

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

[REDACTED]

Reg. No.: 2013-68402
Issue No.: 2009
Case No.: [REDACTED]
Hearing Date: March 5, 2014
County: Wayne (15)

ADMINISTRATIVE LAW JUDGE: Christian Gardocki

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 7 CFR 273.15 to 273.18; 42 CFR 431.200 to 431.250; 45 CFR 99.1 to 99.33; and 45 CFR 205.10. After due notice, an in-person hearing was held on March 5, 2014, from Detroit, Michigan. Participants included the above-named Claimant. [REDACTED] testified and appeared as Claimant's authorized hearing representative/legal counsel. Participants on behalf of the Department of Human Services (DHS) included [REDACTED] [REDACTED] Medical Contact Worker.

ISSUE

The issue is whether DHS properly denied Claimant's application for Medical Assistance (MA) for the reason that Claimant is not a disabled individual.

FINDINGS OF FACT

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. On [REDACTED], Claimant applied for MA benefits, including retroactive MA benefits from [REDACTED].
2. Claimant's only basis for MA benefits was as a disabled individual.
3. On [REDACTED] the Medical Review Team (MRT) determined that Claimant was not a disabled individual (see Exhibits 1-2).

4. On [REDACTED], DHS denied Claimant's application for MA benefits and mailed a Notice of Case Action informing Claimant of the denial.
5. On [REDACTED], Claimant's AHR requested a hearing disputing the denial of MA benefits.
6. On [REDACTED], SHRT determined that Claimant was not a disabled individual, in part, by determining that Claimant can perform past relevant employment.
7. On [REDACTED] an administrative hearing was held.
8. Claimant presented new medical documents (Exhibits A1-A29) at the hearing.
9. During the hearing, Claimant waived the right to receive a timely hearing decision.
10. During the hearing, Claimant and DHS waived any objections to allow the admission of the yet to be written SHRT decision.
11. On [REDACTED], an updated hearing packet was forwarded to SHRT and an Interim Order Extending the Record for Review by State Hearing Review Team was subsequently issued which extended the record an additional 90 days.
12. On [REDACTED], SHRT determined that Claimant was not disabled, in part, by a determination that Claimant can perform past relevant employment.
13. On [REDACTED] the Michigan Administrative Hearings System received the hearing packet and updated SHRT decision.
14. As of the date of the administrative hearing, Claimant was a 39 year old male with a height of 5'8" and weight of 220 pounds.
15. Claimant has no known relevant history of alcohol or illegal substance abuse.
16. Claimant's highest education year completed was the 11th grade.
17. As of the date of the administrative hearing, Claimant had no medical insurance.
18. Claimant alleged disability based on impairments and issues including congestive heart failure and asthma.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by the Title XIX of the Social Security Act, 42 USC 1396-1396w-5, and is implemented by 42 CFR 400.200 to 1008.59. The Department of Human Services (formerly known as the Family Independence Agency) administers the MA program pursuant to MCL 400.10 and MCL 400.105. Department policies are contained in the Department of Human Services Bridges Administrative Manual (BAM) and Department of Human Services Bridges Eligibility Manual (BEM) and Department of Human Services Reference Tables Manual (RFT).

Prior to a substantive analysis of Claimant's hearing request, it should be noted that Claimant's AHR noted special arrangements in order to participate in the hearing; specifically, an in-person hearing was requested. Claimant's AHR's request was granted and the hearing was conducted accordingly.

The Medicaid program is comprised of several sub-programs which fall under one of two categories; one category is FIP-related and the second category is SSI-related. BEM 105 (10/2010), p. 1. To receive MA under an SSI-related category, the person must be aged (65 or older), blind, disabled, entitled to Medicare or formerly blind or disabled. *Id.* Families with dependent children, caretaker relatives of dependent children, persons under age 21 and pregnant, or recently pregnant, women receive MA under FIP-related categories. *Id.* AMP is an MA program available to persons not eligible for Medicaid through the SSI-related or FIP-related categories though DHS does always offer the program to applicants. It was not disputed that Claimant's only potential category for Medicaid eligibility would be as a disabled individual.

Disability for purposes of MA benefits is established if one of the following circumstances applies:

- by death (for the month of death);
- the applicant receives Supplemental Security Income (SSI) benefits;
- SSI benefits were recently terminated due to financial factors;
- the applicant receives Retirement Survivors and Disability Insurance (RSDI) on the basis of being disabled; or
- RSDI eligibility is established following denial of the MA benefit application (under certain circumstances).

BEM 260 (7/2012) pp. 1-2

There was no evidence that any of the above circumstances apply to Claimant. Accordingly, Claimant may not be considered for Medicaid eligibility without undergoing a medical review process which determines whether Claimant is a disabled individual. *Id.* at 2.

Generally, state agencies such as DHS must use the same definition of SSI disability as found in the federal regulations. 42 CFR 435.540(a). Disability is federally defined as the inability to do any substantial gainful activity (SGA) by reason of any medically

determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905. A functionally identical definition of disability is found under DHS regulations. BEM 260 (7/2012), p. 8.

Substantial gainful activity means a person does the following:

- Performs significant duties, and
- Does them for a reasonable length of time, and
- Does a job normally done for pay or profit. *Id.* at 9.

Significant duties are duties used to do a job or run a business. *Id.* They must also have a degree of economic value. *Id.* The ability to run a household or take care of oneself does not, on its own, constitute substantial gainful activity. *Id.*

The person claiming a physical or mental disability has the burden to establish a disability through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinical/laboratory findings, diagnosis/prescribed treatment, prognosis for recovery and/or medical assessment of ability to do work-related activities or ability to reason and make appropriate mental adjustments, if a mental disability is alleged. 20 CFR 413.913. An individual's subjective pain complaints are not, in and of themselves, sufficient to establish disability. 20 CFR 416.908; 20 CFR 416.929(a).

Federal regulations describe a sequential five step process that is to be followed in determining whether a person is disabled. 20 CFR 416.920. If there is no finding of disability or lack of disability at each step, the process moves to the next step. 20 CFR 416.920 (a)(4).

The first step in the process considers a person's current work activity. 20 CFR 416.920 (a)(4)(i). A person who is earning more than a certain monthly amount is ordinarily considered to be engaging in SGA. The monthly amount depends on whether a person is statutorily blind or not. The 2013 monthly income limit considered SGA for non-blind individuals is \$1,040.

Claimant credibly denied performing any employment since the date of the MA application; no evidence was submitted to contradict Claimant's testimony. Based on the presented evidence, it is found that Claimant is not performing SGA and has not performed SGA since the date of MA application. Accordingly, the disability analysis may proceed to step two.

The second step in the disability evaluation is to determine whether a severe medically determinable physical or mental impairment exists to meet the 12 month duration requirement. 20 CFR 416.920 (a)(4)(ii). The impairments may be combined to meet the severity requirement. If a severe impairment is not found, then a person is deemed not disabled. *Id.*

The impairments must significantly limit a person's basic work activities. 20 CFR 416.920 (a)(5)(c). "Basic work activities" refers to the abilities and aptitudes necessary to do most jobs. *Id.* Examples of basic work activities include:

- physical functions (e.g. walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling)
- capacities for seeing, hearing, and speaking, understanding; carrying out, and remembering simple instructions
- use of judgment
- responding appropriately to supervision, co-workers and usual work situations; and/or
- dealing with changes in a routine work setting.

Generally, federal courts have imposed a de minimus standard upon claimants to establish the existence of a severe impairment. *Grogan v. Barnhart*, 399 F.3d 1257, 1263 (10th Cir. 2005); *Hinkle v. Apfel*, 132 F.3d 1349, 1352 (10th Cir. 1997). *Higgs v Bowen*, 880 F.2d 860, 862 (6th Cir. 1988). Similarly, Social Security Ruling 85-28 has been interpreted so that a claim may be denied at step two for lack of a severe impairment only when the medical evidence establishes a slight abnormality or combination of slight abnormalities that would have no more than a minimal effect on an individual's ability to work even if the individual's age, education, or work experience were specifically considered. *Barrientos v. Secretary of Health and Human Servs.*, 820 F.2d 1, 2 (1st Cir. 1987). Social Security Ruling 85-28 has been clarified so that the step two severity requirement is intended "to do no more than screen out groundless claims." *McDonald v. Secretary of Health and Human Servs.*, 795 F.2d 1118, 1124 (1st Cir. 1986).

SSA specifically notes that age, education, and work experience are not considered at the second step of the disability analysis. 20 CFR 416.920 (5)(c). In determining whether Claimant's impairments amount to a severe impairment, all other relevant evidence may be considered. The analysis will begin with a summary of the relevant submitted medical documentation.

Hospital treatment documents (Exhibits A9-A10) dated [REDACTED] were presented. It was noted that Claimant reported dyspnea when running up stairs or when carrying heavy objects. A diagnosis of asthma was noted.

Hospital documents (Exhibits 18-19; 28-30; A3-A5) from an admission dated [REDACTED] were presented. It was noted that Claimant presented with complaints of breathing difficulties and chest pain. It was noted that Claimant was treated with medications. It was noted that a 2D echo verified that Claimant's ejection fraction was 25%. A recent cardiac catheterization was noted. Noted discharge diagnoses included acute respiratory failure and acute decompensated heart failure. A discharge date of [REDACTED] was noted.

Hospital treatment documents (Exhibits 25-27; A6-A8) dated [REDACTED] were presented. Assessments included CHF, pulmonary HTN, cardiomyopathy, and asthma.

Medical treatment document (Exhibits C1-C3) dated [REDACTED] were presented. It was noted that Claimant's dyspnea was stable. It was noted that Claimant needed blood work but had no insurance.

Hospital documents (Exhibits B1-B37) from an encounter dated [REDACTED] were presented. It was noted that Claimant presented with complaints of cold symptoms, ongoing for 5 days. Radiology of Claimant's chest was noted as negative.

A physician letter (Exhibit A2) dated [REDACTED] was presented. It was noted that Claimant wears a life vest and is at risk for sudden cardiac death. A diagnosis of advanced asthma was noted. It was noted that Claimant was considered disabled.

Medical treatment documents (Exhibits C4-C6) dated [REDACTED] were presented. It was noted that Claimant continued wearing his life vest. It was noted that Claimant reported dyspnea with activity.

Claimant testified that he had lifting and walking difficulties due to shortness of breath. Claimant's testimony was consistent with the presented evidence.

It was verified that Claimant's breathing difficulties had been ongoing since at least 5/2013. Based on diagnoses of HTN, asthma, and CHF, it is probable that Claimant's difficulties began at least since [REDACTED]. Presented records tended to verify that there was no improvement in Claimant's conditions.

Based on the presented evidence, it is found that Claimant has significant impairment to performing basic work activities for a period longer than 12 months. Accordingly, the disability analysis may proceed to step three.

The third step of the sequential analysis requires a determination whether the Claimant's impairment, or combination of impairments, is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. 20 CFR 416.920 (a)(4)(iii). If Claimant's impairments are listed and deemed to meet the 12 month requirement, then the claimant is deemed disabled. If the impairment is unlisted, then the analysis proceeds to the next step.

Claimant's most prominent impairment appears to be heart failure. Listing 4.02 states outlines when disability may be found based on chronic heart failure:

4.02 Chronic heart failure while on a regimen of prescribed treatment, with symptoms and signs described in 4.00D2. The required level of severity for this impairment is met when the requirements in *both A and B* are satisfied.

A. Medically documented presence of one of the following:

1. Systolic failure (see 4.00D1a(i)), with left ventricular end diastolic dimensions greater than 6.0 cm or ejection fraction of 30 percent or less during a period of stability (not during an episode of acute heart failure); or
 2. Diastolic failure (see 4.00D1a(ii)), with left ventricular posterior wall plus septal thickness totaling 2.5 cm or greater on imaging, with an enlarged left atrium greater than or equal to 4.5 cm, with normal or elevated ejection fraction during a period of stability (not during an episode of acute heart failure);
- AND

B. Resulting in one of the following:

1. Persistent symptoms of heart failure which very seriously limit the ability to independently initiate, sustain, or complete activities of daily living in an individual for whom an MC, preferably one experienced in the care of patients with cardiovascular disease, has concluded that the performance of an exercise test would present a significant risk to the individual; or
2. Three or more separate episodes of acute congestive heart failure within a consecutive 12-month period (see 4.00A3e), with evidence of fluid retention (see 4.00D2b (ii)) from clinical and imaging assessments at the time of the episodes, requiring acute extended physician intervention such as hospitalization or emergency room treatment for 12 hours or more, separated by periods of stabilization (see 4.00D4c); or
3. Inability to perform on an exercise tolerance test at a workload equivalent to 5 METs or less due to:
 - a. Dyspnea, fatigue, palpitations, or chest discomfort; or
 - b. Three or more consecutive premature ventricular contractions (ventricular tachycardia), or increasing frequency of ventricular ectopy with at least 6 premature ventricular contractions per minute; or
 - c. Decrease of 10 mm Hg or more in systolic pressure below the baseline systolic blood pressure or the preceding systolic pressure measured during exercise (see 4.00D4d) due to left ventricular dysfunction, despite an increase in workload; or
 - d. Signs attributable to inadequate cerebral perfusion, such as ataxic gait or mental confusion.

Beginning with Part A, presented records verified that Claimant's ejection fraction was only 25%. There was no evidence that Claimant's EF improved from 25%. Apparently, Claimant's condition was stabilized with a life vest. Claimant meets Part A of the above listing.

Turning to Part B, the best evidence of Claimant's cardiac restrictions was Claimant's functional and therapeutic classifications on a New York Heart Classification (Exhibit A1) dated [REDACTED]. Claimant's cardiologist noted that Claimant's functional classification was Class III. Claimant's functional capacity is representative of a patient with cardiac disease resulting in marked limitations of physical activity; it is also consistent with someone comfortable at rest while less than ordinary physical activity causes fatigue,

palpitation, dyspnea or anginal pain. Claimant's therapeutic classification was Class D. Claimant's therapeutic capacity is representative of a patient with cardiac disease whose ordinary physical activity should be markedly restricted.

Claimant testified that he is limited to 15-16 feet of walking before losing his breath. Claimant testified that he cannot carry anything heavier than a gallon of milk. Claimant testified that he had to move his bedroom downstairs because he is unable to travel up his stairs. Claimant's stated restrictions are considered persistent symptoms which very seriously limit Claimant's ability to perform daily activities. Claimant's testimony was consistent with presented records.

It is found that Claimant meets SSA Listing 4.02. Accordingly, Claimant is a disabled individual and it is found that DHS erred in denying Claimant's application for MA benefits.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law finds that DHS improperly denied Claimant's application for MA benefits. It is ordered that DHS:

- (1) reinstate Claimant's MA benefit application dated [REDACTED], including retroactive MA benefits from [REDACTED];
- (2) evaluate Claimant's eligibility for MA benefits subject to the finding that Claimant is a disabled individual;
- (3) initiate a supplement for any benefits not issued as a result of the improper application denial; and
- (4) schedule a review of benefits in one year from the date of this administrative decision, if Claimant is found eligible for future MA benefits.

The actions taken by DHS are **REVERSED**.

Christian Gardocki
Administrative Law Judge
for Maura Corrigan, Director
Department of Human Services

Date Signed: 6/2/2014

Date Mailed: 6/2/2014

NOTICE OF APPEAL: The claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely Request for Rehearing or Reconsideration was made, within 30 days of the receipt date of the Decision and Order of Reconsideration or Rehearing Decision.

Michigan Administrative Hearing System (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. MAHS will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request (60 days for FAP cases).

A Request for Rehearing or Reconsideration may be granted when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The Department, AHR or the claimant must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date the hearing decision is mailed.

The written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:

Michigan Administrative Hearings
Reconsideration/Rehearing Request
P.O. Box 30639
Lansing, Michigan 48909-07322
