maneuvers. He compensates with a guarded, wide based gait. The use of his cane appears beneficial. At this point, pain management and supportive care would be indicated. His condition appears permanent in regards to his neuropathy but he may get some increased endurance over time.

Claimant's medical records are consistent with his testimony that he is unable to engage in even a full range of sedentary work on a regular and continuing basis. 20 CFR 404, Subpart P. Appendix 11, Section 201.00(h). See Social Security Ruling 83-10; *Wilson v Heckler*, 743 F2d 216 (1986). Accordingly, this Administrative Law Judge concludes Claimant is disabled for purposes of the MA program.

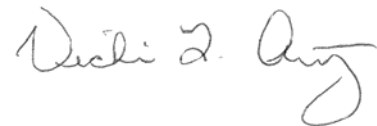

**DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the Department erred in determining Claimant is not currently disabled for MA/Retro-MA eligibility purposes.

Accordingly, the Department's decision is **REVERSED**, and it is ORDERED that:

1. The Department shall process Claimant's September 12, 2013, MA/Retro-MA application, and shall award him all the benefits he may be entitled to receive, as long as he meets the remaining financial and non-financial eligibility factors.
2. The Department shall review Claimant's medical condition for improvement in May, 2015, unless his Social Security Administration disability status is approved by that time.
3. The Department shall obtain updated medical evidence from Claimant's treating physicians, physical therapists, pain clinic notes, etc. regarding his continued treatment, progress and prognosis at review.

**It is SO ORDERED.**
