

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

[REDACTED]

Reg. No.: 201364821
Issue No.: 2009
Case No.: [REDACTED]
Hearing Date: January 28, 2014
County: Genesee County DHS #2

ADMINISTRATIVE LAW JUDGE: Kevin Scully

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, an in-person hearing was held on January 28, 2014, from Flint, Michigan. Participants on behalf of Claimant included [REDACTED] and his authorized hearings representative [REDACTED] of [REDACTED]. Participants on behalf of the Department of Human Services (Department) included [REDACTED]. During the hearing, Claimant waived the time period for the issuance of this decision in order to allow for the submission of additional medical evidence.

ISSUE

Did the Department of Human Services (Department) properly determine that the Claimant did not meet the disability standard for Medical Assistance (MA-P) based on disability?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On April 5, 2013, the Claimant submitted an application for Medical Assistance (MA) benefits alleging disability.
2. On June 7, 2013, the Medical Review Team (MRT) determined that the Claimant did not meet the disability standard for Medical Assistance (MA-P) because it determined that he is capable of other work despite his impairments.
3. On June 11, 2013, the Department sent the Claimant notice that it had denied the application for assistance.
4. On August 19, 2013, the Department received the Claimant's hearing request, protesting the denial of disability benefits.

5. On October 21, 2013, the State Hearing Review Team (SHRT) upheld the Medical Review Team's (MRT) denial of Medical Assistance (MA-P) benefits.
6. On May 7, 2014, after reviewing the additional medical records, the State Hearing Review Team (SHRT) again upheld the determination of the Medical Review Team (MRT) that the Claimant does not meet the disability standard.
7. The Claimant applied for federal Supplemental Security Income (SSI) benefits at the Social Security Administration (SSA).
8. The Claimant is a 48-year-old man whose birth date is [REDACTED].
9. Claimant is 5' 10" tall and weighs 150 pounds.
10. The Claimant is a high school graduate.
11. The Claimant is able to read and write and does have basic math skills.
12. The Claimant was not engaged in substantial gainful activity at any time relevant to this matter.
13. The Claimant has past relevant work experience installing drywall where he was required to lift objects weighing as much as 300 pounds.
14. The Claimant's disability claim is based on a stroke, and a neck and back injury.

CONCLUSIONS OF LAW

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, Rule 400.901 - 400.951. An opportunity for a hearing shall be granted to an applicant who requests a hearing because his claim for assistance has been denied. Mich Admin Code, R 400.903. Clients have the right to contest a Department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The Department will provide an administrative hearing to review the decision and determine the appropriateness of that decision. Department of Human Services Bridges Administrative Manual (BAM) 600 (July 1, 2013), pp 1-44.

The Medical Assistance (MA) program is established by the Title XIX of the Social Security Act, 42 USC 1396-1396w-5, and is implemented by 42 CFR 400.200 to 1008.59. The Department of Human Services (formerly known as the Family Independence Agency) administers the MA program pursuant to MCL 400.10 and MCL 400.105.

Pursuant to Federal Rule 42 CFR 435.540, the Department uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance programs. Under SSI, disability is defined as:

...inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

When determining disability, the federal regulations require that several considerations be analyzed in sequential order.

STEP 1

Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is not disabled.

At step 1, a determination is made on whether the Claimant is engaging in substantial gainful activity (20 CFR 404.1520(b) and 416.920(b)). Substantial gainful activity (SGA) is defined as work activity that is both substantial and gainful. "Substantial work activity" is work activity that involves doing significant physical or mental activities (20 CFR 404.1572(a) and 416.972(a)). "Gainful work activity" is work that is usually done for pay or profit, whether or not a profit is realized (20 CFR 404.1572(b) and 416.972(b)). Generally, if an individual has earnings from employment or self-employment above a specific level set out in the regulations, it is presumed that he has demonstrated the ability to engage in SGA (20 CFR 404.1574, 404.1575, 416.974, and 416.975). If an individual engages in SGA, he is not disabled regardless of how severe his physical or mental impairments are and regardless of his age, education, and work experience. If the individual is not engaging in SGA, the analysis proceeds to the second step.

The Claimant testified that has not been employed for the last 13 years and is not currently engaged in substantial gainful activity, which was not disputed by the Department during the hearing. Therefore this Administrative Law Judge finds that the Claimant is not engaged in substantial gainful activity and is not disqualified from receiving disability at Step 1.

STEP 2

Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is not disabled.

At step two, a determination is made whether the Claimant has a medically determinable impairment that is "severe" or a combination of impairments that is "severe" (20 CFR 404.1520(c) and 416.920(c)). An impairment or combination of impairments is "severe" within the meaning of the regulations if it significantly limits an individual's ability to perform basic work activities. An impairment or combination of impairments is "not severe" when medical and other evidence establish only a slight abnormality or a combination of slight abnormalities that would have no more than a minimal effect on an individual's ability to work (20 CFR 404.1521 and 416.921). If the Claimant does not have a severe medically determinable impairment or combination of impairments, he is not disabled. If the Claimant has a severe impairment or combination of impairments, the analysis proceeds to the third step.

The Claimant has the burden of proof of establishing that he has a severely restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months, or result in death.

The Claimant is a 48-year-old man that is 5' 10" tall and weighs 150 pounds. The Claimant alleges disability due to a stroke and a neck and back injury.

The objective medical evidence indicates the following:

On February 25, 2013, the Claimant was treated for left-sided weakness and was diagnosed by his treating physician with malaise and fatigue. An electroencephalography examination was normal and treating physicians were unable to place any focal lesion as to his symptoms.

On January 23, 2014, a stress echo / dobutamine stress echo test was conducted and produced normal results.

The Claimant smokes cigarettes and drinks alcohol on a daily basis. Treating physicians have recommended that the Claimant stop smoking and drinking, and have determined that treatment with statins would put the Claimant at risk of excessive liver toxicity. The Claimant has a history of alcohol abuse and withdrawal seizures. On February 9, 2013, the Claimant informed his treating physician that he drinks a pink of liquor or 12 cans of beer on a daily basis.

The Claimant is capable of preparing meals and shopping for groceries. The Claimant is capable of caring for his personal needs including showering and dressing himself without assistance.

The evidence on the record indicates that the Claimant has a history of severe injury to his back and neck. The Claimant has been treated for malaise, fatigue, and the side effects of heavy alcohol and tobacco use, which has resulted in significant impairments to perform work related activities. Therefore, this Administrative Law Judge finds a severe physical impairment that has more than a de minimus effect on the Claimant's ability to perform work activities. The Claimant's impairments have lasted continuously, or are expected to last for twelve months.

STEP 3

Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4.

At step three, a determination is made whether the Claimant's impairment or combination of impairments is of a severity to meet or medically equal the criteria of an impairment listed in 20 CFR Part 404, Subpart P, Appendix 1 (20 CFR 404.1520(d), 404.1525, 404.1526, 416.920(d), 416.925, and 416.926). If the Claimant's impairment or combination of impairments is of a severity to meet or medically equal the criteria of a

listing and meets the duration requirement (20 CFR 404.1509 and 416.909), the Claimant is disabled. If it does not, the analysis proceeds to the next step.

The Claimant's impairment failed to meet the listing for stroke under section 11.04 Central nervous system vascular accident because the objective medical evidence does not support a finding that the Claimant suffers from sensory or motor aphasia resulting in ineffective speech or communication, or that the Claimant suffers from significant and persistent disorganization of motor function in two extremities, resulting in sustained disturbance of gross and dexterous movements, or gait and station.

The Claimant's impairment failed to meet the listing for a neck and back under section 1.04 Disorders of the spine, because the objective medical evidence does not demonstrate that the Claimant suffers from nerve root compression resulting in loss of motor strength or reflexes, or resulting in a positive straight leg test. The objective medical evidence does not demonstrate that the Claimant has been diagnosed with spinal arachnoiditis. The objective medical evidence does not support a finding that the Claimant's impairment has resulted in an inability to ambulate effectively.

The medical evidence of the Claimant's condition does not give rise to a finding that he would meet a statutory listing in federal code of regulations 20 CFR Part 404, Subpart P, Appendix 1.

STEP 4

Can the client do the former work that he performed within the last 15 years? If yes, the client is not disabled.

Before considering step four of the sequential evaluation process, a determination is made of the Claimant's residual functional capacity (20 CFR 404.1520(e) and 416.920(c)). An individual's residual functional capacity is his ability to do physical and mental work activities on a sustained basis despite limitations from his impairments. In making this finding, the undersigned must consider all of the Claimant's impairments, including impairments that are not severe (20 CFR 404.1520(e), 404.1545, 416.920(e), and 416.945; SSR 96-8p).

Next, a determination is made on whether the Claimant has the residual functional capacity to perform the requirements of his past relevant work (20 CFR 404.1520(f) and 416.920(f)). The term past relevant work means work performed (either as the Claimant actually performed it or as it is generally performed in the national economy) within the last 15 years or 15 years prior to the date that disability must be established. In addition, the work must have lasted long enough for the Claimant to learn to do the job and have been SGA (20 CFR 404.1560(b), 404.1565, 416.960(b), and 416.965). If the Claimant has the residual functional capacity to do his past relevant work, the Claimant is not disabled. If the Claimant is unable to do any past relevant work or does not have any past relevant work, the analysis proceeds to the fifth and last step.

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium, and heavy. These terms have the same meaning as they have in the Dictionary of Occupational Titles, published by the Department of Labor... 20 CFR 416.967.

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

To determine the skills required in the national economy of work you are able to do, occupations are classified as unskilled, semi-skilled, and skilled. These terms have the same meaning as defined in. 20 CFR 416.968.

Unskilled work. Unskilled work is work which needs little or no judgment to do simple duties that can be learned on the job in a short period of time. The job may or may not require considerable strength. For example, we consider jobs unskilled if the primary work duties are handling, feeding and offbearing (that is, placing or removing materials from machines which are automatic or operated by others), or machine tending, and a person can usually learn to do the job in 30 days, and little specific vocational preparation and judgment are needed. A person does not gain work skills by doing unskilled jobs. 20 CFR 416.968(a).

The Claimant suffers from significant pain and fatigue as a result of his history of injury and current medical conditions. The Claimant's complaints of pain, while profound and credible, are out of proportion to the objective medical evidence contained in the file as it relates to the Claimant's ability to perform work. After careful consideration of the entire record, this Administrative Law Judge finds that the Claimant has the residual functional capacity to perform light work as defined in 20 CFR 404.1567 and 416.967.

The Claimant has a past relevant work experience installing drywall where he was required to lift objects weighing as much as 300 pounds. The Claimant's prior work fits the definition of heavy work and unskilled work. There is no evidence upon which this Administrative Law Judge could base a finding that the Claimant is able to perform work substantially similar to work performed in the past.

STEP 5

At Step 5, the burden of proof shifts to the Department to establish that the Claimant has the Residual Functional Capacity (RFC) for Substantial Gainful Activity.

Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, client is not disabled.

At the last step of the sequential evaluation process (20 CFR 404.1520(g) and 416.920(g)), a determination is made whether the Claimant is able to do any other work considering his residual functional capacity, age, education, and work experience. If the Claimant is able to do other work, he is not disabled. If the Claimant is not able to do other work and meets the duration requirement, he is disabled.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

The objective medical evidence indicates that the Claimant has the residual functional capacity to perform some other less strenuous tasks than in his prior employment and that he is physically able to do less strenuous tasks if demanded of him. The Claimant's testimony as to his limitations indicates that he should be able to perform light.

The Claimant's complaints of pain, while profound and credible, are out of proportion to the objective medical evidence contained in the file as it relates to the Claimant's ability to perform work.

Medical vocational guidelines have been developed and can be found in 20 CFR, Subpart P, Appendix 2, Section 200.00. When the facts coincide with a particular guideline, the guideline directs a conclusion as to disability. 20 CFR 416.969.

Claimant is 48-years-old, a younger person, under age 50, with a high school education, and a history of unskilled work. Based on the objective medical evidence of record Claimant has the residual functional capacity to perform light work. Medical Assistance (M.A.) is denied using Vocational Rule 202.20 as a guideline.

The Federal Regulations at 20 CFR 404.1535 speak to the determination of whether Drug Addiction and Alcoholism (DAA) is material to a person's disability and when benefits will or will not be approved. The regulations require the disability analysis be completed prior to a determination of whether a person's drug and alcohol use is material. It is only when a person meets the disability criterion, as set forth in the regulations, that the issue of materiality becomes relevant. In such cases, the regulations require a sixth step to determine the materiality of DAA to a person's disability.

When the record contains evidence of DAA, a determination must be made whether or not the person would continue to be disabled if the individual stopped using drugs or alcohol. The trier of fact must determine what, if any, of the physical or mental limitations would remain if the person were to stop the use of the drugs or alcohol and whether any of these remaining limitations would be disabling.

Claimant's testimony and the information contained in the file indicate that the Claimant has a history of tobacco, and alcohol abuse. The Claimant testified that he uses alcohol and smokes cigarettes on a daily basis. The Claimant's treating physicians found him to be a heavy drinker and found that his alcohol use makes treatment of his medical conditions risky due to liver toxicity. Applicable hearing is the Drug Abuse and Alcohol (DA&A) Legislation, Public Law 104-121, Section 105(b)(1), 110 STAT. 853, 42 USC 423(d)(2)(C), 1382(c)(a)(3)(J) Supplement Five 1999. The law indicates that individuals are not eligible and/or are not disabled where drug addiction or alcoholism is a contributing factor material to the determination of disability. After a careful review of the credible and substantial evidence on the whole record, this Administrative Law Judge finds that the Claimant does not meet the statutory disability definition under the

authority of the DA&A Legislation because his substance abuse is material to his alleged impairment and alleged disability.

It should be noted that the Claimant continues to smoke despite the fact that his doctor has told him to quit. Claimant is not in compliance with his treatment program. If an individual fails to follow prescribed treatment which would be expected to restore their ability to engage in substantial activity without good cause there will not be a finding of disability.... 20 CFR 416.994(b)(4)(iv).

The Administrative Law Judge, based on the above Findings of Fact and Conclusions of Law, and for the reasons stated on the record, if any, finds Claimant disabled not disabled for purposes of the Medical Assistance (M.A.) benefits.

DECISION AND ORDER

Accordingly, the Department's determination is **AFFIRMED** **REVERSED**.

Kevin Scully
Administrative Law Judge
for Maura D. Corrigan, Director
Department of Human Services

Date Signed: June 3, 2014

Date Mailed: June 3, 2014

NOTICE OF APPEAL: The claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely Request for Rehearing or Reconsideration was made, within 30 days of the receipt date of the Decision and Order of Reconsideration or Rehearing Decision.

Michigan Administrative Hearing System (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. MAHS will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request (60 days for FAP cases).

A Request for Rehearing or Reconsideration may be granted when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

201364821/KS

The Department, AHR or the claimant must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be received in MAHS within 30 days of the date the hearing decision is mailed.

The written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:

Michigan Administrative Hearings
Reconsideration/Rehearing Request
P.O. Box 30639
Lansing, Michigan 48909-07322
