CONCLUSIONS OF LAW

Department policies are contained in the Department of Human Services Bridges Administrative Manual (BAM), Department of Human Services Bridges Eligibility Manual (BEM), and Department of Human Services Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act, 42 USC 1396-1396w-5; 42 USC 1315; the Affordable Care Act of 2010, the collective term for the Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152; and 42 CFR 430.10-.25. The Department (formerly known as the Family Independence Agency) administers the MA program pursuant to 42 CFR 435, MCL 400.10, and MCL 400.105-.112k.

The Medical Assistance (MA) program is established by the Title XIX of the Social Security Act, 42 USC 1396-1396w-5, and is implemented by 42 CFR 400.200 to 1008.59. The Department of Human Services (formerly known as the Family Independence Agency) administers the MA program pursuant to MCL 400.10 and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

Pursuant to Federal Rule 42 CFR 435.540, the Department uses the Federal Supplemental Security Income (SSI) policy in determining eligibility for disability under MA-P. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience are reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability. 20 CFR 416.927(e).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence or pace; and ability to tolerate increased mental demands associated with competitive work). 20 CFR, Part 404, Subpart P, Appendix 1, 12.00(C).

Social Security Ruling 02-01 directs adjudicators to consider that the combined effects of obesity with other impairments may be greater than the non-obesity impairment alone. The National Institute of Health Clinical Guidelines for Obesity defines three levels of obesity. Level I includes Body Mass Index (BMIs) of 30.0-34.9; Level II includes BMIs of 35.0-39.9; and Level III extreme obesity is considered over 40.0. Obesity at Level III represents a condition which creates the greatest risk for developing obesity-related impairments. Claimant's weight was 270 pounds and she was 5'3" in height. Claimant's obesity as measured by her BMI may be calculated using the Center for Disease Control and Prevention Body Mass Index calculation found at: http://cdc.gov/nccdphp/dnpa/bmi/adult_BMI/english_bmi_calculator/bmi_calculator.htm.

The formula for calculating BMI is as follows: calculate BMI by dividing weight in pounds by height in inches squared and multiplying by a conversion factor of 703. This formula as applied to Claimant's height and weight yields a BMI of 47.8 or Level III obesity. This level of obesity surely impacts Claimant's congestive heart failure and chronic obstructive pulmonary disease.

Social Security Ruling SSR-02 provides in pertinent part:

Because there is no listing for obesity, we will find that an individual with obesity “meets” the requirements of a listing if he or she has another impairment that, by itself, meets the requirements of a listing. We will also find that a listing is met if there is an impairment that, in combination with obesity, meets the requirements of a listing. For example, obesity may increase the severity of coexisting or related impairments to the extent that the combination of impairments meets the requirements of a listing. This is especially true of musculoskeletal, respiratory, and cardiovascular impairments. It may also be true for other coexisting or related impairments, including mental disorders.

Claimant testified to the following symptoms and abilities: problems breathing, swelling in hands, feet and legs, can walk half a block, can stand 20-25 minutes, no issues with sitting, some issues at times with grip and grasp, no medical restriction on lifting, only able to bend a little, not able to squat, needs help tying her shoes, limited cooking, needs help with household chores, able to shower on her own but needs someone present to watch her due to the likelihood of her falling, gets help with grocery shopping, no license to drive, takes medications as prescribed when she is able to obtain them, no side effects from the medications, she requires oxygen 24 hours a day, goes to the bathroom a lot due to water pills, gets out of breath upon any exertion and she has issues with climbing steps.

In this case, this Administrative Law Judge finds that Claimant may be considered presently disabled at the third step. Claimant appears to meet listing 3.02 A or its equivalent when considered combined with the effects of her morbid obesity. This Administrative Law Judge will not continue through the remaining steps of the assessment. Claimant’s testimony and the medical documentation support the finding that Claimant meets the requirements of a listing.

Therefore, Claimant is found to be disabled.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that Claimant is medically disabled as of August 2013.

Accordingly, the Department’s decision is hereby REVERSED and the Department is ORDERED to initiate a review of the application dated September 27, 2013, if not done previously, to determine Claimant’s non-medical eligibility. The Department shall inform

Claimant of the determination in writing. A review of this case shall be set for August 2015.
